WAIVER OF REGULATION

Date: 2/17/17

Re: File No. 14,483

1. That K.A.R. 5-21-3, *Well spacing requirements*, states in part (a), that each well location that withdraws water from the Ogallala shall be spaced a minimum of 2,640 feet from other non-domestic wells.
2. That the change proposes to add an existing well to operate as a standby well which is located approximately 1,152 feet from the primary well, and 1,762 feet from the well authorized by File Nos. SC 014, 3885, 3888 & 28,165.
3. The change will not physically move any wells, and will operate for the requested use only when the primary well is not in use.
4. The proposed standby well is authorized by File No. 49,026 is also authorized for industrial use is not being utilized as much as was initially planned.
5. That no comments objecting to the proposed change were received from nearby well owners.
6. That K.A.R. 5-21-3(f) states that exceptions to this regulation may be recommended by the Board to the Chief Engineer.
7. That the Board of Western Kansas Groundwater Management District No. 1 recommended that the application be approved with a waiver as allowed by K.A.R. 5-21-3(f).
8. Approval of the referenced change application will not impair existing water rights nor shall the change adversely affect the public interest.

DATE: February 3, 2017

FROM: Leslie Ireland

RE: Water Right, File No. 14,483

Rohn A. Shellenberger, Board Secretary, for Scott County Golf Association, has signed an application for approval to change the point of diversion under File No. 14,483, to add a standby well to their irrigation use. The application was received in the office of the Chief Engineer on July 8, 2016. The applicant appears to have been assisted by Kyle Spencer at Groundwater Management District No. 1 (GMD1).

The referenced water right is in compliance and good standing per K.S.A. 82a-718 and 82a-732. The application was delayed due to notification of the nearby well owners and a needed waiver of spacing.

No new wells are proposed to be drilled. The existing industrial use well authorized by File No. 49,026, is the proposed standby well for the irrigation use under the referenced file. The **primary irrigation** well is located in the Southwest Quarter of the Northeast Quarter of the Northwest (SW $\frac{1}{4}$ NE $\frac{1}{4}$ NW $\frac{1}{4}$) of Section 18, approximately 4,286 feet North and 3,640 feet West of the Southeast corner of said section, in Township 18 South, Range 32W, Scott County. The source of supply has been determined to be the Ogallala Formation, (Code 211). It would appear from the 1990 well log that this well is 220 feet deep but no indication of the static water level was reported at that time. The WRIS database listed a late 1980s depth to water of 114 feet. This water right has no overlap in the point of diversion or place of use and is not in a special use area. It is authorized 84 acre-feet at 420 gallons per minute.

The proposed existing **standby well** is located approximately 1,152 feet to the East in the Northeast Quarter of the Northeast Quarter of the Northwest Quarter (NE $\frac{1}{4}$ NE $\frac{1}{4}$ NW $\frac{1}{4}$), approximately 4,899 feet North and 2,674 feet West of the Southeast corner of Section 18. The source of supply has been determined to be the Ogallala Formation. The June 2015 well log indicated a depth of 237 feet and a static water level of 144 feet. This industrial use well has no overlaps. The operation of the standby well and File No. 49,026, could result in 99 acre-feet to be diverted in a year from the proposed well.

The proposed standby well will be required to meet K.A.R. 5-1-2 (c) *Standby wells*. The approval for the proposed standby well will contain the wording that it shall not be operated at the same time as the primary irrigation well except for maintenance, testing, fire protection or as operation for the primary use of irrigation or when being operated under File No. 49,026. The proposed standby well appears to be in the same local source of supply as the wells are relatively close and have similar depths.

Well spacing is not required to be met by K.A.R. 5-1-2, but is required by K.A.R. 5-21-3, *Well spacing requirements*. The proposed standby well meets the requirement of being no more than 1,320 feet from the originally authorized well. It does not meet the requirement that it shall not decrease the distance to other wells by more than 300 feet as the standby well is located halfway between the primary well and the well authorized by File Nos. SC 014, 3885, 3888 & 28,165, owned by Filson Family Farms Inc., and located in the Southwest Quarter of the Southeast Quarter of the Southeast Quarter (SW $\frac{1}{4}$ SE $\frac{1}{4}$ SE $\frac{1}{4}$) of Section 7, Township 18, Range 32 West, Scott County. The well spacing regulation of GMD 1 also requires the proposed Ogallala aquifer well to be spaced a minimum of 2,640 feet from other nondomestic wells. The proposed standby well is approximately 1,152 feet from the primary well and 1,762 feet from the Filson irrigation well. This regulation does allow the GMD to provide exceptions to the spacing requirement.

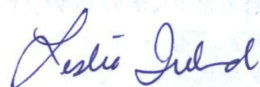

The applicant and information from the application for File No. 49,026 and that in the WRIS database indicate that there are four(4) irrigation wells, and three (3) domestic wells located within one-half (½) mile of the proposed existing standby well. The applicant obtained domestic well consent forms from three domestic well owners. DWR letters requesting comments on the proposed change were sent to all of the listed well owners. One(1) call was received to inquire as to the exact location of the standby well, but no written comments were received to our notification letter.

Kyle Spencer, Manager of Western Kansas Groundwater Management District No.1 indicated the Board supported a waiver of the well to well spacing and recommended approval of the proposed application per his letter dated January 18, 2016 (sic 2017), which was received in our office on January 20, 2017.

