DATE: May 1, 2019

FROM: Leslie Ireland

RE: Water Right,
File Nos. 18,144; 22,737-D1 & 22,737-D2

Dennis Kleysteuber, President of Kleysteuber & Gillen, Incorporated along with John M. Petz, President and CEO of Irsik & Doll Feed Services Incorporated, as owners submitted applications on September 24, 2018, to change the irrigated place of use. The applications propose a complete overlap of the rights with pipelines connecting the pivots and wells. An agreement between the landowners dated October 1, 2018, limits the ownership, quit claim details and termination parameters. The applications were delayed for the removal of File No. 18,144 from the Kleysteuber Farms Water Conservation Area. This was completed on April 29, 2019.

The referenced water rights appear to be in compliance with K.S.A. 82a-732 and the applications comply with K.A.R. 5-5-2a, with the exception of File No. 18,144, enrolled in a Water Right Conservation Plan per K.S.A. 82a-745, on December 26, 2018. This file will be removed from the WCA prior to processing the requested applications for change. As required by K.S.A. 82a-1906 the notifications were sent to nearby well owners. No comments were received.

The referenced files have separate places of use with File No. 18,144 authorized 145 acres in the Northwest Quarter of Section 21, (NW ¼) File No. 22,737-D1 authorized 408 acres in the East Half and the Northwest Quarter of Section 22 (E½) and File No. 22,737-D2 authorized 136 acres in the Southwest Quarter of Section 22 (SW¼), all in Township 26 South, Range 31 West, Finney County. A combined total of 689 acres. The rights do not have any additional limitation. After removal of File No. 18,144 from the WCA, they are not located within a special use area, but are located within the boundaries of Southwest Kansas Groundwater Management District No. 3, (GMD3).

The applications for change will be processed by part (b)(1) of K.A.R. 5-5-11, *Applications for change in place of use for irrigation purposes*, to create identical place of use with no acres added. The complete overlap will continue to authorize a total of 689 acres. The applications appear to comply with all of the requirements of K.A.R. 5-3-5n, *Authorized place of use, as the owners are agreeing to operate together*. The certified rights authorize a combined total quantity of 1,346 acre-feet. Per K.A.R. 5-3-23, *Maximum reasonable annual quantity approvable for irrigation use for an application for change in place of use and a request to reduce a water right*, the overlap will result in 1.95 acre-feet per acre. This exceeds the 80% chance of full irrigation in Finney County per K.A.R. 5-5-12, *Net irrigation requirements*, and is less than the 2.0 acre-foot per acre as allowed by K.A.R. 5-3-19, *Maximum reasonable annual quantity of water for irrigation use*.

The 689 authorized and proposed acres complies with part (b) of K.A.R. 5-5-11, *Applications for change in place of use for irrigation purposes*. No increase in the consumptive should occur thus complying with K.A.R. 5-5-3, *Change in consumptive use*.

In a letter dated February 19, 2019, Jason Norquest, Assistant Manager, Southwest Kansas Groundwater Management District No. 3, recommend approval of the applications, with the contingency of File No. 18,144, being removed from the WCA plan.

Michael Meyer, Water Commissioner of the Garden City Field Office area reviewed the proposed applications. In an email dated April 30, 2019, he recommended the change application proceed.

Water flowmeters will be required for the change approval as new acres will be irrigated. The water use correspondent, will be Kleysteuber & Gillen Inc for all of the files removing the Beef Land designation for File No. 22,737-D2. A check valve will be required, if chemigating. As no new wells will be drilled a water level measurement tube and WWC-5 will not be a condition of the approvals.

Based on the above discussion, that the change to the place of use authorized by all of the referenced files will maintain the complete overlap with no increase in the historical consumptive use with no impairment to existing water rights and no change in the local source of supply will occur, it is recommended that the referenced applications be approved.

FILE COPY

RE: Water Right, File Nos. 18,144; 22,737-D1 & 22,737-D2

Dear Mr. Kleysteuber:

Enclosed are the orders executed by the Chief Engineer, Division of Water Resources, Kansas Department of Agriculture, approving the applications for change under the reference files. A copy of the orders has been sent to Irsik & Doll.

