DATE: June 18, 2019

FROM: Richelle A. Krueger

RE: Water Right
File Nos. 148; 11,033 and 21,199

Wade Georg, and James E. and Joyce Anschutz et al, filed applications for approval to change the authorized points of diversion for the referenced file numbers, all authorized groundwater for irrigation use in the Walnut Creek Intensive Groundwater Use Control Area (IGUCA).

The water rights do not appear abandoned as per K.S.A. 82a-718.

File Nos. 148 and 11,033 are authorized a combined limited quantity of 170 acre-feet (when combined with File No. RH 039) for irrigation use from the same two wells located in Section 30, Township 18 South, Range 18 West, Rush County, Kansas. File No. 21,199 is authorized a limited quantity of 185 acre-feet (w/c File Nos. RH 039, 148 and 11,033) from two wells in Section 30, the westernmost well overlaps the westernmost point of diversion authorized by File Nos. 148 and 11,033 (4,885'N, 3,277'W), no overlaps on the easternmost well for File No. 21,199. Incomplete overlaps in place of use exist among File Nos. 148, 11,033, 21,199 and RH 039. The applicants propose to "flip-flop" the authorized rates and quantities between the easternmost well authorized by File Nos. 148 and 11,033 (4,520'N, 1,320'W of SE corner of Sect 30/potentially 123 AF total) and the easternmost well authorized by File No. 21,199 (3,845'N, 913'W of SE corner of Sect 30/potentially 46 AF), a distance move of approximately 828 feet. No new wells will be drilled and no change is proposed for the current well authorized by File Nos. 148, 11,033 and 21,199 (4,885'N, 3,277'W) other than an update of feet distances (4,959'N 3,241'W).

The proposed change in point of diversion for File No. 21,199 does not appear to comply with K.A.R. 5-5-13 *Relocation of alluvial wells* since it involves a move of over 10 percent closer to Walnut Creek. The applicant has requested a waiver of K.A.R. 5-5-13 since a net quantity of 77 acre-feet of water will be moved away from the stream channel. It appears the proposal meets well spacing requirements of K.A.R. 5-4-4 to wells not under common ownership.

In addition to the wells authorized by the referenced file numbers there are three (3) irrigation wells and five (5) domestic wells within one-half mile of the proposed existing wells, based on the application maps and WRIS. Nearby well owners were notified of the proposed changes by letters dated April 30, 2019. Two nearby well owners contacted this office inquiring about the proposed changes, no written responses have been received as of today's date.

No well logs were submitted with the applications. However, it appears that the same local source of supply will not change, previously determined to be Main Stem Alluvium (113).

In an e-mail dated June 12, 2019, Jeff Lanterman, Water Commissioner of the Stafford Field Office, indicated that he would support the waiver of K.A.R. 5-5-13 and approval of the referenced change applications. Jeff also suggested the possibility of: waiving K.A.R. 5-4-4 (c)(1)(C) since the wells flip flopping rate and quantity now and will continue to not meet 1,320 feet well spacing requirements to each other; and of waiving K.A.R. 5-4-4(c)(2)(C) since the wells in question now and will continue to not meet 660 feet domestic well spacing requirements to their own domestic well. However, a review of the spacing issue with Brent Turney, Change Application Unit Supervisor, indicates spacing waivers would not be necessary because a lesser quantity of water will be authorized on the irrigation well closest to the domestic well based on the submitted map and that the applications would comply with K.A.R. 5-4-4-(d)(2) which states in part that:

Memorandum
File Nos. 148; 11,033 and 21,199
June 13, 2019
Page 2

Except as provided in subsection (e), the location of a well or wells on an application to change the point of diversion under an existing water right shall either: 1) meet the spacing requirements in paragraphs (c)(1) and (c)(2) above; or (2) not decrease the distance to other wells or authorized well locations by more than 300 feet.

Water flow meters are required. Check valves are required if any chemical or foreign substance is injected into the water through the diversion works.

Based on the above discussion, that the changes are reasonable, that impairment to existing water rights is unlikely, that no change in the local source of supply will occur, and if the Chief Engineer waives K.A.R. 5-5-13 for File No. 21,199, it has been recommended the referenced applications be approved.

FILE COPY

RE: Water Right, File Nos. 148, 11,033 and 21,199

Dear Mr. and Mrs. Anschutz:

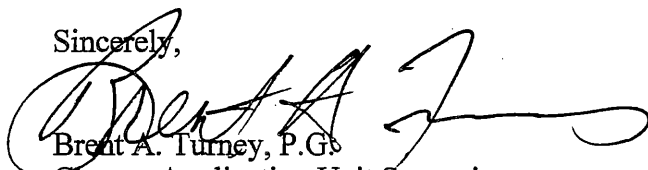

Enclosed are the orders executed by the Chief Engineer, Division of Water Resources, Kansas Department of Agriculture, approving the applications for change under the above referenced file numbers.

Your attention is directed to the enclosures and to the terms, conditions, and limitations specified in these approvals for change. A condition of these approvals is that acceptable water flow meters must be installed on the diversion works authorized under the referenced file numbers. Please return the required notification of completion of the diversion works and installation of the required meters as soon as these actions are completed.

Since the orders modify the original documents referred to above, they should be recorded with the Register of Deeds as other instruments affecting real estate.

If you have any questions, please contact this office. If you call, please reference the file number so we can help you more efficiently.

Sincerely,

Brent A. Turney, P.G.

DIVISION OF WATER RESOURCES
David W. Barfield, Chief Engineer

**APPROVAL OF APPLICATION
FOR
CHANGE IN
POINT OF DIVERSION
WATER RIGHT
FILE NO. 11,033**

The Chief Engineer, Division of Water Resources, Kansas Department of Agriculture, after due consideration of the written application of Wade Georg, 1773 CR 240, Rush Center, Kansas 67575-7509, James E. and Joyce C. Anschutz, on behalf of A/T Farms, Incorporated, 4110 Falcon Drive, Great Bend, Kansas 67530, and Steven D. Swartz, 2266 Highway 96, Rush Center, Kansas 67575, received in this office on March 22, 2018, for approval of a change in the location of the point of diversion under the certificate of appropriation issued pursuant to the application for permit to appropriate water for beneficial use, as modified and amended by the Order of the Chief Engineer dated June 5, 2002, approving the application to change the point of diversion, finds that the change is reasonable and will not impair existing rights, and that the application should be and is hereby approved.