Michael Meyer, Water Commissioner of the Garden City Field Office, indicated in an February 3, 2017, e-mail indicated that he has no objection to the approval of the proposed change to add a standby well for irrigation use. He did request that the owners be informed that the proposed existing well have two meters, one for the standby irrigation use and one for the primary industrial use under File No. 49,026. He also requested that the transmittal letter inform the county that a standby well does not perfect any additional water it is only authorized the quantity and rate of the primary well.

Water flowmeters are required on the "primary wells" and "standby well", as per the requirements of K.A.R. 5-1-2 (b) Standby wells. The proposed existing standby well will be required to add an additional meter for the irrigation use and maintain the irrigation use meter. The transmittal letter will require that the owners submit notice of completion of installation of the required meter for the standby well for irrigation use. Check valves will be required, if any chemical or foreign substance will be injected into the water through the diversion works. A water level measurement tube and WWC-5 will not be required for the approval. This change will not require a well to become inactive or plugged.

Based on the above discussion, that the change is reasonable, that impairment to existing water rights is unlikely, that there are no pending applications within the vicinity of this proposed change request that may be affected by this approval and that no change in the local source of supply will occur, it is recommended that the referenced application be approved.

FILE COPY

RE: Water Right, File No. 14,483

Dear Mr. Shellenberger:

Enclosed is the order executed by the Chief Engineer, Division of Water Resources, Kansas Department of Agriculture, approving the application for change under the referenced file.

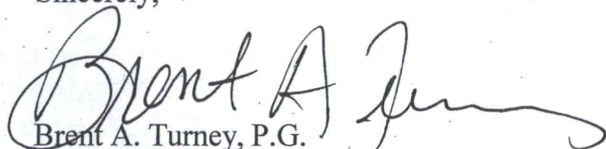

Your attention is directed to the enclosures and to the terms, conditions, and limitations specified in the approval for change. A condition of the approval is that an acceptable water flowmeter must be installed on the diversion works authorized under the referenced file. Please return the required and the enclosed form, Notification of the Completion of the Diversion Works upon completion.

The irrigation use at the authorized primary well and at the standby well under the referenced file must each be metered and have records maintained from which the quantity of water actually diverted may be readily determined. The meter at the standby well must be a separate meter from that which is installed for the industrial use authorized under the Appropriation of Water, File No. 49,026, and water diverted is by use and developed as such under the newer appropriation. Additionally, please be advised that the quantity diverted for irrigation use under the referenced file is 84 acre-feet and should not be exceeded.

Since this order modifies the original document referred to above, it should be recorded with the Register of Deeds as other instruments affecting real estate.

If you have any questions, please contact Leslie Ireland, Environmental Scientist, at (785) 564-6633. If you wish to discuss a specific file, please have the file number ready so that we may help you more efficiently.

Sincerely,

Brent A. Turney, P.G.

**APPROVAL OF APPLICATION
FOR
CHANGE IN POINT OF DIVERSION
WATER RIGHT
FILE NO. 14,483**

The Chief Engineer, Division of Water Resources, Kansas Department of Agriculture, after due consideration of the written application of Rohn A. Shellenberger on behalf of Scott County Golf Association, PO BOX 541, Scott City, Kansas 67871, received in this office on July 8, 2016, for approval of a change in the location of the point of diversion under the certificate of appropriation issued pursuant to the application for permit to appropriate water for beneficial use, as modified and amended by the Order of the Chief Engineer dated February 2, 1990, approving the application to change the authorized point of diversion, finds that the change is reasonable and will not impair existing rights, that the change relates to the same local source of supply and that the application should be and is hereby approved.

The effective date of the change shall be the date this order is executed by the Chief Engineer, after which the authorized location of the points of diversion shall be:

one (1) **primary well** located in the Southwest Quarter of the Northeast Quarter of the Northwest Quarter (SW $\frac{1}{4}$ NE $\frac{1}{4}$ NW $\frac{1}{4}$) of Section 18, more particularly described as being near a point 4,286 feet North and 3,640 feet West of the Southeast corner of said section, and

one (1) **standby well** located in the Northeast Quarter of the Northeast Quarter of the Northwest Quarter (NE $\frac{1}{4}$ NE $\frac{1}{4}$ NW $\frac{1}{4}$) of Section 18, more particularly described as being near a point 4,899 feet North and 2,674 feet West of the Southeast corner of said section,

both in Township 18 South, Range 32 West, Scott County, Kansas,

located substantially as shown on the topographic map accompanying the application to change the point of diversion.

The well described herein as the standby well shall be used exclusively at such time well described herein as the primary well is inoperable due to mechanical, maintenance or power failure. That the primary and standby well shall not be operated at the same time, unless one of the wells is being operated for maintenance, testing, fire protection, or a similar reason. Use of the standby well under these limiting conditions does not allow the authorized quantity of water or rate of diversion under this file to be exceeded.

Installation of the works for diversion of water shall be completed on or before December 31, 2017 or within any authorized extension of time. The applicant shall notify the Chief Engineer of the Division of Water Resources, Kansas Department of Agriculture, when construction of the works for diversion has been completed.