Your attention is directed to the enclosures and to the terms, conditions, and limitations specified in the approvals for change. A condition of the approvals is that an acceptable water flowmeter must be installed on the diversion works authorized under the referenced files.

Since these orders modify the original documents referred to above, they should be recorded with the Register of Deeds as other instruments affecting real estate.

As requested in the application for Water Right, File No. 22,737-D2, the water use correspondent has been changed to be sent to Kleysteuber & Gillen, Inc., at the address listed above.

If you have any questions, please contact Leslie Ireland, Environmental Scientist, at (785) 564-6633. If you wish to discuss a specific file, please have the file number ready so that we may help you more efficiently.

Sincerely,

Brent A. Turney, P.G.

DIVISION OF WATER RESOURCES
David W. Barfield, Chief Engineer

APPROVAL OF APPLICATION FOR CHANGE IN PLACE OF USE WATER RIGHT, FILE NO. 22,737-D2

The Chief Engineer, Division of Water Resources, Kansas Department of Agriculture, after due consideration of the written application of Dennis Kleysteuber, President of Kleysteuber & Gillen, Inc., 13060 South County Road 20, Garden City, Kansas 67846-9711, along with John M. Petz, President/CEO, Irsik & Doll Feed Services Inc, 12500 S. Beefland Road, Garden City, Kansas 67846, received in the office of the Chief Engineer on October 29, 2019, for approval of a change in the location of the place of use under the certificate of appropriation issued pursuant to the permit to appropriate water for beneficial use, as modified and amended by the Order of the Chief Engineer dated June 17, 1996, which administratively divided Water Right, File No. 22,737, finds that the change is reasonable and will not impair existing rights, and that the application should be and is hereby approved.

The effective date of the change shall be the date this order is executed by the Chief Engineer, after which the authorized location of the place of use shall be:

Sec. Twp. Range	NE¼				NW¼				SW¼				SE¼				TOTAL
	NE¼	NW¼	SW¼	SE¼	NE¼	NW¼	SW¼	SE¼	NE¼	NW¼	SW¼	SE¼	NE¼	NW¼	SW¼	SE¼	
21 26 31W					40.00	32.50	32.50	40.00									145.0
22 26 31W	34.00	34.00	34.00	34.00	34.00	34.00	34.00	34.00	34.00	34.00	34.00	34.00	34.00	34.00	34.00	34.00	544.0

a total of 689.0 acres in Sections 21 and 22, in Township 26 South, Range 31 West,
Finney County, Kansas,

located substantially as shown on the topographic map accompanying the application to change the place of use.

All diversion works into which any type of chemical or other foreign substance will be injected into the water pumped from the diversion works shall be equipped with an in-line, automatic, quick-closing check valve capable of preventing pollution of the source of the water supply. The type of valve installed shall meet specifications adopted by the Chief Engineer and shall be maintained in an operating condition satisfactory to the Chief Engineer.

The water right owner shall properly install an acceptable water meter on the diversion works authorized under this water right, prior to the use of water, in strict accordance with the Kansas Administrative Regulations 5-1-4 through 5-1-12 adopted by the Chief Engineer. The water right owner shall notify the Chief Engineer when installation of the water meter has been completed. The water right owner shall maintain the water meter in an operating condition satisfactory to the Chief Engineer, at all times during diversion of water and shall maintain records from which the total quantity of water diverted may be determined. The water right owner shall also report the reading of said water meter and the total quantity of water diverted annually to the Chief Engineer. Such records shall be furnished to the Chief Engineer by March 1 following the end of each calendar year.

In all other respects, the Certificate of Appropriation issued pursuant to Approval of Application, File No. 22,737-D2, for permit to appropriate water for beneficial use, is as stated and set forth in the Certificate of Appropriation dated November 6, 1986, as modified and amended by the aforementioned orders.

Ordered this 15th day of May, 2019, in Manhattan, Riley County, Kansas.

RIGHT TO A HEARING AND TO ADMINISTRATIVE REVIEW

If you are aggrieved by this Order, then pursuant to K.S.A. 82a-1901, you may:

- 1) request an evidentiary hearing before the Chief Engineer, or
- 2) request administrative review by the Secretary of Agriculture.

