**KANSAS DEPARTMENT OF AGRICULTURE**  
**Division of Water Resources**  
**M E M O R A N D U M**

**TO:** Files  
**FROM:** Richelle A. Krueger

**DATE:** October 19, 2016  
**RE:** Water Right  
File Nos. 1,062; 8,809-D1;  
12,819; 18,011; 35,530 and  
35,531

Todd Siek, General Manager, on behalf of Fowler Feeders, L.L.C., owner of the above referenced water rights, has filed an application for approval to change the place of use, point of diversion and use made of water for Water Right, File No. 8,809-D1, and place of use for Water Right, File Nos. 1,062; 12,819; 18,011; 35,530 and 35,531, all authorized groundwater in the Crooked Creek drainage basin.

The referenced file numbers do not appear abandoned pursuant to K.S.A. 82a-718.

File No. 8,809-D1 is authorized a limited quantity and diversion rate of 950 acre-feet and 1,354 gallons per minute for irrigation use on 698.10 acres in Sections 26 and 27, Township 30 South, Range 27 West, Meade County, Kansas. File No. 8,809-D1 overlaps the point of diversion of File No. 1,062 located 4,772 feet North and 2,696 feet West of the Southeast corner of the aforementioned Section 27, and overlaps the place of use of File Nos. 1,062; 12,819 and 18,011. The water right owner proposes to convert 127 acre-feet (41.38 million gallons) of water from irrigation use to stockwatering use pursuant to K.A.R. 5-5-10 *Partial changes in the use made of water from irrigation to another type of beneficial use*. After application of the K.A.R. 5-5-10 regulation a limited total of 805 acre-feet of water will remain authorized by File No. 8,809-D1 on the presently authorized well. The applications to change the place of use of File Nos. 1,062; 8,809-D1, 12,819 and 18,011 will reduce the irrigation place of use to 624.5 acres. No new acres will be irrigated. The 1,182.6 acre-feet to be authorized by File Nos. 1,062; 8,809-D1, 12,819 and 18,011 will irrigate the proposed 624.5 acres with 1.89 acre-feet which appears reasonable.

The water right owner also proposes to unstack the 127 acre-feet (41.38 million gallons) and 100 gallons per minute to be authorized for stockwatering use under File No. 8,809-D1 pursuant to K.A.R. 5-5-16 *Additional wells*, moving the authorized quantity and rate to the well previously authorized by File Nos. 1,062 and 8,809-D1. The proposed additional well, located 3,960 feet and 3,300 feet West of the Southeast corner of the aforementioned Section 27, involves a distance move of approximately 1,012 feet. 537 gallons per minute will remain authorized for irrigation use under File Nos. 1,062 and 8,809-D1.

The only wells within one-half mile of the proposed additional stockwatering well are two stockwatering wells (File No. 35,530), two irrigation wells (File No. 18,011 and File Nos. 3,067/11,815), and two domestic wells. The nearby well owners were notified of the proposed change in point of diversion. Billy Lewis, attorney, called this office on September 9, 2016 to inquire about the proposed changes on behalf of his relatives; no verbal or written objections have been received in this office as of today's date.

The proposed stockwatering place of use for File No. 8,809-D1 will be the Southeast Quarter of the Northwest Quarter (SE $\frac{1}{4}$  NW $\frac{1}{4}$ ), and the South Half (S $\frac{1}{2}$ ) of Section 27 as shown on the map. The place of use will overlap File Nos. 35,530 and 35,531, and applications to change the place of use were filed for those two stockwatering files to create an exact overlap in the place of use. The total quantity to be authorized for stockwatering use, 96.08 m.g.y., can potentially supply the 17,674 maximum number of cattle reported on the 2015 water use report with 14.8 gallons per day per head, which appears reasonable.

The present limitation on File No. 8,809-D1 to 1,076.2 acre-feet and 1,354 g.p.m. when combined with Water Right, File No. 1,062 will be reduced to 862.6 acre-feet and 537 g.p.m. to comply with K.A.R. 5-5-10 and K.A.R. 5-5-16. In addition, the present quantity limitation on File No. 18,011 will be reduced from 1,076.2 acre-feet when combined with File Nos. 1,062 and 8,809-D1 to 862.6 acre-feet for the same reason.

The local source of supply will not change, which has been previously determined to be Ogallala Formation (211)/ Dakota Formation (331).

Approval of the application for File No. 8,809-D1 will be subject to the condition that for the sole purpose of administering wells concerning direct impairment, the additional well shall be considered to have the priority of the date the application was filed (August 3, 2015) to add the additional well.

In a letter received October 17, 2016 Jason Norquest, Assistant Manager of Southwest Kansas Groundwater Management District No. 3, indicated that the Board of Directors of GMD No. 3 recommended approval of the applications. The Board also recommended approval of the application for File No. 8,809-D1 with a waiver of K.A.R 5-23-3(a)(1) since the proposed additional stockwatering well will not meet well spacing regulations to the irrigation well authorized by File No. 1,062/8809-D1, the irrigation well authorized by File No. 18,011 or to the stockwatering wells authorized by File No. 35,530. The applicant indicated to the Board that the nearby wells not meeting spacing requirements are under common ownership and the proposed additional well will only be used to supplement the needed demand on the watering system during peak usage. K.A.R. 5-5-16 (c)(1) which also pertains to well spacing will be waived since the Board has recommended a waiver of K.A.R. 5-23-3(a)(1).

In an e-mail dated October 14, 2016 Michael Meyer, Water Commissioner of the Garden City Field Office, recommended approval of the applications.

