**RECREATIONAL USE
SUPPLEMENTAL SHEET**

File No. _____

Name of Applicant (Please Print): F&S Farms LLC % Brian Woody

1. Please indicate type of recreational use (boating, fishing, swimming, etc.): _____

Recreational pond for hunting and wildlife benefits.

2. Please summarize how the water will be used and justify the quantity of water requested: _____

Capacity = 1.24 acres x 22" depth = 2.27 acre-feet

Evaporation = 1.24 acres x 38" /12 = *3.92 acre-feet max

*The evaporation replacement number could range from 0.98 AF to 3.92 AF depending on how many months they keep if filled.

Total Quantity = 5 acre-feet

The pond may not be held full for the entire 12 months of the year so the evaporation number may be considerably less than shown above, the pond holds water very well so seepage may be minimal. The applicant understands that the limit here is 5 AF and will abide by that quantity and will fill and maintain the pond level accordingly.

3. Please complete the following table showing estimated future water requirements:

ESTIMATED FUTURE WATER DIVERTED/STORED

NEXT 5 YEARS	WATER TO BE DIVERTED (ACRE-FEET OR GALLONS)
Year 1	5.0
Year 2	5.0
Year 3	5.0
Year 4	5.0
Year 5	5.0

Please attach any additional information, tables, or curves showing past, present and estimated future water requirements to substantiate the amount of water requested.

4. Please designate the legal description of the location where the water is to be used by providing the fractional part of the Section, Township and Range.

1.24 acre surface area pond located in the Southeast Quarter of the Northwest Quarter (SE ¼ NW¼)

of Section 34, Towhship 32 South, Range 19 West, Comanche County, Kansas

You may attach any additional information you believe will assist in informing the Division of the need for your request.

Minimum Desirable Streamflow

Dear Sir:

I understand that a Minimum Desirable Streamflow requirement has been established by the legislature for the source of supply to which the above referenced application applies.

I understand that diversion of water pursuant to this application will be subject to regulation any time Minimum Desirable Streamflow requirements are not being met.

I also understand that if this application is approved, there could be times, as determined by the Division of Water Resources, when I would not be allowed to divert water. I realize that this could affect the economics of my decision to appropriate water.

I am aware of the above factors, and with the knowledge thereof, request that the Division of Water Resources proceed with processing and approval, if possible, of the above referenced application.
