11. Describe the current condition of and future plans for any point(s) of diversion which will no longer be used. Stock water well SS

12. The presently authorized use of water is for Irrigation purposes.
It is proposed that the use be changed to N/A - No Change purposes.

13. If changing the place of use and/or use made of water, describe how the consumptive use will not be increased.
When considering the place of use overlap with File No. 30636, the application does not propose to exceed the base acreage of both water rights by more than 10 acres or 10 percent. Therefore, an increase in consumptive use is not anticipated.

(Please show any calculations here.)

14. It is requested that the maximum annual quantity of water be reduced to N/A (acre-feet or million gallons).

15. It is requested that the maximum rate of diversion of water be reduced to N/A gallons per minute (____ c.f.s.).

16. The application must include either a topographic map or detailed plat. A U.S. Geological Survey Topographic Map, scale 1:24,000, is available through the Kansas Geological Survey, 1930 Constant Avenue, University of Kansas, Lawrence, Kansas 66047-3726 (www.usgs.gov). The map should show the location of the presently authorized point(s) of diversion. Distances North and West of the Southeast corner of the section must be shown. The presently authorized place of use should also be shown. Identify the center of the section, the section lines and the section corners and show the appropriate section, township, and range numbers on the map. In addition the following information must also be shown on the map.

- a. If a change in the location of the point(s) of diversion is proposed, show:
 - 1) The location of the proposed point(s) of diversion. Distances North and West of the Southeast corner of the section must be shown. Please be certain that the information shown on the map agrees with the information shown in Paragraph Nos. 9, 10 and 11 of the application.
 - 2) If the source of supply is groundwater, please show the location of existing water wells of any kind, including domestic wells, within 1/2 mile of the proposed well or wells. Identify each well as to its use and furnish name and mailing address of the property owner or owners. If there are no wells within 1/2 mile, please indicate so on the map.
 - 3) If the source of supply is surface water, the names and mailing addresses of all landowner(s) 1/2 mile downstream and 1/2 mile upstream from your property lines must be shown.
- b. If a change in the place of use is desired, show the proposed place of use by crosshatching on the map. Please be certain that the information shown on the map agrees with the information shown in Paragraph No. 5 of the application.

17. Attach documentation to show the change(s) proposed herein will not impair existing water rights and relates to the same local source of supply as to which the water right relates. This information may include statements, plats, geology reports, well logs, test hole logs, and other information as necessary information to show the above. Additional comments may be made below.

This application proposes to cover an existing well which has been authorized under File No. 30636. The existing well appears to maintain the same local source of supply.

See attached "Domestic Well Spacing Consent" forms and well log

18. If the proposed change(s) does not meet all applicable rules and regulations of the Kansas Water Appropriation Act, please identify the rules and regulations for which you request a waiver. State the reason why a waiver is needed and why the request should be granted. Attach documentation showing that granting the request will not impair existing water rights and will not prejudicially and unreasonably affect the public interest.

As proposed, the existing well does not meet spacing to two (2) nearby wells which are located on an abandoned school house property. (See attached "Domestic Well Spacing Consent" forms which have been signed by the nearby well owner.

The applicant has provided GPS locations for the wells (memo on file dated 3/14/19). A waiver of 5-25-2 is requested.

IF MORE SPACE IS NEEDED, ATTACH ADDITIONAL SHEETS AS NECESSARY

Any use of water that is not as authorized by the water right or permit to authorize water **before** the chief engineer approves this application is a violation of the Kansas Water Appropriation Act for which criminal or civil penalties may be assessed. Such violation is a class C misdemeanor, punishable by a fine not to exceed \$500 and/or a term of confinement not to exceed one month in the county jail. K.S.A. 82a-728(b). Civil penalties shall be not less than \$100 nor more than \$1,000 per violation. In the case of a continuing violation, each day such violation continues may be deemed a separate violation. In addition to these penalties the water right may be modified or suspended. K.S.A. 82a-737, as amended.

The application must be signed by all owners of the place of use authorized under the water right and his or her spouse, if married. Please indicate if there is no spouse. If land is being purchased under contract, the seller must sign as landowner until such time as the contract is completed.

In the event that all applicants cannot appear before one notary public, they may as necessary sign separate copies of the application before any notary public conveniently available to them. All copies signed in this manner shall be considered to be valid parts of the application.

If the request is signed on behalf of any Owner by someone with legal authority to do so (for example, an agent, one who has power of attorney, or an executor, executrix, conservator), it will be necessary to attach proper documents showing such authority.

I declare that I am an owner of the currently authorized place of use as identified herein, or that I represent all such owners and am authorized to make this application on their behalf, and declare further that the statements contained herein are true, correct, and complete. By filing this application I authorize the chief engineer to permanently reduce the quantity of water and/or rate of diversion as specified in sections 14 and 15 of this application.