Water flow meters are required. Check valves are required if chemigating.

Based on the above discussion, that the changes are reasonable, that impairment to existing water rights is unlikely, that no change in the local source of supply will occur, and if the Chief Engineer grants waivers of K.A.R. 5-5-16 (c)(1) and K.A.R. 5-23-3(a)(1), it has been recommended that the referenced applications be approved.

RE: Water Right, File Nos. 1,062; 8,809-D1; 12,819; 18,011; 35,530 and 35,531

Dear Mr. Siek:

Enclosed are the orders executed by the Chief Engineer, Division of Water Resources, Kansas Department of Agriculture, approving the applications for change under the above referenced file numbers.

Your attention is directed to the enclosures and to the terms, conditions, and limitations specified in these approvals for change. A condition of these approvals is that acceptable water flow meters must be installed on the diversion works authorized under the referenced file numbers. Please return the required notification of completion of the diversion works and/or installation of the required meters as soon as these actions are completed.

Please note that the application to change the point of diversion for File No. 8,809-D1 is approved subject to the condition that for the sole purpose of administering wells concerning direct impairment, the additional well shall be considered to have the priority of the date the application was filed (August 3, 2015) to add the additional well. In addition, the Chief Engineer specifically retains jurisdiction in this matter with authority to review the approval of the additional well at intervals of no fewer than five years, and no more than ten years to determine if the total annual quantity of water actually being withdrawn by all wells authorized by the approval of application for change is exceeding the total annual quantity of water that could have been physically withdrawn if the additional well had not been approved, and based on the review, the Chief Engineer retains authority to make a reasonable reduction in the authorized quantity of water as may be deemed to be in the public interest.

Since the orders for the referenced file numbers modify the original documents referred to above they should be recorded with the Register of Deeds as other instruments affecting real estate.

If you have any questions, please contact this office. If you call, please reference the file number so we can help you more efficiently.

Sincerely,

  
Brent A. Turney, P.G.

**APPROVAL OF APPLICATION  
FOR  
CHANGE IN PLACE OF USE  
WATER RIGHT  
FILE NO. 35,530**

**FILE COPY**

The Chief Engineer, Division of Water Resources, Kansas Department of Agriculture, after due consideration of the written application of Todd Siek, General Manager, on behalf of Fowler Feeders, L.L.C., 5113 23<sup>rd</sup> Road, Fowler, Kansas, 67844, received in this office on December 11, 2015, for approval of a change in the location of the place of use under the certificate of appropriation issued pursuant to the application for permit to appropriate water for beneficial use, as modified and amended by the Order of the Chief Engineer dated August 27, 1996, approving the application to change the place of use, and by the Order of the Chief Engineer dated August 17, 2009, approving the application to change the point of diversion, finds that the change is reasonable and will not impair existing rights, and that the application should be and is hereby approved.

The effective date of the change shall be the date this order is executed by the Chief Engineer, after which the authorized location of the place of use shall be:

Stockwatering use in the Southeast Quarter of the Northwest Quarter (SE $\frac{1}{4}$  NW $\frac{1}{4}$ ) and the South Half (S $\frac{1}{2}$ ) of Section 27, Township 30 South, Range 27 West, Meade County, Kansas,

located substantially as shown on the map accompanying the application to change the place of use.

All diversion works into which any type of chemical or other foreign substance will be injected into the water pumped from the diversion works shall be equipped with an in-line, automatic, quick-closing check valve capable of preventing pollution of the source of the water supply. The type of valve installed shall meet specifications adopted by the Chief Engineer and shall be maintained in an operating condition satisfactory to the Chief Engineer.

The water right owner shall properly install an acceptable water meter on the diversion works authorized under this water right, prior to the use of water, in strict accordance with the Kansas Administrative Regulations 5-1-4 through 5-1-12 adopted by the Chief Engineer. The water right owner shall notify the Chief Engineer when installation of the water meter has been completed. The water right owner shall maintain the water meter in an operating condition satisfactory to the Chief Engineer, at all times during diversion of water and shall maintain records from which the total quantity of water diverted may be determined. The water right owner shall also report the reading of said water meter and the total quantity of water diverted annually to the Chief Engineer. Such records shall be furnished to the Chief Engineer by March 1 following the end of each calendar year.

In all other respects, the Certificate of Appropriation issued pursuant to Approval of Application, File No. 35,530, for permit to appropriate water for beneficial use, is as stated and set forth in the Certificate of Appropriation dated August 26, 1996, as modified and amended by the aforementioned orders.

This Order shall become a final agency action, as defined by K.S.A. 77-607(b), without further notice to the parties, if a request for hearing or a petition for administrative review is not filed as set forth below.

Request for Hearing. According to K.A.R. 5-14-3(c), any party who desires a hearing must submit a request within 15 days after the date shown on the Certificate of Service attached to this Order. Filing a request for a hearing will give you the opportunity to submit additional facts for consideration, contest any findings made by the Chief Engineer or present any other information you believe should be considered in this matter. A timely-filed request for hearing will stay the deadline for requesting administrative review of this Order pending the outcome of the hearing.

Petition for Review. Any person aggrieved by this Summary Order may petition for administrative review, pursuant to K.S.A. 82a-708b(a) and K.S.A. 82a-1901(a). The petition must be filed within 30 days after the date shown on the Certificate of Service attached to this Order and must set forth the basis for the review, unless stayed by the timely filing of a request for hearing.

Any request for hearing or petition for administrative review shall be in writing and shall be submitted to the attention of: Chief Legal Counsel, Kansas Department of Agriculture, 1320 Research Park Drive, Manhattan, Kansas 66502, Fax: (785) 564 - 6777.