Failure to request an evidentiary hearing before the Chief Engineer does not preclude your right to administrative review by the Secretary.

To obtain an evidentiary hearing before the Chief Engineer, a written request for hearing must be filed within 15 days after service of this Order as provided in K.S.A. 77-531 (i.e., **within a total of 18 days after this Order was mailed to you**), with: Kansas Department of Agriculture, Attn: Legal Section, 1320 Research Park Drive, Manhattan, KS 66502, FAX (785) 564-6777.

If you do not file a request for an evidentiary hearing before the Chief Engineer, you may petition for administrative review of the Order by the Secretary of Agriculture. A petition for review shall be in writing and state the basis for requesting administrative review. The request for hearing may be denied if the request fails to clearly establish factual or legal issues for review. See K.S.A. 77-527. The petition must be filed within 30 days after service of this Order as provided in K.S.A. 77-531 (i.e., **within a total of 33 days after this Order was mailed to you**), and be filed with: Secretary of Agriculture, Attn: Legal Division, Kansas Department of Agriculture, 1320 Research Park Drive, Manhattan, KS 66502, FAX (785) 564-6777.

If neither a request for an evidentiary hearing nor a petition for administrative review is filed as set forth above, then this Order shall be effective and become a final agency action as defined in K.S.A. 77-607(b). Failure to timely request either an evidentiary hearing or administrative review may preclude further judicial review under the Kansas Judicial Review Act.

CERTIFICATE OF SERVICE

On this 20th day May, 2019, I hereby certify that the attached Approval of Application for Change in Place of Use, Water Right, File No. 22,737-D2 dated May 15th, 2019 was mailed postage prepaid, first class, US mail to the following:

12. The presently authorized use of water is for IRRIGATION purposes.
It is proposed that the use be changed to NO CHANGE purposes.

13. If changing the place of use and/or use made of water, describe how the consumptive use will not be increased.

(Please show any calculations here.)

14. It is requested that the maximum annual quantity of water be reduced to _____ (acre-feet or million gallons).

15. It is requested that the maximum rate of diversion of water be reduced to _____ gallons per minute (____ c.f.s.).

16. The application must include either a topographic map or detailed plat. A U.S. Geological Survey Topographic Map, scale 1:24,000, is available through the Kansas Geological Survey, 1930 Constant Avenue, University of Kansas, Lawrence, Kansas 66047-3726 (www.usgs.gov). The map should show the location of the presently authorized point(s) of diversion. Distances North and West of the Southeast corner of the section must be shown. The presently authorized place of use should also be shown. Identify the center of the section, the section lines and the section corners and show the appropriate section, township, and range numbers on the map. In addition the following information must also be shown on the map.

- a. If a change in the location of the point(s) of diversion is proposed, show:
 - 1) The location of the proposed point(s) of diversion. Distances North and West of the Southeast corner of the section must be shown. Please be certain that the information shown on the map agrees with the information shown in Paragraph Nos. 9, 10 and 11 of the application.
 - 2) If the source of supply is groundwater, please show the location of existing water wells of any kind, including domestic wells, within 1/2 mile of the proposed well or wells. Identify each well as to its use and furnish name and mailing address of the property owner or owners. If there are no wells within 1/2 mile, please indicate so on the map.
 - 3) If the source of supply is surface water, the names and mailing addresses of all landowner(s) 1/2 mile downstream and 1/2 mile upstream from your property lines must be shown.
- b. If a change in the place of use is desired, show the proposed place of use by crosshatching on the map. Please be certain that the information shown on the map agrees with the information shown in Paragraph No. 5 of the application.

17. Attach documentation to show the change(s) proposed herein will not impair existing water rights and relates to the same local source of supply as to which the water right relates. This information may include statements, plats, geology reports, well logs, test hole logs, and other information as necessary information to show the above. Additional comments may be made below.

18. If the proposed change(s) does not meet all applicable rules and regulations of the Kansas Water Appropriation Act, please identify the rules and regulations for which you request a waiver. State the reason why a waiver is needed and why the request should be granted. Attach documentation showing that granting the request will not impair existing water rights and will not prejudicially and unreasonably affect the public interest.

