## DWR FIELD OFFICE APPLICATION FOR APPROVAL TO CHANGE THE PLACE OF USE AND/OR THE POINT OF DIVERSION

STATE OF KANSAS

**WATER METER REQUIRED**

Filing Fee Must Accompany the Application, K.S.A. 82a-708b(b), as amended.  
 Fee Schedule is on the third page of this application form.

Paragraph Nos. 1, 2, 3 & 5 must be completed. Complete all other applicable portions. If change in point of diversion is greater than 100 feet, or if place of use will be changed, include a topographic map or detailed plat showing the authorized and proposed point(s) of diversion and/or place of use.

File No. 29062

RECEIVED  
 9:41am  
 MAR 20 2023

1. Application is hereby made for approval of the Chief Engineer to change the (check one or both):

Place of Use                       Point of Diversion

Stafford Field Office  
 Division of Water Resources

under the water right which is the subject of this application in accordance with the conditions described below.

The source of supply is:                       Groundwater                       Surface water

2. Name and address of Applicant: Brit Schroeder

26032 SW L RD, Jetmore, KS 67854

Phone Number: (620)357-5156                      Email address: britschroeder@msn.com

7. The changes herein are desired for the following reasons?  
 (please be specific) Applicant would like to overlap the place of use of three water rights 9854, 29062, and 38766.  
The actual acres irrigated are now reflected with this change.

8. If a well, is the test hole log attached?  Yes  No

9. The change(s) (was)(will be) completed by?  
ASAP

10. If the point of diversion is a well:  
 (a) What are you going to do with the old well?  
N/A

(b) When will this be done? N/A

11. Groundwater Management District recommendation attached?  
 Yes  No

12. Assisted by TMA SFFO

13a. If the proposed point of diversion will be relocated more than 300 feet but within 2,640 feet of the existing point of diversion, attach a topographic map or aerial photograph. For groundwater sources, show all wells (including domestic) within one-half mile of the proposed point of diversion and the names and mailing addresses of the owners. For surface water sources, show the names and addresses of the landowner(s) one-half mile downstream and one-half mile upstream from your property lines

13b. If the proposed point of diversion will be relocated within 300 feet of the existing point of diversion, indicate its location on the diagram shown above in relation to the existing point of diversion. (PLEASE NOTE: The "X" in center of diagram above represents the presently authorized point of diversion.)

RECEIVED

MAR 20 2023

14. If the proposed groundwater point of diversion is 300 or fewer feet from the existing point of diversion, complete the following:
- (a) Does the undersigned represent all owners of the currently authorized place(s) of use identified in this application?  
 Yes     No    (If no, all owners must sign this application.)
  - (b) Will the ownership interest of any owner of the currently authorized place(s) of use identified in this application be adversely affected if this application is approved as requested?  
 Yes     No    (If yes, all owners must sign this application.)
  - (c) If this application is not approved expeditiously, will there be substantial damage to property, public health or safety?  
 Yes     No    (If no, all owners must sign this application.)

If the application proposes a surface water change in point of diversion, a groundwater change in point of diversion greater than 300 feet, or a change in place of use, the application must be signed by all owners of the currently authorized place of use, or their duly authorized agent (attach notarized statement authorizing representation).

I hereby verify, being first duly sworn upon my oath or affirmation and under penalty of perjury, that I am of lawful age and the owner, the spouse of the owner, or a duly authorized agent of the owner(s) to make this application on their behalf, in regards to the water right(s) to which this application pertains. I further verify that the statements contained in this application are true, correct and complete.

**SUMMARY ORDER APPROVING APPLICATION FOR CHANGE AND IMPOSING CONDITIONS**

This Summary Order is issued under authority of K.S.A. 82a-708b, as amended, and K.A.R. 5-5-1, et seq. and other applicable provisions of the *Kansas Water Appropriation Law, K.S.A. 82a-701 et. seq.*, and rules and regulations promulgated thereunder. With the exception of those conditions expressly contained herein, this Summary Order does not change the terms, conditions and limitations of File No. 29062