Ordered this 25<sup>th</sup> day of October, 2016, in Topeka, Shawnee County, Kansas.

David W. Barfield, P.E.  
Chief Engineer  
Division of Water Resources  
Kansas Department of Agriculture

State of Kansas )  
County of Riley ) SS

The foregoing instrument was acknowledged before me this 25<sup>th</sup> day of October, 2016, by David W. Barfield, P.E., Chief Engineer, Division of Water Resources, Kansas Department of Agriculture.

application at hq to convert more irrigation water to stock use. \*under File No 8809 D1  
\_\_\_\_\_  
\_\_\_\_\_

(Please show any calculations here.)

14. It is requested that the maximum annual quantity of water be reduced to na (acre-feet or million gallons).

15. It is requested that the maximum rate of diversion of water be reduced to na gallons per minute (\_\_\_\_ c.f.s.).

16. The application must include either a topographic map or detailed plat. A U.S. Geological Survey Topographic Map, scale 1:24,000, is available through the Kansas Geological Survey, 1930 Constant Avenue, University of Kansas, Lawrence, Kansas 66047-3726 ([www.usgs.gov](http://www.usgs.gov)). The map should show the location of the presently authorized point(s) of diversion. Distances North and West of the Southeast corner of the section must be shown. The presently authorized place of use should also be shown. Identify the center of the section, the section lines and the section corners and show the appropriate section, township, and range numbers on the map. In addition the following information must also be shown on the map.

a. If a change in the location of the point(s) of diversion is proposed, show:

- 1) The location of the proposed point(s) of diversion. Distances North and West of the Southeast corner of the section must be shown. Please be certain that the information shown on the map agrees with the information shown in Paragraph Nos. 9, 10 and 11 of the application.
- 2) If the source of supply is groundwater, please show the location of existing water wells of any kind, including domestic wells, within 1/2 mile of the proposed well or wells. Identify each well as to its use and furnish name and mailing address of the property owner or owners. If there are no wells within 1/2 mile, please indicate so on the map.
- 3) If the source of supply is surface water, the names and mailing addresses of all landowner(s) 1/2 mile downstream and 1/2 mile upstream from your property lines must be shown.

b. If a change in the place of use is desired, show the proposed place of use by crosshatching on the map. Please be certain that the information shown on the map agrees with the information shown in Paragraph No. 5 of the application.

17. Attach documentation to show the change(s) proposed herein will not impair existing water rights and relates to the same local source of supply as to which the water right relates. This information may include statements, plats, geology reports, well logs, test hole logs, and other information as necessary information to show the above. Additional comments may be made below.

have added pens. application in hq to proposing change water from irrigation to stock \*under File No 8809 D1  
\_\_\_\_\_

SCANNED

Any use of water that is not as authorized by the water right or permit to authorize water **before** the chief engineer approves this application is a violation of the Kansas Water Appropriation Act for which criminal or civil penalties may be assessed. Such violation is a class C misdemeanor, punishable by a fine not to exceed \$500 and/or a term of confinement not to exceed one month in the county jail. K.S.A. 82a-728(b). Civil penalties shall be not less than \$100 nor more than \$1,000 per violation. In the case of a continuing violation, each day such violation continues may be deemed a separate violation. In addition to these penalties the water right may be modified or suspended. K.S.A. 82a-737, as amended.

**The application must be signed by all owners of the place of use authorized under the water right and his or her spouse, if married. Please indicate if there is no spouse.** If land is being purchased under contract, the seller must sign as landowner until such time as the contract is completed.

In the event that all applicants cannot appear before one notary public, they may as necessary sign separate copies of the application before any notary public conveniently available to them. All copies signed in this manner shall be considered to be valid parts of the application.

If the request is signed on behalf of any Owner by someone with legal authority to do so (for example, an agent, one who has power of attorney, or an executor, executrix, conservator), it will be necessary to attach proper documents showing such authority.

**I declare that I am an owner of the currently authorized place of use as identified herein, or that I represent all such owners and am authorized to make this application on their behalf, and declare further that the statements contained herein are true, correct, and complete. By filing this application I authorize the chief engineer to permanently reduce the quantity of water and/or rate of diversion as specified in sections 14 and 15 of this application.**

RE: Change Applications,  
Water Right, File Nos. 1,062; 8,809 D1;  
12,819; 18,011; 35,530 & 35,531

Dear Richelle:

We have completed a review of the application for the above referenced water right. The proposals to change the place of use in order to adjust the irrigation acres and the stock acres for feed yard expansion is in accordance with K.A.R. 5-5-113. The application under File No. 8,809 D1 was also asking for a partial change in use made of water and a change in point of diversion. The change in use made of water met the criteria set forth in K.A.R. 5-5-10.

Water Right, File No. 8,809 D1 also proposed to move the stock water portion back to the old well they moved from with a change application/approval in 2015. That proposed change does not meet the criteria set forth in KAR 5-23-3, more specifically the spacing to neighboring wells. A representative of the applicant, Fowler Feeder, was present as the Board discussed the waiver request at our October 12, 2016 board meeting. It was noted that the only neighboring wells that do not meet spacing are also owned and operated by the applicant. The intended use for this well is to help supplement the needed demand on the watering system during peak usage, especially in the heat of summer. The applicant also mentioned that their plan is to utilize the existing well they vacated last year and has had a casing failure which would limit their access to only the top portion of the well. The intended rate would be small to ensure the system is operating properly during peak demand. After further discussion the Board recommends a waiver to spacing due to the fact that this well will not be fully utilized and the only wells that do not meet spacing are the applicant's. It is therefore recommended a waiver to K.A.R. 5-23-3(a)(1) be granted and that the application, along with the other applications, be approved at this time.

