RE:

Filed Office Application for Change

Water Right, File No. 27543

Dear Sir and Madam:

Enclosed are orders executed by the designee of the Chief Engineer, Division of Water Resources, Kansas Department of Agriculture, approving the application for change under the above referenced file number.

Your attention is directed to the enclosures and to the terms, conditions, and limitations specified in these approvals for change. A condition of this approval is that an acceptable water flow meter must be installed on the diversion works authorized under the referenced files number and meet current specifications.

Since the order modifies the original document referred to above, it should be recorded with the Register of Deeds as other instruments affecting real estate.

The abandoned well must be plugged in accordance with the requirements of Article 30 of the Rules and Regulations as adopted by the Kansas Department of Health and Environment.

Should you have any questions, please feel free contact this office. If you would prefer, you could arrange an appointment for additional assistance.

Sincerely,

Michael A. Meyer

Water Commissioner

MAM Enclosures

CERTIFICATE OF SERVICE

On this 4th day of April 2025, I hereby certify that the foregoing Approval of Application for Change in Point of Diversion, Water Right, File No. 27,543 dated 4th day of April 2025 was mailed postage prepaid, first class, US mail to the following:

RONNIE & JACQUELINE GIBSON 2198 RD 4 COPELAND, KS 67837
