GREGORY & SHERRYL MORRIS 501 S WILDCAT CT HUGOTON KS 67951-3210

RE: Water Right, File No. 38933.

Dear Sir and Madam:

Enclosed is an order executed by the designee of the Chief Engineer, Division of Water Resources, Kansas Department of Agriculture, approving the application for change under the above referenced file number.

Your attention is directed to the enclosures and to the terms, conditions, and limitations specified in this approval for change. A condition of this approval is that acceptable water flowmeter must be installed on the diversion works authorized under the referenced file number and meet current specifications. Also, a long standing condition of this water right is that the water flowmeter is required to be sealed to the measuring chamber by the chief engineer upon completion and field review. Please return the required notification of completion of the diversion works and installation of the required meter as soon as these actions are completed.

Since this order modifies the original document referred to above, it should be recorded with the Register of Deeds as other instruments affecting real estate.

Should you have any questions, please feel free to call this office. If you would prefer, you could arrange an appointment for additional assistance.

Sincerely,

Michael A. Meyer

Water Commissioner

SUPPLEMENTAL SHEET File No. 38,933

SUMMARY ORDER APPROVING APPLICATION FOR CHANGE AND IMPOSING CONDITIONS

13. That a seal shall be placed on the flowmeter by the Division of Water Resources in such a manner as to render the meter non-removable from the measuring chamber and prevents access to the internal working parts of the water flowmeter without breaking the seal (K.A.R. 5-3-6a). If the seal is broken without the written permission of the Chief Engineer, this shall create a rebuttable presumption that the point of diversion had been unlawfully operated in violation of the order of the Chief Engineer and that the water right holder had been acting in violation of the conditions of his or her water right. If any such violation occurs, a written order shall be issued by the Chief Engineer stating the nature of the violation and the civil penalty, suspension of water right or modification to the water right, or any combination of these to be imposed.

Above are additional conditions to those shown on the attached FIELD OFFICE PROCESSED APPLICATION FOR APPROVAL TO CHANGE THE POINT OF DIVERSION.

Dated at Garden City, Kansas, this 22nd day of April 2019 by

No. 0495 P. 2

- 14. If the proposed groundwater point of diversion is 300 or fewer feet from the existing point of diversion, complete the following:
 - (a) Does the undersigned represent all owners of the currently authorized place(s) of use identified in this application?
 - (b) Will the ownership interest of any owner of the currently authorized place(s) of use identified in this application be adversely affected if this application is approved as requested?
 Yes No (If yes, all owners/must sign this application.)
 - (c) If this application is not approved expeditiously, will there be substantial damage to property, public health or safety?

If the application proposes a surface water change in point of diversion, a groundwater change in point of diversion greater than 300 feet, or a change in place of use, the application must be signed by all owners of the currently authorized place of use, or their duly authorized agent (attach notarized statement authorizing representation).

I hereby verify, being first duly sworn upon my oath or affirmation and under penalty of perjury, that I am of lawful age and the owner, the spouse of the owner, or a duly authorized agent of the owner(s) to make this application on their behalf, in regards to the water right(s) to which this application pertains. I further verify that the statements contained in this application are true, correct and complete.

ONLY COMPLETE APPLICATIONS WILL BE PROCESSED. To be complete, all of the applicable portions of the application form must be completed with accurate information; maps, if necessary, must be included; signatures of all the appropriate owners' must be affixed to the application and notarized; and the appropriate fee must be paid.

FEE SCHEDULE

Each application to change the place of use or the point of diversion under this section shall be accompanied by the application fee set forth in the schedule below: Make checks payable to: Kansas Department of Agriculture

(1)	Application to change a point of diversion 300 feet or less	\$100
(2)	Application to change a point of diversion more than 300 feet	\$200
(3)	Application to change the place of use	\$200

- 14. If the proposed groundwater point of diversion is 300 or fewer feet from the existing point of diversion, complete the following:
 - (a) Does the undersigned represent all owners of the currently authorized place(s) of use identified in this application? (If no, all owners must sign this application.) Yes No No
 - (b) Will the ownership interest of any owner of the currently authorized place(s) of use identified in this application be adversely affected if this application is approved as requested? Yes

(If yes, all owners must sign this application.) No No

(c) If this application is not approved expeditiously, will there be substantial damage to property, public health or safety? (If no, all owners must sign this application.) ☐ Yes 🗌 No

If the application proposes a surface water change in point of diversion, a groundwater change in point of diversion greater than 300 feet, or a change in place of use, the application must be signed by all owners of the currently authorized place of use, or their duly authorized agent (attach notarized statement authorizing representation).