Thank you for the opportunity to review the applications and to provide a recommendation. If you have any questions, please don't hesitate to contact us.

Sincerely,

Good morning Richelle. Hope you are having a good week. Temps have been a roller coaster out here this week. Hot and windy to pretty chilly and supposed to go back to mid 80s again by weekend. Harvest is in the final stages for most farmers it sounds like.

Attached is the review material I gathered for the applications for Fowler Feeders. We took the waiver to the board yesterday and got their recommendation. I will send a hard copy of the letter in the mail.

Have a good day!!!

## GMD3 Change Review

Change Application(s); PU, PD, UMW

File No(s). 1062, 8809D1, 12819, 18011, 35530 & 35531; Fowler Feeders

The partial conversion to STK on 8809D1 is consistent with KAR 5-5-10, 127AF will convert to STK and leave 805AF for IRR.

Red outline is current PU for STK watering and the solid red is new area proposed for expansion. This is on the applications filed for WRs 8809D1 STK, 35530 & 35531. A change in place of use was made for WRs 1062, 8809D1 IRR, 12819 & 18011. The changes will still completely overlap place of use for all WRs, but had to be adjusted for the partial change in Use Made of Water, the feedlot expansion and to better show the actual place of use.

	ft. North	ft. West	8809 D1
Authorized P/D	4772	2696	Remain IRR
Proposed P/D	3960	3300	New STK
Difference	812	-604	
a2 + b2 = c2	659344	364816	1012.0 feet apart

Neighboring wells: Waiver needed on the 8809D1 STK well that is being converted. Neighboring wells with spacing issue are the applicant's.

Domestic wells:

Regulation(s) Reviewed: KAR 5-23-3, KAR 5-5-10 & KAR 5-5-11

## GMD3 Change Review

---

Board Review Date: October 12, 2016

Board Recommendation: Recommend a waiver

Waiver Reason: Shallow well due to bottom portion of well casing failure and the only wells spacing not met to are the applicant's

Final Recommendation: The applications to change place of use meet the criteria under KAR 5-5-11 and we recommend approval.

The change under 8809D1 requires a waiver to spacing to neighboring wells. This existing wells is not going to be able to utilize the full depth of the well due to casing failure and the applicant state that it is intended to only be used during peak demand like in summer in order to keep feedlot system working properly. Staff and Board therefore recommend a waiver and approval of the application.

Fowler, KS 67844

RE: Water Right, File No. 1,062; 8,809 D1;  
12,819; 18,011; 35,530 & 35,531

Dear Fowler Feeders and Neighbors,

This is to advise you that your application for approval of the Chief Engineer, Division of Water Resources, Kansas Department of Agriculture, to change the point of diversion under the above referenced application requires a waiver of a rule, specifically, K.A.R. 5-23-3 as it pertains to spacing to neighboring wells.

The application proposes to partially convert an irrigation right to stock and add a stock watering well at a point described as being 3960 feet North and 3300 feet West of the SE corner of Section 27, Township 30s, Range 27w, in Meade County. A plat and groundwater resource review information is enclosed for your reference.

Changing a water right in a local aquifer area can affect the water supply to the project and to other water rights and users. Kansas law (K.S.A. 82a-708b (2)) requires a demonstration that any change is reasonable and will not impair existing rights. Spacing rules provide a standard for implementing this requirement. Conversely, not meeting the spacing standard creates a presumption that impairment will occur

To meet the need for added due process beyond the ½ mile courtesy notice from the state, the GMD3 Board passed Resolution 2013-6, adopted December 17, 2013. This resolution established a process of seeking more information from you and the neighboring water right owners whose wells are located within a mile of a proposed location requiring a rule waiver.

Accordingly, local resource information is included with this letter and you are requested to provide information in response to the following questions:

- 1) Can the aquifer yield a similar water supply at both the present well location and at the proposed well location(s)? In other words, how might the well yield differ in the proposed location from the present location?
- 2) Can the addition of infrastructure, such as pipelines or purchase of neighboring wells with water rights, meet the need without a rule waiver?
- 3) How do the specifics of the proposal conserve energy and/or water over other alternatives?

The GMD3 board supports the pursuit of high value water use, through reasonable changes that don't have an unreasonable affect to other water rights. We request that any response you or your neighbors wish to provide should occur within 15 days from the date of this letter or any extension of

Serving Southwest Kansas Since 1976

time granted. If no response is received from you, the applicant, and concerns of merit are received from the area water right owners, within that time, we may recommend that the rule be upheld and the application denied. We will consider information from you and the neighbors responding to their copy of this letter at our October 12, 2016 monthly meeting.

Should you have any questions, please feel free to call this office. If you would prefer, an appointment could be arranged for additional assistance. Please refer to the water right file number when you contact us.