The water right owner shall properly install an acceptable water meter on the primary and standby well for the irrigation use authorized under this water right, prior to the use of water, in strict accordance with the Kansas Administrative Regulations 5-1-4 through 5-1-12 adopted by the Chief Engineer. The water right owner shall notify the Chief Engineer when installation of the water meter has been completed. The water right owner shall maintain the water meter in an operating condition satisfactory to the Chief Engineer, at all times during diversion of water and shall maintain records from which the total quantity of water diverted may be determined. The water right owner shall also report the reading of said water meter and the total quantity of water diverted annually to the Chief Engineer. Such records shall be furnished to the Chief Engineer by March 1 following the end of each calendar year.

In all other respects, the Certificate of Appropriation issued pursuant to Approval of Application, File No. 14,483, for permit to appropriate water for beneficial use, is as stated and set forth in the Certificate of Appropriation dated August 14, 1989, as modified and amended by the aforementioned order.

This Order shall become a final agency action, as defined by K.S.A. 77-607(b), without further notice to the parties, if a request for hearing or a petition for administrative review is not filed as set forth below.

Request for Hearing. According to K.A.R. 5-14-3(c), any party who desires a hearing must submit a request within 15 days after the date shown on the Certificate of Service attached to this Order. Filing a request for a hearing will give you the opportunity to submit additional facts for consideration, contest any findings made by the Chief Engineer or present any other information you believe should be considered in this matter. A timely-filed request for hearing will stay the deadline for requesting administrative review of this Order pending the outcome of the hearing.

Petition for Review. Any person aggrieved by this Summary Order may petition for administrative review, pursuant to K.S.A. 82a-708b(a) and K.S.A. 82a-1901(a). The petition must be filed within 30 days after the date shown on the Certificate of Service attached to this Order and must set forth the basis for the review, unless stayed by the timely filing of a request for hearing.

Any request for hearing or petition for administrative review shall be in writing and shall be submitted to the attention of: Chief Legal Counsel, Kansas Department of Agriculture, 1320 Research Park Drive, Manhattan, Kansas 66502, Fax: (785) 564 - 6777.

Ordered this 17th day of February, 2017, at Topeka, Shawnee County, Kansas.

12. The presently authorized use of water is for Irrigation purposes.
It is proposed that the use be changed to _____ purposes.

13. If changing the place of use and/or use made of water, describe how the consumptive use will not be increased.

NA
* NO INCREASE IN THE AUTHORIZED PLACE OF USE AND THE STANDBY WELL AND
PRIMARY WELL WILL NOT OPERATE AT THE SAMETIME UNLESS THE WELL
IS BEING OPERATED UNDER FILE NO. 49,026, OR THE WELL IS BEING OPERATED
FOR MAINTENANCE, TESTING, FIRE PROTECTION OR SIMILAR REASON. *
(Please show any calculations here.)

14. It is requested that the maximum annual quantity of water be reduced to NA (acre-feet or million gallons).

15. It is requested that the maximum rate of diversion of water be reduced to NA gallons per minute (____ c.f.s.).

16. The application must include either a topographic map or detailed plat. A U.S. Geological Survey Topographic Map, scale 1:24,000, is available through the Kansas Geological Survey, 1930 Constant Avenue, University of Kansas, Lawrence, Kansas 66047-3726 (www.usgs.gov). The map should show the location of the presently authorized point(s) of diversion. Distances North and West of the Southeast corner of the section must be shown. The presently authorized place of use should also be shown. Identify the center of the section, the section lines and the section corners and show the appropriate section, township, and range numbers on the map. In addition the following information must also be shown on the map.

a. If a change in the location of the point(s) of diversion is proposed, show:

- 1) The location of the proposed point(s) of diversion. Distances North and West of the Southeast corner of the section must be shown. Please be certain that the information shown on the map agrees with the information shown in Paragraph Nos. 9, 10 and 11 of the application.
- 2) If the source of supply is groundwater, please show the location of existing water wells of any kind, including domestic wells, within 1/2 mile of the proposed well or wells. Identify each well as to its use and furnish name and mailing address of the property owner or owners. If there are no wells within 1/2 mile, please indicate so on the map.
- 3) If the source of supply is surface water, the names and mailing addresses of all landowner(s) 1/2 mile downstream and 1/2 mile upstream from your property lines must be shown.

b. If a change in the place of use is desired, show the proposed place of use by crosshatching on the map. Please be certain that the information shown on the map agrees with the information shown in Paragraph No. 5 of the application.

17. Attach documentation to show the change(s) proposed herein will not impair existing water rights and relates to the same local source of supply as to which the water right relates. This information may include statements, plats, geology reports, well logs, test hole logs, and other information as necessary information to show the above. Additional comments may be made below.

* WELL LOGS INDICATE THE SAME SOURCE OF SUPPLY, OGALLALA FORMATION BOTH
WELLS APPROXIMATELY 220 TO 237 FEET DEEP. *

18. If the proposed change(s) does not meet all applicable rules and regulations of the Kansas Water Appropriation Act, please identify the rules and regulations for which you request a waiver. State the reason why a waiver is needed and why the request should be granted. Attach documentation showing that granting the request will not impair existing water rights and will not prejudicially and unreasonably affect the public interest.

