**RE:** Appropriation of Water, File No. 48,175  
Appropriation of Water, File No. 48,504  
New Application, File No. 49,246

Taner Litton has filed the referenced new application (File No. 49,246) to appropriate 91 acre-feet of groundwater at a diversion rate of 1,200 gallons per minute for irrigation on 70 acres as well as use on an existing place of use authorized under Water Appropriation, File Nos. 48,175 & 48,504. The well is located in the Northeast Quarter of Section 18, township 10 South, Range 3 West, Ottawa County, and the source of supply is the unconfined Dakota aquifer system located in the drainage basin of the Solomon River. At the current time, the proposed 70 acres additional place of use is not overlapped with Water Appropriation, File Nos. 48,175 & 48,504. However, change applications for the referenced files has been filed to create an overlap in place of use with all three files. The new application and both change applications will be processed as a package.

The new application was worked by Doug Schemm, Environmental Scientist, Topeka Field Office, and in a March 30, 2016 email with Kelly Stewart, Water Commissioner, Stockton Field Office, a recommendation for approval was received.

The change in place of use for File Nos. 48,175 & 48,504 will increase the irrigated acres by 70 acres bringing the total up to 307.13. This is 1.13 acres more than requested on the application due to a correction of acres connected with File Nos. 48,175 & 48,504 having Lots associated with the place of use. These Lots have already been legally irrigated from the start of approval of appropriation of File No. 48,504, thus not requiring the applicant to resubmit an application for the new appropriation and change files as this is a correction not an increase in requested acres. The proposed change in place of use complies with K.A.R. 5-5-3 due to the new application, thus meeting K.A.R. 5-5-11(b)(6).

Per the definition in K.A.R. 5-1-1(iiii) the "Unconfined Dakota aquifer system" means that a portion of the Dakota aquifer system not overlain by a confining layer in which the aquifer is in equilibrium with atmospheric pressure. A well log submitted with both Water Appropriation, File No. 48,175, and new application, File No. 49,246, and others nearby indicate that sand or a sandstone layer was encountered at a relatively shallow depth of approximately 23 feet below ground surface, and it appears to be fairly continuous in this local area. This shallow layer contains some alluvial deposits in this local area as well. The primary aquifer (sandstone) extends from 68 feet to 154 feet below ground surface. It is important to note that static water levels in these area wells are typically at the same depth as this shallow sand or sandstone layer. In addition, a well log from the Southeast Quarter of Section 18 indicates water was encountered at 25 feet below ground to top of screen. Since the shallow aquifer layer is

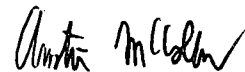

producing water, it is likely that if it were also included in the screened interval, the entire aquifer would be more in equilibrium with atmospheric pressure. Therefore, because of the shallow depth to water first encountered, and static water for this appropriation is more representative of the unconfined Dakota aquifer system.

Per K.A.R. 5-3-11, an evaluation of safe yield includes the entire 2 mile area of consideration around the point of diversion. With a recharge of 2.6 inches, and 75% of recharge available for appropriation, this results in a safe yield of 1,326.93 acre-feet. There are six other water rights within this area of consideration that have appropriated 908.8 acre-feet, leaving 418.13 acre feet available, therefore these applications meet safe yield requirement.

The applicant identified one domestic well within one half-mile from the proposed point of diversion, and is located over 2,000 feet away. A nearby notification letter was sent to the domestic well owner, Craig McHenry, on March 18, 2016. No response was received. The WRIS database shows the nearest permitted water right is over 3,000 feet away. The proposed point of diversion for the new application meets minimum well spacing requirements for the unconfined Dakota aquifer system, located over one-half mile to the nearest permitted well, and over 1,320 feet to the nearest domestic well.

In a June 27, 2016 e-mail, Kelly Stewart, Water Commissioner, Stockton Field Office, recommended approval of the application.

Based on the above discussion, the area is open to new appropriations, the applicant meets safe yield and well spacing criteria, and the approval of the applications will not impair senior water rights nor prejudicially or unreasonably affect the public interest, it is recommended that the referenced new application be approved in conjunction with the change applications in place of use. The change is reasonable, impairment of existing water rights is unlikely, and the additional acres is covered by the new application, resulting in no increase in consumptive use, it is recommended that the referenced change applications be approved.

