RE: Field Office Application for Change  
Water Right, File No. 15305

Dear Sir:

Reference is made to the application for approval of the Chief Engineer to change the point of diversion under the above referenced file number which was received in this office on November 17, 2023.

On November 18, 2024, the application for approval of the Chief Engineer to change the point of diversion was returned to you and, at that time, you were advised that the application was to be returned to this office, with the requested additional information, no later than December 10, 2024.

Since the application with the requested additional information was not returned to this office by December 10, 2024, the application for approval of the Chief Engineer to change the point of diversion under the above referenced file number is herewith **dismissed** in accordance with the law.

This document serves as final agency action. If you choose to appeal this decision or any finding or part thereof, you must do so by filing a petition for review in the manner set forth with the enclosed Certificate of Service.

If you have any questions, please contact this office at 620-276-2901. If you call, please reference the file number so we can help you more efficiently.

Sincerely,

A handwritten signature in black ink, appearing to read "Michael A. Meyer".

Michael A. Meyer  
Water Commissioner

MAM:  
Enclosure(s)

SCANNED

## **RIGHT TO PETITION FOR REVIEW UNDER THE KANSAS JUDICIAL REVIEW ACT**

This is a final agency action as defined in K.S.A. 77-607(b). You may pursue judicial review of this Order as provided in the Kansas Judicial Review Act, K.S.A. 77-601 et seq. A petition for judicial review must be filed in a Kansas court of competent jurisdiction within 30 days after service of this Order as provided in K.S.A. 77-613. The agency officer designated to receive service of a petition for judicial review on behalf of the Kansas Department of Agriculture is the Chief Legal Counsel, Kansas Department of Agriculture, 1320 Research Park Dr. Manhattan, KS 66502.

## **CERTIFICATE OF SERVICE**

On this 10<sup>th</sup> day of December 2024, I hereby certify that the foregoing Order dated December 10, 2024, was mailed postage prepaid, first class, US mail to the following:

Original to:

HARTLAND FARMS

7. The changes herein are desired for the following reasons?  
 (please be specific) \_\_\_\_\_  
 \_\_\_\_\_  
 \_\_\_\_\_

8. If a well, is the test hole log attached?  Yes  No

9. The change(s) (was)(will be) completed by?  
ASAP

10. If the point of diversion is a well:  
 (a) What are you going to do with the old well?  
Cap  
 (b) When will this be done? As soon as approved

11. Groundwater Management District recommendation attached?  
 Yes  No

12. Assisted by mdf/GCFO

13a. If the proposed point of diversion will be relocated more than 300 feet but within 2,640 feet of the existing point of diversion, attach a topographic map or aerial photograph. For groundwater sources, show all wells (including domestic) within one-half mile of the proposed point of diversion and the names and mailing addresses of the owners. For surface water sources, show the names and addresses of the landowner(s) one-half mile downstream and one-half mile upstream from your property lines

13b. If the proposed point of diversion will be relocated within 300 feet of the existing point of diversion, indicate its location on the diagram shown above in relation to the existing point of diversion. (PLEASE NOTE: The "X" in center of diagram above represents the presently authorized point of diversion.)

14. If the proposed groundwater point of diversion is 300 or fewer feet from the existing point of diversion, complete the following:
- (a) Does the undersigned represent all owners of the currently authorized place(s) of use identified in this application?  
 Yes     No    (If no, all owners must sign this application.)
  - (b) Will the ownership interest of any owner of the currently authorized place(s) of use identified in this application be adversely affected if this application is approved as requested?  
 Yes     No    (If yes, all owners must sign this application.)
  - (c) If this application is not approved expeditiously, will there be substantial damage to property, public health or safety?  
 Yes     No    (If no, all owners must sign this application.)

If the application proposes a surface water change in point of diversion, a groundwater change in point of diversion greater than 300 feet, or a change in place of use, the application must be signed by all owners of the currently authorized place of use, or their duly authorized agent (attach notarized statement authorizing representation).

**I hereby verify, being first duly sworn upon my oath or affirmation and under penalty of perjury, that I am of lawful age and the owner, the spouse of the owner, or a duly authorized agent of the owner(s) to make this application on their behalf, in regards to the water right(s) to which this application pertains. I further verify that the statements contained in this application are true, correct and complete.**

Dated at Dumas, <sup>Texas</sup>~~Kansas~~, this 9<sup>th</sup> day of November, 2023.

I hereby certify that the foregoing application was signed in my presence and sworn to before me this 9<sup>th</sup> day of November, 2023.

Lisa Unruh  
Notary Public

My Commission Expires November 5, 2026.

**ONLY COMPLETE APPLICATIONS WILL BE PROCESSED.** To be complete, all of the applicable portions of the application form must be completed with accurate information; maps, if necessary, must be included; signatures of all the appropriate owners' must be affixed to the application and notarized; and the appropriate fee must be paid.