The effective date of the change shall be the date this order is executed by the Chief Engineer, after which the authorized locations of the points of diversion shall be:

one(1) well located in the Northwest Quarter of the Southeast Quarter of the Northeast Quarter (NW $\frac{1}{4}$ SE $\frac{1}{4}$ NE $\frac{1}{4}$) of Section 30, more particularly described as being near a point 3,845 feet North and 913 feet West of the Southeast corner of said section, at a diversion rate not in excess of 605 gallons per minute (1.35 c.f.s.) and a quantity not to exceed 43 acre-feet of water per calendar year, and

one(1) well located in the Northeast Quarter of the Northeast Quarter of the Northwest Quarter (NE $\frac{1}{4}$ NE $\frac{1}{4}$ NW $\frac{1}{4}$) of Section 30, more particularly described as being near a point 4,959 feet North and 3,241 feet West of the Southeast corner of said section, at a diversion rate not in excess of 495 gallons per minute (1.10 c.f.s.) and a quantity not to exceed 49 acre-feet of water per calendar year,

both in Township 18 South, Range 18 West, Rush County, Kansas,

located substantially as shown on the map accompanying the application to change the point of diversion.

The following limitation as set forth in the Certificate of Appropriation dated November 29, 1993 remains in effect:

This appropriation right is further limited to a quantity which when combined with the water right set forth in the order of the Chief Engineer, Division of Water Resources, Kansas State Board of Agriculture, dated February 16, 1956 (identified as Vested Right, File No. RH 39), and the water right set forth in the Certificate of Appropriation issued pursuant to File No. 148, will provide a quantity not to exceed 170 acre-feet per calendar year for irrigation use on the land described herein.

Installation of the works for diversion of water shall be completed on or before December 31, 2019, or within any authorized extension of time. The water right owner shall notify the Chief Engineer of the Division of Water Resources, Kansas Department of Agriculture, when construction of the works for diversion has been completed.

All wells with a diversion rate of 100 gallons per minute or more drilled under the authority of this order shall have a tube or other device installed in a manner acceptable to, and in accordance with specifications adopted by, the Chief Engineer. This tube or device shall be suitable for making water level measurements and shall be maintained in a condition satisfactory to the Chief Engineer.

All diversion works into which any type of chemical or other foreign substance will be injected into the water pumped from the diversion works shall be equipped with an in-line, automatic, quick-closing check valve capable of preventing pollution of the source of the water supply. The type of valve installed shall meet specifications adopted by the Chief Engineer and shall be maintained in an operating condition satisfactory to the Chief Engineer.

The water right owner shall properly install acceptable water meters on the diversion works authorized under this water right, prior to the use of water, in strict accordance with the Kansas Administrative Regulations 5-1-4 through 5-1-12 adopted by the Chief Engineer. The water right owner shall notify the Chief Engineer when installation of the water meters has been completed. The water right owner shall maintain the water meters in an operating condition satisfactory to the Chief Engineer, at all times during diversion of water and shall maintain records from which the total quantity of water diverted may be determined. The water right owner shall also report the reading of said water meters and the total quantity of water diverted annually to the Chief Engineer. Such records shall be furnished to the Chief Engineer by March 1 following the end of each calendar year.

In all other respects, the Certificate of Appropriation issued pursuant to Approval of Application, File No. 11,033, for permit to appropriate water for beneficial use, is as stated and set forth in the Certificate of Appropriation dated November 29, 1993, as modified and amended by the aforementioned order.

RIGHT TO A HEARING AND TO ADMINISTRATIVE REVIEW

If you are aggrieved by this Order, then pursuant to K.S.A. 82a-1901, you may:

- 1) request an evidentiary hearing before the Chief Engineer, or
- 2) request administrative review by the Secretary of Agriculture.

Failure to request an evidentiary hearing before the Chief Engineer does not preclude your right to administrative review by the Secretary.

To obtain an evidentiary hearing before the Chief Engineer, a written request for hearing must be filed within 15 days after service of this Order as provided in K.S.A. 77-531 (i.e., within a total of 18 days after this Order was mailed to you), with: Kansas Department of Agriculture, Attn: Legal Section, 1320 Research Park Drive, Manhattan, KS 66502, FAX (785) 564-6777.

If you do not file a request for an evidentiary hearing before the Chief Engineer, you may petition for administrative review of the Order by the Secretary of Agriculture. A petition for review shall be in writing and state the basis for requesting administrative review. The request for hearing may be denied if the request fails to clearly establish factual or legal issues for review. See K.S.A. 77-527. The petition must be filed within 30 days after service of this Order as provided in K.S.A. 77-531 (i.e., within a total of 33 days after this Order was mailed to you), and be filed with: Secretary of Agriculture, Attn: Legal Division, Kansas Department of Agriculture, 1320 Research Park Drive, Manhattan, KS 66502, FAX (785) 564-6777.

If neither a request for an evidentiary hearing nor a petition for administrative review is filed as set forth above, then this Order shall be effective and become a final agency action as defined in K.S.A. 77-607(b). Failure to timely request either an evidentiary hearing or administrative review may preclude further judicial review under the Kansas Judicial Review Act.

Any request for hearing or petition for administrative review shall be in writing and shall be submitted to the attention of: Chief Legal Counsel, Kansas Department of Agriculture, 1320 Research Park Drive, Manhattan, Kansas 66502, Fax: (785) 564 - 6777.

Ordered this 19th day of June, 2019, in Manhattan, Riley County, Kansas.

12. The presently authorized use of water is for Irrigation purposes.
It is proposed that the use be changed to No Change purposes.

13. If changing the place of use and/or use made of water, describe how the consumptive use will not be increased.

N/A

(Please show any calculations here.)

