Water diversion has been restricted for the protection of other legal appropriators. In accordance with the provisions of the irrigation laws of the State of Nebraska, the owner or operator of this pump or canal is prohibited from diverting water in excess of the amounts stated above until further notified by an official of the Department of Water Resources. Any person violating this NOTICE shall be subject to the penalty provided in Section 46-254, Reissue Revised Statutes of Nebraska, 1943, which reads as follows:

" Any person owning or in control of any ditch, reservoir or other device for appropriating or using water who shall willfully open or close, change or interfere with any headgate or controlling gate, or by any method or means take any water from any natural stream, reservoir or other source, through any ditch or canal to any land or lands, or allow the same to be done, or use or allow to be used any water upon any land or lands, or for any other purpose whatsoever, without authority from the Department of Water Resources, or who shall store water in or release water from a reservoir other than in compliance with orders of the Director of Water Resources or his representative, shall be guilty of a Class II misdemeanor. Each day that the water is allowed to run without authority from the department shall constitute a separate offense."

Mike Delka, Manager
Nebraska Bostwick Irrigation District
P.O. Box 446

Dear Mr. Nelson and Mr. Delka:

A surface water appropriation with a priority date of August 26, 1940 has placed a "Call" on the Republican River and its tributaries upstream of its approved pump site. Therefore Superior and Courtland canal are closed to diverting natural flow until further notice. We understand that, pursuant to the MOA dated May 10, 2006, Kansas Bostwick would divert this natural flow when available. Because there is no natural flow available for Kansas Bostwick to divert as a result of this "Call," Kansas Bostwick must bypass this natural flow, and all natural flow available at the Guide Rock Diversion Dam shall be passed downstream.

The amount of natural flow at Guide Rock will be determined daily if needed.

Sincerely,

Brad Edgerton
Cambridge Field Office Supervisor