**FEE SCHEDULE**

Each application to change the place of use or the point of diversion under this section shall be accompanied by the application fee set forth in the schedule below: Make checks payable to: **Kansas Department of Agriculture**

(1) Application to change a point of diversion 300 feet or less .....	\$100
(2) Application to change a point of diversion more than 300 feet .....	\$200
(3) Application to change the place of use .....	\$200

14. If the proposed groundwater point of diversion is 300 or fewer feet from the existing point of diversion, complete the following:

- (a) Does the undersigned represent all owners of the currently authorized place(s) of use identified in this application?  
 Yes     No    (If no, all owners must sign this application.)
- (b) Will the ownership interest of any owner of the currently authorized place(s) of use identified in this application be adversely affected if this application is approved as requested?  
 Yes     No    (If yes, all owners must sign this application.)
- (c) If this application is not approved expeditiously, will there be substantial damage to property, public health or safety?  
 Yes     No    (If no, all owners must sign this application.)

If the application proposes a surface water change in point of diversion, a groundwater change in point of diversion greater than 300 feet, or a change in place of use, the application must be signed by all owners of the currently authorized place of use, or their duly authorized agent (attach notarized statement authorizing representation).

**I hereby verify, being first duly sworn upon my oath or affirmation and under penalty of perjury, that I am of lawful age and the owner, the spouse of the owner, or a duly authorized agent of the owner(s) to make this application on their behalf, in regards to the water right(s) to which this application pertains. I further verify that the statements contained in this application are true, correct and complete.**

**From:** Meyer, Mike [KDA]  
**Sent:** Wednesday, October 30, 2024 11:02 AM  
**To:** Justin Vyn  
**Subject:** RE: 2-25-36W kearny county

Pro rate would be you having 1540 GPM and Randy 660 GPM

The old well, would be "active" on our records as Randy's water right would be assigned to that well. it would be up to the "owner" of the actual well property to decide what to do with the physical well, but we would have that well as the official active point of diversion for the water right.

The November 17<sup>th</sup> date is just the deadline to have the application in proper form for consideration of approval. Potential once the rate is finalized for both water rights, I can approve the redrill at anytime and you would have thru next year to complete the new well if approved

Mike

Hi Mike thanks for the refresher on where we stand I have not been able to get ahold of Randy I have tried a few times. I was hoping to split the gpm in the same proportion as the acre feet which was 2/3 us and 1/3 his...

Also what would be my requirement on the old well? I assume I would need to plug and cap it according to regulations for that, or is this water right such that I could keep both wells active?

Also does the well need to be completed by Nov 17 or just started by then?

Thanks again

Good morning

Anymore thoughts on what you want to do with this well you share with randy.

So as a refresher

You have file no. 15305-authorized for 280 AF @ 1750 GPM

Randy water right File No. 24049-authorized for 120 AF @ 1060 GPM BUT limited to 2200 GPM when combined with your water right. (2200 GPM max for the well)

Therefore, options:

you claim the 1750 GPM, randy would have to agree to reduce his water right to 450 GPM

You and Randy agree to agree how to split the 2200 GPM

If Randy has 1060 GPM, you take the remainder of 1140 GPM. This will probably don't need Randy agreement as he would not lose anything and keeps face value of his water right. I would notify him of the right that you are agreeing with and approve your redrill

I can visit with Randy anytime also, to move this along

Recall our deadline is November 17, 2024 to hold the pending application.

FYI

*Mike*

Hi Mike I would like to apply for an extension on this well redrill permit up to one year from filing date, please let me know if that is approved, thank you!

On Jan 17, 2024, at 2:36 PM, Meyer, Mike [KDA] <Mike.Meyer@ks.gov> wrote:

Justin

What do you want to do with this redrill. I can hold it for another 30 days or so, or? Standard process is that we would send it back giving you 30 days to get ready to reduce the pumping rate or you reduce the pumping rate to make this application in proper form to approve the redrill. If it is not returned in 30 days with amendments then it would be dismissed.

Let me know

thanks

*Mike*

Good afternoon

Please review the application to change the point of diversion, File No. 15305. This is the justin vyn, randy hazlett shared well. recall recently the water right ownership was split up with a recent change approval, and now this file will unstack the pd overlap from file no. 24049 in order for justin to have his own well. in the past two wells, stacked to one well, now going back to two wells. Therefore, there is no additional well being proposed. Please also note that review has done to ensure the proposed point of diversion will not decrease the distance to the river channel by more than 10% of the distance between the river channel and the location of the point of diversion authorized under File No. 15305 on September 29, 1986. (IGUCA Order...language and requirements). The proposed location is within 2640 feet of the current authorized point of diversion.

