TO: Files

DATE: July 12, 2016

FROM: Alex Whitesell

RE: Application, File No. 49,453

Ronnie has filed the above referenced application for a permit to appropriate water for beneficial use, proposing the appropriation of 100 acre-feet of groundwater from a battery of four (4) wells, for irrigation use in McPherson County.

On November 4, 2015, a copy of the application was sent to GMD No. 2 for recommendation. Extensions were granted to the GMD giving until March 1, 2016 to provide a recommendation.

In a letter dated February 26, 2016, the GMD recommended denial of the application due to the application being down gradient of the salt water plume of the Burrton IGUCA. Several other applications have recently been denied in the area.

The applicant appealed to the Board of Directors at their May 10, 2016 meeting which ended in a split vote and no decision. Staff recommendation of denial of the application still stood.

The applicant again appealed the decision at the June 21, 2016 GMD No. 2 meeting. The board voted to deny the application based on the Burrton IGUCA order dated June 1, 1984.

Based on the above discussion and the available information, it is recommended that the referenced application be dismissed.

FILE COPY

RE: Appropriation of Water
File No. 49,453

Dear Mr. Young:

Enclosed is the Findings and Order by the Chief Engineer, Division of Water Resources, Kansas Department of Agriculture, dismissing Application, File No. 49,453 for failure to comply with K.A.R. 5-23-4a & K.A.R. 5-23-4b .

This Order shall become a final agency action, as defined by K.S.A. 77-607(b), without further notice to the parties, if a request for hearing or a petition for administrative review is not filed as set forth below.

Request for Hearing. According to K.A.R. 5-14-3(c), any party who desires a hearing must submit a request within 15 days after the date shown on the Certificate of Service attached to this Order. Filing a request for a hearing will give you the opportunity to submit additional facts for consideration, contest any findings made by the Chief Engineer, or present any other information you believe should be considered in this matter. A timely-filed request for hearing will stay the deadline for requesting administrative review of this Order pending the outcome of the hearing.

Petition for Review. The applicant, if aggrieved by this Order, may petition for administrative review, pursuant to K.S.A. 82a-71 1(c) and K.S.A. 82a-1 90 1(a). The petition must be filed within 30 days after the date shown on the Certificate of Service attached to this Order and must set forth the basis for the review, unless stayed by the timely filing of a request for hearing. Any request for hearing or petition for administrative review shall be in writing and shall be submitted to the attention of: Chief Legal Counsel, Kansas Department of Agriculture, 1320 Research Park Drive, Manhattan, Kansas 66502, Fax: (785) 564-6777.

If you have any questions, please contact our office. If you wish to discuss a specific file, please have the file number ready so that we may help you more efficiently.

Sincerely,

Brent A. Turney, P.G.

**KANSAS DEPARTMENT OF AGRICULTURE**

Jackie McClaskey, Secretary of Agriculture

DIVISION OF WATER RESOURCES

David W. Barfield, Chief Engineer

**FINDINGS AND ORDER
IN THE MATTER OF THE
DISMISSAL OF APPLICATION
FILE NO. 49,453**

After due consideration, the Chief Engineer, Division of Water Resources, Kansas Department of Agriculture (hereinafter referred to as the "Chief Engineer"), makes the following findings and order:

