RE: Applications for Change in Place of Use
Water Right, File No. 19971 & 31853

Dear Mike:

We have completed a review of the application for the above referenced water rights. The proposal is not in conflict with the Management Program of the Southwest Kansas Groundwater Management District No. 3 (GMD3). Since these acres are not part of an MOU monitoring agreement and have been dismissed from a WCA, the acres irrigated need to come into compliance. The proposed change in place of use meets the 10% base acre increase allowable in accordance with K.A.R. 5-5-11(b)(1). It is therefore recommended that the application be approved at this time.

Thank you for the opportunity to review the applications and to provide a recommendation. If you have any questions, please don't hesitate to contact us.

Sincerely,

Jason L. Norquest

These WRs were in the MOU program prior to 2011, when apps were filed to get out of the program for the new land owner. New owner did not reduce the acres under pivot to meet the change applied for.

The water rights were then put into WCA program to continue watering the unauthorized acres, and then was subsequently sold.

Current owners opted out of the WCA and reduced the acres being watered.

Both WRs stayed within the WCA limits for the short time in the program and no issue with getting out of the volunteer program.

GMD3 Change Review

This proposal is not reverting back to the reversionary acres like most MOUs, but is bringing in acres not originally authorized to match the current operation. With that in mind they are proposing 10 acres over combined base, which is allowable with the rules.

Is a waiver needed: No, meets current area rules.

Recommendation: After review of all available information, it appears current area rules are met. They properly asked out of the WCA, which does not seem to raise any issues. Staff therefore recommends approval of the applicaiton.

Attached are changes in place of use to adjust acres to meet base acres of 304 acres or 314 acres as per regulation. please note that as of yesterday, the formal WCA has been dismissed per request of the Unruhs and the term permits were dismissed earlier. The pending change applications cover the current place of use with the new ownership. The unruhs physically adjusted the pivot(s) and modified the place of use to ensure that all acres are now covered. Both wells stayed well within their authorized quantities in calendar year 2018. Please promptly review so we can get this finalized. Hind sight is that should have waited to dismissed the terms as a package when approving these change apps, but the term dismissals went to headquarters and we didn't coordinate well enough.

Please review the change applications and submit a recommendation within 15 days.

Thanks

Mike
