**TO:** File

**DATE:** 02/26/2025

**FROM:** Jessica Engelbrecht

**RE:** File No(s). 50,461

This is a memorandum regarding surrounding well owner notification on irrigation field office PU changes and pertains to decisions made during the Water Commissioner Meeting which took place on 11/16/2016 with directive from Lane Letourneau, Program Manager.

This is applicable to field office changes to increase the place of use by 10 acres or 10% (whichever is less) or a change in place of use to create a complete overlap in which new acres are being irrigated.

During that meeting it was determined that no surrounding well owner's notification will be sent under this type of Place of Use change. All well rates and quantities will remain unchanged, and the referenced change will not cause impairment or impact surrounding well owners.

The change(s) in place of use filed on February 26, 2025 for the above referenced file(s) meets this criteria and surrounding well owners will not be notified.

Re: Place of Use Change Applications, File Nos. 50461 & 50584 – Marvin Miller

Dear Ms. Engelbrecht:

The Equus Beds Groundwater Management District No. 2 reviewed the referenced change in place of use applications on March 19, 2025, using the District's Revised Management Program (effective May 1, 1995) and Rules and Regulations K.A.R. 5-22-1 through 5-22-17.

The change applications propose to modify the place of use and add 1.3 acres for a total of 179 acres and form a complete and identical overlap between Water Permit Nos. 50461 & 50584. The proposed place of use results in a combined water to land ratio of 1.11 acre-feet per acre.

The District's review found that the change applications comply with the Revised Aquifer Management program approved by the Chief Engineer and with the District's Rules and Regulations K.A.R. 5-22-1 through 5-22-17. Based upon the review, the change applications are recommended for approval by the Equus Beds Groundwater Management District No. 2.

A District decision may be appealed to the District Board of Directors by submitting a written petition to the District office within 30 days from the date of this notification, pursuant to K.A.R. 5-22-12. Please contact the District should you have any questions regarding the review or recommendation.

Sincerely,

### 20) Comments and Calculations:

Change in place of use application submitted by Marvin Miller to modify the place of use and add 1.3 acres for a total of 179 acres in Reno County. PU is proposed to add 1.3 acres to the PU and forms a complete and identical overlap in PD/PU with change in PU filed on No. 50461. The app. map shows the areas to be modified. Water Permit No. 50584 has not been perfected. PD will apparently be corrected with this change to a battery of three wells, as one well of the battery was not completed.

Water Permit No. 50584 has authorized acres and base acres of 177.7 acres.

Application requests a change in place of use of the currently authorized acres and add 1.3 acres for a total of 179 acres.

Base acres for Nos. 50584 and 50461 is 177.7 total acres. Proposed increase of 1.3 acres (less than 1%) complies with K.A.R. 5-5-11 max increase of 10 acres/10% (whichever is less).

Item 14:  $12 \text{ AF} / 179 \text{ acres} = 0.07 \text{ AF/A}$  - combined with No. 50461 =  $(12 \text{ AF} + 187 \text{ AF} = 199 \text{ AF} / 179 \text{ Acres}) = 1.11 \text{ AF/A}$ . At or below max AF/A for Reno Co. of 1.4 AF/A, permit was approved in 2023.

No meter inspection has been performed by GMD2 to date, but previous meter requirements when Nos. 50461 & 50584 were approved. Nos. 50584 & 50461 received notice of non-compliance for overpumping in 2023 (less than 24 hours).

Reno County records show the currently authorized place of use is owned by Marvin R. & Jackie L. Miller. It appears that only Mr. Marvin signed the application. GMD2 will notify DWR for their information and action if needed.

Recommend approval, complies with K.A.R. 5-22-1 through 5-22-17.
