RE: Field Office Application for Change
Water Right, File No. 9410

Dear Sir:

Enclosed is an order executed by the designee of the Chief Engineer, Division of Water Resources, Kansas Department of Agriculture, approving the application for change under the above referenced file number.

Your attention is directed to the enclosures and to the terms, conditions, and limitations specified in these approvals for change. A condition of these approvals is that an acceptable water flow meter must be installed on the diversion works authorized under the referenced file number and meet current specifications. Please return the required notification of completion of the diversion works and installation of the required meter as soon as these actions are completed.

Since the order modifies the original document referred to above, it should be recorded with the Register of Deeds as other instruments affecting real estate.

The abandoned well must be plugged in accordance with the requirements of Article 30 of the Rules and Regulations as adopted by the Kansas Department of Health and Environment.

Should you have any questions, please feel free contact this office. If you would prefer, you could arrange an appointment for additional assistance.

Sincerely,

A handwritten signature in blue ink that reads "Michael A. Meyer".

DWR FIELD OFFICE APPLICATION FOR APPROVAL TO CHANGE THE PLACE OF USE AND/OR THE POINT OF DIVERSION

STATE OF KANSAS

Filing Fee Must Accompany the Application, K.S.A. 82a-708b(b), as amended.
 Fee Schedule is on the third page of this application form.

Paragraph Nos. 1, 2, 3 & 5 must be completed. Complete all other applicable portions. If change in point of diversion is greater than 100 feet, or if place of use will be changed, include a topographic map or detailed plat showing the authorized and proposed point(s) of diversion and/or place of use.

7. The changes herein are desired for the following reasons?
 (please be specific) _____

8. If a well, is the test hole log attached? Yes No
9. The change(s) (was)(will be) completed by?
As soon as possible
10. If the point of diversion is a well:
 (a) What are you going to do with the old well?
plug
 (b) When will this be done? As soon as possible
11. Groundwater Management District recommendation attached?
 Yes No
12. Assisted by CI, GCFO

- 13a. If the proposed point of diversion will be relocated more than 300 feet but within 2,640 feet of the existing point of diversion, attach a topographic map or aerial photograph. For groundwater sources, show all wells (including domestic) within one-half mile of the proposed point of diversion and the names and mailing addresses of the owners. For surface water sources, show the names and addresses of the landowner(s) one-half mile downstream and one-half mile upstream from your property lines
- 13b. If the proposed point of diversion will be relocated within a 300 foot radius of the existing point of diversion, indicate its location on the diagram shown above in relation to the existing point of diversion. The proposed point of diversion must be located within the circle shown above. **(PLEASE NOTE: The "X" in center of diagram above represents the presently authorized point of diversion.)**

14. If the proposed groundwater point of diversion is 300 or fewer feet from the existing point of diversion, complete the following:
- (a) Does the undersigned represent all owners of the currently authorized place(s) of use identified in this application?
 Yes No (If no, all owners must sign this application.)
 - (b) Will the ownership interest of any owner of the currently authorized place(s) of use identified in this application be adversely affected if this application is approved as requested?
 Yes No (If yes, all owners must sign this application.)
 - (c) If this application is not approved expeditiously, will there be substantial damage to property, public health or safety?
 Yes No (If no, all owners must sign this application.)

If the application proposes a surface water change in point of diversion, a groundwater change in point of diversion greater than 300 feet, or a change in place of use, the application must be signed by all owners of the currently authorized place of use, or their duly authorized agent (attach notarized statement authorizing representation).

I hereby verify, being first duly sworn upon my oath or affirmation and under penalty of perjury, that I am of lawful age and the owner, the spouse of the owner, or a duly authorized agent of the owner(s) to make this application on their behalf, in regards to the water right(s) to which this application pertains. I further verify that the statements contained in this application are true, correct and complete.

Dated at Wichita, Kansas, this 18th day of August, 2023.

RE: Application for Change in Points of Diversion
Water Right, File No. 9410

Dear Mike:

We have completed a review of the application for the above referenced water right. The proposed change in point of diversion is in accordance with current area rules, K.A.R. 5-23-3, as it pertains to minimum spacing to neighboring wells and distance moved.

Well evaluations were conducted to estimate possible effects of the proposal on the supply of other wells with water rights prior to the proposal per K.S.A. 82a-708b, and the management program. Under K.S.A. 82a-708b, an applicant requesting a change in point of diversion must demonstrate to the chief engineer that any proposed change is reasonable and will not impair. The enclosed report is an analysis performed by the GMD on behalf of our membership. Under this analysis, the proposed change is considered to be reasonable and unlikely to impair if either the net in-season well-to-well effect of the proposed change is less than a strict maximum allowable threshold (4.0 ft with saturated thickness is greater than 200ft), or if no well with a net well-to-well effect exceeding the threshold is identified as critical. Critical wells are identified as wells that are expected to either lose or greatly diminish water supply over the next 25 years. The attached review information is based on a Theis analysis using inputs from the GMD3 aquifer model, which is considered to be the best information on well and aquifer data readily and easily available to the public. If either the applicant or the neighbors believe they have better data that might change the result of the analysis, they should contact GMD3. Conclusions of the well analysis may change if better information on well and aquifer data can be made available.

