MEMORANDUM TO FILE

Division of Water Resources, Water Appropriation Program

Date: February 10, 2025
From: Colin Barclay, Environmental Scientist
Re: New Application File Nos. 51,034, 51,169 and 51,184 – Max D Fisher Trust
Water Right, File Nos. 27,580 and 37,961

Summary

Max D Fisher Trust filed the above referenced applications to appropriate water for beneficial use. Application 51,034 is located within the Rattlesnake Creek drainage basin. The applicant originally filed application 51,034 with the intention of moving water from senior file 37,961 to 51,034. Instead, the applicant has decided to move the water from 37,961 to application 51,169 and instead file a new application to replace 51,034. Application 51,184 effectively replaces 51,034 and will instead be using water from senior file 27,580. The applicant has signed the voluntary dismissal form for 51,034. Therefore, it is recommended that application 51,034 be dismissed as per the applicant's request.

After receiving a recommendation to deny applications 51,169 and 51,184 from Big Bend Groundwater Management District #5, the applicant elected to voluntarily dismiss the applications. The applicant has signed the voluntary dismissal forms for 51,169 and 51,184. Therefore, it is recommended that both application 51,169 and 51,184 be dismissed as per the applicant's request.