FINDINGS

1. That on September 8, 2015, the Chief Engineer received an application from Ronnie L. Young for a permit to appropriate water for beneficial use, assigned File No. 49,453, proposing the appropriation of 100 acre-feet of groundwater for irrigation use. Information submitted with the application provided the specific location for one (1) well which would be located near the center of the Southeast Quarter (NC SE $\frac{1}{4}$) of Section 6, more particularly described as being near a point 1,320 feet North and 1,370 feet West of the Southeast corner of said section, in Township 24 South, Range 3 West, Harvey County, Kansas, within the Little Arkansas River drainage basin. The proposed point of diversion is located within the boundaries of the Burrton Intensive Groundwater Use Control Area (IGUCA) in Equus Beds Groundwater Management District No. 2 (GMD No. 2).
2. That on November 4, 2015, a copy of the application was submitted to GMD No. 2. Extensions were granted on December 9, 2015 and February 17, 2016, giving until March 1, 2016, to provide additional information.
3. GMD #2 recommended denial of the application in a letter received on February 26, 2016. In the letter they stated that on April 13, 2004 the Board of Directors, by approved motion, that all applications with a proposed point of diversion located in the Burrton IGUCA down gradient of maximum contamination areas of the salt water plumes would be denied, which was the case with 49,453.
4. That the applicant appealed the District's decision to the District Board of Directors who reviewed the application during their May 10, 2016 meeting. A motion was made to deny the appeal and recommend the application be denied. The motion failed with four directors voting for the motion and four directors voting against the motion. GMD No. 2 staff recommended that the original staff recommendation of denial still stand.
5. That applicant again appealed the District's decision to the District Board of Directors who reviewed the application during their June 21, 2016 meeting and decided to deny the appeal and recommend the application be denied as a GMD No. 2 final action regarding file no. 49,453
6. That no response of any kind has been received from the applicant for this application as of this date.
7. That the application should be denied and dismissed and its priority forfeited based on the recommendation of GMD No. 2 and for failure to meet the requirements of the Burrton IGUCA order dated June 1, 1984.

CERTIFICATE OF SERVICE

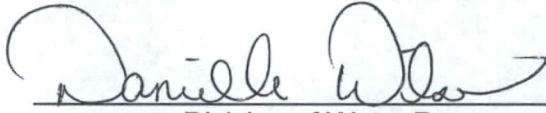

On this 20 day of July, 2016, I hereby certify that the foregoing Dismissal of Application, File No. 49,453, dated July 18, 2016, was mailed postage prepaid, first class, US mail to the following:

KS DEPT OF AGRICULTURE

To the Chief Engineer of the Division of Water Resources, Kansas Department of Agriculture,
109 SW 9th Street, Second Floor, Topeka, KS 66612-1283:

1. Name of Applicant (Please Print): Ronnie L. Young
Address: 28817 W. 125th St. N.
City: Burrton State KS Zip Code 67020
Telephone Number: (316) 667-2239

2. The source of water is: surface water in _____ (stream)
OR groundwater in Arkansas River Basin - Equus Bed Aquifer (drainage basin)

Certain streams in Kansas have minimum target flows established by law or may be subject to administration when water is released from storage for use by water assurance district members. If your application is subject to these regulations on the date we receive your application, you will be sent the appropriate form to complete and return to the Division of Water Resources.

3. The maximum quantity of water desired is 100 acre-feet OR _____ gallons per calendar year, to be diverted at a maximum rate of 800 gallons per minute OR _____ cubic feet per second.

Once your application has been assigned a priority, the requested maximum rate of diversion and maximum requested quantity of water under that priority number can **NOT** be increased. Please be certain your requested maximum rate of diversion and maximum quantity of water are appropriate and reasonable for your proposed project and are in agreement with the Division of Water Resources' requirements.

4. The water is intended to be appropriated for (Check use intended):
(a) Artificial Recharge (b) Irrigation (c) Recreational (d) Water Power
(e) Industrial (f) Municipal (g) Stockwatering (h) Sediment Control
(i) Domestic (j) Dewatering (k) Hydraulic Dredging (l) Fire Protection
(m) Thermal Exchange (n) Contamination Remediation

YOU **MUST** COMPLETE AND ATTACH ADDITIONAL DIVISION OF WATER RESOURCES FORM(S) PROVIDING INFORMATION TO SUBSTANTIATE YOUR REQUEST FOR THE AMOUNT OF WATER FOR THE INTENDED USE REFERENCED ABOVE.

