RE: Water Right
File Nos. 16,157; 20,890; 22,233; 22,576-D2;
22,576-D3; 22,576-DA; 22,576-DB; 22,577-
(D1); 22,577-(D2); 22,578-D2; 24,050; 24,813;
28,620; 29,855-D1 and 30,157

Jacob and Aganetha Neufeld, on behalf of Sandyhill Enterprises, L.L.C., and Johan and Margaritha (Margaret) Loewen, water right owners, filed applications to change the place of use for the referenced file numbers along with a division request for File No. 22,577 and reductions in place of use for File Nos. 24,050 and 28,620. The ultimate goal of the submitted package is to remove the overlap in place of use which exists between Sandyhill Enterprises L.L.C.(Neufeld) and Loewen water rights; to create exact overlaps in place of use among water rights owned solely by Loewens (File Nos. 22,233; 22,577-D2; and 24,813); and to create exact overlaps in place of use among water rights owned solely by Sandyhill Enterprises L.L.C.(File Nos. 16,157; 20,890;22,576-D2; 22,576-D3; 22,576-DA; 22,576-DB; 22,577-D1; 22,578-D2; 24,050; 28,620; 29,855-D1 and 30,157).

The referenced files do not appear abandoned as per K.S.A. 82a-718.

The referenced files are all authorized groundwater for irrigation use in Finney County, Kansas. None of the referenced file numbers have overlaps in their authorized points of diversion and the following files have no overlaps in their authorized places of use: File Nos. 16,157(256 acres); 22,576 DA(136 acres); File No. 22,577-D2(136 acres); 29,855-D1 (272 acres) and 30,157 (136 acres). File Nos. 20,890 and 22,578-D2 overlap in their 272-acre place of use; File Nos. 22,576-DB; 22,576-D2 and 22,576-D3 overlap in their 408-acre place of use; File Nos. 22,577-D1; 24,050 and 28,620 overlap in their 952-acre place of use; and File Nos. 22,233 and 24,813 overlap in their 272-acre place of use.

The water right owners propose exact overlaps among rights owned solely by Sandyhill Enterprises and exact overlaps among water rights owned solely by the Loewens, pursuant to K.A.R. 5-5-11(b)(1) *Identical places of use*. The 4,611 acre-feet authorized by Sandyhill Enterprises water rights will irrigate their proposed 2,432-acre place of use with 1.89 acre-feet per acre and the 802 acre-feet authorized by Loewen water rights will irrigate their proposed 408-acre place of use with 1.96 acre-feet per acre. Both proposals appear reasonable since the 50% net irrigation requirement for the full irrigation of corn with 85% efficiency in Finney County is 1.42 acre-feet per acre. Feet distances for wells will be updated with g.p.s. feet distances per WRIS as appropriate.

No nearby well owners were notified of the proposed changes since the proposals are for exact overlaps in the authorized places of use.

The same local source of supply will not change.

Southwest Kansas Groundwater Management District No. 3 recommended approval of the referenced applications in a letter dated November 27, 2018 from Jason Norquest, Assistant Manager.

In an e-mail dated November 29, 2018, Mike Meyer, Water Commissioner of the Garden City Field Office, recommended approval of the applications.

Water flow meters are required. Check valves are required if any chemical or foreign substance is injected into the water through the diversion works.

Based on the above discussion, that the changes are reasonable, that impairment to existing water rights is unlikely, that no change in the local source of supply will occur, and if the reduction requests and division agreement are approved, it is recommended the applications be approved.

The Chief Engineer, Division of Water Resources, Kansas Department of Agriculture, after due consideration of the written application of Johan P. and Margaret Loewen, P.O. Box 1098, Sublette, Kansas 67877, received in this office on October 3, 2018, for approval of a change in the location of the place of use under the certificate of appropriation issued pursuant to the permit to appropriate water for beneficial use, as modified and amended by the Order of the Chief Engineer dated December 1, 2017, approving the application to change the place of use, finds that the change is reasonable and will not impair existing rights, and that the application should be and is hereby approved.

The effective date of the change shall be the date this order is executed by the Chief Engineer, after which the authorized location of the place of use shall be:

Sec.	Twp.	Range	NE¼				NW¼				SW¼				SE¼				TOTAL ACRES

The type of valve installed shall meet specifications adopted by the Chief Engineer and shall be maintained in an operating condition satisfactory to the Chief Engineer.

The water right owner shall properly install an acceptable water meter on the diversion works authorized under this water right, prior to the use of water, in strict accordance with the Kansas Administrative Regulations 5-1-4 through 5-1-12 adopted by the Chief Engineer. The water right owner shall notify the Chief Engineer when installation of the water meter has been completed. The water right owner shall maintain the water meter in an operating condition satisfactory to the Chief Engineer, at all times during diversion of water and shall maintain records from which the total quantity of water diverted may be determined. RIGHT TO A HEARING AND TO ADMINISTRATIVE REVIEW

If you are aggrieved by this Order, then pursuant to K.S.A. 82a-1901, you may:

- 1) request an evidentiary hearing before the Chief Engineer, or
- 2) request administrative review by the Secretary of Agriculture.

Failure to request an evidentiary hearing before the Chief Engineer does not preclude your right to administrative review by the Secretary.