* DOES NOT APPEAR TO MEET KAR-5-21-3 WELL SPACING REQUIREMENTS FOR
PROPOSED WELL TO NEARBY WELLS UNDER FILE NOS. 3885, 3888, 22827
28165, SC 014 & SC 018- BUT PROPOSED EXISTING WELL WILL

IF MORE SPACE IS NEEDED, ATTACH ADDITIONAL SHEETS AS NECESSARY

BE USED ONLY FOR STANDBY PURPOSES. *

Any use of water that is not as authorized by the water right or permit to authorize water **before** the chief engineer approves this application is a violation of the Kansas Water Appropriation Act for which criminal or civil penalties may be assessed. Such violation is a class C misdemeanor, punishable by a fine not to exceed \$500 and/or a term of confinement not to exceed one month in the county jail. K.S.A. 82a-728(b). Civil penalties shall be not less than \$100 nor more than \$1,000 per violation. In the case of a continuing violation, each day such violation continues may be deemed a separate violation. In addition to these penalties the water right may be modified or suspended. K.S.A. 82a-737, as amended.

The application must be signed by all owners of the place of use authorized under the water right and his or her spouse, if married. Please indicate if there is no spouse. If land is being purchased under contract, the seller must sign as landowner until such time as the contract is completed.

In the event that all applicants cannot appear before one notary public, they may as necessary sign separate copies of the application before any notary public conveniently available to them. All copies signed in this manner shall be considered to be valid parts of the application.

If the request is signed on behalf of any Owner by someone with legal authority to do so (for example, an agent, one who has power of attorney, or an executor, executrix, conservator), it will be necessary to attach proper documents showing such authority.

I declare that I am an owner of the currently authorized place of use as identified herein, or that I represent all such owners and am authorized to make this application on their behalf, and declare further that the statements contained herein are true, correct, and complete. By filing this application I authorize the chief engineer to permanently reduce the quantity of water and/or rate of diversion as specified in sections 14 and 15 of this application.

Dated at Scott City, Kansas, this 28th day of JUNE, 2016.

Re: Domestic Well Spacing
Consent Form

38 ALVE TRACT IN NE 1/4-13-185-33W

I, Richard D. Buehler, own a well in the _____
Quarter of the _____ Quarter of the _____ Quarter of Section 13,
Township 18 South, Range 33 West/East, Scott County, Kansas.

Water from this well is used only for domestic purposes as follows:

- household use;
- watering of livestock, poultry, farm and domestic animals used in operating a farm; and/or
- irrigation of lands not exceeding a total of two (2) acres in area for the growing of gardens, orchards and lawns.

I understand that an application for a permit to appropriate water, Application, File No. 14483, has been filed with the Division of Water Resources and that the applicant seeks to use water from 49026 located closer to my domestic well than allowed by the rules and regulations of the Chief Engineer, in particular K.A.R. 5-21-3. I hereby give my permission to the applicant to install Standby Well at a location approximately 1980 feet from my domestic well if the same is allowed and permitted by the Chief Engineer.

By giving my permission, I do not waive any right I may have to file a complaint with the Chief Engineer or to make a written request to secure water, pursuant to K.A.R. 5-4-1, if the use of my well becomes impaired such that I am unable to exercise my domestic water right, nor do I waive any other rights I may have under the Kansas Water Appropriation Act or the rules and regulations of the Chief Engineer.

To: Meyer, Mike
Subject: RE: Recommendation for Change in PD File No. 14483 SC CO Golf

I'll modify the meter wording in the approval to address the per type of use and in the transmittal. Also I'll address the perfection issue in the transmittal too.

Thank you for the review and recommendation.

Leslie

Subject: RE: Recommendation for Change in PD File No. 14483 SC CO Golf

You took the words out of my mouth on metering. We need two meters, and need to ensure this is no double county or deduct metering with future plumbing of the new meter for irrigation use. You may want to stress in the transmittal that they cannot perfect water that goes to irrigation under the standby well.

I recommend approval

Mike

From: Ireland, Leslie
Sent: Friday, February 3, 2017 10:00 AM
To: Meyer, Mike <Mike.Meyer@ks.gov>
Subject: Recommendation for Change in PD File No. 14483 SC CO Golf

Mike,

Please let me know if you would recommend approval of this change to add an existing well as a standby well. So the proposed is an existing industrial use well the approval will require a separate meter for the added irrigation use.

Attached is the waiver.

As always comments and concerns are welcome.

Re: Application for Change, Water Right File No. 14,483

Dear Ms. Ireland:

At the January 17th, 2016 Western Ks
Groundwater Management District No. 1 board meeting,
the Board of Directors voted unanimously to waive
K.A.R. 5-21-3 and recommends approving the
application. In addition, they also recommend requiring
installation of a separate meter for the irrigation use of
the standby well by the Scott County Golf Course.

If you have questions or need further information,
please contact this office.

Sincerely,

Kyle Spencer
District Manager

Re: Application for Change, Water Right, File No. 14,483

Dear Mr. Spencer:

We are enclosing a copy of the application referred to above which appears to be in proper form.

We are delaying any further action for a period of 15 days from the date of this letter to allow you time to submit your recommendations concerning this application.

Please submit your recommendation within the allotted time, or any authorized extension of time thereof. If you wish to refer to a specific file, please reference it when you contact us.

Sincerely,

Leslie Ireland

RE: Water Right, File No. 14,483

Dear Sir or Madam;

This is to advise you that the Scott County Golf Association has filed an application for approval of the Chief Engineer, Division of Water Resources, Kansas Department of Agriculture, to change the point of diversion under the above referenced file.