I hereby verify, being first duly sworn upon my oath or affirmation and under penalty of perjury, that I am of lawful age and the owner, the spouse of the owner, or a duly authorized agent of the owner(s) to make this application on their behalf, in regards to the water right(s) to which this application pertains. I further verify that the statements contained in this application are true, correct and complete.

FEE SCHEDULE

Each application to change the place of use or the point of diversion under this section shall be accompanied by the application fee set forth in the schedule below: Make checks payable to: Kansas Department of Agriculture

(1)	Application to change a point of diversion 300 feet or less	\$100
(2)	Application to change a point of diversion more than 300 feet	\$200
(3)	Application to change the place of use	\$200

SUMMARY ORDER APPROVING APPLICATION FOR CHANGE AND IMPOSING CONDITIONS

This Summary Order is issued under authority of K.S.A. 82a-708b, as amended, and K.A.R. 5-5-1, *et seq.* and other applicable provisions of the *Kansas Water Appropriation Law, K.S.A. 82a-701 et. seq.*, and rules and regulations promulgated thereunder, With the exception of those conditions expressly contained herein, this Summary Order does not change the terms, conditions and limitations of File No.

- 2. On and after the effective date of this summary order, the authorized place(s) of use shall be located substantially as shown on the topographic map accompanying the application to change the place of use. Applicable
- 3. The change in point of diversion shall not impair existing rights and shall be limited to the same source or sources of water as previously authorized. The point of diversion authorized by this summary order shall be located within a _____ foot radius of the authorized point(s) of diversion. Applicable
- 4. The point(s) of diversion described herein is administratively corrected to be more accurately described using the Global Positioning System (GPS), as described in the application.
- 5. The point(s) of diversion authorized herein shall not actually be located more than ______ feet from the previously authorized point(s) of diversion. ____ Applicable ____ Not Applicable
- 6. As required by K.A.R. 5-3-5d, if the works for diversion is a well with a diversion rate of 100 gallons per minute or more, a tube or other device suitable for making water level measurements shall be installed, operated and maintained in accordance with K.A.R. 5-6-13. Applicable Not Applicable
- 7. The owner of the authorized place(s) of use shall properly install an acceptable water flow meter on or before December 31, 20 9, or before the first use of water, whichever occurs first. The water flow meter shall be installed, operated and maintained in accordance with K.A.R. 5-1-4 through 5-1-12. As required by K.S.A. 82a-732, as amended, and K.A.R. 5-3-5e, the owner shall maintain records and report the reading of the water flow meter and the total quantity of water diverted annually to the Chief Engineer by March 1 following the end of each calendar year.
- 8. Installation of the works for diversion of water shall be completed on or before December 31, 20_17, or within any authorized extension of time. By March 1, 20_20 the applicant shall notify the Chief Engineer that construction of the works for diversion has been completed, on the form provided by the Chief Engineer, as required by K.A.R. 5-8-4e.
 Applicable
- 9. The completed well log shall be submitted with the required notice.

Not Applicable

- 10. All diversion works into which any type of chemical or other foreign substance will be injected into the water shall be equipped with an in-line, automatic, quick-closing check valve capable of preventing pollution of the source of the water supply. The check valve(s) shall be installed, operated and maintained in accordance with K.A.R. 5-3-5c. Applicable Not Applicable
- 11. Additional Conditions are attached. 🛛 Yes 🗌 No
- 12. In accordance with K.S.A. 82a-708a, as amended, and K.A.R. 5-5-14, all of the owners of the authorized place(s) of use of water appropriated under the above-referenced file number are responsible for compliance with its terms, conditions and limitations, as amended and/or supplemented by this Summary Order, and with applicable provisions of the Kansas Water Appropriation Law and the Rules and Regulations promulgated thereunder. Failure to comply with these provisions may result in civil penalties pursuant to K.S.A. 82a-737, as amended, and/or the suspension or revocation and dismissal of the water or appropriation right or any other enforcement actions authorized by law.

Administrative Appeal and Effective Date of Order

If you are aggrieved by this order, pursuant to K.S.A. 82a-1901, you may request an evidentiary hearing before the Chief Engineer or request administrative review by the Secretary of Agriculture. A request for hearing by the Chief Engineer must be filed within **15 days** of service of this Order and a request for administrative review by the Secretary must be filed within **30 days** pursuant to K.S.A. 77-531. Any request for administrative review must state a basis for review pursuant to K.S.A. 77-527. File any request with Kansas Department of Agriculture, Legal Division, **1320 Research Park Drive, Manhattan, KS 66502.** Failure to timely request a hearing or review may preclude review under the Kansas Judicial Review Act.

