Re: Water Right, File No(s). 31545

Dear Water Right Owner:

Enclosed is the order executed by the Chief Engineer, Division of Water Resources, Kansas Department of Agriculture, approving the application for change under the above referenced file number(s).

Your attention is directed to the enclosures and to the terms, conditions and limitations specified in this approval for change. An acceptable water flow meter must be installed on your well before any water is applied as authorized under this change approval. A copy of the approved list of Certified Water Flowmeters as well as the regulations regarding the installation of flowmeters, measurement tubes and check valves can be found at <http://agriculture.ks.gov/divisions-programs/dwr/water-appropriation/water-flowmeters>. If you do not have access to the internet, please contact this office and we will send you a paper copy of the referenced information.

Since this order modifies the original document referred to above, it should be recorded with the Register of Deeds as other instruments affecting real estate.

Should you have any questions, please feel free to contact this office. If you wish to refer to a specific file, please reference it when you contact us.

Sincerely,

A handwritten signature in cursive script, appearing to read "Jeff Lanterman".

RE: Water Right, File No. 31545

An application for approval to change the authorized place of use under the above referenced water right was filed on June 9, 2017 by Larry Carr on behalf of Larry and Marlene Carr Trust. The change application was filed but was missing a signature on the associated place of use map. A letter was sent to Mr. Carr on June 12, 2017 requesting that a signed map be returned to the Stafford Field Office within 14 days.

On June 23, 2017 I called Mr. Carr to ensure that he received a copy of the map and to check on the status of the map signature. The map had been mailed and was received in the Stafford Field Office later on the morning of June 23, 2017.

During our phone conversation, Mr. Carr informed me that the end gun for this system had been removed. He also said that anti-reverse gears had been installed on the meter. I informed him that he would need to fill out a meter repair form and that I would send him one in the mail. The presence of an end gun and anti-reverse gears should be verified during the change/enforcement compliance inspection.

MEMORANDUM

TO: File

DATE: 6/23/2017

FROM: Tyler Saryerwinnie

RE: File No. 31,545

This is a memorandum regarding surrounding well owner notification on irrigation field office PU changes and pertains to decisions made during the Water Commissioner meeting which took place on 11/16/2016. With directive from Lane Letourneau Program Manager.

This is applicable to field office changes to increase the place of use by 10 acres or 10% (whichever is less) or a change in place of use to create a complete overlap in which no new acres are being irrigated.

During that meeting it was determined that no surrounding well owner notification will be sent under this type of Place of Use change. All well rates and quantities will remain unchanged and the referenced change will not cause impairment or impact surrounding well owners.

The change in place of use filed on 6/9/2017 for the above referenced file meets this criteria and surrounding well owners will not be notified.

RE: Water Right File No. 31545
Change in the Places of Use

Dear Mr. Saryerwinnie,

Big Bend Groundwater Management District #5 has reviewed the above referenced application to change the place of use. It is the understanding of the District that this change is intended to provide more efficient irrigation of the authorized acres. Therefore, the application appears to be consistent with 5-25-20(b) and is recommended for approval.

The application to change is subject to the District's well equipment regulation K.A.R. 5-25-5 for a required flow meter.

Please feel free to give me a call if you have any questions.

Sincerely,

Orrin Feril