For Office Use Only:							
F.O. <u>2</u>	GMD <u>2</u>	Meets K.A.R. 5-3-1 (YES / NO)	Use <u>IRR</u>	Source <u>G/S</u>	County <u>HV</u>	By <u>KAB</u>	Date <u>9/8/15</u>

Existing Well #45061 Submitting New Application

5. The location of the proposed wells, pump sites or other works for diversion of water is:

Note: For the application to be accepted, the point of diversion location must be described to at least a 10 acre tract, unless you specifically request a 60 day period of time in which to locate the site within a specifically described, minimal legal quarter section of land.

- (A) One in the ^{NE SE} _____ quarter of the _____ quarter of the _____ quarter of Section 6, more particularly described as being near a point 1320 feet North and 1320 feet West of the Southeast corner of said section, in Township 24 South, Range 3 East/West (circle one), Harvey County, Kansas.
- (B) One in the _____ quarter of the _____ quarter of the _____ quarter of Section _____, more particularly described as being near a point _____ feet North and _____ feet West of the Southeast corner of said section, in Township _____ South, Range _____ East/West (circle one), _____ County, Kansas.
- (C) One in the _____ quarter of the _____ quarter of the _____ quarter of Section _____, more particularly described as being near a point _____ feet North and _____ feet West of the Southeast corner of said section, in Township _____ South, Range _____ East/West (circle one), _____ County, Kansas.
- (D) One in the _____ quarter of the _____ quarter of the _____ quarter of Section _____, more particularly described as being near a point _____ feet North and _____ feet West of the Southeast corner of said section, in Township _____ South, Range _____ East/West (circle one), _____ County, Kansas.

If the source of supply is groundwater, a separate application shall be filed for each proposed well or battery of wells, except that a single application may include up to four wells within a circle with a quarter (1/4) mile radius in the same local source of supply which do not exceed a maximum diversion rate of 20 gallons per minute per well.

A battery of wells is defined as two or more wells connected to a common pump by a manifold; or not more than four wells in the same local source of supply within a 300 foot radius circle which are being operated by pumps not to exceed a total maximum diversion rate of 800 gallons per minute and which supply water to a common distribution system.

6. The owner of the point of diversion, if other than the applicant is (please print):

Ronnie L. & Judy Young 28817 W. 125th St. N. Burdett, KS. 67020
(name, address and telephone number)
316 667-2239
(name, address and telephone number)

You must provide evidence of legal access to, or control of, the point of diversion from the landowner or the landowner's authorized representative. Provide a copy of a recorded deed, lease, easement or other document with this application. In lieu thereof, you may sign the following sworn statement:

I have legal access to, or control of, the point of diversion described in this application from the landowner or the landowner's authorized representative. I declare under penalty of perjury that the foregoing is true and correct.

Executed on 9-4, 2015 Ronnie L Young
Applicant's Signature

The applicant must provide the required information or signature irrespective of whether they are the landowner. Failure to complete this portion of the application will cause it to be unacceptable for filing and the application will be returned to the applicant.

7. The proposed project for diversion of water will consist of one well (existing)
(number of wells, pumps or dams, etc.)
and (was)(will be) completed (by) existing well
(Month/Day/Year - each was or will be completed)

8. The first actual application of water for the proposed beneficial use was or is estimated to be existing well

WATER RESOURCES RECEIVED

SEP 08 2015

9. Will pesticide, fertilizer, or other foreign substance be injected into the water pumped from the diversion works?
 Yes No If "yes", a check valve shall be required.

All chemigation safety requirements must be met including a chemigation permit and reporting requirements.

10. If you are planning to impound water, please contact the Division of Water Resources for assistance, prior to submitting the application. Please attach a reservoir area capacity table and inform us of the total acres of surface drainage area above the reservoir.