PLEASE NOTE THAT THERE IS A LEGAL OVERLAP AGREEMENT BETWEEN BOTH PARTIES INCLUDED OR PART OF THE DWR FILES. THIS APPLICATION IS CONTIGENT UPON APPROVAL OF FILE NOS. 18144 & 22737 D1

Any use of water that is not as authorized by the water right or permit to authorize water **before** the chief engineer approves this application is a violation of the Kansas Water Appropriation Act for which criminal or civil penalties may be assessed. Such violation is a class C misdemeanor, punishable by a fine not to exceed \$500 and/or a term of confinement not to exceed one month in the county jail. K.S.A. 82a-728(b). Civil penalties shall be not less than \$100 nor more than \$1,000 per violation. In the case of a continuing violation, each day such violation continues may be deemed a separate violation. In addition to these penalties the water right may be modified or suspended. K.S.A. 82a-737, as amended.

The application must be signed by all owners of the place of use authorized under the water right and his or her spouse, if married. Please indicate if there is no spouse. If land is being purchased under contract, the seller must sign as landowner until such time as the contract is completed.

In the event that all applicants cannot appear before one notary public, they may as necessary sign separate copies of the application before any notary public conveniently available to them. All copies signed in this manner shall be considered to be valid parts of the application.

If the request is signed on behalf of any Owner by someone with legal authority to do so (for example, an agent, one who has power of attorney, or an executor, executrix, conservator), it will be necessary to attach proper documents showing such authority.

I declare that I am an owner of the currently authorized place of use as identified herein, or that I represent all such owners and am authorized to make this application on their behalf, and declare further that the statements contained herein are true, correct, and complete. By filing this application I authorize the chief engineer to permanently reduce the quantity of water and/or rate of diversion as specified in sections 14 and 15 of this application.

Dated at Garden City, Kansas, this 15th day of October, 2018.

SCANNED

Any use of water that is not as authorized by the water right or permit to authorize water before the chief engineer approves this application is a violation of the Kansas Water Appropriation Act for which criminal or civil penalties may be assessed. Such violation is a class C misdemeanor, punishable by a fine not to exceed \$500 and/or a term of confinement not to exceed one month in the county jail. K.S.A. 82a-728(b). Civil penalties shall be not less than \$100 nor more than \$1,000 per violation. In the case of a continuing violation, each day such violation continues may be deemed a separate violation. In addition to these penalties the water right may be modified or suspended. K.S.A. 82a-737, as amended.

The application must be signed by all owners of the place of use authorized under the water right and his or her spouse, if married. Please indicate if there is no spouse. If land is being purchased under contract, the seller must sign as landowner until such time as the contract is completed.

In the event that all applicants cannot appear before one notary public, they may as necessary sign separate copies of the application before any notary public conveniently available to them. All copies signed in this manner shall be considered to be valid parts of the application.

If the request is signed on behalf of any Owner by someone with legal authority to do so (for example, an agent, one who has power of attorney, or an executor, executrix, conservator), it will be necessary to attach proper documents showing such authority.

I declare that I am an owner of the currently authorized place of use as identified herein, or that I represent all such owners and am authorized to make this application on their behalf, and declare further that the statements contained herein are true, correct, and complete. By filing this application I authorize the chief engineer to permanently reduce the quantity of water and/or rate of diversion as specified in sections 14 and 15 of this application.

John,

Thank you. The map is what was needed for the applications per the regulation. I think you agree the list of the nearby well owners represents the folks to notify. I've completed that part of the process.

I've attached a letter that will go with the applications to the Southwest Kansas Groundwater Management District No. 3. After I get their recommendation, the documents will be put together for the approval of the Chief Engineer.

If the package hits any hurtles, I'll let you know.

Thanks again,

Hi,

I'm working your applications. Please find attached the map from the proposed changes. Could you please show on the map any pipelines between the points of diversion. I've add a symbol for "pipeline" to the legend. It is a requirement per K.A.R. 5-5-2a, *Complete change application*. Easements for the pipeline would not appear to be needed as all of the property in the area where the pipeline may go is owned by either you or Irsik & Doll. If I need to contact Irsik & Doll please let me know.