14. It is requested that the maximum annual quantity of water be reduced to --- (acre-feet or million gallons).

15. It is requested that the maximum rate of diversion of water be reduced to --- gallons per minute (--- c.f.s.).

16. The application must include either a topographic map or detailed plat. A U.S. Geological Survey Topographic Map, scale 1:24,000, is available through the Kansas Geological Survey, 1930 Constant Avenue, University of Kansas, Lawrence, Kansas 66047-3726 (www.usgs.gov). The map should show the location of the presently authorized point(s) of diversion. Distances North and West of the Southeast corner of the section must be shown. The presently authorized place of use should also be shown. Identify the center of the section, the section lines and the section corners and show the appropriate section, township, and range numbers on the map. In addition the following information must also be shown on the map.

a. If a change in the location of the point(s) of diversion is proposed, show:

- 1) The location of the proposed point(s) of diversion. Distances North and West of the Southeast corner of the section must be shown. Please be certain that the information shown on the map agrees with the information shown in Paragraph Nos. 9, 10 and 11 of the application.
- 2) If the source of supply is groundwater, please show the location of existing water wells of any kind, including domestic wells, within 1/2 mile of the proposed well or wells. Identify each well as to its use and furnish name and mailing address of the property owner or owners. If there are no wells within 1/2 mile, please indicate so on the map.
- 3) If the source of supply is surface water, the names and mailing addresses of all landowner(s) 1/2 mile downstream and 1/2 mile upstream from your property lines must be shown.

b. If a change in the place of use is desired, show the proposed place of use by crosshatching on the map. Please be certain that the information shown on the map agrees with the information shown in Paragraph No. 5 of the application.