Sincerely,

Jason L. Norquest  
Assistant Manager

RE: Water Right

File Nos. 1,062; 8,809 D1; 12,819; 18,011; 35,530; and  
35,531

Dear Sir or Madam:

This is to advise you that Todd Siek, General Manager, on behalf of Fowler Feeders, L.L.C., has filed applications for approval of the Chief Engineer, Division of Water Resources, Kansas Department of Agriculture, to change the place of use for Water Right, File Nos. 1,062; 12,819; 18,011, 35,530 and 35,531, and an application for approval to change the point of diversion, place of use and use made of water under Water Right, File No. 8,809 D1. The application for File No. 8,809 D1 proposes the following change in the point of diversion.

from: one (1) well located in the Northeast Quarter of the Northeast Quarter of the Northwest Quarter (NE $\frac{1}{4}$  NE $\frac{1}{4}$  NW $\frac{1}{4}$ ) of Section 27, more particularly described as being near a point 4,772 feet North and 2,696 feet West of the Southeast corner of said section, in Township 30 South, Range 27 West, Meade County, Kansas, in a quantity not to exceed 950 acre-feet of water per calendar year at a diversion rate not in excess of 1,354 gallons per minute ( 3.02 c.f.s.), for irrigation use, limited to 1,076.2 acre-feet per calendar year and 1,354 gallons per minute when combined with Water Right, File No. 1,062,

to: one (1) well located in the Northeast Quarter of the Northeast Quarter of the Northwest Quarter (NE $\frac{1}{4}$  NE $\frac{1}{4}$  NW $\frac{1}{4}$ ) of Section 27, more particularly described as being near a point 4,772 feet North and 2,696 feet West of the Southeast corner of said section, in Township 30 South, Range 27 West, Meade County, Kansas, in a quantity not to exceed 805 acre-feet of water per calendar year at a diversion rate not in excess of 537 gallons per minute ( 1.20 c.f.s.), for irrigation use, limited to 862.2 acre-feet per calendar year and 537 gallons per minute when combined with Water Right, File No. 1,062, and

one (1) well located near the center of the East Half of the Northwest Quarter (E $\frac{1}{2}$  NW $\frac{1}{4}$ ) of Section 27, more particularly described as being near a point 3,960 feet North and 3,300 feet West of the Southeast corner of said section, in a quantity not to exceed 127 acre-feet of water per calendar year at a diversion rate not in excess of 100 gallons per minute (0.22 c.f.s.), for stockwatering use,

both in Township 30 South, Range 27 West, Meade County, Kansas.

Records in this office indicate that you may have a well or wells in this vicinity and you are notified of receipt of these applications in order that you may be fully informed of the proposed location of the applicant's point of diversion and proposed use of water. Consideration will be given to comments or other information which you desire to submit to this office within 15 days from the date of this letter.

Effective July 1, 2016, Senate Bill No. 337 enacted by the Legislature of the State of Kansas requires the Division of Water Resources to notify all water right owners with a point of diversion within half a mile of a water right pending a request to change the water right. In order to comply with the statute, you are being notified of the above referenced applications for change. The applications are available for your review at: <http://agriculture.ks.gov/divisions-programs/dwr/water-appropriation/notices>

Re: Water Right, File Nos. 1,062; 8,809 D1; 12,819; 18,011; 35,530 and 35,531

Dear Jason:

We are enclosing copies of the application to change the point of diversion, place of use and use made of water for File No. 8,809 D1, and the applications to change the place of use for File Nos. 1,062; 8,809 D1; 12,819 and 18,011, authorized for irrigation use, and File Nos. 35,530 and 35,531, authorized for stockwatering use.

We are delaying further action for a period of 15 days from the date of this letter to allow you time to submit your recommendations concerning this application.

Please submit your recommendations within the allowed time, or any authorized extension of time thereof. If you have any questions, please contact me at (785) 564-6635. If you call, please reference the file number so we can help you more efficiently.

Sincerely,

RE: Water Right  
File Nos. 1,062; 8,809 D1; 12,819; 18,011; 35,530; and  
35,531

Dear Sir or Madam:

This is to advise you that Todd Siek, General Manager, on behalf of Fowler Feeders, L.L.C., has filed applications for approval of the Chief Engineer, Division of Water Resources, Kansas Department of Agriculture, to change the place of use for Water Right, File Nos. 1,062; 12,819; 18,011, 35,530 and 35,531, and an application for approval to change the point of diversion, place of use and use made of water under Water Right, File No. 8,809 D1. The application for File No. 8,809 D1 proposes the following change in the point of diversion.

from: one (1) well located in the Northeast Quarter of the Northeast Quarter of the Northwest Quarter (NE $\frac{1}{4}$  NE $\frac{1}{4}$  NW $\frac{1}{4}$ ) of Section 27, more particularly described as being near a point 4,772 feet North and 2,696 feet West of the Southeast corner of said section, in Township 30 South, Range 27 West, Meade County, Kansas, in a quantity not to exceed 950 acre-feet of water per calendar year at a diversion rate not in excess of 1,354 gallons per minute ( 3.02 c.f.s.), for irrigation use, limited to 1,076.2 acre-feet per calendar year and 1,354 gallons per minute when combined with Water Right, File No. 1,062,

to: one (1) well located in the Northeast Quarter of the Northeast Quarter of the Northwest Quarter (NE $\frac{1}{4}$  NE $\frac{1}{4}$  NW $\frac{1}{4}$ ) of Section 27, more particularly described as being near a point 4,772 feet North and 2,696 feet West of the Southeast corner of said section, in Township 30 South, Range 27 West, Meade County, Kansas, in a quantity not to exceed 805 acre-feet of water per calendar year at a diversion rate not in excess of 537 gallons per minute ( 1.20 c.f.s.), for irrigation use, limited to 862.2 acre-feet per calendar year and 537 gallons per minute when combined with Water Right, File No. 1,062, and

one (1) well located near the center of the East Half of the Northwest Quarter (E $\frac{1}{2}$  NW $\frac{1}{4}$ ) of Section 27, more particularly described as being near a point 3,960 feet North and 3,300 feet West of the Southeast corner of said section, in a quantity not to exceed 127 acre-feet of water per calendar year at a diversion rate not in excess of 100 gallons per minute (0.22 c.f.s.), for stockwatering use,

both in Township 30 South, Range 27 West, Meade County, Kansas.

