Turbo meeting will work... I would like to send a electric invite with the call info and website.

As far as attendance I will get that to you when hear back from out DC liason.

I did hear that she might want to move it up a half hour for the Dc folks.
Will keep you posted.

We can go on as long as you are interested. I have told our team to prepare for 30 minutes for the basic presentation and some q and a. But I think it good to allocate 45 minutes as there is plenty to discuss.

We are flexible. Let me know if that is what makes sense to you all.

Can you tell me who you expect to be on?

If we want to do a turbo meeting, could that work?

Thanks.

Dave, how long do you expect this meeting to last? The Folks in DC would like to have an idea.

Aaron

The 30th works. Great. Is that central time?

Looking at a 10:30 start time but it can change.

Aaron,

Please give me a call. We wonder if you have pinned down when we can visit. We need to get it on our calendar.

Thanks.

David