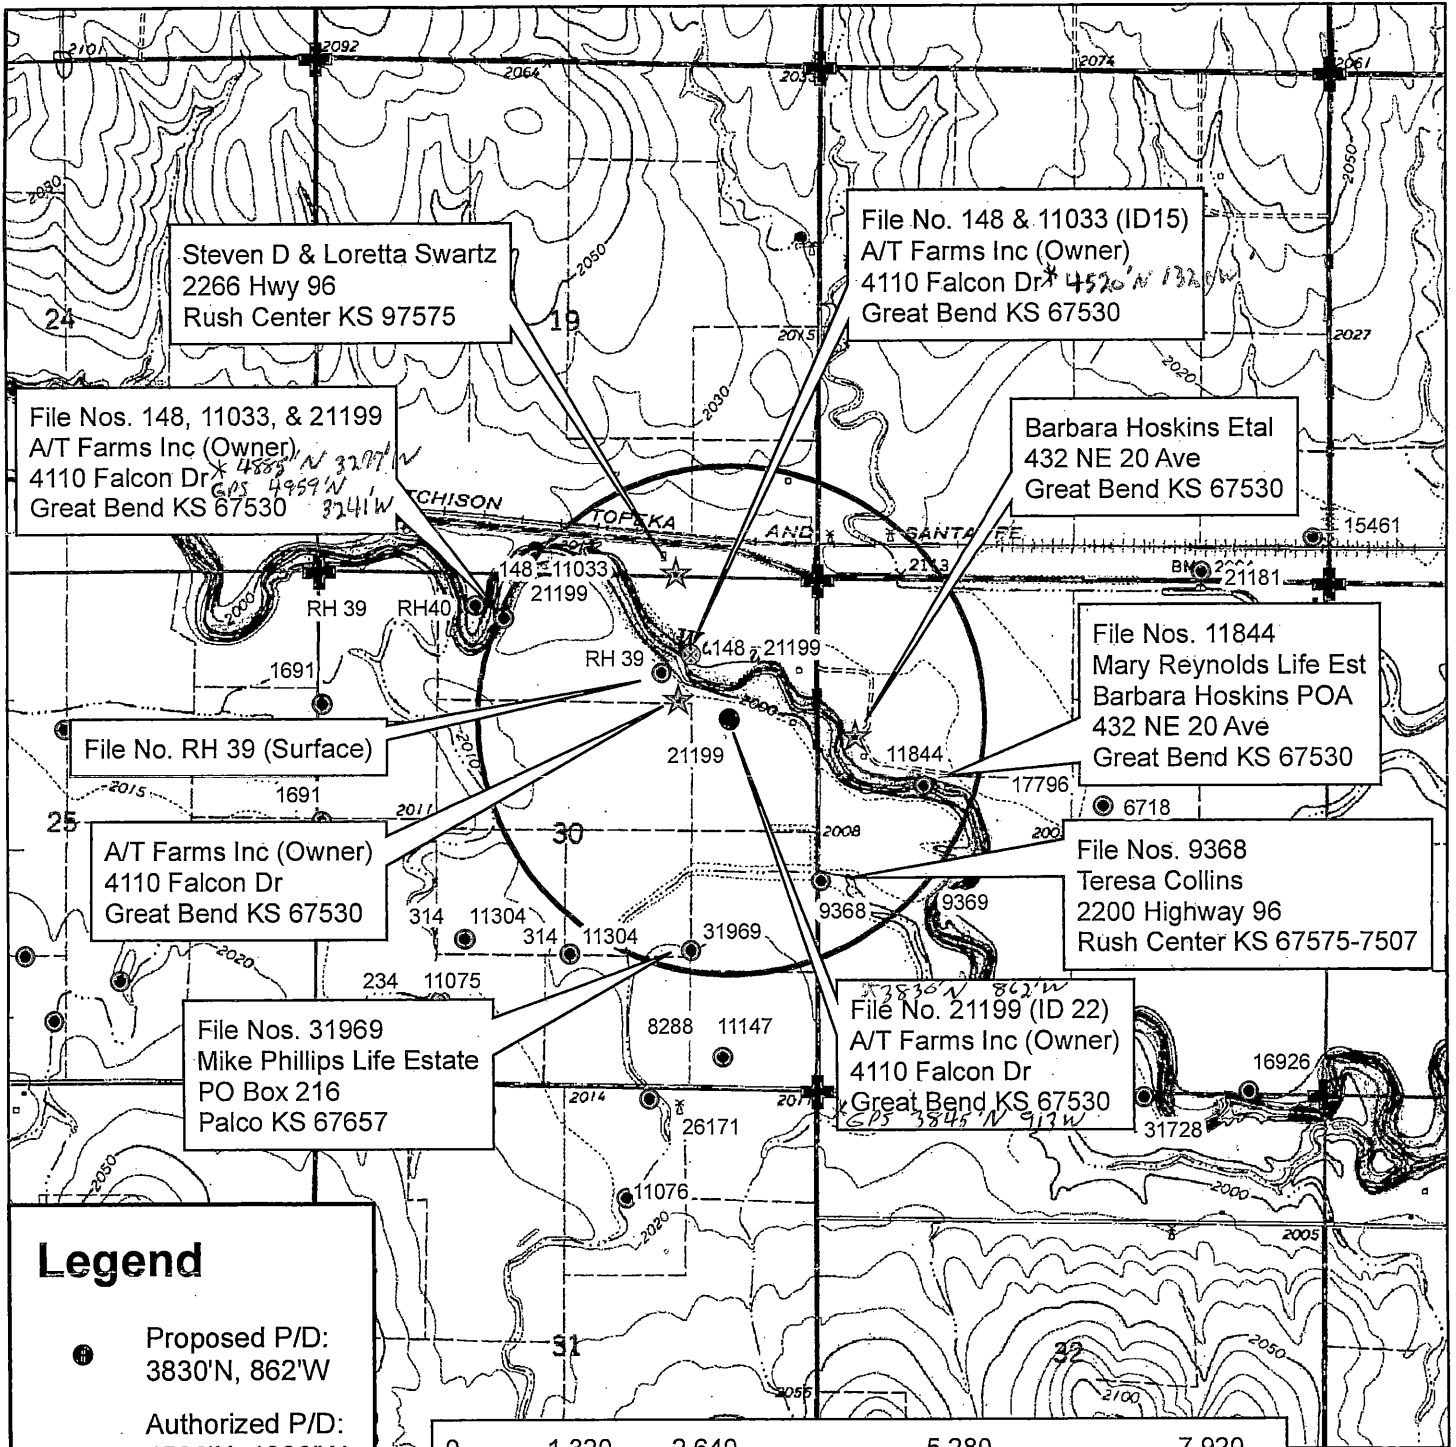

17. Attach documentation to show the change(s) proposed herein will not impair existing water rights and relates to the same local source of supply as to which the water right relates. This information may include statements, plats, geology reports, well logs, test hole logs, and other information as necessary information to show the above. Additional comments may be made below.

The proposed well is currently authorized by File No. 21199 (DWR ID #22) and produces from the same local source of supply which is considered to be main stem alluvium. The change will be moving quantity and rate away from the Walnut Creek. A well log for DWR ID#22 has been included.

18. If the proposed change(s) does not meet all applicable rules and regulations of the Kansas Water Appropriation Act, please identify the rules and regulations for which you request a waiver. State the reason why a waiver is needed and why the request should be granted. Attach documentation showing that granting the request will not impair existing water rights and will not prejudicially and unreasonably affect the public interest.

The proposed change location will not meet spacing requirements to a domestic well owned by the landowner. In addition, the proposed location does not meet spacing to the well authorized by File No. 148 (DWR ID#15). However, the well is owned/operated by the landowner and is a part of the same place of use. A waiver of K.A.R. 5-4-4(c)(1)(C) is requested.

To the best of my knowledge, all water wells including domestic, within 1/2 mile of the proposed point of diversion have been identified.

Signature

Any use of water that is not as authorized by the water right or permit to authorize water before the chief engineer approves this application is a violation of the Kansas Water Appropriation Act for which criminal or civil penalties may be assessed. Such violation is a class C misdemeanor, punishable by a fine not to exceed \$500 and/or a term of confinement not to exceed one month in the county jail. K.S.A. 82a-728(b). Civil penalties shall be not less than \$100 nor more than \$1,000 per violation. In the case of a continuing violation, each day such violation continues may be deemed a separate violation. In addition to these penalties the water right may be modified or suspended. K.S.A. 82a-737, as amended.

The application must be signed by all owners of the place of use authorized under the water right and his or her spouse, if married. Please indicate if there is no spouse. If land is being purchased under contract, the seller must sign as landowner until such time as the contract is completed.

In the event that all applicants cannot appear before one notary public, they may as necessary sign separate copies of the application before any notary public conveniently available to them. All copies signed in this manner shall be considered to be valid parts of the application.

If the request is signed on behalf of any Owner by someone with legal authority to do so (for example, an agent, one who has power of attorney, or an executor, executrix, conservator), it will be necessary to attach proper documents showing such authority.

I declare that I am an owner of the currently authorized place of use as identified herein, or that I represent all such owners and am authorized to make this application on their behalf, and declare further that the statements contained herein are true, correct, and complete. By filing this application I authorize the chief engineer to permanently reduce the quantity of water and/or rate of diversion as specified in sections 14 and 15 of this application.

FEE SCHEDULE

Each application to change the place of use, the point of diversion or the use made of the water under this section shall be accompanied by the application fee set forth in the schedule below:

- (1) Application to change a point of diversion 300 feet or less \$100
- (2) Application to change a point of diversion more than 300 feet \$200
- (3) Application to change the place of use \$200
- (4) Application to change the use made of the water \$300

- 12. The presently authorized use of water is for Irrigation purposes.
It is proposed that the use be changed to No Change purposes.
- 13. If changing the place of use and/or use made of water, describe how the consumptive use will not be increased.

N/A

(Please show any calculations here.)

- 14. It is requested that the maximum annual quantity of water be reduced to --- (acre-feet or million gallons).
- 15. It is requested that the maximum rate of diversion of water be reduced to --- gallons per minute (--- c.f.s.).

16. The application must include either a topographic map or detailed plat. A U.S. Geological Survey Topographic Map, scale 1:24,000, is available through the Kansas Geological Survey, 1930 Constant Avenue, University of Kansas, Lawrence, Kansas 66047-3726 (www.usgs.gov). The map should show the location of the presently authorized point(s) of diversion. Distances North and West of the Southeast corner of the section must be shown. The presently authorized place of use should also be shown. Identify the center of the section, the section lines and the section corners and show the appropriate section, township, and range numbers on the map. In addition the following information must also be shown on the map.

- a. If a change in the location of the point(s) of diversion is proposed, show:
 - 1) The location of the proposed point(s) of diversion. Distances North and West of the Southeast corner of the section must be shown. Please be certain that the information shown on the map agrees with the information shown in Paragraph Nos. 9, 10 and 11 of the application.
 - 2) If the source of supply is groundwater, please show the location of existing water wells of any kind, including domestic wells, within 1/2 mile of the proposed well or wells. Identify each well as to its use and furnish name and mailing address of the property owner or owners. If there are no wells within 1/2 mile, please indicate so on the map.
 - 3) If the source of supply is surface water, the names and mailing addresses of all landowner(s) 1/2 mile downstream and 1/2 mile upstream from your property lines must be shown.
- b. If a change in the place of use is desired, show the proposed place of use by crosshatching on the map. Please be certain that the information shown on the map agrees with the information shown in Paragraph No. 5 of the application.

17. Attach documentation to show the change(s) proposed herein will not impair existing water rights and relates to the same local source of supply as to which the water right relates. This information may include statements, plats, geology reports, well logs, test hole logs, and other information as necessary information to show the above. Additional comments may be made below.