Records in this office indicate that you may have a well or wells in this vicinity and you are notified of receipt of these applications in order that you may be fully informed of the proposed location of the applicant's point of diversion and proposed use of water. File Nos. 1,062; 8,809 D1; 12,819; 18,011; 35,530; and  
35,531

Dear Sir or Madam:

This is to advise you that Todd Siek, General Manager, on behalf of Fowler Feeders, L.L.C., has filed applications for approval of the Chief Engineer, Division of Water Resources, Kansas Department of Agriculture, to change the place of use for Water Right, File Nos. 1,062; 12,819; 18,011, 35,530 and 35,531, and an application for approval to change the point of diversion, place of use and use made of water under Water Right, File No. 8,809 D1. The application for File No. 8,809 D1 proposes the following change in the point of diversion.

from: one (1) well located in the Northeast Quarter of the Northeast Quarter of the Northwest Quarter (NE $\frac{1}{4}$  NE $\frac{1}{4}$  NW $\frac{1}{4}$ ) of Section 27, more particularly described as being near a point 4,772 feet North and 2,696 feet West of the Southeast corner of said section, in Township 30 South, Range 27 West, Meade County, Kansas, in a quantity not to exceed 950 acre-feet of water per calendar year at a diversion rate not in excess of 1,354 gallons per minute (3.02 c.f.s.), for irrigation use, limited to 1,076.2 acre-feet per calendar year and 1,354 gallons per minute when combined with Water Right, File No. 1,062,

to: one (1) well located in the Northeast Quarter of the Northeast Quarter of the Northwest Quarter (NE $\frac{1}{4}$  NE $\frac{1}{4}$  NW $\frac{1}{4}$ ) of Section 27, more particularly described as being near a point 4,772 feet North and 2,696 feet West of the Southeast corner of said section, in Township 30 South, Range 27 West, Meade County, Kansas, in a quantity not to exceed 805 acre-feet of water per calendar year at a diversion rate not in excess of 537 gallons per minute (1.20 c.f.s.), for irrigation use, limited to 862.2 acre-feet per calendar year and 537 gallons per minute when combined with Water Right, File No. 1,062, and

one (1) well located near the center of the East Half of the Northwest Quarter (E $\frac{1}{2}$  NW $\frac{1}{4}$ ) of Section 27, more particularly described as being near a point 3,960 feet North and 3,300 feet West of the Southeast corner of said section, in a quantity not to exceed 127 acre-feet of water per calendar year at a diversion rate not in excess of 100 gallons per minute (0.22 c.f.s.), for stockwatering use,

both in Township 30 South, Range 27 West, Meade County, Kansas.

Records in this office indicate that you may have a well or wells in this vicinity and you are notified of receipt of these applications in order that you may be fully informed of the proposed location of the applicant's point of diversion and proposed use of water. Consideration will be given to comments or other information which you desire to submit to this office within 15 days from the date of this letter.

Effective July 1, 2016, Senate Bill No. 337 enacted by the Legislature of the State of Kansas requires the Division of Water Resources to notify all water right owners with a point of diversion within half a mile of a water right pending a request to change the water right. In order to comply with the statute, you are being notified of the above referenced applications for change. The applications are available for your review at: <http://agriculture.ks.gov/divisions-programs/dwr/water-appropriation/notices>

The application for File No. 8,809 D1 proposes the following change in the point of diversion.

from: one (1) well located in the Northeast Quarter of the Northeast Quarter of the Northwest Quarter (NE $\frac{1}{4}$  NE $\frac{1}{4}$  NW $\frac{1}{4}$ ) of Section 27, more particularly described as being near a point 4,772 feet North and 2,696 feet West of the Southeast corner of said section, in Township 30 South, Range 27 West, Meade County, Kansas, in a quantity not to exceed 950 acre-feet of water per calendar year at a diversion rate not in excess of 1,354 gallons per minute (3.02 c.f.s.), for irrigation use, limited to 1,076.2 acre-feet per calendar year and 1,354 gallons per minute when combined with Water Right, File No. 1,062,

to: one (1) well located in the Northeast Quarter of the Northeast Quarter of the Northwest Quarter (NE $\frac{1}{4}$  NE $\frac{1}{4}$  NW $\frac{1}{4}$ ) of Section 27, more particularly described as being near a point 4,772 feet North and 2,696 feet West of the Southeast corner of said section, in Township 30 South, Range 27 West, Meade County, Kansas, in a quantity not to exceed 805 acre-feet of water per calendar year at a diversion rate not in excess of 537 gallons per minute (1.20 c.f.s.), for irrigation use, limited to 862.2 acre-feet per calendar year and 537 gallons per minute when combined with Water Right, File No. 1,062, and

one (1) well located near the center of the East Half of the Northwest Quarter (E $\frac{1}{2}$  NW $\frac{1}{4}$ ) of Section 27, more particularly described as being near a point 3,960 feet North and 3,300 feet West of the Southeast corner of said section, in a quantity not to exceed 127 acre-feet of water per calendar year at a diversion rate not in excess of 100 gallons per minute (0.22 c.f.s.), for stockwatering use,

both in Township 30 South, Range 27 West, Meade County, Kansas.