The application proposes the following change in the location of the points of diversion that will authorize an existing well as a standby well to be operated only when the primary well is inoperable. The primary well is authorized to divert 84 acre-feet at 420 gallons per minute for irrigation use.

from: one (1) well located in the Southwest Quarter of the Northeast Quarter of the Northwest Quarter (SW $\frac{1}{4}$ NE $\frac{1}{4}$ NW $\frac{1}{4}$) of Section 18, more particularly described as being near a point 4,286 feet North and 3,640 feet West of the

RE: Water Right, File No. 14,483

Dear Sir or Madam;

This is to advise you that Rohn A. Shellenberger, Board Secretary, for the Scott County Golf Association has filed an application for approval of the Chief Engineer, Division of Water Resources, Kansas Department of Agriculture, to change the point of diversion under the above referenced file.

The application proposes the following change in the location of the points of diversion that will authorize an existing well as a standby well to be operated only when the primary well is inoperable. The primary well is authorized to divert 84 acre-feet at 420 gallons per minute for irrigation use.

from: one (1) well located in the Southwest Quarter of the Northeast Quarter of the Northwest Quarter (SW $\frac{1}{4}$ NE $\frac{1}{4}$ NW $\frac{1}{4}$) of Section 18, more particularly described as being near a point 4,286 feet North and 3,640 feet West of the Southeast corner of said section,

to: one (1) Primary well located in the Southwest Quarter of the Northeast Quarter of the Northwest Quarter (SW $\frac{1}{4}$ NE $\frac{1}{4}$ NW $\frac{1}{4}$) of Section 18, more particularly described as being near a point 4,286 feet North and 3,640 feet West of the Southeast corner of said section, and

one (1) Standby well located in the Northeast Quarter of the Northeast Quarter of the Northwest Quarter (NE $\frac{1}{4}$ NE $\frac{1}{4}$ NW $\frac{1}{4}$) of Section 18, more particularly described as being near a point 4,899 feet North and 2,674 feet West of the Southeast corner of said section,

all in Township 18 South, Range 32 West, Scott County, Kansas.

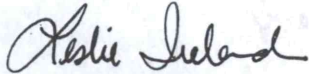

You are being notified of the proposed change so that you may furnish this office written comments or other information you may desire to submit. Such written comments or other information must be received in this office within 15 days from the date of this letter.

RE: Water Right, File No. 14,483

Dear Ms. Ireland,

On behalf of the Scott County Golf Association as Board Secretary for that organization, I am returning the application to change the point of diversion under file No. 14483 for the Scott County Road Dept. Well File # 49026. In addition to that application, I am sending you the following forms:

1. Copy of letters from your office (9/14/16 & 10/21/16)
2. Nearby Well Owners listing
3. ½ Mile Map – Signed and dated
4. Other Well Map of area wells
5. Three Domestic Well Spacing Consent Forms (Buehler, Miller, and Winderlin)

Upon your review of the above and enclosed, please advise if we can be of further assistance in this matter.

Sincerely,

Rohn A. Shellenberger

NOV 14 2016

KS DEPT OF AGRICULTURE

(6) During the period July 1 through September 30 each calendar year, no direct diversions of water shall be permitted unless written permission is obtained from the chief engineer or the chief engineer's authorized representative.

(d) Each application filed by a member of an operational assurance district for that stream shall be processed taking into consideration the provisions of the assurance district contract.

(e) Each application filed for a point of diversion which might divert water released from storage pursuant to an agreement between the state of Kansas and the federal government shall be processed taking into consideration the provisions of that agreement.

(f) Each application filed to divert the natural flow of any stream subject to a more specific regulation adopted by the chief engineer or an intensive groundwater use control area order issued by the chief engineer, for a basin or portion thereof, shall be processed in accordance with the provisions of that regulation or order. (Authorized by K.S.A. 82a-706a; implementing K.S.A. 1993 Supp. 82a-711; effective Nov. 28, 1994.)

K.A.R. 5-3-16. Safe yield; exemptions for up to 15 acre-feet of groundwater. In any area of the state outside a groundwater management district that is subject to safe yield criteria and is not closed by regulation or intensive groundwater use control area order by the chief engineer to new nondomestic, nontemporary permits and term permits for five or fewer years, applications to appropriate groundwater shall be exempt from meeting the safe yield criteria if the chief engineer finds that all of the following conditions are met:

(a) The sum of the annual quantity requested by the proposed appropriation and the total annual quantities authorized by prior permits allowed because of an exemption pursuant to this regulation does not exceed 15 acre-feet in a ½-mile-radius circle surrounding the proposed point of diversion.

(b) Well spacing criteria in the area have been met.

(c) The approval of the application does not authorize an additional quantity of water out of an existing authorized well with a nondomestic permit or water right, which would result in a total combined annual quantity of water authorized from that well in excess of 15 acre-feet.

(d) All other criteria for processing a new application to appropriate water at that location have been met. (Authorized by K.S.A. 82a-706a; implementing K.S.A. 1999 Supp. 82a-711; effective Nov. 28, 1994; amended Sept. 22, 2000.)