The proposed well is currently authorized by File No. 21199 (DWR ID #22) and produces from the same local source of supply which is considered to be main stem alluvium. The change will be moving quantity and rate away from the Walnut Creek. A well log for DWR ID#22 has been included.

18. If the proposed change(s) does not meet all applicable rules and regulations of the Kansas Water Appropriation Act, please identify the rules and regulations for which you request a waiver. State the reason why a waiver is needed and why the request should be granted. Attach documentation showing that granting the request will not impair existing water rights and will not prejudicially and unreasonably affect the public interest.

The proposed change location will not meet spacing requirements to a domestic well owned by the landowner. In addition, the proposed location does not meet spacing to the well authorized by File No. 148 (DWR ID#15). However, the well is owned/operated by the landowner and is a part of the same place of use. A waiver of K.A.R. 5-4-4(c)(1)(C) is requested.

IF MORE SPACE IS NEEDED, ATTACH ADDITIONAL SHEETS AS NECESSARY

Any use of water that is not as authorized by the water right or permit to authorize water **before** the chief engineer approves this application is a violation of the Kansas Water Appropriation Act for which criminal or civil penalties may be assessed. Such violation is a class C misdemeanor, punishable by a fine not to exceed \$500 and/or a term of confinement not to exceed one month in the county jail. K.S.A. 82a-728(b). Civil penalties shall be not less than \$100 nor more than \$1,000 per violation. In the case of a continuing violation, each day such violation continues may be deemed a separate violation. In addition to these penalties the water right may be modified or suspended. K.S.A. 82a-737, as amended.

The application must be signed by all owners of the place of use authorized under the water right and his or her spouse, if married. Please indicate if there is no spouse. If land is being purchased under contract, the seller must sign as landowner until such time as the contract is completed.

In the event that all applicants cannot appear before one notary public, they may as necessary sign separate copies of the application before any notary public conveniently available to them. All copies signed in this manner shall be considered to be valid parts of the application.

If the request is signed on behalf of any Owner by someone with legal authority to do so (for example, an agent, one who has power of attorney, or an executor, executrix, conservator), it will be necessary to attach proper documents showing such authority.

I declare that I am an owner of the currently authorized place of use as identified herein, or that I represent all such owners and am authorized to make this application on their behalf, and declare further that the statements contained herein are true, correct, and complete. Richelle;

I am OK approving this. See Cameron's discussion below regarding a waiver of spacing. I almost think we should waive our spacing requirement because we don't know if spacing is sufficient to prevent impairment to his own domestic well. I realize these wells have been there for awhile. He never complained against himself but he may be without water at his domestic well while he is pumping his irrigation well if you know what I mean.

But I am OK approving this as you see fit with regard to well spacing.

Also Im cool with what you are doing with 5-5-13 distance to the stream.

Jeff

Subject: FW: Request for Recommendation Change in PD File Nos. 148; 11033 and 21199 Wade Georg etal

Jeff,

This change is proposing to flip flop p/d's between files to better accommodate how the farmer is using the wells. I've attached an explanatory map that helps show what is going on. Basically they are moving 21129 (46AF @485gpm) from a location south of Walnut creek 330' to an existing well location north of Walnut Creek about 130' from Walnut Creek. Also they are moving 11033 & 148 (80AF @ 900 & 43AF @ 605gpm = 123 AF total) from the location 130' North of Walnut Creek to the existing well 330' from Walnut Creek. The total change is about 800'...as such the wells don't meet spacing between one another.

We are proposing to waive 5-5-13 (distance to stream) for File No. 21199...it is moving closer but this should be a neutral or positive effect on the Walnut Creek based on the quantities and rates that are authorized to be pumped since 11033 & 148 is moving away from the creek (net change is moving 77 AF & 415 gpm further from the centerline of the Walnut Creek).

I think we should allow a waiver for all 3 files to allow the proposed wells to continue to violate spacing to one another....Request a waiver of 5-4-4 (c)(1)(C)

I think we should allow a waiver for all 3 file to allow the proposed wells to continue to violate spacing to the nearby domestic well that is owned by the applicant/owner between the proposed wells and shown on the attached app map...request a waiver of 5-4-4- (c)(2)(C)

I'm good with this change and I think we can recommend approval. The memo only references a waiver of 5-5-13 (alluvium decrease distance to stream) which I agree with allowing as explained above. I also think we should waive spacing between the irrigation wells and spacing from both irrigation wells to the existing domestic well. It is kind of a formality since the owner of the domestic well is an owner of the irrigation rights, however, I still think we should issue both spacing waivers so they are on record. What do you think? If you like it, go ahead and pass on to Richelle and let me know if you have questions.

Hi Jeff,

Attached is a draft memo for the referenced pd changes, do you recommend approval?

Thanks,

Richelle

Subject: RE: You may get a call from Mike Phillips about pd change for File Nos. 148, 11033 21199 Wade George

I spoke with Mike. His main concern was revolving around his authorized rate of 605 GPM. He said that was achieved in 1989 and he wondered if he needed a more current rate test? He wasn't sure what his current rate was but didn't want this change to negatively impact him. We discussed that his well was 40 years old and if he was losing rate that is the first thing he should look at. We also discussed his "well neighborhood" and the fact that there were about 6-7 other wells closer than the proposed well that would likely be impacting him more than the proposed well would. It should be noted File No. 31969 is the most junior file in the area though this change alters that aspect a bit in that anything we approve "can't impair". That said, we fully discussed the impairment complaint process (and complainants report) and during that I explained that his 605 GPM was the certified rate and we didn't need a new baseline rate if he saw fit to claim impairment in the future. After he fulfilled the complainants report portion of an impairment request anything we did impairment-wise would be using 605 GPM (with regard to reasonable raising and lowering as the CE deems fit) as the baseline.

When we were done, Mike is satisfied that he won't be impacted but if he is, he has a reasonable recourse with the written impairment process. Mike is ok with the change as long as it meets all the applicable state regs that govern this sort of change application. Mike will not write a letter of concern. I told Mike I would summarize our discussion and pass it along so it was in the file. Please let me know if you have any questions.

