1	APPEARANCES	Page 4 1 PROCEEDINGS
2	ALLEARANCES	2 (Exhibit No. 1 was marked for
3	APPEARING FOR KANSAS:	3 identification.)
4	Mr. Christopher M. Grunewald (telephone) Assistant Attorney General	4 DR. JASPER FANNING,
5	120 SW 10th Ave, 2nd Floor	5 Being first duly cautioned and solemnly sworn as
<i>c</i>	Topeka, KS 66612	6 hereinafter certified, was examined and
6 7	chris.grunewald@ksag.org APPEARING FOR NEBRASKA:	7 testified as follows:
8	Mr. Thomas R. Wilmoth (telephone)	8 DIRECT EXAMINATION
0	Attorney at Law	9 BY MR. GRUNEWALD:
9	206 South 13th Street Suite 1425	10 Q. Good afternoon, Dr. Fanning.
10	Lincoln, NE 68508	11 A. Good afternoon, Mr. Grunewald.
1 1	justin.lavene@nebraska.gov (send copy)	12 Q. And we have I think not I think, I
11	ALSO PRESENT:	13 know, just the one deposition exhibit and that
12		14 would be your deposition notice. Let me pause
13	Marc Groff, Thomas Riley	15 and make sure the reporter and you have that.
14		16 A. We do.
15		17 Q. There's nothing much to do with that. I 18 just want to make sure, have you seen that
16 17		18 just want to make sure, have you seen that 19 notice before?
18		20 A. Yes. I received it this morning.
19		21 Q. Great. Okay. And for today, will you
20 21		22 be able can you think of any reason why you
22		23 won't be able to give complete and truthful
23		24 answers today?
24 25		25 A. I cannot.
	Page 3	Page 5
1	I-N-D-E-X	1 Q. And you are planning to testify in this
2		2 proceeding as a fact witness instead of as an
3	WITNESS Direct	3 expert witness; is that right?
4	Dr. Fanning 4	4 A. That's my understanding.
5		
		5 Q. Thank you. So you haven't prepared any
67		6 expert reports for the N-CORPE Arbitration;
7	EXHIBITS Marked	<ul><li>6 expert reports for the N-CORPE Arbitration;</li><li>7 have you?</li></ul>

1	That covers most of it, I think. I can't think	1	Q. And have you had several different
2	of anything I left off.	2	assignments or categories of involvement with
3	Q. Okay. And one thing I notice there is,	3	the project? Would you break it into phases or
4	there's not a separate assignment with respect	4	it would have been the same thing the entire
5	to the N-CORPE Project. So if there am I	5	time?
6	missing one there or are you doing work for	6	A. Well, I think as far as responsibilities
7	work in relation to the N-CORPE Project as part	7	with respect to the project, the first was
8	of your duties for the Upper Republican Natural	8	that I mentioned was acquisition of the real
9	Resources District or something else?	9	estate, and then everything else really falls
10	A. My association with N-CORPE is through	10	into design and construction of the
11	my position as General Manager of the Upper	11	infrastructure.
12	Republican Natural Resources District.	12	Q. When it came to figuring out the size of
13	Q. Are you doing any of that work as part	13	the project, was there a particular size in
14	of your consultant work for the State of	14	terms of augmentation water delivery amount or
15	Nebraska?	15	some other size component that was used as a
16	A. No.	16	driving factor for the project, or was it
17	Q. Thank you. When did your involvement	17	something else?
18	with the N-CORPE Project begin?	18	A. Well, there were several several
19	A. September, late September of 2011.	19	factors that were considered in arriving at the
20	Q. And what did you start doing?	20	design criteria or capacity. First was, you
21	A. Well, we had previously studied	21	know, we looked at how many different Districts
22	augmentation and the implementation of	22	were ultimately decided to be part of the joint
23	augmentation projects. In late September, we	23	agency and want to receive benefit and what
24	became aware of an irrigated property that	24	their historical needs had been. Second, we
25	would be well-suited for augmentation, and so	25	looked at the amount of existing uses that we