Have you also made an application for a permit for construction of this dam and reservoir with the Division of Water Resources? Yes No

- If yes, show the Water Structures permit number here N/A
- If no, explain here why a Water Structures permit is not required N/A

11. The application must be supplemented by a U.S.G.S. topographic map, aerial photograph or a detailed plat showing the following information. On the topographic map, aerial photograph, or plat, identify the center of the section, the section lines or the section corners and show the appropriate section, township and range numbers. Also, please show the following information:

- (a) The location of the proposed point(s) of diversion (wells, stream-bank installations, dams, or other diversion works) should be plotted as described in Paragraph No. 5 of the application, showing the North-South distance and the East-West distance from a section line or southeast corner of section.
- (b) If the application is for groundwater, please show the location of any existing water wells of any kind within 1/2 mile of the proposed well or wells. Identify each existing well as to its use and furnish the name and mailing address of the property owner or owners. If there are no wells within 1/2 mile, please advise us.
- (c) If the application is for surface water, the names and addresses of the landowner(s) 1/2 mile downstream and 1/2 mile upstream from your property lines must be shown.
- (d) The location of the proposed place of use should be shown by crosshatching on the topographic map, aerial photograph or plat.
- (e) Show the location of the pipelines, canals, reservoirs or other facilities for conveying water from the point of diversion to the place of use.

A 7.5 minute U.S.G.S. topographic map may be obtained by providing the section, township and range numbers to: Kansas Geological Survey, 1930 Constant, Campus West, University of Kansas, Lawrence, Kansas 66047.

12. List any application, appropriation of water, water right, or vested right file number that covers the same diversion points or any of the same place of use described in this application. Also list any other recent modifications made to existing permits or water rights in conjunction with the filing of this application.

2. Please complete the following information for the description of the operation for the irrigation project. Attach supplemental sheets as needed.

a. Indicate the soils in the field(s) and their intake rates:

Soil Name	Percent of field (%)	Intake Rate (in/hr)	Irrigation Design Group
Noron FSL	100	1.0	7
_____	_____	_____	_____
_____	_____	_____	_____
Total:	100 %	_____	_____

b. Estimate the average land slope in the field(s): < 1 %
 Estimate the maximum land slope in the field(s): < 1 %

c. Type of irrigation system you propose to use (check one):

- Center pivot ___ Center pivot - LEPA ___ "Big gun" sprinkler
 ___ Gravity system (furrows) ___ Gravity system (borders) ___ Sideroll sprinkler
 Other, please describe: _____

d. System design features:

i. Describe how you will control tailwater:

ii. For sprinkler systems:

- (1) Estimate the operating pressure at the distribution system: _____ psi
- (2) What is the sprinkler package design rate? _____ gpm
- (3) What is the wetted diameter (twice the distance the sprinkler throws water) of a sprinkler on the outer 100 feet of the system? _____ feet
- (4) Please include a copy of the sprinkler package design information.

e. Crop(s) you intend to irrigate. Please note any planned crop rotations:

f. Please describe how you will determine when to irrigate and how much water to apply (particularly important if you do not plan a full irrigation).

You may attach any additional information you believe will assist in informing the Division of the need for your request.

Minimum Desirable Streamflow

Dear Sir:

I understand that a Minimum Desirable Streamflow requirement has been established by the legislature for the source of supply to which the above referenced application applies.

I understand that diversion of water pursuant to this application will be subject to regulation any time Minimum Desirable Streamflow requirements are not being met.

I also understand that if this application is approved, there could be times, as determined by the Division of Water Resources, when I would not be allowed to divert water. I realize that this could affect the economics of my decision to appropriate water.

I am aware of the above factors, and with the knowledge thereof, request that the Division of Water Resources proceed with processing and approval, if possible, of the above referenced application.

Dear Division of Water Resources/Alex Whitesell

I am notifying you that on application 49453 we attended the board of directors meeting on May 10, 2016 at our appeal. No decision was made at that meeting by the board of directors and they were unsure of how they were going to proceed. I am notifying you of this because the deadline is May 13, 2016. We are requesting an extension on this date so we can be informed by the board of directors or Tim Boese on what the next steps are.