**FILE COPY**

RE: Appropriation of Water, File Nos. 48,175 & 48,504

Dear Mr. Litton:

Enclosed are the orders executed by the Chief Engineer, Division of Water Resources, Kansas Department of Agriculture, approving the applications for change under the referenced files. These orders modify the authorized place of use to allow for the new irrigation of the Northeast Quarter of Section 18, Township 10 South, Range 3 West, Ottawa County, Kansas.

Since these orders modify the original documents referred to above, they should be recorded with the Register of Deeds as other instruments affecting real estate.

Your attention is directed to the enclosures and to the terms, conditions, and limitations specified in the approvals for change. A condition of the approvals is that an acceptable water flowmeter must be installed on the diversion works authorized. Please return the required notification of installation of the meter as soon as this action is completed.

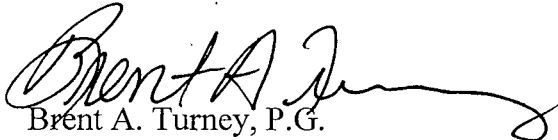

Please be reminded that reports of water usage must be submitted to this office annually. Records indicating the amount of water used should be furnished to the Chief Engineer by March 1 following the end of the previous calendar year so that the continued use of water becomes a matter of record in this office. The owner, or his or her legally designated agent, is held responsible for submitting annual water use reports. Failure to file an accurate water use report is a violation of law which makes you subject to civil penalties.

The water use correspondent remains as:

TANER LITTON  
571 N 30TH RD  
GLASCO KS 67445

If you have any questions, please contact me at (785) 564-6645. If you wish to discuss a specific file, please have the file number ready so that we may help you more efficiently.

Sincerely,

A handwritten signature in black ink, appearing to read "Brent A. Turney". The signature is fluid and cursive, with a long horizontal flourish extending to the right.

**APPROVAL OF APPLICATION  
FOR  
CHANGE IN PLACE OF USE  
APPROPRIATION OF WATER, FILE NO. 48,175**

The Chief Engineer, Division of Water Resources, Kansas Department of Agriculture, after due consideration of the written application of James E. Litton, 2878 US 24 Hwy, Beloit, Kansas 67420, on behalf of Mark Chapman Estate, PO Box 1622, Sealy, Texas 77474, received in the office of the Chief Engineer on December 31, 2014, for approval of a change in the location of the place of use, under Approval of Application, File No. 48,175, as modified and amended by the Order of the Chief Engineer dated April 22, 2014, approving the application to change the authorized place of use, for permit to appropriate water for beneficial use, finds that the change is reasonable and will not impair existing rights, and that the application should be and is hereby approved.

The effective date of the change shall be the date this order is executed by the Chief Engineer, after which the authorized location of the place of use shall be:

Sec. Twp. Range	NE¼				NW¼				SW¼				SE¼				TOTAL
	NE¼	NW¼	SW¼	SE¼	NE¼	NW¼	SW¼	SE¼	NE¼	NW¼	SW¼	SE¼	NE¼	NW¼	SW¼	SE¼	
18 10S 3W			35	35					Lot 1 40	Lot 2 36.5	Lot 2 40.63	Lot 1 40		40	40		307.13

a total of 307.13 acres, in Township 18 South, Range 3 West, Ottawa County, Kansas,

located substantially as shown on the topographic map accompanying the application to change the place of use.

All diversion works into which any type of chemical or other foreign substance will be injected into the water pumped from the diversion works shall be equipped with an in-line, automatic, quick-closing check valve capable of preventing pollution of the source of the water supply. The type of valve installed shall meet specifications adopted by the Chief Engineer and shall be maintained in an operating condition satisfactory to the Chief Engineer.