1. A change application was received on 8/3/20/2023 requesting that the place of use and / or point of diversion authorized under the above-referenced file number be changed as described in the application.
2. On and after the effective date of this summary order, the authorized place(s) of use shall be located substantially as shown on the topographic map accompanying the application to change the place of use.  Applicable  Not Applicable
3. The change in point of diversion shall not impair existing rights and shall be limited to the same source or sources of water as previously authorized. The point of diversion authorized by this summary order shall be located within a \_\_\_\_\_ foot radius of the authorized point(s) of diversion.  Applicable  Not Applicable
4. The point(s) of diversion described herein is administratively corrected to be more accurately described using the Global Positioning System (GPS), as described in the application.  Applicable  Not Applicable
5. The point(s) of diversion authorized herein shall not actually be located more than \_\_\_\_\_ feet from the previously authorized point(s) of diversion.  Applicable  Not Applicable
6. As required by K.A.R. 5-3-5d, if the works for diversion is a well with a diversion rate of 100 gallons per minute or more, a tube or other device suitable for making water level measurements shall be installed, operated and maintained in accordance with K.A.R. 5-6-13.  Applicable  Not Applicable
7. **The owner of the authorized place(s) of use shall properly install an acceptable water flow meter on or before December 31, 2023**, or before the first use of water, whichever occurs first. The water flow meter shall be installed, operated and maintained in accordance with K.A.R. 5-1-4 through 5-1-12. As required by K.S.A. 82a-732, as amended, and K.A.R. 5-3-5e, the owner shall maintain records and report the reading of the water flow meter and the total quantity of water diverted annually to the Chief Engineer by March 1 following the end of each calendar year.  Applicable  Not Applicable
8. **Installation of the works for diversion of water shall be completed on or before December 31, 20\_\_\_\_**, or within any authorized extension of time. By March 1, 20\_\_\_\_ the applicant shall notify the Chief Engineer that construction of the works for diversion has been completed, on the form provided by the Chief Engineer, as required by K.A.R. 5-8-4e.  Applicable  Not Applicable
9. **The completed well log shall be submitted with the required notice.**  Applicable  Not Applicable
10. All diversion works into which any type of chemical or other foreign substance will be injected into the water shall be equipped with an in-line, automatic, quick-closing check valve capable of preventing pollution of the source of the water supply. The check valve(s) shall be installed, operated and maintained in accordance with K.A.R. 5-3-5c.  Applicable  Not Applicable
11. Additional Conditions are attached.  Yes  No 4/7/23 TMA, No additional condition on this file see 38766 for limitation.
12. In accordance with K.S.A. 82a-708a, as amended, and K.A.R. 5-5-14, all of the owners of the authorized place(s) of use of water appropriated under the above-referenced file number are responsible for compliance with its terms, conditions and limitations, as amended and/or supplemented by this Summary Order, and with applicable provisions of the *Kansas Water Appropriation Law* and the *Rules and Regulations* promulgated thereunder. Failure to comply with these provisions may result in civil penalties pursuant to K.S.A. 82a-737, as amended, and/or the suspension or revocation and dismissal of the water or appropriation right or any other enforcement actions authorized by law.

**Administrative Appeal and Effective Date of Order**

If you are aggrieved by this order, pursuant to K.S.A. 82a-1901, you may request an evidentiary hearing before the Chief Engineer or request administrative review by the Secretary of Agriculture. A request for hearing by the Chief Engineer must be filed within **15 days** of service of this Order and a request for administrative review by the Secretary must be filed within **30 days** pursuant to K.S.A. 77-531. Any request for administrative review must state a basis for review pursuant to K.S.A. 77-527. File any request with **Kansas Department of Agriculture, Legal Division, 1320 Research Park Drive, Manhattan, KS 66502**. Failure to timely request a hearing or review may preclude review under the Kansas Judicial Review Act.

Place of Use Change Applications

Brit Schroeder has been in contact with the Stafford Field Office to find out the possibility of being able to move water from two separate places of use and three water rights that are referenced above in any which way necessary. Cameron Conant of the Stafford Field Office mentioned to Brit that this would require field office place of use changes on all three files to create a complete place of use overlap.

The referenced files are in compliance with 82a-732. A review of the application finds that it complies with K.A.R. 5-5-1, *Filing an application for change*. The referenced file does not appear abandoned as per K.S.A 82a-718.