K.A.R. 5-3-16a. Closed areas; exemptions for up to five acre-feet of groundwater. In any area of the state that is outside a groundwater management district and an intensive groundwater use control area (IGUCA) and that is closed to new appropriations of groundwater by regulation except for domestic use, temporary permits, and term permits for five or fewer years, applications to appropriate groundwater shall be exempt from meeting the safe yield

RE: Water Right, File No. 14,483

Dear Mr. Shellenberger:

Reference is made to the application for approval of the Chief Engineer to change the point of diversion under the referenced file number which was received in this office on July 8, 2016. Upon review of the application it is found that additional information is needed.

The enclosed topographic map has been completed to show the water wells within one-half (1/2) mile of the proposed well as per the original application for File No. 49,026, which authorized the proposed well. Please review and update the map and attached ownership information as needed to show all water wells within one-half (1/2) mile of the proposed well has been shown and the owner identified. Upon completion of your review please sign the map.

Additionally, it appears that the proposed change will require a waiver of Part (a) of K.A.R. 5-21-3, *Well spacing requirements*, and may require written permission from the owners of the neighboring domestic wells. Part 18 of the application has been updated, but additional information in support of your requested waiver may be supplied should you choose to do so. A form has been enclosed for your use to obtain the needed signatures from nearby well owners.

The Western Kansas Groundwater Management District No. 1, located at 906 West 5th, Scott City, Kansas, phone (620)872-5563, may provide you with assistance regarding the referenced application. Please take this letter, your application and attachments with you should you choose to have them assist you.

If you plan to go to the Division of Water Resources Field Office in your area for assistance please call the Garden City Field Office at (620)276-2901 to set an appointment time. We appreciate you making an appointment, as it will save your time and allows us to better serve you. If you do go to the field office for assistance, please take this letter, the application, and any attachments.

WATER RESOURCES

Your application is being returned so that you may supply the requested information. In order for the application to retain its priority of filing the requested information must be supplied to complete the applications on or before **October 14, 2016**. According to law, default in supplying the requested information as outlined above within the time allowed or any authorized extension of time, shall cause dismissal of the application for change under the above referenced file number.

Should you need additional time in which to review and or provide the information and you want to request additional time, you must do so in writing, before the 30 day period expires. Such a request should state what steps are being taken to obtain the information and the amount of time you will need to supply the information to our office.

If you have any questions, please contact me at (785) 564-6633. If you wish to discuss a specific file, please have the file number ready so that I may help you more efficiently.

RE: Water Right, File No. 14,483

Dear Mr. Shellenberger:

In accordance with your request made by phone on October 21, 2016, the Chief Engineer has extended until **November 21, 2016**, as the time in which to return your application to change the point of diversion under the referenced file number and accompanied by any requested additional information.

If the application is not returned and information is not supplied by the deadline, of November 21, 2016, or any authorized extension of time thereof, the application will be dismissed. According to the law, default in returning the application and supplying the requested information, within the time allowed, shall constitute forfeiture of the priority date and dismissal of the application.

If you wish to request additional time, you must do so in writing, before the period expires. Such a request should state what steps are being taken to supply the requested information.

If you have any questions, please contact our office, my desk phone number is (785) 564-6633. If you wish to discuss a specific file, please have the file number ready so that we may help you more efficiently.

Sincerely,

Leslie Ireland

FILE COPY

RE: Water Right, File No. 14,483

Dear Mr. Shellenberger:

Reference is made to the application for approval of the Chief Engineer to change the point of diversion under the referenced file number which was received in this office on July 8, 2016. Upon review of the application it is found that additional information is needed.

The enclosed topographic map has been completed to show the water wells within one-half (½) mile of the proposed well as per the original application for File No. 49,026, which authorized the proposed well. Please review and update the map and attached ownership information as needed to show all water wells within one-half (½) mile of the proposed well has been shown and the owner identified. Upon completion of your review please sign the map.

Additionally, it appears that the proposed change will require a waiver of Part (a) of K.A.R. 5-21-3, *Well spacing requirements*, and may require written permission from the owners of the neighboring domestic wells. Part 18 of the application has been updated, but additional information in support of your requested waiver may be supplied should you choose to do so. A form has been enclosed for your use to obtain the needed signatures from nearby well owners.

The Western Kansas Groundwater Management District No. 1, located at 906 West 5th, Scott City, Kansas, phone (620)872-5563, may provide you with assistance regarding the referenced application. Please take this letter, your application and attachments with you should you choose to have them assist you.

If you plan to go to the Division of Water Resources Field Office in your area for assistance please call the Garden City Field Office at (620)276-2901 to set an appointment time. We appreciate you making an appointment, as it will save your time and allows us to better serve you. If you do go to the field office for assistance, please take this letter, the application, and any attachments.

SCANNED

Your application is being returned so that you may supply the requested information. In order for the application to retain its priority of filing the requested information must be supplied to complete the applications on or before **October 14, 2016**. According to law, default in supplying the requested information as outlined above within the time allowed or any authorized extension of time, shall cause dismissal of the application for change under the above referenced file number.

Should you need additional time in which to review and or provide the information and you want to request additional time, you must do so in writing, before the 30 day period expires. Such a request should state what steps are being taken to obtain the information and the amount of time you will need to supply the information to our office.

If you have any questions, please contact me at (785) 564-6633. If you wish to discuss a specific file, please have the file number ready so that I may help you more efficiently.