Also, I have sent Randy a request to reduce his authorized rate, or to remove the limiting endorsement on the authorized rate to 450 GPM.

Let me know of any question

Please review and provide a recommendation within 15 days.

Thank you and have a happy holiday.

*Mike*

RE: Application for Change in Points of Diversion  
Water Right, File No. 15305

Dear Mike:

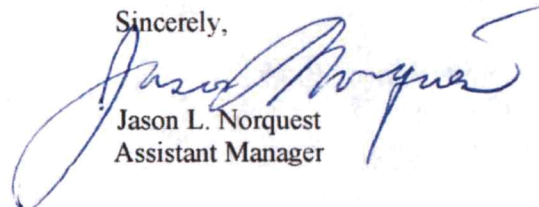

We have completed a review of the application for the above referenced water right. The proposed change in point of diversion is in accordance with current area rules, K.A.R. 5-23-3, as it pertains to minimum spacing to neighboring wells and distance moved. The change also complies with the IGUCA order in the area.

Well evaluations were conducted to estimate possible effects of the proposal on the supply of other wells with water rights prior to the proposal per K.S.A. 82a-708b, and the management program. Under K.S.A. 82a-708b, an applicant requesting a change in point of diversion must demonstrate to the chief engineer that any proposed change is reasonable and will not impair. The enclosed report is an analysis performed by the GMD on behalf of our membership. Under this analysis, the proposed change is considered to be reasonable and unlikely to impair if either the net in-season well-to-well effect of the proposed change is less than a strict maximum allowable threshold (4.0 ft with saturated thickness is greater than 200ft), or if no well with a net well-to-well effect exceeding the threshold is identified as critical. Critical wells are identified as wells that are expected to either lose or greatly diminish water supply over the next 25 years. The attached review information is based on a Theis analysis using inputs from the GMD3 aquifer model, which is considered to be the best information on well and aquifer data readily and easily available to the public. If either the applicant or the neighbors believe they have better data that might change the result of the analysis, they should contact GMD3. Conclusions of the well analysis may change if better information on well and aquifer data can be made available.

Every neighboring well within 1 mile of the proposed move was evaluated. Evaluations showed that none of the neighboring wells exceeded the net effect above the maximum allowable threshold and needed no further evaluation. No critical wells were determined in the area. We did not receive any comments from neighboring well owners. Therefore, GMD3 sees this move as meeting current area rules and would recommend approval. If aquifer conditions change or there is a change to the water right in the future, we would be happy to evaluate the effects at that time.

Thank you for the opportunity to review the applications and to provide a recommendation. If you have any questions, please don't hesitate to contact us.

Sincerely,

Jason L. Norquest  
Assistant Manager

## GMD3 Change Review

---

**Water rights were certified as individual wells and later stacked. This application will divide them out again and separate the ownership.**

**Location will be moved south 36' feet or more in order to keep the move under a half mile.**

**Paragraph 5 on 1986 order, amended paragraph 5 in 1987, IGUCA goes off where PD was located prior to 1986. In this case it was 2870N 2590W 2-25-36**

Is a waiver needed: Spacing more than met to neighboring wells. Analysis shows possible effects within guidelines, no critical wells.

Recommendation: After review of all available information, it appears current area rules are met. No comments at this time from Neighbor notices. Staff would recommend approval of the application.

ORDER

Now, therefore, it is the decision and order of the Chief Engineer, Division of Water Resources, Kansas State Board of Agriculture that the Order dated September 29, 1986, establishing the Intensive Groundwater Use Control Area in Hamilton, Kearny, Finney, Gray and Ford Counties, Kansas, shall be and is hereby amended to read as follows:

1. That paragraph 2, subparagraph f of the Order dated September 29, 1986 is hereby amended to read:

- f. any proposed appropriation from a new or existing well at a rate not in excess of 50 gallons per minute or such greater rate as the Chief Engineer determines is reasonable, and a quantity not to exceed 25 acre feet per calendar year, if in the judgment of the Chief Engineer approval is in the public interest, good cause is shown by the applicant and the applicant can show that there is no impairment to an existing right; that this exception does not apply to a proposed appropriation for an existing well which creates a diversion with a total quantity over 25 acre feet per calendar year for that well;

2. That paragraph 3 of the Order dated September 29, 1986 shall be amended to read:

That any application filed pursuant to the provisions of Paragraph No. 2, sub-paragraphs a through f of this Order, may be approved, modified, or rejected by the Chief Engineer; shall be subject to such terms, conditions and limitations as the Chief Engineer shall deem necessary in the public interest; and shall be processed on its own merit in accordance with the provisions of the Kansas Water Appropriation Act, the rules and regulations of the Division of Water Resources, the applicable policies of the Southwest Kansas Groundwater Management District No. 3 and any applicable administrative policies and procedures in effect in that area at the time the application was filed.