Every neighboring well within 1 mile of the proposed move was evaluated. Evaluations showed that none of the neighboring wells exceeded the net effect above the maximum allowable threshold and needed no further evaluation. No critical wells were determined in the area. We did not receive any comments from neighboring well owners. Therefore, GMD3 sees this move as meeting current area rules and would recommend approval. If aquifer conditions change or there is a change to the water right in the future, we would be happy to evaluate the effects at that time.

Thank you for the opportunity to review the applications and to provide a recommendation. If you have any questions, please don't hesitate to contact us.

Sincerely,

Jason L. Norquest
Assistant Manager

Average reported use (2013-2022: 413.2AF/year

Reported 600gpm on 2017 WUR

2021 GMD3 inspection calculated 418gpm.

Current well listed at depth of 416'

Proposed well to be 456'

GMD3 Change Review

Is a waiver needed: Move is less than half mile. Minimum spacing to neighboring wells appears met. The one neighboring was of maximum effects but further calculation showed it was not a critical well.

Recommendation: After review of available information, it appears current area rules are met. Staff therefore recommends approval of the application.

9410
29840

Evaluation of proposed move for Water Right No. 9410

Proposed: Move water right no. 9410 to a new well location, 1,858 ft to the southeast.

Wells within 1 mile: 29840

The saturated thickness at the proposed well location is estimated to be 214 ft, based upon the GMD3 model. For saturated thickness greater than 200 ft, the drawdown allowance is 4.0 ft.

50 year Theis Analysis: The following values were used to run the analysis:

$S = 0.2371$, $T = 12,584 \text{ ft}^2/\text{day}$, $t_{p\text{current}} = 244 \text{ days}$, $Q_{\text{current}} = 418 \text{ gpm}$, $t_{p\text{proposed}} = 224 \text{ days}$,
 $Q_{\text{proposed}} = 2000 \text{ gpm}$

Theis drawdowns were calculated as follows:

29840: Drawdown from current location = 1.89 ft
 Drawdown from proposed location = 7.27 ft
 Net drawdown = 5.4 ft

Net drawdown exceeds the drawdown allowance for neighboring water right no. 29840. Critical well analysis is necessary on that well.

RECEIVED

SEP 18 2023

Garden City Field Office
Division of Water Resources

Critical Well Evaluation:

29840:

Water Column = 214 ft

DP = 5.4 ft (Net drawdown from the proposal indicated above)

DE = 39.3 ft (Water level decline from 2023 through 2048 based upon GMD3 model)

DD = 34.0 ft ($S = 0.2371$, $T = 12,584 \text{ ft}^2/\text{day}$, $Q = 1284 \text{ gpm}$, $t_p = 35 \text{ days}$, efficiency = 70%)

DT = 78.7 ft

Economic Drawdown Constraint (EDC) = $0.4 * 214 \text{ ft} = 85.6 \text{ ft}$

Physical Drawdown Constraint (PDC) = $214 \text{ ft} - 60 \text{ ft} = 154 \text{ ft}$

Total drawdown of 78.7 ft is less than the EDC and the PDC, so this well is **not critical**.

Conclusion:

The proposed move is in an area with strong aquifer characteristics and more than 200 ft of remaining saturated thickness. The water right being moved allocates 1381 AF of water at 2000 gpm, and the analysis was run at that rate and quantity. If the well operates at its fully authorized rate and quantity, the drawdown effect on neighboring water right no. 29840 will exceed 4 ft. Critical well analysis shows this well to not be critical because the rate of decline in the area, after accounting for the additional effects of the proposed move, do not exceed 40% over the next 25 years, and there appears to be sufficient saturated thickness to sustain water use. Concerned neighbors should contact GMD3 at (620) 275-7147 or the Division of Water Resources at (620) 276-2901.

Re: Field Office Application for Change
Water Right, File No. 9410

Dear Sir:

This is to advise you that Sarah Ellen Collingwood Feiertag Trust has filed an application for approval of the Chief Engineer, Division of Water Resources, Kansas Department of Agriculture, for change the point of diversion under the above referenced application.

You can find the complete application posted by water right file number as referenced above at www.agriculture.ks.gov/divisions-programs/dwr/water-appropriation/notices

You are notified of this proposal so that you may furnish this office with any comments or other information you may want to submit. Such comments or other information must be received in this office within 15 days from the date of this letter.

Should you have any questions, please feel free to call this office. If you would prefer, an appointment could be arranged for additional assistance. Please refer to the file number when you contact us if you wish to discuss a specific file.

Sincerely,

Sincerely,

A handwritten signature in black ink that reads "Michael A. Meyer". The signature is written in a cursive style with a long horizontal line extending to the right.