Sincerely,

Leslie Ireland

THE STATE

OF KANSAS

KANSAS DEPARTMENT OF AGRICULTURE
Jackie McClaskey, Acting Secretary of Agriculture

DIVISION OF WATER RESOURCES
David W. Barfield, Chief Engineer

**APPROVAL OF APPLICATION
and
PERMIT TO PROCEED**
(This is not a Certificate of Appropriation)

This is to certify that I have examined Application File No. 49,026 of the applicant

**Scott County Kansas
303 Court Street
Scott City, Kansas 67871**

for a permit to appropriate water for beneficial use, together with the maps, plans and other submitted data, and that the application is hereby approved and the applicant is hereby authorized, subject to vested rights and prior appropriations, to proceed with the construction of the proposed diversion works (except those dams and stream obstructions regulated by K.S.A. 82a-301 through 305a, as amended), and to proceed with all steps necessary for the application of the water to the approved and proposed beneficial use and otherwise perfect the proposed appropriation subject to the following terms, conditions and limitations:

1. That the priority date assigned to such application is **March 28, 2014**.
2. That the water sought to be appropriated shall be used for industrial use in Scott County, Kansas.
3. That the authorized source from which the appropriation shall be made is groundwater from Ogallala formation, to be withdrawn by means of one (1) well located in the Northeast Quarter of the Northeast Quarter of the Northwest Quarter (NE $\frac{1}{4}$ NE $\frac{1}{4}$ NW $\frac{1}{4}$) of Section 18, more particularly described as being near a point 4,899 feet North and 2,674 feet West of the Southeast corner of said section, in Township 18 South, Range 32 West, Scott County, Kansas, located substantially as shown on the topographic map accompanying the application.
4. That the appropriation sought shall be limited to a maximum diversion rate not in excess of 600 gallons per minute (1.34 c.f.s.) and to a quantity not to exceed 4.887 million gallons (16.0 acre-feet) of water for any calendar year.
5. That installation of works for diversion of water shall be completed on or before **December 31, 2016** or within any authorized extension thereof. The applicant shall notify the Chief Engineer and pay the statutorily required field inspection fee of \$400.00 when construction of the works has been completed. Failure to timely submit the notice and the fee will result in revocation of the permit. Any request for an extension of time shall be submitted prior to the expiration of the deadline and shall be accompanied by the required statutory fee of \$100.00.
6. That the proposed appropriation shall be perfected by the actual application of water to the proposed beneficial use on or before **December 31, 2020** or any authorized extension thereof. Any request for an extension of time shall be submitted prior to the expiration of the deadline and shall be accompanied by the required statutory fee, which is currently \$100.00.

- NAM 27 -

On October GPS coordinates were obtained for the above mentioned well. These coordinates are 38.49606/100.89774 (+/- 9') and are to be used for finding the distance to this proposed IND well to the neighboring wells.

Vested water right SC 014 is located at 38.49770/100.89175 (+/- 8'). This well is 1815' to the east of the proposed well.

A Domestic well is located at 38.49720/100.89436 (+/- 13'). This domestic well is located 1053' to the east of the proposed well.

5282' N { 1696' W Sec 18

Vested water right SC 018 is located at 38.48983/100.89680 (+/- 10'). This well is 2285' to the southeast of the proposed well.

A Domestic well is located at 38.48953/100.89720 (+/- 11'). This domestic well is located 2383' to the southeast of the proposed well.

2488' N { 1694' W Sec 18 MONITORING WELL

Water right 25609 does not appear to be in use. It is located at 38.49220/100.90023 (+/- 9'). This well is located 1576' to the southwest of the proposed well.

Water right 14483 is located at 38.49432/100.90099 (+/- 12'). This well is located 1126' to the southwest of the proposed well.

Water right 224 is located at 38.49779/100.90695 (+/- 9'). This well is located 2710' to the west of the proposed well.

Located near water right 224 is a windmill that does not appear to be in use. It is located at 38.49807/100.90722 (+/- 12'). This well is located 2810' west of the proposed well.

MEMORANDUM

TO: Files **DATE:** November 10, 2014
FROM: Erin McGrogan **RE:** Application File No. 49,026

Scott County has filed the above referenced application proposing to appropriate 4.887 million gallons (15 acre-feet) of groundwater per calendar year at a rate of diversion not to exceed 600 gallons per minute for industrial use. The applicant requested 60 day to located the proposed point of diversion and resubmitted the application to DWR on May 19, 2014 with the proposed point of diversion and a test hole log for the location. The purposed point of diversion is located within the boundaries of the Western Kansas Groundwater Management District No. 1 and the Whitewoman Creek basin.

The requested quantity of 4.887 million gallons is for providing water for highway construction on county roads within Scott County. The applicant stated that the water will be hauled to various locations throughout the county for road construction projects throughout the calendar year. The justification for this proposed use is based on the quantity used for county highway construction at 200,000 to 300,000 gallons per mile. The county provided several pages of additional information for water purchased from the city of Scott City from years 2009 through 2012.

The point of diversion is located in the Northeast Quarter of the Northeast Quarter of the Northwest Quarter of Section 18, Township 18 South, Range 32 West, Scott County.

The source of supply for the water appears to be in the Ogallala formation (211) based on the submitted well log and identification of wells in the near vicinity.

