Subject: 2003 Irrigation Season

Dear Mr. Nelson:

The Kansas-Bostwick Irrigation District used a total of 49,626 acre-feet of water during the 2003 irrigation season. There was 14,020 acre-feet used above Lovewell and 35,606 acre-feet used below Lovewell.

We are enclosing the following: The 2003 "Water Use Statement", "Analysis of Use and Loss Distribution," and copies of the Courtland 0.7, Courtland 15.1, Courtland 34.8 and Courtland 38.0 canal records. We will use the data from your "Kansas-Bostwick Irrigation District Monthly Water Report Summary" for our "Monthly Water Distribution" reports. Please send the number of acres irrigated on the upper and lower Courtland Canals in 2003 along with an estimate of acres to be irrigated during the 2004 season to the McCook Office at your earliest convenience.

Subject: Updated 2003 Available Water Supply (Franklin, Superior-Courtland and Courtland Units, Bostwick Division, Kansas, Pick-Sloan Missouri River Basin Program)

Gentlemen:

The Bureau of Reclamation (Reclamation) has established the shutoff elevation for Harlan County Lake (HCL) for the 2003 irrigation season as provided for in Attachment B to the Contract No. 009D6B0120 between the United States and the Kansas-Bostwick Irrigation District No. 2 in Kansas. The shutoff elevation using the actual May 31 data is 1927.02 ft. m.s.l. and the estimated total water supply from HCL that is available for irrigation release is 57,481 acre-feet. The District's share of available water supply from HCL at the end of May is 25,578 acre-feet.

These estimates are based on the assumptions that inflow to both HCL and Lovewell Reservoir equals evaporation from the reservoirs during the irrigation season and the Districts will deliver one inch of water each six or seven days.

If you have any questions, please contact Craig Scott of this office at 308-345-4400.

Sincerely,

Marvin R. Swanda

Kansas Bostwick Irrigation District No. 2
PO Box 165
Courtland, KS 66939-0165

Subject: 2003 Available Water Supply (Franklin, Superior-Courtland and Courtland Units,
Bostwick Division, Kansas, Pick-Sloan Missouri River Basin Program)

Gentlemen:

As provided for in Attachment B to the Contract No. 009D6B0120 between the United States and the Kansas-Bostwick Irrigation District No. 2 in Kansas, the estimated reservoir shutoff elevation for Harlan County Lake (HCL) is 1931.14 ft. msl and the total available release from HCL for the 2003 irrigation season is 57,481 acre-feet. These estimates are based on the assumption that inflow to both HCL and Lovewell Reservoir equals evaporation from the reservoirs during the irrigation season. The Districts' share of storage that will be available for release at the end of May is indicated below.

<u>Lovewell Reservoir Storage</u>	<u>District Share (acre-feet)</u>
Full	28,856
Full + 2 ft.	25,998

Attached is an estimate of water availability for the 2003 irrigation season.

If you have any questions, please contact this office at (308) 345-4400.

Sincerely,

Marvin R. Swanda
Office Manager

NOTES: Inches of availability are estimates only and do not constitute a guaranteed delivery. These estimates are for the District's use in determining an estimate to supply to your water users. In water short districts the estimates would need to be adjusted if the district does not plan to deliver one inch of water each six or seven days.