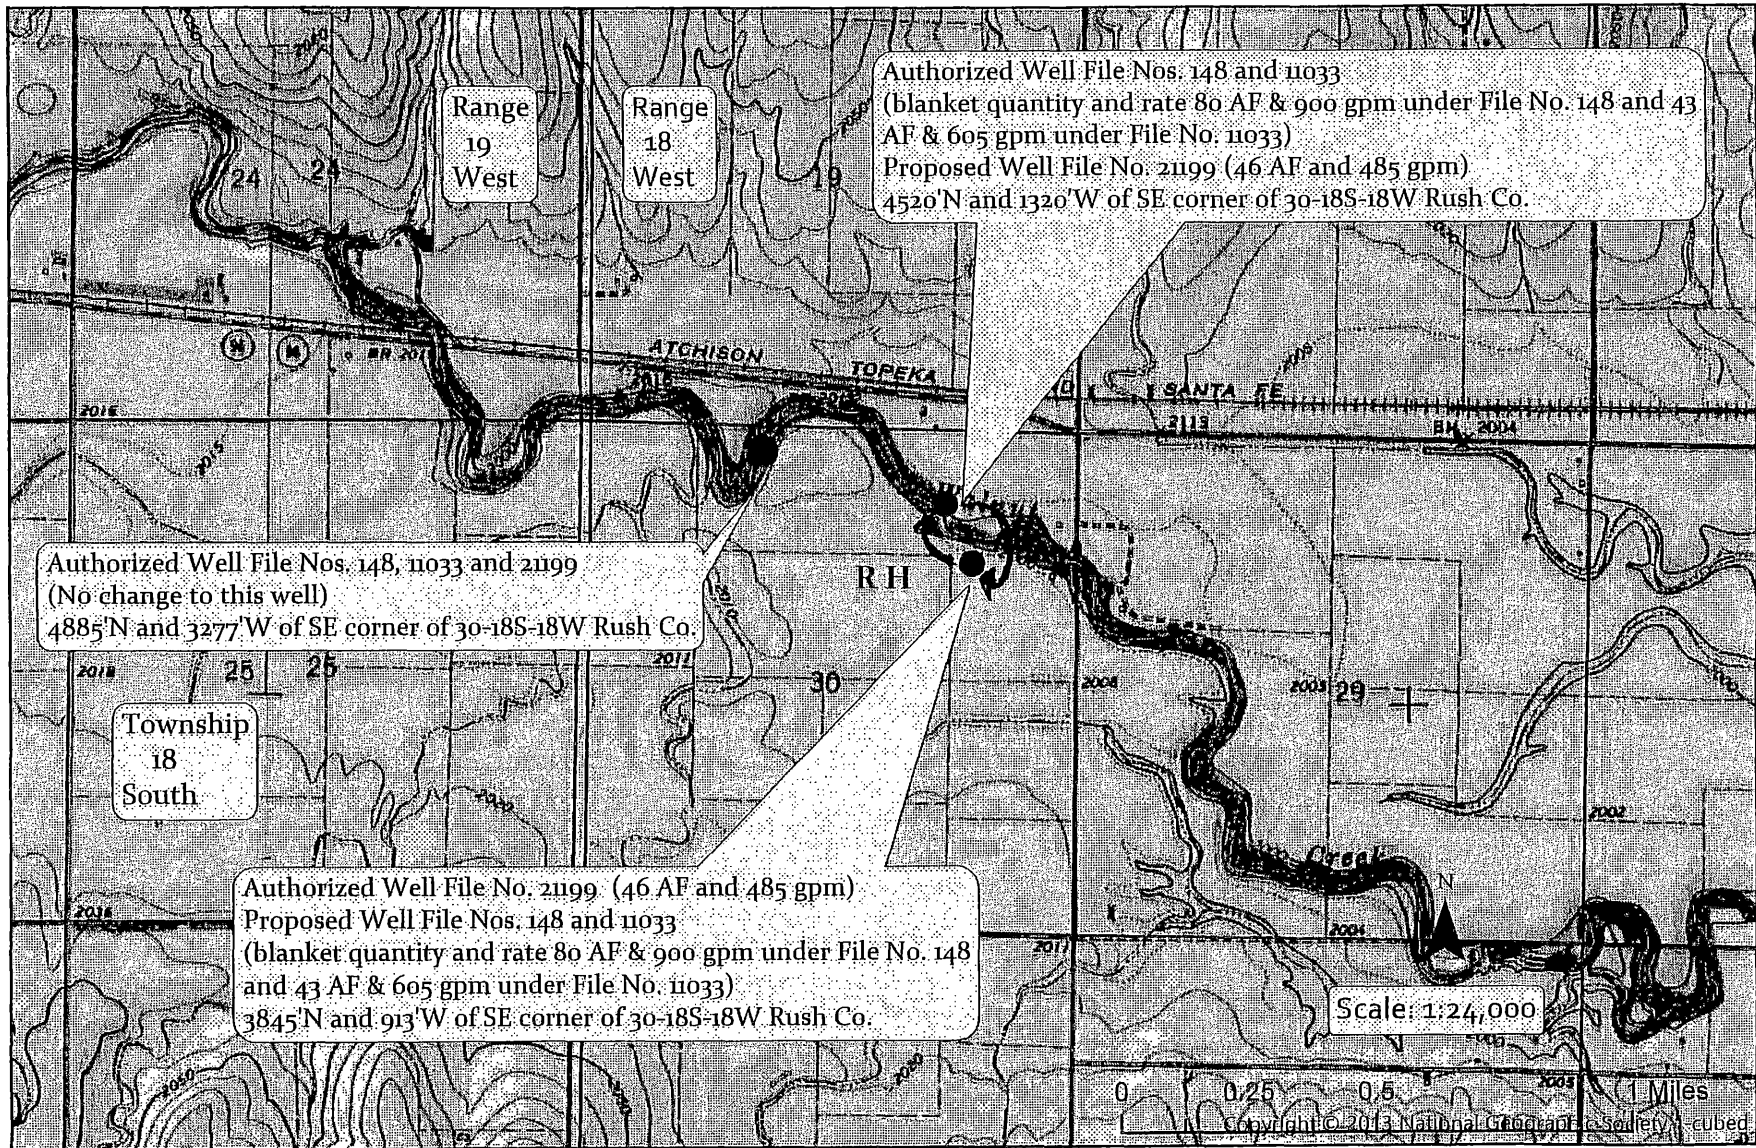

Cameron

Subject: You may get a call from Mike Phillips about pd change for File Nos. 148, 11033 21199 Wade George

Hi Jeff,
Just an FYI, you may get a call from Mike Phillips regarding Wade George pd changes. He may want a rate test on his well, he wants to protect his right (File No. 31969). I told him his well is approximately 2300 feet away from the proposed existing well, usual spacing is 1320 feet. He wanted to know what you do to determine impairment etc....