Records in this office indicate that you may have a well or wells in this vicinity and you are notified of receipt of these applications in order that you may be fully informed of the proposed location of the applicant's point of diversion and proposed use of water. Consideration will be given to comments or other information which you desire to submit to this office within 15 days from the date of this letter.

Effective July 1, 2016, Senate Bill No. 337 enacted by the Legislature of the State of Kansas requires the Division of Water Resources to notify all water right owners with a point of diversion within half a mile of a water right pending a request to change the water right. In order to comply with the statute, you are being notified of the above referenced applications for change. The applications are available for your review at: <http://agriculture.ks.gov/divisions-programs/dwr/water-appropriation/notices>

**Subject:** RE: Maximum acres irrigated during the perfection period

Howdy,

1062, 8809D1, 18011 = 538.1 acres (based off the reduction request on these file from June 2014.)

12819 = 160 acres

A total of 698.1 perf acres for all in combo.

RE: File No. 35530

Dear Sir or Madam:

An application for approval of the Chief Engineer to change the following condition or conditions of the file number referred to above has been received:

- place of use                      PU
- point of diversion
- use made of water

As a matter of record, the Division of Water Resources has on hand a large number of applications awaiting processing. Therefore to be fair to all concerned, and so that we can process those applications on hand in the order they were received, we intend to concentrate on the backlog of applications until the issue is resolved. You will be contacted regarding this application as soon as it has been examined.

In accordance with the provisions of the Kansas Water Appropriation Act, a portion of which is included below, the use of water prior to approval of the application is unlawful. You should not proceed and divert water as indicated by your plans in your application for a change for this file until you receive approval for this change from the Chief Engineer. Once approved, compliance with the terms, conditions and limitations of the permit is necessary. Conservation of the water resources of Kansas is required.

**Section 82a-728 of the Kansas Water Appropriation Act, provides (a) except for the appropriation of water for the purpose of domestic use, . . . it shall be unlawful for any person to appropriate or threaten to appropriate water from any source without first applying for and obtaining a permit to appropriate water in accordance with the provisions of the Water Appropriation Act or for any person to violate any condition of a vested right, appropriation right or an approved application for a permit to appropriate water for beneficial use.**

**(b) (1) The violation of any provision of this section by any person is a class C misdemeanor...**

**A class C misdemeanor is punishable by a fine not to exceed \$500 and/or a term of confinement not to exceed one month in the county jail. Each day that the violation occurs constitutes a separate offense.**

If you have any questions, please contact me at (785) 564-6645. If you wish to discuss a specific file, please have the file number ready so that we may help you more efficiently.