RE:

E: Application for Change in Point of Diversion Water Right, File Nos. 38933

Dear Mike:

We have assisted and reviewed the application for the above referenced water right. The proposed change in point of diversion is in accordance with current area rules, K.A.R. 5-23-3, as it pertains to distance moved and minimum spacing to neighboring wells. There are no wells within a half mile of the proposed location and the wells within a mile are operated by the same person.

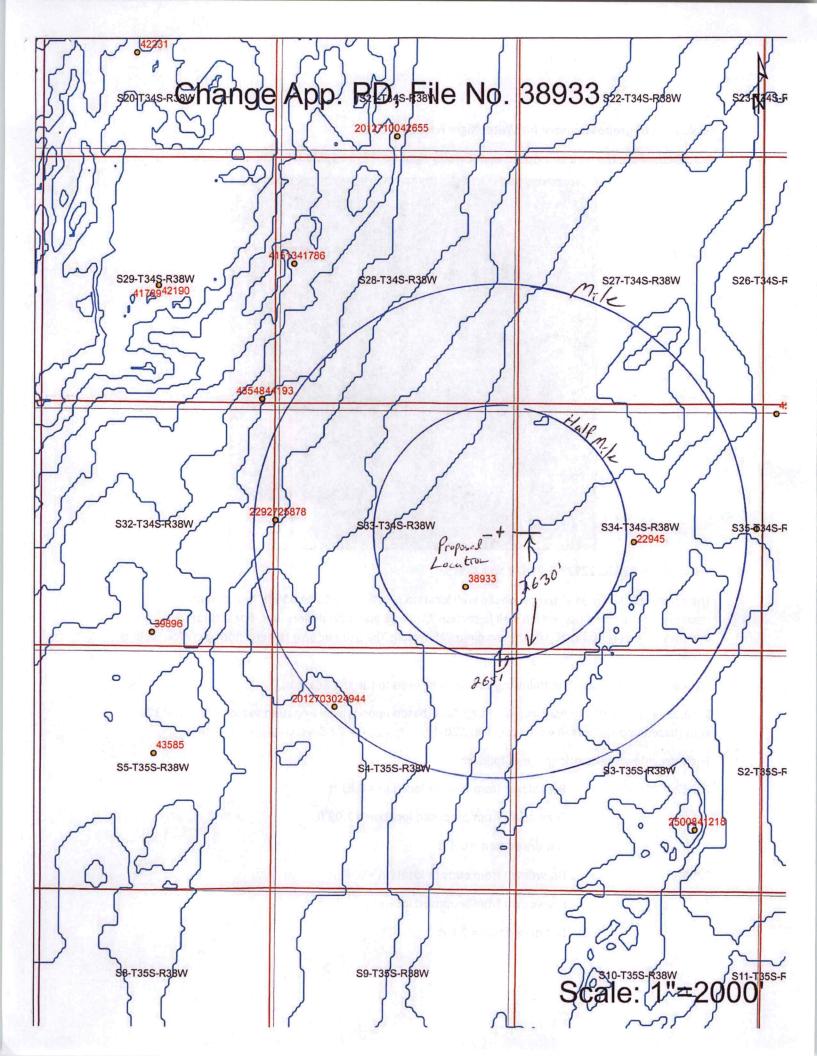

Well evaluations were conducted to estimate possible effects of the proposal on the supply of other wells with water rights prior to the proposal per K.S.A. 82a-708b, and the draft revised management program. Under K.S.A. 82a-708b, an applicant requesting a change in point of diversion must demonstrate to the chief engineer that any proposed change is reasonable and will not impair. The enclosed report is an analysis performed by the GMD on behalf of the applicant. Under this analysis, the proposed change is considered to be reasonable and unlikely to impair if either the net in-season well-to-well effect of the proposed change is less than a strict maximum allowable threshold (4 ft in cases where saturated thickness is greater than 200 ft), or if no well with a net well-to-well effect exceeding the threshold is identified as critical. Critical wells are identified as wells that are expected to either lose or greatly diminish water supply over the next 25 years. The attached review information is based on a Theis analysis using inputs from the GMD3 aquifer model, which is considered to be the best information on well and aquifer data readily and easily available to the public. If either the applicant or the neighbors believe they have better data that might change the result of the analysis, they should contact GMD3. Conclusions of the well analysis may change if better information on well and aquifer data can be made available.