1	Directors, ultimately they were the ones that		it's more just as staying informed as opposed
2	had to make the decision to finalize the	2	to actually assisting with making that
3	acquisition.	3	decision.
4	Q. (By Mr. Grunewald) Okay. And in your	4	Q. And when you say "decision," who is
5	work on this, on all phases of the project,	5	making the decision?
6	have you had somebody else or other people	6	A. Well, the only Natural Resources
7	helping you with it or has it pretty much just	7	District involved in the project that has any
8	been you?	8	responsibility associated with the Platte River
9	A. Well, there's been assistance by a	9	would be the Twin Platte Natural Resources
10	number of people both in our District and the	10	District, and so ultimately their Board of
11	other Natural Resource Districts, our legal	11	Directors will make that decision and their
12	counsel, and consulting engineering firms.	12	representative on the N-CORPE Board will be
13	Q. Can you give me a rundown of who the	13	involved in that.
14	major contributors are that you're including in	14	Q. And decisions on what to do with the
15	that category of assistance?	15	Platte side of the project need to be approved
16	A. Sure. You know, within our District,	16	by the N-CORPE Board?
17	Nate Jenkins and Dirk Dinnel, Mike Keller who's	17	A. Well, the N-CORPE Board would have to
18	our onsite employee. Then there in the Middle	18	approve whatever operation of the project for
19	Republican Natural Resources District, Dan	19	the Platte for it to be carried out, but as far
20	Smith, their former manager; Bob Merrigan,	20	as how they construct their pipeline, the
21	their assistant manager; their new manager,	21	Republican members of the agency are not
22	Mr. Jack Russell. In the Twin Platte NRD, Kent	22	involved in those details.
23	Miller has been very instrumental.	23	Q. And who is represented on the N-CORPE
24	In the Lower Republican Natural	24	Board?
25	Resources District, Mike Clements has primarily	25	A. The Upper Republican, the Middle
	Page 11		Page 13
1	Page 11 been involved as well as all of their	1	Page 13 Republican, the Lower Republican, and Twin

NCORPE K154 6 of 10

	Page 18		Page 20
1	A. No. The maximum discharge flow well,	1	going to be connected to the exact same well
2	I suppose arguably. I haven't wasn't	2	that the Republican River side is at?
3	involved in the engineering calculations to	3	A. Through the valving, it would be
4	figure at what point the pipe would burst apart	4	possible to have it connected or partially
5	or peel off the internal lining of the pipe,	5	disconnected.
6	but while it might increase the output	6	Q. Is there any intention to keep the wells
7	marginally, it wouldn't be it wouldn't be to	7	separate for the two rivers' portions of the
8	increase the total maximum outflow.	8	project?
9	Q. And so does that mean that those	9	A. I don't I don't there's no
10	additional 10 wells are not are not to	10	intention of doing that and I don't I guess
11	increase over the 60,000 acre-foot pipeline	11	I haven't thought of any reason that it would
12	discharge per year?	12	benefit us to keep them separate.
13	A. That's correct. The 10 additional wells	13	Q. You mentioned you've done a lot of work
14	might might allow more flexible scheduling	14	with the design and construction phase. Can
15	of deliveries to both the Republican and the	15	you give me the broad categories that you've
16	Platte if they were operating simultaneously	16	done for the design and construction phase?
17	but, you know, we're probably at least five or	17	A. Mostly coordination and management.
18	six years away from operating for the Platte I	18	Q. That could mean a lot of things I think.
19	would think. It seems like their requirement	19	So are there, again, sub-phases of getting this
20	is not until like 2019 or something.	20	project online that you march through? Did you
21	Q. What's the amount of water that you	21	just issue contracts and somebody else did all
22	anticipate will be delivered to the Platte from	22	of the designing and all of the building? Can
23	the project?	23	you describe with a little more detail what it
24	A. I don't know if they have a final number	24	is you did?
25	for that yet. There's still a lot of Modeling	25	A. Well, I guess I coordinated and managed,
	Page 19		Page 21
1	going on on the Platte to figure out exactly	1	along with the other Natural Resources District
2	what their requirement is on the Platte.	2	managers, the design process with the
3	Q. So if the project is operating right	3	
4		5	consulting engineers, and ultimately once we
	now sorry. Let me rephrase that. Is the	4	consulting engineers, and ultimately once we had arrived at a final design, the bidding
5	now sorry. Let me rephrase that. Is the maximum output available from the project		
5 6	· ·	4	had arrived at a final design, the bidding
	maximum output available from the project	4 5	had arrived at a final design, the bidding process and the award of contracts, the
6	maximum output available from the project intended to be 60,000 acre-feet per year?	4 5 6	had arrived at a final design, the bidding process and the award of contracts, the financing, and then the actual construction.