Re: Water Right File Numbers 21303 and 30636
Section 5-22S-14W
Stafford County, Kansas

Dear CHIEF ENGINEER:

Overview: Carmen Schmitt presently owns N/2 of Section 5-22S-14W with the related water rights files 21303 and 30636. Historically this land has been flood irrigated; not developed with pivot sprinklers because of the extensive oil production infrastructure on the land. Carmen Schmitt also owns S/2 Section 31-21S-14W and N/2 Section 6-22S-14W, historically not irrigated. The purpose of the enclosed Applications is to pivot irrigate acreage in S/2 Section 31-21W-14W and N/2 Section 6-22S-14W and discontinue the flood irrigation in N/2 Section 5-22S-14W.

Enclosed please find:

- A. Application for Approval to Change the Place of Use and Point of Diversion File #30636.
- B. Application for Approval to Change the Place of Use and Point of Diversion File #21303. Please note paragraph 18. alludes to "Domestic Well Spacing Consent" forms as being attached. The "Consentor" personally gave verbal approval on Friday, March 15 after which I obtained the forms from DWR Stafford. As of today the "Consentor" is away from home and unavailable. As soon as I can again locate the "Consentor" I will send the executed forms to you for attachment to this application.
- C. Check in the amount of \$800.00 for the total application fees.

Please give these applications your prompt attention, as we want to proceed for the upcoming irrigation season. I may be reached at the phone number on this letterhead or my cell number, which is 620.793.0102, or my email address, which is carmen@schmittinc.net.

RE: File No 21303

Dear Sir or Madam:

An application for approval of the Chief Engineer to change the following condition or conditions of the file number referred to above has been received:

- place of use PU/PD
- point of diversion
- use made of water

As a matter of record, the Division of Water Resources has on hand a large number of applications awaiting processing. Therefore, to be fair to all concerned, and so that we can process those applications on hand in the order they were received, we intend to concentrate on the backlog of applications until the issue is resolved. You will be contacted regarding this application as soon as it has been examined.

In accordance with the provisions of the Kansas Water Appropriation Act, a portion of which is included below, the use of water prior to approval of the application is unlawful. You should not proceed and divert water as indicated by your plans in your application for a change for this file until you receive approval for this change from the Chief Engineer. Once approved, compliance with the terms, conditions and limitations of the permit is necessary. Conservation of the water resources of Kansas is required.

Section 82a-728 of the Kansas Water Appropriation Act, provides (a) except for the appropriation of water for the purpose of domestic use, . . . it shall be unlawful for any person to appropriate or threaten to appropriate water from any source without first applying for and obtaining a permit to appropriate water in accordance with the provisions of the Water Appropriation Act or for any person to violate any condition of a vested right, appropriation right or an approved application for a permit to appropriate water for beneficial use.

(b) (1) The violation of any provision of this section by any person is a class C misdemeanor...