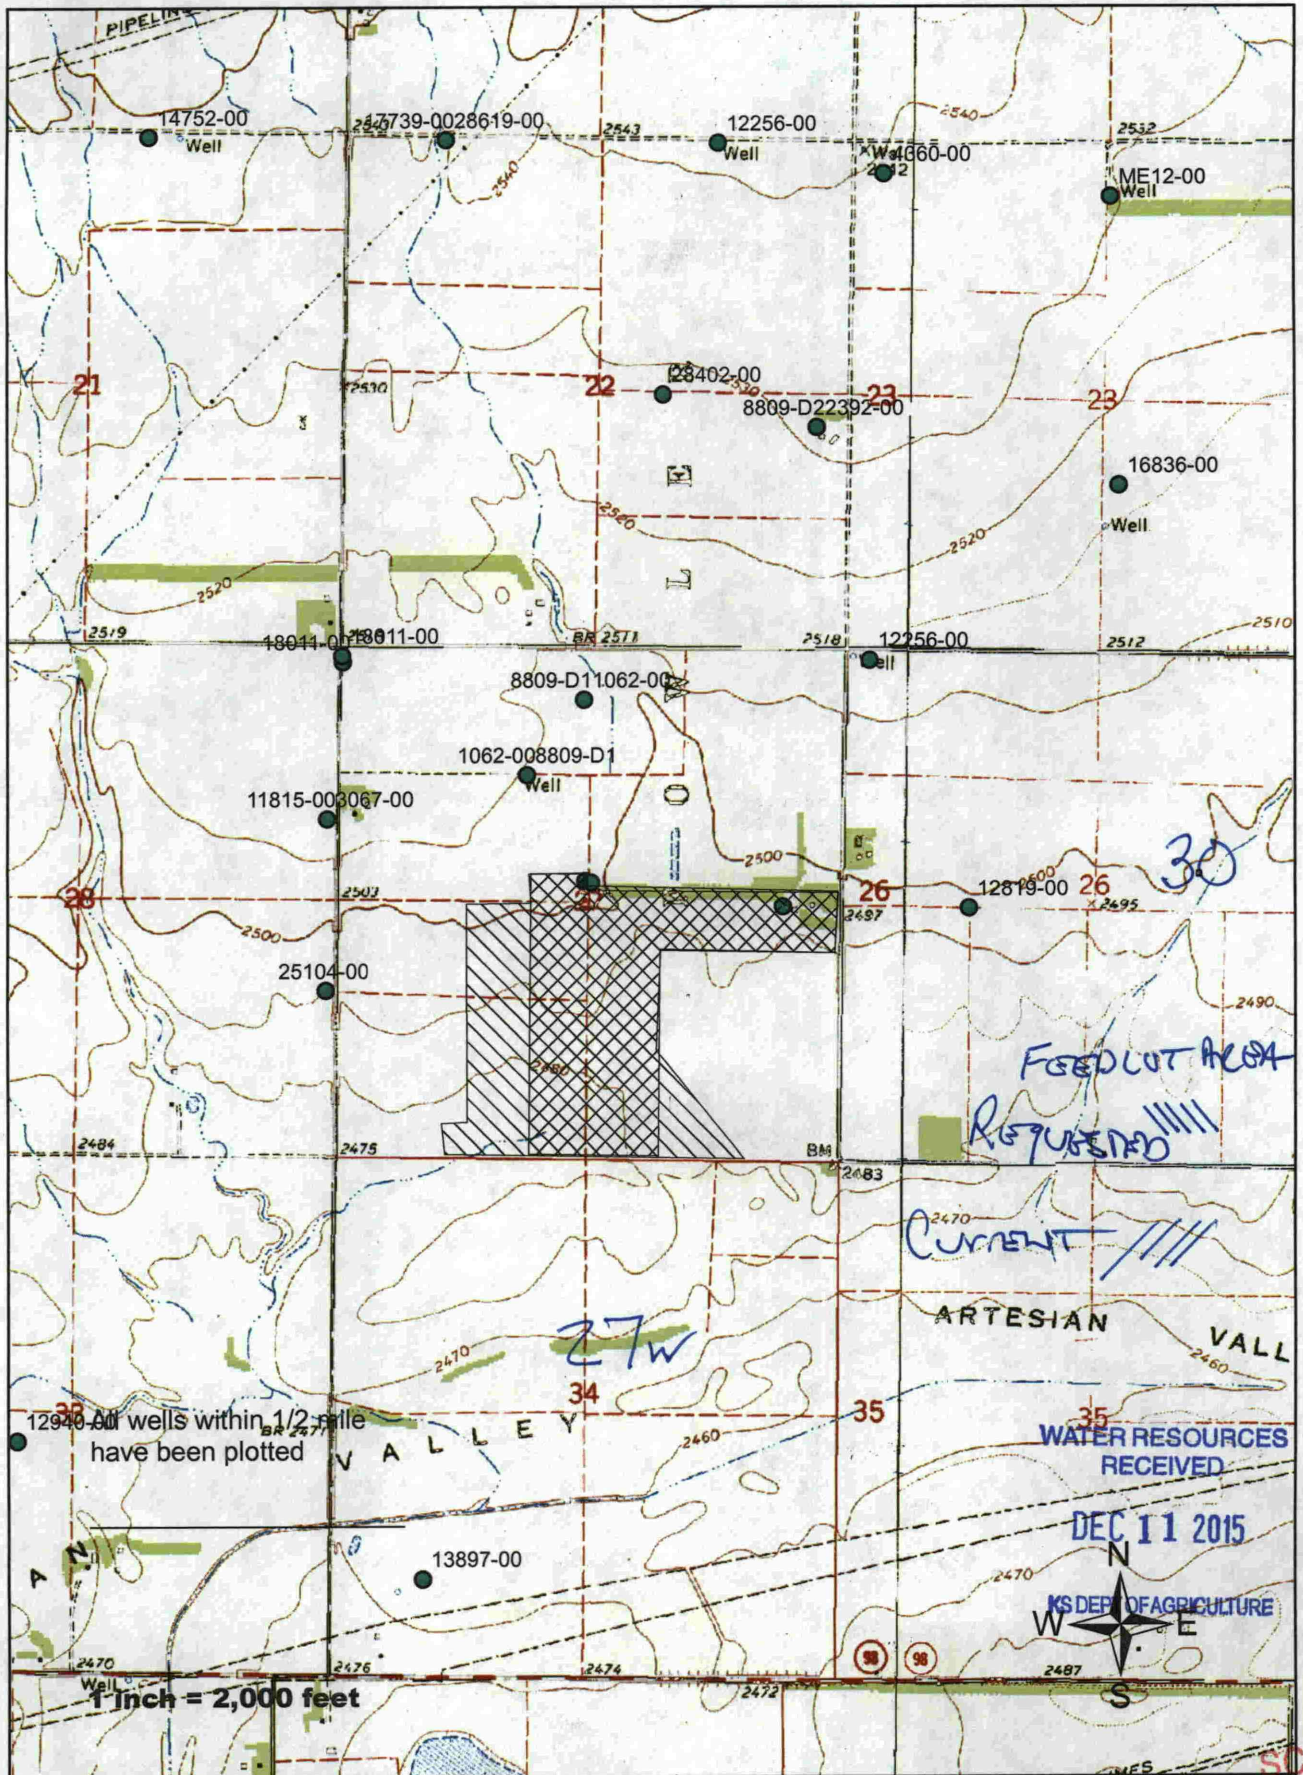

Sincerely,

Brent A Turney, L.G.

To Whom it may concern:

The reason we have submitted this application for approval to change the point of diversion is because the casing on the original well started to cave in, so we put in a new well. Now, we would like to go back to the original well and put in a smaller casing which would allow us to use it in an emergency situation to pump water to our cattle.

In 2015 we used 20 acres of our farm ground to expanded our feed yard. Upon expansion we added two 25,000 Gallon water tanks and our intention is to plumb this well into that system. Our plans are to set this up to pump 50 gallons per minute average over a years' time, to be used in an emergency situation and summer time The original wells at the yard pump 200-220 gpm and this amount keeps us tight in the summer time, the addition of this well would allow us a little more capacity. Essentially we are taking water away from ourselves and would be willing to give up water rights on the land to convert it to stock water.

In conclusion we have been waiting on approval on this for the last year and a half, at this point the casing might have shifted so far that we don't know if we can put the other one in. I will be at the hearing to answer any further questions you may have.

Sincerely,

Todd Siek, MGR