3. That paragraph 5 of the Order dated September 29, 1986 shall be amended to read:

That any approval of an application to change the point of diversion which was filed after the effective date of the Order issued September 29, 1986, shall not authorize a well location that will decrease the distance to the river channel by more than 10% of the distance between the river channel and the location of the point of diversion authorized on September 29, 1986.

4. That the Chief Engineer specifically retains jurisdiction in this matter with authority to make such changes in the boundaries of the IGUCA or the corrective control provisions which have been instituted or any other

VOL 68 PAGE 313

- d. any use which is non consumptive;
  - e. any use from a consolidated aquifer which is not hydrologically connected locally with the alluvial or Ogallala aquifers;
  - f. any proposed appropriation at a rate not in excess of 50 gallons per minute and a quantity not to exceed 25 acre feet per calendar year if in the judgment of the Chief Engineer approval is in the public interest, good cause is shown by the applicant and the applicant can show that there is no impairment to an existing right; that this exception does not apply to a proposed appropriation for an existing well which creates a diversion with a total rate over 50 gallons per minute or a total quantity over 25 acre feet per calendar year for that well;
3. That any application filed pursuant to the provisions of Paragraph No. 2, subparagraphs a through f of this Order, may be approved, modified, or rejected by the Chief Engineer and shall be subject to such terms, conditions and limitations as the Chief Engineer shall deem necessary in the public interest.
  4. That except as provided for in Paragraphs No. 2 and 3 of this Order, the Chief Engineer shall refuse, after the effective date of this Order, to accept any application for the appropriation of water with a proposed point of diversion within the IGUCA.
  - ★ 5. That any well within the IGUCA, authorized under an approved application to change the point of diversion, shall be drilled no closer to the river channel than the original location.
  6. That any new or replacement well located within the Lower Reach of the control area where a confining layer exists between the river alluvium and the Ogallala aquifer, shall be constructed so as to minimize the leakage between the alluvial aquifer and the Ogallala aquifer.
  7. That any application proposing to change the place of use for an existing right for irrigation use within the IGUCA, to a place of use for irrigation which lies outside of the IGUCA shall not be approved.
  8. That a test log shall be provided before approval of any application for a change in point of diversion, as well as for any application for a permit to appropriate groundwater, except for domestic and temporary uses.
  9. That the moratorium on approval of applications for permit to appropriate water for beneficial use in the moratorium area in Hamilton and Kearny

RE: Approval of Extension  
Water Right, File No. 15305

Dear Sir:

At your request, the Chief Engineer has extended, the initial time in which to supply the requested recommendation for the application for approval to change for the above referenced file.

As requested, we will delay any further action until **November 17, 2024**, which is one year after the original filing date of the pending application to change the point of diversion referenced under the existing water right.

Failure to have an application in proper form for processing by November 17, 2024, shall cause dismissal of the application for change under the above referenced file number.

Thank you and contact this office for any questions.

Sincerely,

A handwritten signature in black ink, appearing to read "Michael A. Meyer". The signature is fluid and cursive, with a long horizontal stroke at the end.

Re: Request for Recommendation  
Water Right, File No. 15305

Dear Mr. Norquest:

This is to advise you that Hartland Farms has filed applications for approval of the Chief Engineer, Division of Water Resources, Kansas Department of Agriculture, to change in point of diversion

We are delaying action on the change application to allow you time to review and provide a recommendation. Please submit a recommendation within 15 days from the date of this letter.

Thank you and as always feel free to contact this office at any time.

Sincerely,

A handwritten signature in blue ink that reads "Michael A. Meyer". The signature is fluid and cursive, with a long horizontal flourish extending to the right.

Michael A. Meyer  
Water Commissioner

RE: Application for Change  
Water Right, File No. 15305

Dear Sir:

Reference is made to application for approval of the Chief Engineer to change the point of diversion under the referenced file number, which was received in this office November 17, 2023. Upon review of the application, we find that additional information is needed.

It appears there is no agreement or requested by both landowners to divide the authorized diversion rate with the above reference file and Water Right, File No. 24049. The application has been held an entire calendar year with no resolution. Therefore, this application is being returned.

In order for the application retain its priority of filing the enclosed application must have signatures and requests from both landowners as referenced above for consideration of the authorized diversion rate and must be returned to this office on or before December 10, 2024.

According to law, default in the returning of the application and requested information as outlined above within the time allowed or any authorized extension of time, shall cause dismissal of the application for change under the above referenced file number.

If you have any questions, please contact our office. Please reference the water right file numbers listed above so that we may help you more efficiently.

Sincerely,

A handwritten signature in black ink, appearing to read "Michael A. Meyer".

Michael A. Meyer  
Water Commissioner
