# MEMORANDUM TO FILE

Division of Water Resources, Water Appropriation Program

Date: June 28, 2024

From: Colin Barclay, Environmental Scientist Re: New Application File No. 51,022 – Steve Feight

#### Summary

Steve Feight filed the above referenced application to appropriate 486 acre-feet of groundwater at a rate of 1000 gallons per minute. The proposed point of diversion would be a new well located near the Republican River in the Republican River basin in Cloud County, Kansas. The proposed place of use is 443 acres of farm ground that would have complete place of use overlap with file no. 6,399, 41,950 and 51,025. Application 51,022 was submitted as a pair with application 51,025. 41,950 was to be dismissed upon approval of application 51,022 and 51,025. However, no change application nor voluntary dismissal was received for the senior files.

# Source of Supply and Safe Yield

The applicant proposed to source Dakota aquifer only by constructing a well in a manner that precludes any withdrawal of water from any overlying water-bearing strata and ensure that an adequate seal is placed between the Dakota Formation and any alluvial aquifer to prevent movement of water between the formations. However, well logs provided by the applicant and nearby well logs indicate the alluvium is sitting directly on top of the Dakota Formation with no confining layer that would act as a barrier between the formations. KGS bulletins for Cloud County also confirm this as the Republican River has scoured way much to the confining layers and even the Dakota aquifer along much the river reaches. After review, it was determined that creating a seal would not prevent the alluvium of the Republican River from being sourced. Therefore, alluvium sourced wells were not precluded from the safe yield calculation. Per the requirements in K.A.R. 5-3-11, safe yield is determined by the extent of the unconfined aquifer within a two-mile circle radius of the point of diversion, which establishes the area of consideration. Evaluation of the area of consideration included the extent of the unconfined aquifer, which provided an area of consideration of 8,042 acres. With a potential annual recharge of 2.5 inches, and 100% of recharge available for appropriation, safe yield was determined to be 1,675.52 acre-feet. Existing water rights have appropriated 4,360.50 acre-feet, providing a difference of -2,684.98 acre-feet available for appropriation, and the application requesting 486 acre-feet fails to meet safe yield.

#### Recommendations

A letter was mailed to the applicant on June 7, 2024, informing them that they failed to meet safe yield. On June 17, 2024, the applicant came to Manhattan Headquarters in person and spoke with Ken Kopp and Colin Barclay of the Division of Water Resources about our safe yield evaluation and why their application was being dismissed. After an explanation, the applicant was informed they had until June 24, 2024, to submit additional information or to ask for an extension of time. No additional information or a request for an extension of time was received by the applicant. For the reason of failure to meet safe yield requirements as set forth in K.A.R. 5-3-11, I recommend that application 51,022 be dismissed.

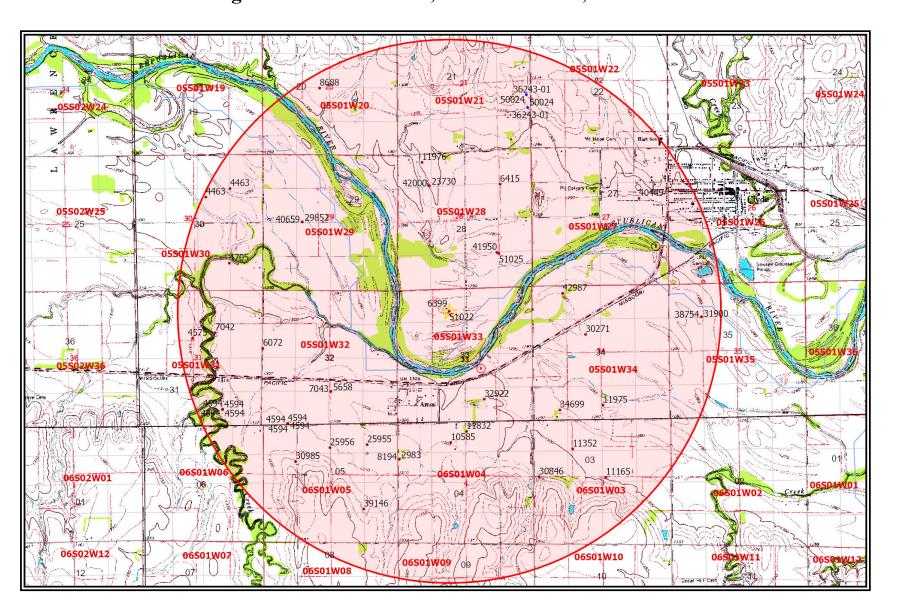

Colin Barclay

Colin Borday

Water Appropriation Program

# Safe Yield Report Sheet Water Right- A5102200 Point of Diversion in 33-05S-01W Footages from SE corner- 4,359 feet North 3,213 feet West

# **Analysis Results**

The selected PD is in an area Restricted to new appropriations.

The safe yield based on the variables listed below is 1,675.52 AF.

Total prior appropriations in the circle is 5,332.50 AF. 4360.50 AF

Total quantity of water available for appropriation is 0.00 AF. -2684.98 AF

# Safe Yield Variables

The area used for the analysis is set at 8,042 acres.

The potential annual recharge at the circle center is estimated to be 2.5 inches.

The percent of recharge available for appropriation is 100%.

Authorized Quantity values are as of 03-JUN-2024 and are based on Appropriated and Vested ground water right and possible stream nodes for GMD #2. Domestic, Term and Temporary water rights have been excluded.

There are 40 water rights and 37 points of diversion within the circle.