The water right owner shall properly install an acceptable water meter on the diversion works authorized under this water appropriation, prior to the use of water, in strict accordance with the Kansas Administrative Regulations 5-1-4 through 5-1-12 adopted by the Chief Engineer. The water right owner shall notify the Chief Engineer when installation of the water meter has been completed. The water right owner shall maintain the water meter in an operating condition satisfactory to the Chief Engineer, at all times during diversion of water and shall maintain records from which the total quantity of water diverted may be determined. The water right owner shall also report the reading of said water meter and the total quantity of water diverted annually to the Chief Engineer. Such records shall be furnished to the Chief Engineer by March 1 following the end of each calendar year.

In all other respects, the Approval of Application, File No. 48,175, for permit to appropriate water for beneficial use, is as stated and set forth in the approval dated December 27, 2012, as modified and amended by the aforementioned order.

**CERTIFICATE OF SERVICE**

On this *21* day *July*, 2016, I hereby certify that the attached Approval of Application for Change in Place of Use, File No. 48,175 dated, *July 19, 2016* was mailed postage prepaid, first class, US mail to the following:

12. The presently authorized use of water is for irrigation purposes.  
It is proposed that the use be changed to no change purposes.

13. If changing the place of use and/or use made of water, describe how the consumptive use will not be increased.  
A new application is being filed concurrently.  
\_\_\_\_\_  
\_\_\_\_\_

(Please show any calculations here.)

14. It is requested that the maximum annual quantity of water be reduced to N/A (acre-feet or million gallons).

15. It is requested that the maximum rate of diversion of water be reduced to N/A gallons per minute (\_\_\_\_ c.f.s.).

16. The application must include either a topographic map or detailed plat. A U.S. Geological Survey Topographic Map, scale 1:24,000, is available through the Kansas Geological Survey, 1930 Constant Avenue, University of Kansas, Lawrence, Kansas 66047-3726 ([www.usgs.gov](http://www.usgs.gov)). The map should show the location of the presently authorized point(s) of diversion. Distances North and West of the Southeast corner of the section must be shown. The presently authorized place of use should also be shown. Identify the center of the section, the section lines and the section corners and show the appropriate section, township, and range numbers on the map. In addition the following information must also be shown on the map.

- a. If a change in the location of the point(s) of diversion is proposed, show:
  - 1) The location of the proposed point(s) of diversion. Distances North and West of the Southeast corner of the section must be shown. Please be certain that the information shown on the map agrees with the information shown in Paragraph Nos. 9, 10 and 11 of the application.
  - 2) If the source of supply is groundwater, please show the location of existing water wells of any kind, including domestic wells, within 1/2 mile of the proposed well or wells. Identify each well as to its use and furnish name and mailing address of the property owner or owners. If there are no wells within 1/2 mile, please indicate so on the map.
  - 3) If the source of supply is surface water, the names and mailing addresses of all landowner(s) 1/2 mile downstream and 1/2 mile upstream from your property lines must be shown.
- b. If a change in the place of use is desired, show the proposed place of use by crosshatching on the map. Please be certain that the information shown on the map agrees with the information shown in Paragraph No. 5 of the application.

17. Attach documentation to show the change(s) proposed herein will not impair existing water rights and relates to the same local source of supply as to which the water right relates. This information may include statements, plats, geology reports, well logs, test hole logs, and other information as necessary information to show the above. Additional comments may be made below.  
\_\_\_\_\_  
\_\_\_\_\_  
\_\_\_\_\_

18. If the proposed change(s) does not meet all applicable rules and regulations of the Kansas Water Appropriation Act, please identify the rules and regulations for which you request a waiver. State the reason why a waiver is needed and why the request should be granted. Attach documentation showing that granting the request will not impair existing water rights and will not prejudicially and unreasonably affect the public interest.

**DEC 31 2014**

Any use of water that is not as authorized by the water right or permit to authorize water before the chief engineer approves this application is a violation of the Kansas Water Appropriation Act for which criminal or civil penalties may be assessed. Such violation is a class C misdemeanor, punishable by a fine not to exceed \$500 and/or a term of confinement not to exceed one month in the county jail. K.S.A. 82a-728(b). Civil penalties shall be not less than \$100 nor more than \$1,000 per violation. In the case of a continuing violation, each day such violation continues may be deemed a separate violation. In addition to these penalties the water right may be modified or suspended. K.S.A. 82a-737, as amended.

The application must be signed by all owners of the place of use authorized under the water right and his or her spouse, if married. Please indicate if there is no spouse. If land is being purchased under contract, the seller must sign as landowner until such time as the contract is completed.

In the event that all applicants cannot appear before one notary public, they may as necessary sign separate copies of the application before any notary public conveniently available to them. All copies signed in this manner shall be considered to be valid parts of the application.

If the request is signed on behalf of any Owner by someone with legal authority to do so (for example, an agent, one who has power of attorney, or an executor, executrix, conservator), it will be necessary to attach proper documents showing such authority.

I declare that I am an owner of the currently authorized place of use as identified herein, or that I represent all such owners and am authorized to make this application on their behalf, and declare further that the statements contained herein are true, correct, and complete. By filing this application I authorize the chief engineer to permanently reduce the quantity of water and/or rate of diversion as specified in sections 14 and 15 of this application.

12. The presently authorized use of water is for irrigation purposes.  
It is proposed that the use be changed to no change purposes.

13. If changing the place of use and/or use made of water, describe how the consumptive use will not be increased.  
A new application is being filed concurrently.

(Please show any calculations here.)

14. It is requested that the maximum annual quantity of water be reduced to N/A (acre-feet or million gallons).

15. It is requested that the maximum rate of diversion of water be reduced to N/A gallons per minute ( c.f.s.).

16. The application must include either a topographic map or detailed plat. A U.S. Geological Survey Topographic Map, scale 1:24,000, is available through the Kansas Geological Survey, 1930 Constant Avenue, University of Kansas, Lawrence, Kansas 66047-3726 ([www.usgs.gov](http://www.usgs.gov)). The map should show the location of the presently authorized point(s) of diversion. Distances North and West of the Southeast corner of the section must be shown. The presently authorized place of use should also be shown. Identify the center of the section, the section lines and the section corners and show the appropriate section, township, and range numbers on the map. In addition the following information must also be shown on the map.

- a. If a change in the location of the point(s) of diversion is proposed, show:
  - 1) The location of the proposed point(s) of diversion. Distances North and West of the Southeast corner of the section must be shown. Please be certain that the information shown on the map agrees with the information shown in Paragraph Nos. 9, 10 and 11 of the application.
  - 2) If the source of supply is groundwater, please show the location of existing water wells of any kind, including domestic wells, within 1/2 mile of the proposed well or wells. Identify each well as to its use and furnish name and mailing address of the property owner or owners. If there are no wells within 1/2 mile, please indicate so on the map.
  - 3) If the source of supply is surface water, the names and mailing addresses of all landowner(s) 1/2 mile downstream and 1/2 mile upstream from your property lines must be shown.
- b. If a change in the place of use is desired, show the proposed place of use by crosshatching on the map. Please be certain that the information shown on the map agrees with the information shown in Paragraph No. 5 of the application.

17. Attach documentation to show the change(s) proposed herein will not impair existing water rights and relates to the same local source of supply as to which the water right relates. This information may include statements, plats, geology reports, well logs, test hole logs, and other information as necessary information to show the above. Additional comments may be made below.

---

18. If the proposed change(s) does not meet all applicable rules and regulations of the Kansas Water Appropriation Act, please identify the rules and regulations for which you request a waiver. State the reason why a waiver is needed and why the request should be granted. Attach documentation showing that granting the request will not impair existing water rights and will not prejudicially and unreasonably affect the public interest.

DEC 31 2014

Any use of water that is not as authorized by the water right or permit to authorize water **before** the chief engineer approves this application is a violation of the Kansas Water Appropriation Act for which criminal or civil penalties may be assessed. Such violation is a class C misdemeanor, punishable by a fine not to exceed \$500 and/or a term of confinement not to exceed one month in the county jail. K.S.A. 82a-728(b). Civil penalties shall be not less than \$100 nor more than \$1,000 per violation. In the case of a continuing violation, each day such violation continues may be deemed a separate violation. In addition to these penalties the water right may be modified or suspended. K.S.A. 82a-737, as amended.