These changes in place of use were ultimately desired to create a place of use overlap to pump water from any point of diversion authorized by the three water rights to any place of use that is authorized under these three water rights. The following information was obtained from each water right and details the proposed changes in place of use to create the overlap:

**File No. 9854:** A base acre review was done in accordance with K.A.R. 5-5-11 which found the base acres on file to be 38 acres. A change in place of use would be able to increase by 3.8 acres from this if needed. The file is currently authorized 42 acres but not all 42 are irrigated. The place of use is a half pivot in the NW  $\frac{1}{4}$  of 8-23S-23W in Hodgeman County (a few acres in the NE  $\frac{1}{4}$  on the edge of the pivot). The point of diversion associated with this water right is located at 3,920' N, 3,400' W of the SE corner of 8-23S-23W and has no overlaps.

**File No. 29062:** This file is already overlapped in place of use with senior right 9854. The base acre review found no additional acres were ever irrigated beyond 9854, so the base is 0 additional acres to the 38 authorized by 9854. The point of diversion authorized by this file is currently 5,115' N and 3,565' W of the SE corner of 8-23S-23W. It will be modified to be better described with GPS to footages 5,180' N, 3,554' W. There is no overlap in point of diversion.

**File No. 38766:** The file authorizes a pivot system in the NE  $\frac{1}{4}$  of the same legal description as the previous files. The currently authorized place of use is 58 acres, all in the NE quarter of the section. Upon reviewing aerial imagery, it appears that the same ground that is authorized is actually greater than 58 acres, which is the primary reason for the base acre reviews being done. All of the same ground is covered that was covered previously, and there is technically no

new acres being irrigated, but the acreage totals are increasing to reflect the actual acres irrigated. The place of use map reflects this, as it is clearly seen there are no new acres being irrigated. The base acre review for this file determined a base acres of 58, with an allowable increase of 5.8 acres. The water right has an authorized point of diversion that is a battery of two wells in the SE ¼ of Section 5 of 23S-23W in Hodgeman County, footages of 100' N, 980' W for the E well and 220' N, 1,200' W for the W well. The geocenter is located at 160' N, 1,090' W. The locations are modified to reflect GPS coordinates as detailed in the application.

All three files will be completely overlapped in place of use going forward. The final total acreage being overlapped is 104 acres.

These approvals will comply with K.A.R. 5-5-3, *Change in consumptive use*. The acreage is increasing from 96 to 104, which is allowable per K.A.R. 5-5-11. The maximum acreage allowable is 105.6 acres. AF/acre on the water rights will still be reasonable because there will be a limitation placed on the junior water right (38766) that reduces quantity used on the entire place of use to 208 AF. This is 2 AF/acre, the maximum allowable in Hodgeman County. The applicant agreed to this limitation (see email and response on 4/10/23) and that the wells individually would retain their same quantities they have now.

The change applications were received at the Stafford Field office on March 20, 2023 along with the proper fee and signatures from all landowners.

Because this is a field office place of use change, nearby well owners, as stated in a previous memo, were not notified of this change. The files are not located in a GMD, so there was no GMD recommendation requested regarding these change applications.

A water flow meter is required. A check valve is required if any chemical or foreign substance is injected into the water through the diversion works.

Based on the above discussion that the change is reasonable, that impairment to existing water rights is unlikely, and that no change in the local source of supply will occur, it has been recommended that the applications be approved.

Re: Water Right, File No(s). 9854,29062,38766

Dear Water Right Owner:

Enclosed is the order executed by the Chief Engineer, Division of Water Resources, Kansas Department of Agriculture, approving the application for change under the above referenced file number(s).

Your attention is directed to the enclosures and to the terms, conditions and limitations specified in this approval for change. An acceptable water flow meter must be installed on your well before any water is applied as authorized under this change approval. A copy of the approved list of Certified Water Flowmeters as well as the regulations regarding the installation of flowmeters, measurement tubes and check valves can be found at <https://www.agriculture.ks.gov/divisions-programs/dwr/water-appropriation/new-applications-and-permits>. If you do not have access to the internet, please contact this office and we will send you a paper copy of the referenced information.

Since this order modifies the original document referred to above, it should be recorded with the Register of Deeds as other instruments affecting real estate.

This order requires that a notice and completion of works form be submitted once the diversion works are completed, including a properly installed flowmeter. This form is available at the referenced website.

Should you have any questions, please feel free to contact this office. If you wish to refer to a specific file, please reference it when you contact us.

Sincerely,

A handwritten signature in black ink, appearing to read "Jeff Lanterman".

Jeff Lanterman  
Water Commissioner

Enclosures

pc: Water Rights Section  
Groundwater Management District No.