Anywhere from a quarter of a</li> </ul>

NCORPE K154 7 of 10

	Page 22		Page 24
1	questions on the Republican River side of the	1	A. No. Basically once we chose the size of
2	project. So if I don't specify, let's go ahead	2	pipe that's been installed in the ground, you
3	and assume it's that. But if you're not sure,	3	know, that became fixed. So we don't have any
4	please ask the question and I'll try to	4	ability to really stretch the pipe, so to
5	clarify.	5	speak.
б	When it comes to operating the project,	6	Q. What sort of data is being collected on
7	turning it on and having it discharge to	7	behalf of the N-CORPE Board for the project
8	Medicine Creek, who is it that's going to make	8	during this operation?
9	the decision to turn the pipeline on?	9	A. We'll have a SCADA System installed that
10	A. Well, ultimately the Board will approve	10	will monitor all sorts of parameters at the
11	the overall operation, and the day-to-day	11	well sites, most notably I think are the
12	management decisions of that will be made by	12	pumping rates of each well. Likewise, there
13	the NRD managers and the onsite employee of	13	will be a flow meter at the discharge locations
14	N-CORPE.	14	monitoring the delivery.
15	Q. Does that mean that if one NRD would	15	Q. And is that everything that's going to
16	like it to be on, that they ask for it to be on	16	be collected?
17	and then the Board will do something with that	17	A. Well, I think the SCADA System will
18	request? Is there a process that's been set up	18	collect amperage draw, pumping levels, and
19	for that sort of thing?	19	various other parameters related to the
20	A. Well, basically each NRD is entitled to	20	variable frequency drives on those wells,
21	use up to its share of the capacity of the	21	operating temperature and those sorts of
22	project in a given year and to utilize the	22	things.
23	additional capacity that's available if another	23	Q. And sorry if I missed it. Did you
24	District doesn't need their share of the	24	include the discharge amount coming out of the
25	capacity. So, you know, ultimately each	25	pipeline and that data that's being collected?
	Do 70, 00		Dama 25
	Page 23		Page 25
1	each District, you know, ultimately indicates	1	A. Yes, I did.
2	how much they would like to be able to pump	2	Q. And are there plans in place to turn
3	from the project, and to the extent that can be	3	over that data in any periodic way to any other
4	accommodated, the Board will operate it to that	4	entity?
5	extent.	5	A. Well, we'll of course provide it to the
6	Q. You mentioned shares assigned to the	6	Department of Natural Resources for, you know,
7	NRD. So do each of the four NRDs have a share	7	reporting under the Compact.
8	assigned to the project?	8	Q. All of the data?
9	A. Well, each of the four Districts, in	9	A. Certainly the pumping volumes by each
10	essence, has a 25 percent share of the	10	well and the you know, I believe if we had
11	essence, has a 25 percent share of the project's capacity.	10 11	well and the you know, I believe if we had an approved Augmentation Plan, we would be
11 12	essence, has a 25 percent share of the project's capacity. Q. And how were those shares allotted?	10 11 12	well and the you know, I believe if we had an approved Augmentation Plan, we would be required to provide the discharge data.
11 12 13	essence, has a 25 percent share of the project's capacity. Q. And how were those shares allotted? A. Well, each District each District	10 11 12 13	<ul><li>well and the you know, I believe if we had an approved Augmentation Plan, we would be required to provide the discharge data.</li><li>Q. And you mentioned provide to the</li></ul>