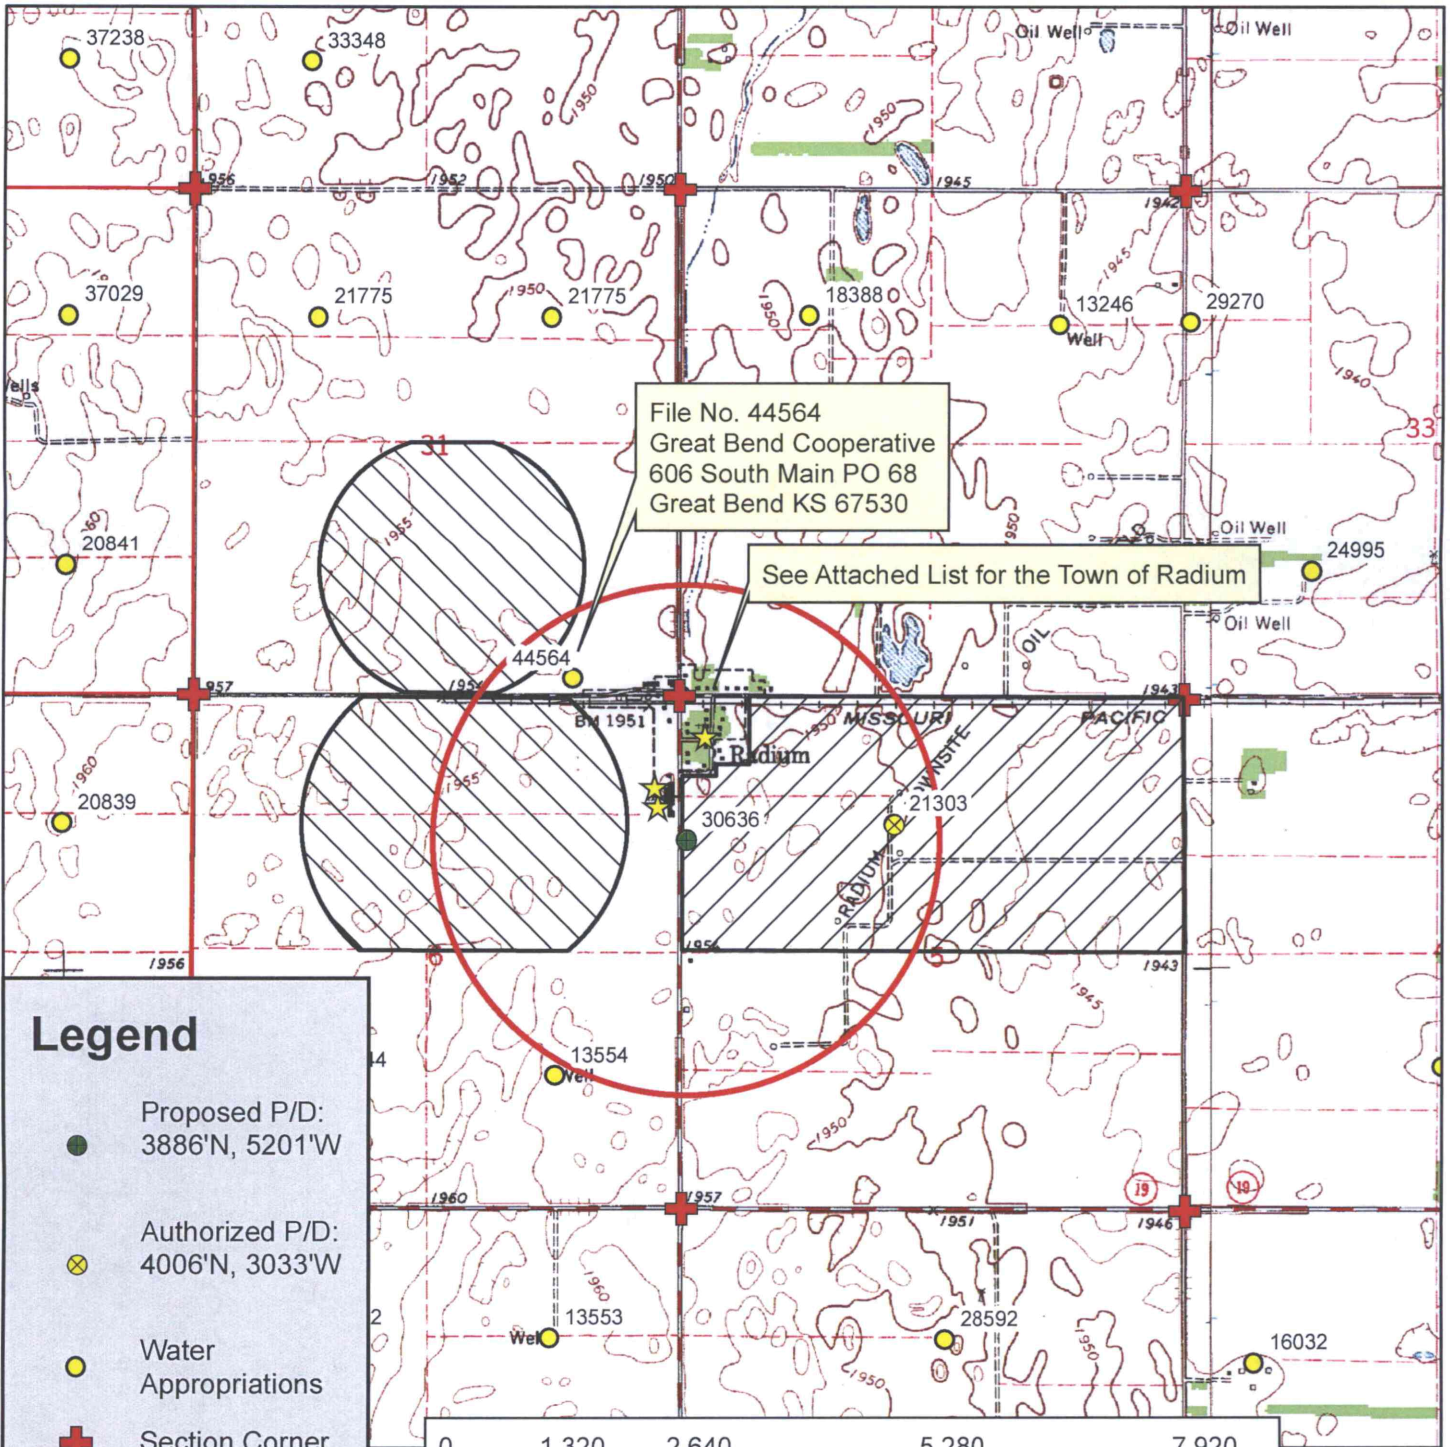

A class C misdemeanor is punishable by a fine not to exceed \$500 and/or a term of confinement not to exceed one month in the county jail. Each day that the violation occurs constitutes a separate offense.

If you have any questions, please contact me at (785) 564-6645. If you wish to discuss a specific file, please have the file number ready so that we may help you more efficiently.

Sincerely,

Brent Tourney, L.G.
