16757, 30544

Dear Mr. Blood;

Enclosed you will find a *Summary Order Approving Application for Change in Place of Use* for the above referenced files. Since these orders modify the original documents, it should be recorded at the County Register of Deeds.

These orders modify the authorized acres that can be irrigated by these files. The authorized place of use is as shown on the plats within the change approvals.

An acceptable water flow meter was required to be installed on the diversion works by earlier requirement of the Chief Engineer. These water flow meters shall be used to provide information required on the annual water use report.

This order shall become final if a request for a hearing is not filed with the Chief Engineer within 15 days of the date of service of this order. The date of service is the date listed on the enclosed *Certificate of Service*.

Should you have any questions, please feel free to call this office or arrange an appointment for additional assistance. Please refer to the file number when you contact us if you wish to discuss a specific file.

Sincerely,

Thomas P. Makens

RE: Application for Change In Place Of Use  
Water Right Files: 13851, 16757 & 30554

Dear Mike,

We have completed a review of the applications for the above referenced water rights. The proposals are not in conflict with the Management Program of the Southwest Kansas Groundwater Management District. The changes in place of use are to create a complete overlap of irrigated acres in accordance with K.A.R. 5-5-11(b)(1). It is therefore recommended that the applications be approved at this time.

Thank you for the opportunity to review the applications and to provide a recommendation. If you have any questions please don't hesitate to contact us.

Sincerely,

  
Jason L. Norquest  
Asst. Manager