Every neighboring well within 1 mile of the proposed move was evaluated. Evaluations showed that in no case did the net effect on neighboring wells exceed the 4.0 ft maximum allowable threshold. Therefore, GMD3 sees this move as reasonable and unlikely to impair neighboring wells. It is therefore recommended that the applications be approved.

Thank you for the opportunity to review the applications and to provide a recommendation. If you have any questions, please don't hesitate to contact us.

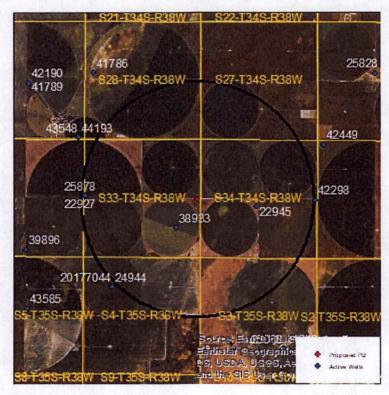

Sincerely, lorque Jason L. Norquest Assistant Manager

Working Water Conservation Every Day Since 1976

Evaluation of proposed move for Water Right No 38933

Proposed: Move the well authorized under water right no. 38933 1,621 ft to the northeast.

Wells within 1 mile: 22927 & 25878 and 22945.

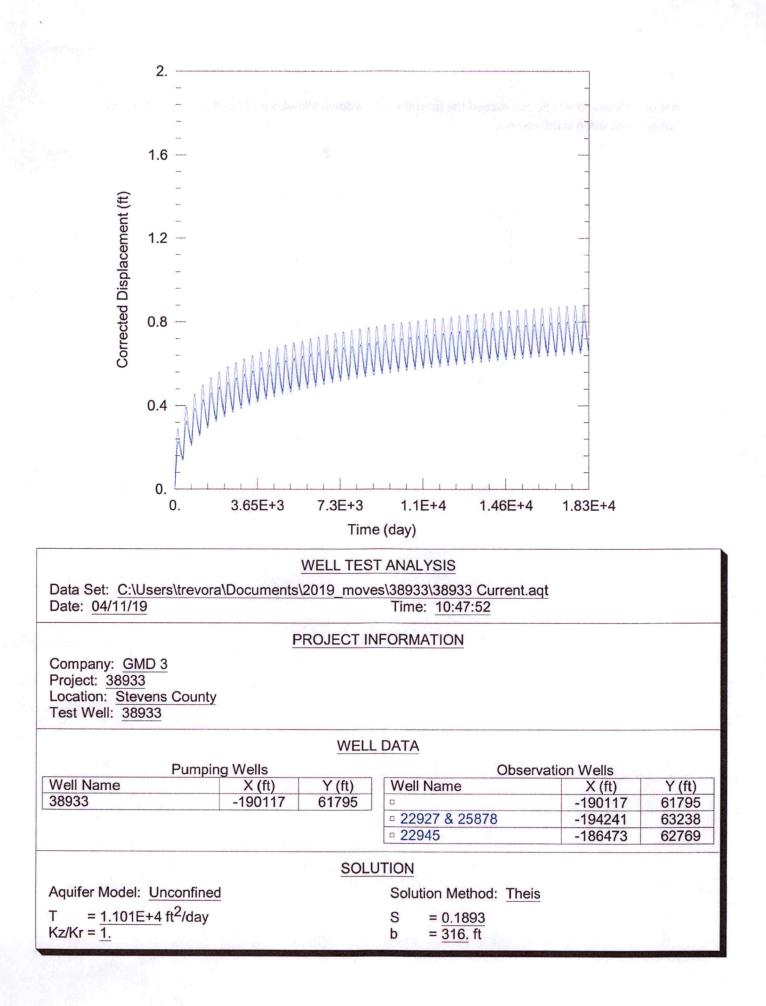

The saturated thickness at the proposed well location is estimated to be 316 ft, based upon measurement at the observation well in section 21-34-38 and local drillers logs. For saturated thicknesses greater than 200 ft, the maximum allowable Theis drawdown to neighboring critical wells is 4.0 ft.