# FINDINGS AND ORDER IN THE MATTER OF THE DISMISSAL OF APPLICATION TO APPROPRIATE WATER FILE NO. 51,022

After due consideration, the Chief Engineer, Division of Water Resources, Kansas Department of Agriculture (hereinafter referred to as the "Chief Engineer"), makes the following findings and order:

#### **FINDINGS**

- 1. That on April 18, 2023, the Chief Engineer received an application from Steve Feight, for a permit to appropriate groundwater for beneficial use, assigned File No. 51,022, proposing the appropriation of 486 acre-feet of water, at a maximum requested diversion rate of 1,000 gallons per minute, for irrigation use, from a well located in the Southeast Quarter of the Northeast Quarter of the Northwest Quarter (SE¼ NE¼ NW¼) of Section 33, Township 5 South, Range 1 West, Cloud County, Kansas.
- 2. That the Kansas Water Appropriation Act, in K.S.A. 82a-711, requires the Chief Engineer to consider whether a proposed use will prejudicially and unreasonably affect the public interest, and shall take into consideration established minimum desirable streamflow requirements, the area, safe yield, and recharge rate of the appropriate water supply, the priority of existing claims of all persons to use the water of the appropriate water supply, the amount of each claim to use water from the appropriate water supply, and all other matters pertaining to such question.
- 3. That K.A.R. 5-3-9 states that it shall be considered to be in the public interest that only the safe yield of any source of water supply, including hydraulically connected sources of water supply, shall be appropriated, and K.A.R. 5-3-10 and K.A.R. 5-3-11 set forth the methodology for determining safe yield.
- 4. That K.A.R. 5-1-1(vvv) defines "safe yield" as the long-term sustainable yield of the source of supply, including hydraulically connected surface water or groundwater.
- 5. That on June 7, 2024, a letter was mailed to the applicant, stating that the application failed to comply with the safe yield requirements, that the application would be submitted to the Chief Engineer with a recommendation for denial, and that the applicant had an opportunity to submit additional information to be considered, which must be submitted by June 24, 2024, or within any authorized extension of time.
- 6. That on June 17, 2024, the applicant met in person with Division of Water Resources staff to discuss the safe yield evaluation, during which the applicant was reminded that he had until June 24, 2024, to submit additional information or to request an extension of time in which to do so.

File No. 51,022 Page 2 of 2

7. That no additional information has been submitted within the time allowed and no request for an extension of time has been received from the applicant.

8. That the Application, File No. 51,022, should be dismissed and its priority forfeited as provided by K.S.A. 82a-711, and K.A.R. 5-3-9, K.A.R. 5-3-10 and K.A.R. 5-3-11.

#### **ORDER**

NOW, THEREFORE, It is the decision and order of the Chief Engineer, Division of Water Resources, Kansas Department of Agriculture, that effective the date of this order, in accordance with the law, Application, File No. 51,022, is herewith dismissed and the priority assigned to it is considered to be forfeited.

It is so ordered this 26 day of June , 2024, in Manhattan, Riley County, Kansas.

Earl D. Lewis Jr., P.E.
Chief Engineer

RE:

Dismissal of Applications

File Nos. 51,022 and 51,025

Dear Mr. Feight:

Enclosed are Findings and Orders by the Chief Engineer, Division of Water Resources, Kansas Department of Agriculture, dismissing the above referenced applications to appropriate water for failure to meet safe yield as originally described in our letters to you, dated June 7, 2024.

Please feel free to contact this office should you have any questions. If you wish to discuss a specific file, please have the file number ready so that we may help you more efficiently.

Sincerely,

Kristen A. Baum

# RIGHT TO A HEARING AND TO ADMINISTRATIVE REVIEW

If you are aggrieved by this Order, then pursuant to K.S.A. 82a-1901, you may request an evidentiary hearing before the Chief Engineer or request administrative review by the Secretary of Agriculture. Failure to request an evidentiary hearing before the Chief Engineer does not preclude your right to administrative review by the Secretary.

To obtain an evidentiary hearing before the Chief Engineer, a written request for hearing must be filed within 15 days after service of this Order as provided in K.S.A. 77-531 (i.e., within a total of 18 days after this Order was mailed to you), with: Kansas Department of Agriculture, Attn: Legal Division, 1320 Research Park Drive, Manhattan, Kansas 66502, FAX 785-564-6777.

If you do not file a request for an evidentiary hearing before the Chief Engineer, you may petition for administrative review of the Order by the Secretary of Agriculture. A petition for review shall be in writing and state the basis for requesting administrative review. The request for review may be denied if the request fails to clearly establish factual or legal issues for review. See K.S.A. 77-527. The petition must be filed within 30 days after service of this Order as provided in K.S.A. 77-531 (i.e., within a total of 33 days after this Order was mailed to you), and be filed with: Secretary of Agriculture, Attn: Legal Division, Kansas Department of Agriculture, 1320 Research Park Drive, Manhattan, Kansas 66502, FAX 785-564-6777.

If neither a request for an evidentiary hearing nor a petition for administrative review is filed as set forth above, then this Order shall be effective and become a final agency action as defined in K.S.A. 77-607(b). Failure to timely request either an evidentiary hearing or administrative review may preclude further judicial review under the Kansas Judicial Review Act.

## CERTIFICATE OF SERVICE

On this 2 day of July File Nos. 51,022 and 51,025, dated class, U.S. mail to the following:

, 2024, I hereby certify that the foregoing Dismissal of Applications, June 28 , 2024, were mailed postage prepaid, first

STEVE FEIGHT 2358 WAGON RD CLYDE KS 66938-3045

With photocopies to:
