MEMORANDUM

TO: File

DATE: 4/13/2017

FROM: Tyler Saryerwinnie

RE: File No. 32149

This is a memorandum regarding surrounding well owner notification on irrigation field office PU changes and pertains to decisions made during the Water Commissioner meeting which took place on 11/16/2016.

This is applicable to field office changes to increase the place of use by 10 acres or 10% (whichever is less) or a change in place of use to create a complete overlap in which no new acres are being irrigated.

During that meeting it was determined that no surrounding well owner notification will be sent under this type of Place of Use change. All well rates and quantities will remain unchanged and the referenced change will not cause impairment or impact surrounding well owners.

The change in place of use filed on 4/10/2017 for the above referenced file meets this criteria and surrounding well owners will not be notified.

Re: Change in Place of Use Application No. 32149

Dear Sir or Madam:

The Equus Beds Groundwater Management District No. 2 made a recommendation to the Division of Water Resources that Change Application No. 32149 be approved. Pursuant to K.A.R. 5-22-4a, the wells described in the application must be equipped with District approved water flowmeters:

The wells are located:

One well in the Southeast quarter of the Northwest Quarter of the Southeast Quarter of Section 30, Township 24 South, Range 2 West, Harvey County; and

One well located in Lot 2 of Section 30, Township 24 South, Range 2 West, Harvey County.

The wells must be properly equipped with approved meters within 30 days after the approval of the change application and prior to operation of the well. If more time is needed to install the meters or modify an existing meter installation, you may request an extension of time. The request must be made to the District before the end of the 30-day period.

Enclosed are two Flow Meter Installation forms to be completed and returned to this office after completion of the meter installation or modification. A copy of the Division of Water Resources' meter installation notification form (Notice and Proof of Completion of Works) may be substituted for the District form. Upon receiving the completed forms, the District will inspect the installations.

Also enclosed is a copy of water meter and installation specifications. Water meters must meet these specifications and the list of certified water meters provided under K.A.R. 5-1-12, for District approval. The list of certified water meters can be obtained by contacting the District or at the following link: <http://agriculture.ks.gov/divisions-programs/dwr/water-appropriation/water-flowmeters>. If you have any questions about the District's metering program or the enclosed material, please contact the District for assistance.