50 year Theis Analysis: The following values were used to run the analysis:

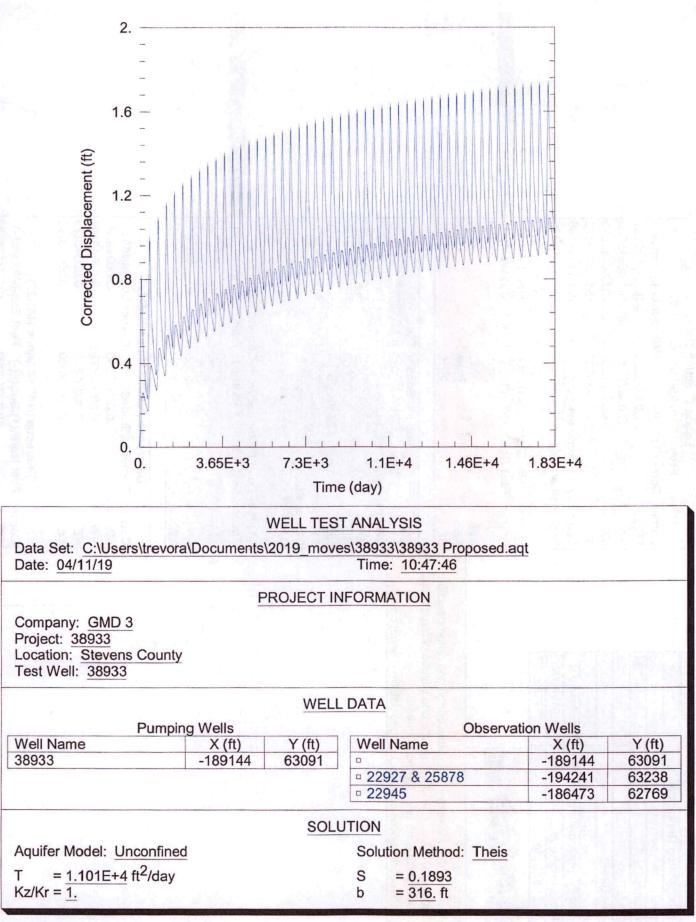

S = 0.1893, T = 11,014 ft²/day, tp_{current} = 120 days (based upon typical irrigation season), Q_{current} = 329 gpm (based upon reported water use over 120 days), tp_{proposed} = 77 days, Q_{proposed} = 760 gpm.

Theis drawdown calculations are as follows:

22927 & 25878:	Drawdown from current location = 0.81 ft
	Drawdown from proposed location = 1.09 ft
	Net drawdown = 0.3 ft
22945:	Drawdown from current location = 0.88 ft
	Drawdown from proposed location = 1.75 ft
	Net drawdown = 0.9 ft

Net drawdown effects do not exceed the maximum drawdown allowance of 4.0 ft on any well, so no further evaluation is necessary.

Load Data and Compute

Instructions

- 1. Enter values for section, township, range and range direction.

- 2. Enter NAD27 or NAD83 longitude and latitude of target point.
 3. Click "Load Data and Compute" button.
 4. Use feet distances corresponding to datum of target point.

Mike, this is the deed to the ground for the applications I am working on for Shannon Crawford, water right 38933. He is sending you the applications for a redrill. If you don't get all the info like my cover letter and the well evaluations, just let me know and I will get them to you. This one should be easy enough, let me know if there are questions.

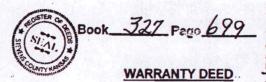

Thanks and have a good weekend.

Jason Norquest

STATE OF KANSAS SS COUNTY OF STEVENS This instrument was filed for record on the 22 day of feature fAD. 20 /9 at 5-aco'clock M. and duly recorded in Book 327 on page 699 Fee \$38 -Register of Deeds

GALEN A. BRECHEISEN and TRACY L. BRECHEISEN, husband and wife;

CONVEY AND WARRANT TO

GREGORY W. MORRIS and SHERRYL J. MORRIS, as joint tenants with rights of survivorship and not as tenants in common;

all of the following real estate in the County of Stevens, State of Kansas, to wit:

The surface and surface rights only, including all water rights, in and to the Southeast Quarter (SE/4) of Section Thirty-three (33), Township Thirty-four (34) South, Range Thirty-eight (38) West of the 6^{th} p.m.

EXCEPTING AND RESERVING unto the Grantors, as their interests appears of record, all of the Grantors' right, title and interest in and to all of the oil, gas and other minerals, lying in and under or that may be produced from the above described real estate;

for the sum of Ten Dollars and No/100 (\$10.00), and other valuable consideration, receipt of which is hereby acknowledged.

EXCEPT and SUBJECT TO: mineral reservations, oil and gas leases, easements, rightsof-way and restrictions of record, if any, insofar as the same are valid.

Dated: Februar + 24:2019.

Entered in Transfer Record by my office this day of A.D. 20 County Clerk