The Board makes the</li> </ul>

	Page 26		Page 28
1	Q. So it's possible at least that one of	1	answer. So are there any plans to turn it off
2	the NRDs that's got representatives on the	2	after you've turned it on in the middle of
3	Board would want it turned on, but the Board	3	March?
4	could decide not to? Is that possible?	4	A. No. I anticipate once we have started
5	A. I don't know if that's possible or not.	5	it and tested it no, we've tested a lot of
6	Q. I'm sorry. I couldn't hear your entire	6	the components already; that it'll remain
7	answer.	7	operational. You know, I could see it shutting
8	A. I said I'm not sure if that's possible	8	off for a day or two for minor repairs during
9	or not.	9	initial startup, but other than those types of
10	Q. And is there a relationship between the	10	things, the plan is to continue to operate it.
11	N-CORPE Board and the Nebraska Department of	11	Q. And so is it what's the amount of
12	Natural Resources in terms of connecting the	12	water you expect is going to discharge from the
13	pipeline operations to the Augmentation Plan	13	pipeline by the end of the calendar year?
14	that was submitted?	14	A. I don't remember the exact number. It's
15	A. What was the question?	15	on the order of 50,000 acre-feet, just a little
16	(The last question was read	16	bit less than that.
17	back.)	17	Q. And is there a request pending by one or
18	THE WITNESS: I think the	18	more NRD for that flow to be useable for the
19	relationship would be, if the Augmentation Plan	19	NRDs' purposes?
20	submitted were approved, that we would operate	20	A. Yes.
21	the project pursuant to that Plan.	21	Q. Which NRDs?
22	Q. (By Mr. Grunewald) In the construction	22	A. The Lower Republican and Middle
23	work related to the project, have you been	23	Republican Natural Resources Districts are
24	involved with any work involving culverts or	24	going to utilize N-CORPE Project water to
25	expanding culverts related to the discharge of	25	offset depletions.
	Page 27		Page 29
1	Page 27 the pipeline?	1	Q. So if I'm following, there could be
1 2		1 2	
	<ul><li>the pipeline?</li><li>A. Yes, I have.</li><li>Q. What was the purpose of putting the</li></ul>		Q. So if I'm following, there could be 50,000 acre-feet by the end of the year that discharge from the pipe, and does that mean the

It's not exactly 50/50. It was based on each each of the Districts' needs. The exact number is, as I recall, is somewhere between 47 and 48,000 acre-feet; that those two Districts will utilize the project. And the Lower Republican had a little bit more than had more than 50 percent of the need this year than the excuse me, the Middle Republican had a little bit less. The Lower Republican had a little bit more than 50/50.</li> <li>Q. Are the operation and maintenance costs assessed in relation to which NRDs are using the project?</li> <li>A. Yeah. That is that is the policy that we've all agreed to.</li> <li>Q. When are when would requests be made in a looking forward, what's the typical expectation for when requests would be made by</li> </ul>

	Page 30		Page 32
1	would anticipate those those requests or	1	A. Not that I can think of.
2	notices to be made by the end of January	2	Q. And have you reviewed the N-CORPE Plan
3	because that's when we're submitting our plans	3	that was submitted to the RRCA?
4	to the Department for compliance. And so this	4	A. Yes, I've reviewed that.
5	year, the Middle and Lower indicated prior to	5	Q. Do you agree with it?
6	January 31 before we sent in our joint plan to	6	A. I do.
7	the Department for Compact compliance in	7	Q. And there's nothing in it that you
8	compliance with our IMPs.	8	disagree with?
9	Q. So it's connected to the process in the	9	A. Not that I can think of.
10	Integrated Management Plans for alternative	10	Q. Have you reviewed the expert reports by
11	management actions; is that right?	11	Dr. Schneider and Mr. Riley in this
12	A. Yeah. Each each district has to give	12	arbitration?
13	notice to the Department of what their	13	A. I have.
14	management actions are going to be in the	14	Q. And is there anything in either of those
15	upcoming year prior to January 31. And so, you	15	reports that you disagree with?
16	know, there's we're sharing this project,	16	A. Nothing that comes to mind.
17	and inevitably, you know, if one District needs	17	Q. Were you present for Dr. Schneider's
18	to use a little bit more than its share in a	18	deposition earlier in January for this
19	given year, we have to go through a process of	19	arbitration?
20	making sure that that much water is available.	20	A. I've got to say, I don't recall if I was
21	Q. Has there been any legal challenges	21	or not.
22	inside the state of Nebraska to operation of	22	Q. I don't have my notes in front of me. I
23	the N-CORPE Project?	23	couldn't tell you either, but I wanted to know
24	A. Yeah. There was a challenge of a number	24	whether or not there's anything you disagreed
25	of things related to N-CORPE and augmentation	25	with from that deposition.
	Page 31		Page 33
1	in general by a couple of irrigation districts,	1	A. Not recalling if I was there or not, I
2	but that was dismissed.	2	would have to say there's nothing that I know
3	Q. Was that a lawsuit?	3	of.
4	A. Well, I think that's what it was, yes.	4	Q. That seems like a safe answer. I don't
5	When I read the Complaint, it was hard to tell.	5	have any further questions.
б	I'm not an attorney, remember.	6	A. All right. Thank you.
7	Q. Any other challenges besides that one	7	MR. WILMOTH: No cleanup on our
8	you just listed?	8	part.
0			1
9	A. No legal challenges that I'm aware of.	9	MR. GRUNEWALD: We should just