I've also attached a copy of a list and letter for the required nearby notification. Should there be any well owners located within one-half (½) mile of the wells please provide their name and address.

Should you have any questions please don't hesitate to email me or call 785 564-6633.

RE: Water Right, File Nos. 18,144; 22,737-D1 & 22,737-D2

Dear Sir or Madam:

This letter is to **provide notice** as required by K.S.A. 82a-1906, which became effective on July 1, 2016. This notice is to inform you that the owners of the referenced appropriations of water have filed applications for approval of the Chief Engineer, Division of Water Resources, Kansas Department of Agriculture.

The applications for Water Right, File Nos. 18,144; 22,737-D1 & 22,737-D2, propose a change in the authorized places of use to overlap all the irrigated acres. These changes will not alter the quantity of water or rate of diversion authorized for irrigation use. The applications will not increase the number of acres authorized for irrigation use, and the place of use as a whole will remain as authorized. The 689 acres authorized and proposed are in Sections 21 (NW¼) & 22, in Township 26 South, Range 31 West, Finney County, Kansas would be authorized by each of the referenced files.

If you have any questions, please contact our office, my desk phone is (785) 564-6633. If you wish to discuss a specific file, please have the file numbers ready so that we may help you more efficiently.

Sincerely,

Leslie Ireland

RE: Applications for Change in Place of Use
Water Right, File Nos. 18144, 22737D1 & 22737D2

Dear Leslie:

We have completed a review of the applications for the above referenced water rights. The proposals on the base water rights are not in conflict with the Management Program of the Southwest Kansas Groundwater Management District No. 3 (GMD3). The request for change in place of use will create a complete overlap on irrigated acres, with no new acres being added, meets the criteria set for in K.A.R. 5-5-11. Water Right, File No. 18144 is currently in a WCA that covers more acres and would bring in other water rights. This water right would need to be removed from the WCA or the other two water rights brought into the WCA plan. Communication from the applicants say they want to modify the WCA plan to remove 18144. It is therefore recommended that the applications be approved contingent upon File No. 18144 be removed from the recently approved WCA plan.

Thank you for the opportunity to review the applications and to provide a recommendation. If you have any questions, please don't hesitate to contact us.

Sincerely,

Jason L. Norquest
Assistant Manager

RE: File No 22737 D2

Dear Sir or Madam:

An application for approval of the Chief Engineer to change the following condition or conditions of the file number referred to above has been received:

- place of use PU
- point of diversion
- use made of water

As a matter of record, the Division of Water Resources has on hand a large number of applications awaiting processing. Therefore, to be fair to all concerned, and so that we can process those applications on hand in the order they were received, we intend to concentrate on the backlog of applications until the issue is resolved. You will be contacted regarding this application as soon as it has been examined.

In accordance with the provisions of the Kansas Water Appropriation Act, a portion of which is included below, the use of water prior to approval of the application is unlawful. You should not proceed and divert water as indicated by your plans in your application for a change for this file until you receive approval for this change from the Chief Engineer. Once approved, compliance with the terms, conditions and limitations of the permit is necessary. Conservation of the water resources of Kansas is required.

Section 82a-728 of the Kansas Water Appropriation Act, provides (a) except for the appropriation of water for the purpose of domestic use, . . . it shall be unlawful for any person to appropriate or threaten to appropriate water from any source without first applying for and obtaining a permit to appropriate water in accordance with the provisions of the Water Appropriation Act or for any person to violate any condition of a vested right, appropriation right or an approved application for a permit to appropriate water for beneficial use.

(b) (1) The violation of any provision of this section by any person is a class C misdemeanor...

A class C misdemeanor is punishable by a fine not to exceed \$500 and/or a term of confinement not to exceed one month in the county jail. Each day that the violation occurs constitutes a separate offense.

If you have any questions, please contact me at (785) 564-6645. If you wish to discuss a specific file, please have the file number ready so that we may help you more efficiently.

Sincerely,

Brent Tournay, L.G.

GMD3 Change Review

Final Recommendation: After review of all available information, it appears all area rules are met on the base water rights. WR18144 will need to be removed from the WCA to keep it separated. Staff therefore recommends approval with the modification to the WCA to exclude WR18144 .
