

NOTICE

This scan only represents the application as filed. The information contained herein meets the requirements of K.A.R. 5-3-1 or K.A.R. 5-5-1, and has been found acceptable for filing in the office of the Chief Engineer. The application should not be considered to be a complete application as per K.A.R. 5-3-1b or K.A.R. 5-5-2a.

Submit To: CHIEF ENGINEER
 Division of Water Resources
 Kansas Department of Agriculture
 1320 Research Park Drive
 Manhattan, Kansas 66502
 http://agriculture.ks.gov/dwr

**APPLICATION FOR APPROVAL TO
 CHANGE THE PLACE OF USE, THE
 POINT OF DIVERSION OR THE USE
 MADE OF THE WATER UNDER AN
 EXISTING WATER RIGHT**

Filing Fee Must Accompany the Application
 (Please refer to Fee Schedule on signature page of application form.)

Paragraph Nos. 1, 2, 3, 4 & 8 must be completed. Complete all other applicable portions. A topographic map or detailed plat showing the authorized and proposed points(s) of diversion and /or place of use must accompany this application.

1. Application is hereby made for approval of the Chief Engineer to change the

- (Check one or more)
- Place of Use
 - Point of Diversion
 - Use Made of Water

WATER RESOURCES

File No. 7980

2. Name of applicant: Westar Energy, Attn: Jared Morrison

Address: 818 S. Kansas Ave.

City, State and Topeka, KS 66612

Phone Number: (785)575-8273 E-mail address: Jared.Morrison@WestarEnergy.com

What is your relationship to the water right; owner tenant agent other? If other, please explain. _____

Name of water use correspondent: Westar Energy

Address: 818 S. Kansas Ave.

City, State and Zip: Topeka, KS 66612

Phone Number: (785)575-8273 E-mail address: Jared.Morrison@WestarEnergy.com

3. The change(s) proposed herein are desired for the following reasons (please be specific): Change the place of use from the Gordon Evans Steam Electric Station to the Gordon Evans Steam Electric Station and the ICM Inc. Ethanol Plant. Additionally, change the point of diversion of Well No. 9 to a new well to serve ICM and convert existing Well No. 9 to a standby a well.

The change(s) (was) (will be) completed by ASAP (Date)

For Office Use Only:

12. The presently authorized use of water is for industrial purposes.
It is proposed that the use be changed to industrial purposes.
13. If changing the place of use and/or use made of water, describe how the consumptive use will not be increased.
Use made of water is not being changed as the presently authorized use is industrial and the change will be to add a new Ethanol plant to the place of use and the water will be used for industrial use at the ethanol plant. The consumptive use will not be increased as the water will primarily be used for cooling purposes at the ethanol plant. The current water use at the Westar steam electric station is also primarily used for cooling purposes. The water will be discharged from the ethanol plant in the same vicinity water is discharged from the electric plant.
(Please show any calculations here.)
14. It is requested that the maximum annual quantity of water be reduced to NO CHANGE (acre-feet or million gallons).
15. It is requested that the maximum rate of diversion of water be reduced to NO CHANGE gallons per minute (____ c.f.s.).
16. The application must include either a topographic map or detailed plat. A U.S. Geological Survey Topographic Map, scale 1:24,000, is available through the Kansas Geological Survey, 1930 Constant Avenue, University of Kansas, Lawrence, Kansas 66047-3726 (www.usgs.gov). The map should show the location of the presently authorized point(s) of diversion. Distances North and West of the Southeast corner of the section must be shown. The presently authorized place of use should also be shown. Identify the center of the section, the section lines and the section corners and show the appropriate section, township, and range numbers on the map. In addition the following information must also be shown on the map.
- If a change in the location of the point(s) of diversion is proposed, show:
 - The location of the proposed point(s) of diversion. Distances North and West of the Southeast corner of the section must be shown. Please be certain that the information shown on the map agrees with the information shown in Paragraph Nos. 9, 10 and 11 of the application.
 - If the source of supply is groundwater, please show the location of existing water wells of any kind, including domestic wells, within ½ mile of the proposed well or wells. Identify each well as to its use and furnish name and mailing address of the property owner or owners. If there are no wells within ½ mile, please indicate so on the map.
 - If the source of supply is surface water, the names and mailing addresses of all landowner(s) ½ mile downstream and ½ mile upstream from your property lines must be shown.
 - If a change in the place of use is desired, show the proposed place of use by crosshatching on the map. Please be certain that the information shown on the map agrees with the information shown in Paragraph No. 5 of the application.
17. Attach documentation to show the change(s) proposed herein will not impair existing water rights and relates to the same local source of supply as to which the water right relates. This information may include statements, plats, geology reports, well logs, test hole logs, and other information as necessary information to show the above. Additional comments may be made below:
The change relates to same local source of supply – Equus Beds Aquifer. Existing water rights will not be impaired as the authorized rate and quantity are not being increased and minimum well spacing requirements to existing wells will be met. Additionally, the number of primary wells will remain at 16 wells and there will be one standby well.
18. If the proposed change(s) does not meet all applicable rules and regulations of the Kansas Water Appropriation Act, please identify the rules and regulations for which you request a waiver. State the reason why a waiver is needed and why the request should be granted. Attach documentation showing that granting the request will not impair existing water rights and will not prejudicially and unreasonably affect the public interest.
The change application will not comply with "Standby Well" definition K.A.R. 5-22-1(gg), as the standby well will not be within 300 feet of a primary well. The applicant will request an exception from the Equus Beds GMD2 Board, as it is not feasible to locate the standby well within 300 feet of a primary well and the standby well will serve all the primary wells.