Anyway, an FYI.

RE: Water Right,
File Nos. 148, 11,033 and 21,199

Dear Sir or Madam:

This is to advise you that Wade Georg, on behalf of James E. and Joyce C. Anschutz, and Steven D. Swartz, has filed applications for approval of the Chief Engineer, Division of Water Resources, Kansas Department of Agriculture, to change the points of diversion under the above referenced file numbers. The water right owners propose to exchange the authorized quantities and diversion rates between two of their currently authorized wells. Enclosed is map for your reference.

The applications for File No. 148 and 11,033 propose the following change in point of diversion:

- from: one (1) existing well located near the center of the North Half of the Northeast Quarter (N $\frac{1}{2}$ NE $\frac{1}{4}$) of Section 30, more particularly described as being near a point 4,520 feet North and 1,320 feet West of the Southeast corner of said section, in Township 18 South, Range 18 West, Rush County, Kansas,
- to: one (1) existing well located in the Northwest Quarter of the Southeast Quarter of the Northeast Quarter (NW $\frac{1}{4}$ SE $\frac{1}{4}$ NE $\frac{1}{4}$) of Section 30, more particularly described as being near a point 3,845 feet North and 913 feet West of the Southeast corner of said section, in Township 18 South, Range 18 West, Rush County, Kansas.

The application for File No. 21,199 proposes the following change in point of diversion:

- from: one (1) existing well located in the Northwest Quarter of the Southeast Quarter of the Northeast Quarter (NW $\frac{1}{4}$ SE $\frac{1}{4}$ NE $\frac{1}{4}$) of Section 30, more particularly described as being near a point 3,845 feet North and 913 feet West of the Southeast corner of said section, in Township 18 South, Range 18 West, Rush County, Kansas,
- to: one (1) existing well located near the center of the North Half of the Northeast Quarter (N $\frac{1}{2}$ NE $\frac{1}{4}$) of Section 30, more particularly described as being near a point 4,520 feet North and 1,320 feet West of the Southeast corner of said section, in Township 18 South, Range 18 West, Rush County, Kansas.

No change is proposed to a third well authorized by File Nos. 148, 11,033 and 21,199 located in the Northeast Quarter of the Northeast Quarter of the Northwest Quarter (NE $\frac{1}{4}$ NE $\frac{1}{4}$ NW $\frac{1}{4}$) of Section 30, more particularly described as being near a point 4,885 feet North and 3,277 feet West of the Southeast corner of said section, in Township 18 South, Range 18 West, Rush County, Kansas.

A map is enclosed for your information. Based upon K.S.A. 82a-1906, you are being notified of the above referenced applications for change. You can find the applications posted by water right file number as referenced above at www.agriculture.ks.gov/divisions-programs/dwr/water-appropriation/notices

You are being notified of this proposed change in the point of diversion so that you may furnish this office such comments or other information you may desire to submit. Such comments or other information must be received in this office within 15 days from the date of this letter.

If you have any questions, please contact me at (785) 564-6635 or Change Application Unit Supervisor Brent Turney at (785) 564-6645. If you call, please reference the file number so we can help you more efficiently.

RE: Water Right,
File Nos. 148, 11,033 and 21,199

Dear Sir or Madam:

This is to advise you that Wade Georg, on behalf of James E. and Joyce C. Anschutz, and Steven D. Swartz, has filed applications for approval of the Chief Engineer, Division of Water Resources, Kansas Department of Agriculture, to change the points of diversion under the above referenced file numbers. The water right owners propose to exchange the authorized quantities and diversion rates between two of their currently authorized wells. Enclosed is map for your reference.

The applications for File No. 148 and 11,033 propose the following change in point of diversion:

from: one (1) existing well located near the center of the North Half of the Northeast Quarter (N $\frac{1}{2}$ NE $\frac{1}{4}$) of Section 30, more particularly described as being near a point 4,520 feet North and 1,320 feet West of the Southeast corner of said section, in Township 18 South, Range 18 West, Rush County, Kansas,

to: one (1) existing well located in the Northwest Quarter of the Southeast Quarter of the Northeast Quarter (NW $\frac{1}{4}$ SE $\frac{1}{4}$ NE $\frac{1}{4}$) of Section 30, more particularly described as being near a point 3,845 feet North and 913 feet West of the Southeast corner of said section, in Township 18 South, Range 18 West, Rush County, Kansas.

The application for File No. 21,199 proposes the following change in point of diversion:

from: one (1) existing well located in the Northwest Quarter of the Southeast Quarter of the Northeast Quarter (NW $\frac{1}{4}$ SE $\frac{1}{4}$ NE $\frac{1}{4}$) of Section 30, more particularly described as being near a point 3,845 feet North and 913 feet West of the Southeast corner of said section, in Township 18 South, Range 18 West, Rush County, Kansas,

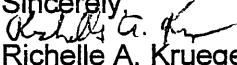

to: one (1) existing well located near the center of the North Half of the Northeast Quarter (N $\frac{1}{2}$ NE $\frac{1}{4}$) of Section 30, more particularly described as being near a point 4,520 feet North and 1,320 feet West of the Southeast corner of said section, in Township 18 South, Range 18 West, Rush County, Kansas.

No change is proposed to a third well authorized by File Nos. 148, 11,033 and 21,199 located in the Northeast Quarter of the Northeast Quarter of the Northwest Quarter (NE $\frac{1}{4}$ NE $\frac{1}{4}$ NW $\frac{1}{4}$) of Section 30, more particularly described as being near a point 4,885 feet North and 3,277 feet West of the Southeast corner of said section, in Township 18 South, Range 18 West, Rush County, Kansas.

A map is enclosed for your information. Based upon K.S.A. 82a-1906, you are being notified of the above referenced applications for change. You can find the applications posted by water right file number as referenced above at www.agriculture.ks.gov/divisions-programs/dwr/water-appropriation/notices

You are being notified of this proposed change in the point of diversion so that you may furnish this office such comments or other information you may desire to submit. Such comments or other information must be received in this office within 15 days from the date of this letter.