The application must be signed by all owners of the place of use authorized under the water right and his or her spouse, if married. Please indicate if there is no spouse. If land is being purchased under contract, the seller must sign as landowner until such time as the contract is completed.

In the event that all applicants cannot appear before one notary public, they may as necessary sign separate copies of the application before any notary public conveniently available to them. All copies signed in this manner shall be considered to be valid parts of the application.

If the request is signed on behalf of any Owner by someone with legal authority to do so (for example, an agent, one who has power of attorney, or an executor, executrix, conservator), it will be necessary to attach proper documents showing such authority.

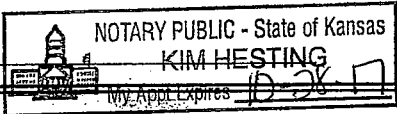

I declare that I am an owner of the currently authorized place of use as identified herein, or that I represent all such owners and am authorized to make this application on their behalf, and declare further that the statements contained herein are true, correct, and complete. By filing this application I authorize the chief engineer to permanently reduce the quantity of water and/or rate of diversion as specified in sections 14 and 15 of this application.

Dated at Beloit, Kansas, this 24th day of December, 20 14.

**FILE COPY**

RE: Water Right  
File Nos. 48,175 & 48,504

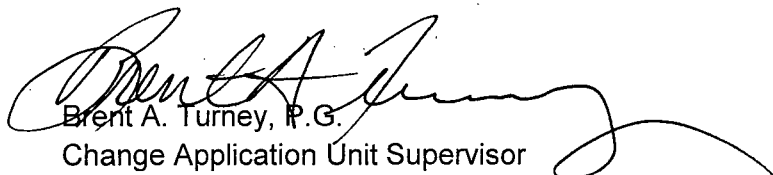

Dear Mr. Litton:

Reference is made to the applications for approval of the Chief Engineer to change the place of use under the referenced file numbers which were received in this office on December 31, 2014. Upon review of the applications, we find that additional information is needed.

It is required by K.A.R. 5-5-5, Signatures required on change application, that the Division of Water Resources, is required to obtain a notarized signature from each landowner, or a duly authorized agent. Records in this office indicate that Wildcat Farms LLC are owners of the proposed place of use and will need to sign as owner of the place of use in Section 18, Township 10 South, Range 3 West. If the property ownership is different than that as indicated by the updated Part 4 of the application, please provide documentation to that effect and have the landowner and their spouse or duly authorize agent sign. If the land is held in a trust please have the trustee sign as such. All signing must be done with a notary public present.

A copy of the applications and new signature pages are enclosed so that land owners may sign. In order for the applications retain their priority of filing the enclosed signature pages must be returned to this office on or before April 29, 2016. According to law, default in the refiling of the requested information as outlined above within the time allowed or any authorized extension of time, shall cause dismissal of the applications for change under the above referenced file numbers. Should you need additional time please give me a call.

Sincerely,

Brent A. Turney, P.G.  
Change Application Unit Supervisor

CMG PU

S-5-11 NOT CONT

File No. 48,5049 48,175 Name: LITON

Are all the owner's signatures (place of use owners also) on the application?

Is right in good standing (not abandoned/ no over pumping/ no fees owed)? NO

Does written application:

current pd location: match WRIS info?  Y N application map?  Y N

proposed pd location: match WRIS info? Y N application map? Y N N/A LOT ADD CHRT

✓ current pu location: match WRIS info?  Y N application map?  Y N

✓ proposed pu location: match WRIS info? Y N application map? Y N OWNERSHIP ?

Are there wells located within - mile? Have they been notified? Y N NA

Same/ different source of supply?

In an IGUCA or special use area? Y  N

Certificate or approval of application?

Have there been previous changes approved?

If pd change, is the move less than 2,640 feet? Y N

If pd change, has spacing been met between nearby wells? Y N

PD Overlaps?

PU Overlaps?

Base Acers/ Max acres legally irrigated/ Increase in base acreage?

Reasonable quantity 50% NIR 85% efficiency?