The Garden City Field Office staff performed a site investigation and identified all wells located within the one-half mile area. (See memorandum dated October 7, 2014)

The application is subject to spacing criteria based on K.A.R. 5-21-3 (a) which is based on the source of supply. For the proposed point of diversion the required spacing is 2,640 feet (one-half mile) for non-domestics and 1,320 feet for domestics. There are a total of eight non-domestic groundwater wells located within a one-half mile radius of the proposed point of diversion. All of the non-domestic well owners signed well spacing exemption approval forms from the applicant. There are a total of two domestic owners that signed well spacing approval forms; both of these well owners also had signed non-domestic well forms. The non-domestic water rights located within one-half mile are Vested Water Right File Nos. 14,18, Water Right File Nos. 3,885; 3,888; 14,483; 22,827; 25,609, and 28,165 with several having point of diversion overlaps.

A copy of the application was sent to the Groundwater Management District No. 1 on August 27, 2014 with additional information on well spacing issues. The District requested several extensions in order to clarify nearby well locations with the applicant. On October 2, 2014 the District recommended approval of the application with a recommendation for a waiver of well spacing based on K.A.R. 5-21-3 and a waiver of K.A.R. 5-21-4 A-D for the 15 acre-foot criteria failing to meet the requirement of a two-mile radius. The proposed point of diversion is located less than the required two-mile radius to Water Right File No. 44,773 which is authorized the quantity of 11 acre-feet and identified as a 15 acre-foot exemption.

In an e-mail dated November 5, 2014 from Mike Meyers, Water Commissioner, Garden City Field Office, Mr. Meyer indicated that he would refrain from making a recommendation based on the waivers recommended by the Groundwater Management District.

In accordance with K.S.A. 82a-706c, the Chief Engineer retains full authority to require any water user to install meters, gages, or other measuring devices, which devices he or she or his or her agents may read at any time. Water flowmeter requirements are further described in K.A.R. 5-1-4 through K.A.R 5-1-12. If any chemical or foreign substance is injected into the water pumped under this permit, a check valve will also need to be installed. A rate of 100 gallons per minute has been proposed, so a water level measurement tube will be required on the well.

This Order shall become a final agency action, as defined by K.S.A. 77-607 (b), without further notice to the parties, if a request for hearing or a petition for administrative review is not filed as set forth below.

Request for Hearing. According to K.A.R. 5-14-3(c), any party who desires a hearing must submit a request within 15 days after the date shown on the Certificate of Service attached to this Order. Filing a request for a hearing will give you the opportunity to submit additional facts for consideration, contest any findings made by the Chief Engineer or present any other information you believe should be considered in this matter. A timely-filed request for hearing will stay the deadline for requesting administrative review of this Order pending the outcome of the hearing.

Petition for Review. The applicant, if aggrieved by this Order, may petition for administrative review, pursuant to K.S.A. 82a-711(c) and K.S.A. 82a-1901 (a). The petition must be filed within 30 days after the date shown on the Certificate of Service attached to this Order and must set forth the basis for the review, unless stayed by the timely filing of a request for hearing.

Any request for hearing or petition for administrative review shall be in writing and shall be submitted to the attention of: Chief Legal Counsel, Kansas Department of Agriculture, 1320 Research Park Drive, Manhattan, Kansas 66502, Fax: (785) 564-6777.

Witness my hand and seal this 23rd day of December, 2014, in Topeka, Shawnee County, Kansas.

David W. Barfield
David W. Barfield, P.E.
Chief Engineer
Division of Water Resources
Kansas Department of Agriculture

State of Kansas
County of Riley

The foregoing instrument was acknowledged before me this 23rd day of December, 2014, by David W. Barfield, P.E., Chief Engineer, Division of Water Resources, Kansas Department of Agriculture.

Karen Hunter
Notary Public

CERTIFICATE OF SERVICE

RE: File No. 14483

Dear Sir or Madam:

An application for approval of the Chief Engineer to change the following condition or conditions of the file number referred to above has been received:

- place of use PD
- point of diversion
- use made of water

As a matter of record, the Division of Water Resources has on hand a large number of applications awaiting processing. Therefore to be fair to all concerned, and so that we can process those applications on hand in the order they were received, we intend to concentrate on the backlog of applications until the issue is resolved. You will be contacted regarding this application as soon as it has been examined.

In accordance with the provisions of the Kansas Water Appropriation Act, a portion of which is included below, the use of water prior to approval of the application is unlawful. You should not proceed and divert water as indicated by your plans in your application for a change for this file until you receive approval for this change from the Chief Engineer. Once approved, compliance with the terms, conditions and limitations of the permit is necessary. Conservation of the water resources of Kansas is required.

Section 82a-728 of the Kansas Water Appropriation Act, provides (a) except for the appropriation of water for the purpose of domestic use, . . . it shall be unlawful for any person to appropriate or threaten to appropriate water from any source without first applying for and obtaining a permit to appropriate water in accordance with the provisions of the Water Appropriation Act or for any person to violate any condition of a vested right, appropriation right or an approved application for a permit to appropriate water for beneficial use.

(b) (1) The violation of any provision of this section by any person is a class C misdemeanor...

A class C misdemeanor is punishable by a fine not to exceed \$500 and/or a term of confinement not to exceed one month in the county jail. Each day that the violation occurs constitutes a separate offense.

If you have any questions, please contact me at (785) 564-6645. If you wish to discuss a specific file, please have the file number ready so that we may help you more efficiently.

Sincerely,

Brent A Turney, L.G.
Change Applications Unit Supervisor
Water Appropriation Program