Dear Mr. Georg:

In response to our phone conversation on February 28, 2019, please find enclosed additional signature pages for File Nos. 148 and 21,199. You indicated that you have all the signatures for File No. 11,033. As we discussed, since there are three (3) water rights involved in these changes, three(3) sets of signatures are required. As required by law, all owners (and spouses if married) of the authorized place of use must sign each application in the presence of a notary public. If there is no spouse, please indicate that on the signature page. Since water rights are real property rights, we need to make certain that all owners sign on each change application.

In addition, the Chief Engineer has extended until **May 15, 2019**, the time in which to return the original Application for Approval to Change the Point of Diversion, Water Right, File No. 11,033 received in the office of the Chief Engineer on March 22, 2018, along with the requested additional information.

If you do not return the referenced original application and attachments, along with the requested additional information by that date or do not request more time on or before May 15, 2019, or if your request is not granted, the application will be dismissed and its priority forfeited.

If you have any questions, please contact me at (785) 564-6645. If you call, please reference the file number so we can help you more efficiently.

Sincerely,

Brent A. Turney, P.G.

Re: Water Right, File No. 11,033

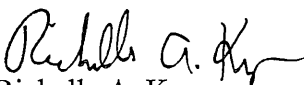

Dear Mr. Georg:

In response to the request made on your behalf by Jeff Lanterman, Water Commissioner of the Stafford Field Office, the Chief Engineer has extended until **January 5, 2019**, the time in which to return the original Application for Approval to Change the Point of Diversion, Water Right, File No. 11,033 received in the office of the Chief Engineer on March 22, 2018, along with the requested additional information.

If you do not return the referenced original application and attachments, along with the requested additional information by that date or do not request more time on or before January 5, 2019, or if your request is not granted, the application will be dismissed and its priority forfeited.

If you have any questions, please contact me at (785) 564-6635 or Brent Turney, Change Application Unit Supervisor at (785) 564-6645. If you call, please reference the file number so we can help you more efficiently.

RE: Water Right, File No. 11,033

Dear Mr. Georg:

Reference is made to the application for approval of the Chief Engineer to change the point of diversion under Water Right, File No. 11,033 received in the office of the Chief Engineer on March 22, 2018. A copy of the application and a blank signature page were sent to you along with a letter dated July 12, 2018 requesting additional information to be submitted by September 12, 2018. As of today's date, the requested additional information has not been received.

Please find enclosed the original application for File No. 11,033.

K.A.R. 5-5-5 *Signatures required on change applications* requires in part that all landowners and spouses holding an undetermined portion of the water right must sign the change application. Based on information in this office it appears we need the original notarized signatures of Steven D. and Loretta Swartz. Please find enclosed an additional blank signature form so that you may obtain their original notarized signatures. If this ownership information is not correct, please submit a copy of the recorded deed to clearly indicate all owners so that our records may be updated.

Also, the application for File No. 11,033 proposes to transfer quantity and rate from one of the two authorized wells to a well authorized by Water Right, File No. 21,199 located 3,830 feet North and 862 feet West of the Southeast corner of Section 30, Township 18, Range 18 West, Rush County. K.A.R. 5-5-16 *Additional Well* regulation applies and requires in part a reasonable value for the maximum rate of diversion based on either an acceptable current water flow rate test conducted on the presently authorized point of diversion or a value based on a valid hydraulic analysis submitted by the applicant showing the current capacity of the aquifer to yield water at the currently authorized point of diversion.

Please contact Stafford Field Office at (620) 234-5311 to conduct a rate test on the currently authorized well for File No. 11,033. Once the rate test has been performed by the field office and the appropriate diversion rate has been determined, indicate the proposed diversion rate in Paragraph No. 8 of the application. If a reduction in diversion rate is required, please indicate that in Paragraph No. 15 of the application. Please initial and date all modifications.

Also, please sign and date the map for File No. 11,033.

I am returning the referenced original application so that you may provide the requested information. In order that the application will retain its priority of filing, the **original** application and attachments must be returned, along with the requested additional information, to this office on or before **November 13, 2018**, or within any authorized extension of time thereof. According to the law, default in the refiling of the completed application and attachments as outlined above, within the time allowed, shall constitute forfeiture of the priority date and dismissal of the application for failure to return the application. It will also be recommended to the Chief Engineer that the application for File No. 11,033 be denied and dismissed for failure to meet the requirements of K.A.R. 5-5-5 and K.A.R. 5-5-16.

Our staff at the Stafford Field office can provide assistance, if needed. Please call (620) 234-5311 to set an appointment time. We appreciate you making an appointment, as it will save your time and allows us to better serve you. If you do go to the field office for assistance, please take this letter, applications and any attachments.

If you have any questions, please contact me at (785) 564-6635 or Change Application Unit Supervisor Brent Turney at (785) 564-6645. If you wish to discuss a specific file, please have the file number ready so that we may help you more efficiently.

RE: File No 11033

Dear Sir or Madam:

An application for approval of the Chief Engineer to change the following condition or conditions of the file number referred to above has been received:

- place of use PD
- point of diversion
- use made of water

As a matter of record, the Division of Water Resources has on hand a large number of applications awaiting processing. Therefore, to be fair to all concerned, and so that we can process those applications on hand in the order they were received, we intend to concentrate on the backlog of applications until the issue is resolved. You will be contacted regarding this application as soon as it has been examined.

In accordance with the provisions of the Kansas Water Appropriation Act, a portion of which is included below, the use of water prior to approval of the application is unlawful. You should not proceed and divert water as indicated by your plans in your application for a change for this file until you receive approval for this change from the Chief Engineer. Once approved, compliance with the terms, conditions and limitations of the permit is necessary. Conservation of the water resources of Kansas is required.

Section 82a-728 of the Kansas Water Appropriation Act, provides (a) except for the appropriation of water for the purpose of domestic use, . . . it shall be unlawful for any person to appropriate or threaten to appropriate water from any source without first applying for and obtaining a permit to appropriate water in accordance with the provisions of the Water Appropriation Act or for any person to violate any condition of a vested right, appropriation right or an approved application for a permit to appropriate water for beneficial use.

(b) (1) The violation of any provision of this section by any person is a class C misdemeanor...

A class C misdemeanor is punishable by a fine not to exceed \$500 and/or a term of confinement not to exceed one month in the county jail. Each day that the violation occurs constitutes a separate offense.

If you have any questions, please contact me at (785) 564-6645. If you wish to discuss a specific file, please have the file number ready so that we may help you more efficiently.

Sincerely,

Brent Tourney, L.G.