Sincerely,

Ronnie Young

Re: Water Appropriation Application No. 49453

Dear Mr. Young:

The purpose of this correspondence is to advise you that the referenced water appropriation application is scheduled for review at the May 10, 2016, Board of Directors meeting of the Equus Beds Groundwater Management District.

The public meeting begins at 1:00 p.m. and will be held in the Equus Beds Groundwater Management District's conference room at 313 Spruce Street, Halstead, Kansas. A copy of the meeting agenda is enclosed for your information.

Please contact the District if you have any questions or need additional information.

Sincerely,

Re: Pending Application,
File No. 49,453

Dear Mr. Young:

This will acknowledge your March 31, 2016 letter, in which you request an extension of time to supply the Chief Engineer with additional information concerning the above referenced application.

The Chief Engineer has extended until May 13, 2016, the time in which to submit additional information to be considered before final action will be taken on your application.

If additional information is not supplied by the deadline, or any authorized extension of time thereof, the application will be submitted to the Chief Engineer for final action.

If you wish to request additional time, you must do so in writing, before the period expires. Such a request should state what steps are being taken to supply the requested information.

If you have any questions, please contact our office, my desk phone is (785) 564-6631. If you wish to discuss a specific file, please have the file number ready so that we may help you more efficiently.

Re: Water Appropriation Application No. 49453

Dear Mr. Young:

The Equus Beds Groundwater Management District No. 2 received your emailed Petition of Appeal on March 9, 2016 (original received by mail on March 14, 2016), in the matter of the District's February 26, 2016, recommendation of the above referenced application. The petition was found to be in proper form and that, pursuant to K.A.R 5-22-12(b)(4), you are a valid petitioner.

The District Board of Directors will hear the appeal at the next available Board meeting at the Equus Beds Groundwater Management District office, 313 Spruce Street, Halstead, Kansas. A notification of the meeting date and time, and a copy of the meeting agenda, will be forwarded to you once the agenda is set.

At the appeal hearing, the Board will permit the petitioner to present briefs and may afford any interested party the opportunity to present oral or written arguments, if appropriate.

Please contact the District if you have any questions or need additional information.

Sincerely,
EQUUS BEDS GROUNDWATER
MANAGEMENT DISTRICT NO. 2

RE: Application
File No. 49,453

Dear Mr. Young:

We have received a recommendation from the Equus Beds Groundwater Management District No. 2 that the referenced Application for Permit to Appropriate Water for Beneficial Use be denied. This recommendation has been based upon the groundwater management program adopted by the District and approved by the Chief Engineer, Division of Water Resources, Kansas Department of Agriculture.

We are advising you of this recommendation in order to allow you an opportunity to consult with the District regarding their recommendation if you have not already done so. If you have already contacted the District regarding this recommendation, then we are allowing you this opportunity to submit to this office any additional information you wish to have considered before the Chief Engineer.

We will delay any further action on the referenced application until **April 4, 2016**, at which time the application will be submitted to the Chief Engineer for a final decision.

If you have any questions, please contact our office at (785) 564-6640. If you call, please reference the file number so we can help you more efficiently.

Sincerely,

Kenneth A. Kopp, P.G.

Re: Application No. 49453 – Ronnie L. Young

Dear Mr. Kopp:

In response from a request from the Division of Water Resources, the Equus Beds Groundwater Management District No. 2 reviewed the referenced application on February 26, 2016.

The District's review found that the application is located within the Burrton Intensive Groundwater Use Control Area (IGUCA).

On April 13, 2004 the Board of Directors approved a motion to implement the following criteria to be used for future reviews of applications filed in the Burrton IGUCA:

- 1) Applications filed for proposed points of diversion located downgradient of the maximum contamination areas of the saltwater plumes shall **not** be recommended for approval; and
- 2) Applications filed for proposed points of diversion located upgradient of the maximum contamination areas of the saltwater plumes shall be reviewed on a case by case basis by the District Board of Directors to determine site specific effects on the aquifer and prior appropriations.