IF MORE SPACE IS NEEDED, ATTACH ADDITIONAL SHEETS AS NECESSARY

Any use of water that is not as authorized by the water right or permit to authorize water before the chief engineer approves this application is a violation of the Kansas Water Appropriation Act for which criminal or civil penalties may be assessed. Such violation is a class C misdemeanor, punishable by a fine not to exceed \$500 and/or a term of confinement not to exceed one month in the county jail. K.S.A. 82a-728(b). Civil penalties shall be not less than \$100 nor more than \$1,000 per violation. In the case of a continuing violation, each day such violation continues may be deemed a separate violation. In addition to these penalties the water right may be modified or suspended. K.S.A. 82a-737, as amended.

The application must be signed by all owners of the place of use authorized under the water right and his or her spouse, if married. Please indicate if there is no spouse. If land is being purchased under contract, the seller must sign as landowner until such time as the contract is completed.

In the event that all applicants cannot appear before one notary public, they may as necessary sign separate copies of the application before any notary public conveniently available to them. All copies signed in this manner shall be considered to be valid parts of the application.

If the request is signed on behalf of any Owner by someone with legal authority to do so (for example, an agent, one who has power of attorney, or an executor, executrix, conservator), it will be necessary to attach proper documents showing such authority.

I declare that I am an owner of the currently authorized place of use as identified herein, or that I represent all such owners and am authorized to make this application on their behalf, and declare further that the statements contained herein are true, correct, and complete. By filing this application I authorize the chief engineer to permanently reduce the quantity of water and/or rate of diversion as specified in sections 14 and 15 of this application.

Dated at Topocka, Kansas, this 4 day of January, 20 18.

RE: File No 7980

Dear Sir or Madam:

An application for approval of the Chief Engineer to change the following condition or conditions of the file number referred to above has been received:

- place of use PU/PD
- point of diversion
- use made of water

As a matter of record, the Division of Water Resources has on hand a large number of applications awaiting processing. Therefore, to be fair to all concerned, and so that we can process those applications on hand in the order they were received, we intend to concentrate on the backlog of applications until the issue is resolved. You will be contacted regarding this application as soon as it has been examined.

In accordance with the provisions of the Kansas Water Appropriation Act, a portion of which is included below, the use of water prior to approval of the application is unlawful. You should not proceed and divert water as indicated by your plans in your application for a change for this file until you receive approval for this change from the Chief Engineer. Once approved, compliance with the terms, conditions and limitations of the permit is necessary. Conservation of the water resources of Kansas is required.

Section 82a-728 of the Kansas Water Appropriation Act, provides (a) except for the appropriation of water for the purpose of domestic use, . . . it shall be unlawful for any person to appropriate or threaten to appropriate water from any source without first applying for and obtaining a permit to appropriate water in accordance with the provisions of the Water Appropriation Act or for any person to violate any condition of a vested right, appropriation right or an approved application for a permit to appropriate water for beneficial use.

(b) (1) The violation of any provision of this section by any person is a class C misdemeanor...

A class C misdemeanor is punishable by a fine not to exceed \$500 and/or a term of confinement not to exceed one month in the county jail. Each day that the violation occurs constitutes a separate offense.

If you have any questions, please contact me at (785) 564-6645. If you wish to discuss a specific file, please have the file number ready so that we may help you more efficiently.

Sincerely,

A handwritten signature in cursive script that reads "Brent A. Tourney".