To obtain an evidentiary hearing before the Chief Engineer, a written request for hearing must be filed within 15 days after service of this Order as provided in K.S.A. 77-531 (i.e., within a total of 18 days after this Order was mailed to you), with the Kansas Department of Agriculture, Attn: Legal Section, 1320 Research Park Drive, Manhattan, Kansas 66502, or by FAX (785) 564-6777.

If you do not file a request for an evidentiary hearing before the Chief Engineer, you may petition for administrative review of the Order by the Secretary of Agriculture. A petition for review shall be in writing and state the basis for requesting administrative review. The request for review may be denied if the request fails to clearly establish factual or legal issues for review. See K.S.A. 77-527. The petition must be filed within 30 days after service of this Order as provided in K.S.A. 77-531 (i.e., within a total of 33 days after this Order was mailed to you), and be filed with the Secretary of Agriculture, Attn: Legal Division, Kansas Department of Agriculture, 1320 Research Park Drive, Manhattan, Kansas 66502, or by FAX (785) 564-6777.

If neither a request for an evidentiary hearing nor a petition for administrative review is filed as set forth above, then this Order shall be effective and become a final agency action as defined in K.S.A. 77-607(b). Failure to timely request either an evidentiary hearing or administrative review may preclude further judicial review under the Kansas Judicial Review Act.

Any request for hearing or petition for administrative review shall be in writing and shall be submitted to the attention of: Chief Legal Counsel, Kansas Department of Agriculture, 1320 Research Park Drive, Manhattan, Kansas 66502, Fax: (785) 564 - 6777.

RE: Change Application

Water Right, File Nos. 16157, 20890, 22233, 22576 D2, 22576 D3, 22576 DA, 22576 DB, 22577 (D1), 22577 (D2), 22578 D2, 24050, 24813, 28620, 29855 D1 & 30157

Dear Richelle:

We have completed a review of the applications for the above referenced water rights. The Division of 22577 and reduction requests for 24050 & 28260 is being applied for to separate out the land for the two owners. Then the proposals for change in place of use, will create a complete overlap in current place of use for the individual land owners. The proposals are not in conflict with the Management Program of the Southwest Kansas Groundwater Management District No. 3 (GMD3) and is in accordance with K.A.R. 5-5-11(b)(1). There is no new acres being proposed. It is therefore recommended that applications be approved at this time.

Thank you for the opportunity to review the applications and to provide a recommendation. If you have any questions, please don't hesitate to contact us.

Sincerely,

Jason L. Norquest

Dear Jason:

We are enclosing copies of the applications to change the place of use for the referenced file numbers along with a division request for File No. 22,577 and reductions in place of use for File Nos. 24,050 and 28,620. The ultimate goal of the applications is to remove the overlap in place of use which exists between Sandyhill Enterprises L.L.C.(Neufeld) and Loewens water rights; to create exact overlaps in place of use among water rights owned solely by Loewens (File Nos. 22,577-(D2); 22,233 and 28,620); and to create exact overlaps in place of use owned solely by Sandyhill Enterprises L.L.C.(Neufeld-remaining file numbers).

We are delaying further action for a period of 15 days from the date of this letter to allow you time to submit your recommendations concerning these applications.

Please submit your recommendations within the allowed time, or any authorized extension of time thereof. If you have any questions, please contact me at (785) 564-6635. If you call, please reference the file number so we can help you more efficiently.

RE: File No 24813

Dear Sir or Madam:

An application for approval of the Chief Engineer to change the following condition or conditions of the file number referred to above has been received:

- place of use PU
- point of diversion
- use made of water

As a matter of record, the Division of Water Resources has on hand a large number of applications awaiting processing. Therefore, to be fair to all concerned, and so that we can process those applications on hand in the order they were received, we intend to concentrate on the backlog of applications until the issue is resolved. You will be contacted regarding this application as soon as it has been examined.

In accordance with the provisions of the Kansas Water Appropriation Act, a portion of which is included below, the use of water prior to approval of the application is unlawful. You should not proceed and divert water as indicated by your plans in your application for a change for this file until you receive approval for this change from the Chief Engineer. Once approved, compliance with the terms, conditions and limitations of the permit is necessary. Conservation of the water resources of Kansas is required.

Section 82a-728 of the Kansas Water Appropriation Act, provides (a) except for the appropriation of water for the purpose of domestic use, . . . it shall be unlawful for any person to appropriate or threaten to appropriate water from any source without first applying for and obtaining a permit to appropriate water in accordance with the provisions of the Water Appropriation Act or for any person to violate any condition of a vested right, appropriation right or an approved application for a permit to appropriate water for beneficial use.

(b) (1) The violation of any provision of this section by any person is a class C misdemeanor...

A class C misdemeanor is punishable by a fine not to exceed \$500 and/or a term of confinement not to exceed one month in the county jail. Each day that the violation occurs constitutes a separate offense.

If you have any questions, please contact me at (785) 564-6645. If you wish to discuss a specific file, please have the file number ready so that we may help you more efficiently.

Sincerely,

Richelle, hope you are all thawed out up there. We really didn't get much snow, but a lot of wind. Seems we were right on the edge.