Staff review of the application found that the proposed point of diversion is downgradient of a maximum contamination area of a saltwater plume in the aquifer.

Based upon the review findings, the application is recommended for denial by the Equus Beds Groundwater Management District.

A District decision may be appealed to the District Board of Directors by submitting a written petition to the District office within 30 days from date of this notification, pursuant to K.A.R. 5-22-12. An appeal petition must state the basis for the appeal and must include information/documentation supporting the appeal.

Please contact the District should you have any questions regarding the review or recommendation.

Sincerely,
EQUUS BEDS GROUNDWATER

Re: Application
File No. 49453

Dear Sir or Madam:

This is to advise you that Ronnie L Young has filed the application referred to above for permit to appropriate 100 acre-feet of water per calendar year for Irrigation use to be diverted at a maximum rate of 800 gallons per minute from a well or wells located as follows:

one (1) well located near the center of the Southeast Quarter (SE $\frac{1}{4}$) of Section 6, more particularly described as being near a point 1320 feet North and 1320 feet West of the Southeast corner of said section, in Township 24 South, Range 3 West, Harvey County, Kansas.

Records in this office indicate that you may have a well or wells in this vicinity and you are notified of receipt of this application in order that you may be fully informed of the proposed location(s) of the applicant's point(s) of diversion and proposed use of water. Consideration will be given to comments or other information which you desire to submit to this office within 15 days from the date of this letter.

If you have any questions, please contact me at (785) 564-6634. If you call, please reference the file number so we can help you more efficiently.

Safe Yield Report Sheet

Proposed Water Right Application

Point of Diversion in SESEWSE 06-24S-03W

Burrton IGUCA

Analysis Results

The selected PD is in an area to new appropriations.
The safe yield, based on the variables listed below is 4,021.00 AF.
Total prior appropriation in the circle is 3,368.20 AF.
Total quantity of water available for appropriation is 652.80 AF.

Safe Yield Variables

The area used for the analysis is set at 8,042 acres.
Potential annual recharge of the area is estimated to be 6 inches.
The percent of recharge available for appropriation is 100%.

Authorized Quantity values are as of 08-OCT-2015 and are based on Appropriated and Vested ground water right and possible stream nodes for GMD #2. Domestic, Term and Temporary water rights have been excluded.

There are 28 water right(s) and 34 point(s) of diversion within the circle.

RE: Application
File No. 49453

Dear Sir or Madam:

Your application for permit to appropriate water in 6-24S-3W in Harvey County, was received and has been assigned the file number noted above.

As a matter of record, the Division of Water Resources has on hand a large number of applications awaiting processing. Therefore to be fair to all concerned, and so that we can process those applications on hand in the order they were received, we intend to concentrate on the backlog of applications until the issue is resolved. Once review of your application has begun, we will contact you, if additional information is required.

In accordance with the provisions of the Kansas Water Appropriation Act, a portion of which is included below, the use of water as proposed prior to approval of the application is unlawful. Once approved, compliance with the terms, conditions and limitations of the permit is necessary. Conservation of the water resources of Kansas is required.

Section 82a-728 of the Kansas Water Appropriation Act, provides (a) except for the appropriation of water for the purpose of domestic use, . . . it shall be unlawful for any person to appropriate or threaten to appropriate water from any source without first applying for and obtaining a permit to appropriate water in accordance with the provisions of the Water Appropriation Act or for any person to violate any condition of a vested right, appropriation right or an approved application for a permit to appropriate water for beneficial use.

(b) (1) The violation of any provision of this section by any person is a class C misdemeanor . . .

A class C misdemeanor is punishable by a fine not to exceed \$500 and/or a term of confinement not to exceed one month in the county jail. Each day that the violation occurs constitutes a separate offense.

If you have any questions, please contact me at (785) 564-6643. If you wish to discuss a specific file, please have the file number ready so that we may help you more efficiently.

Sincerely,

Brent Turney, L.G.
Change Application Unit Supervisor
