RE: Dismissal of Application,
File Nos. 49,668 & 49,669

On February 1, 2017, Voluntary Dismissal forms were received for Application, File Nos. 49,668 & 49,669, signed by the applicant Jeffery Strnad.

These applications were received on July 8, 2016. The applicant has decided to refile a new application to incorporate both storage ponds. The applicant has been working with the Stockton Field Office on filing a new application for these two storage reservoirs. They have agreed to voluntarily dismiss the referenced applications.

The enclosed Findings and Orders have been made for the dismissal of the referenced applications.

RE: Dismissal of Application,
File Nos. 49,668 & 49,669

Dear Mr. Strnad:

Enclosed are the Findings and Order by the Chief Engineer, Division of Water Resources, Kansas Department of Agriculture, dismissing Application, File Nos. 49,668 & 49,669, as requested in the Voluntary Dismissal of an Application for Permit to Appropriate Water forms received from Jeffery Strnad, received in this office on February 1, 2017.

These Orders shall become a final agency action, as defined by K.S.A. 77-607(b), without further notice to the parties, if a request for hearing or a petition for administrative review is not filed.

Any request for hearing or petition for administrative review shall be in writing and shall be submitted to the attention of: Chief Legal Counsel, Kansas Department of Agriculture, 1320 Research Park Drive, Manhattan, Kansas 66502, Fax: (785) 564 - 6777.

If you have any questions, please contact me at (785) 564-6645. If you wish to discuss a specific file, please have the file number ready so that we may help you more efficiently.

**FINDINGS AND ORDER
IN THE MATTER OF THE
DISMISSAL OF APPLICATION
FILE NO. 49,669**

After due consideration, the Chief Engineer, Division of Water Resources, Kansas Department of Agriculture (hereinafter referred to as the "Chief Engineer"), makes the following findings and order:

FINDINGS

1. That on July 8, 2016, the Chief Engineer received an application from Jeffery A & Tracy K Strnad for permit to appropriate surface water for beneficial use, assigned File No. 49,669, proposing the appropriation of 50 acre-feet of water, at a maximum re-diversion rate of 2,000 gallons per minute, for irrigation use.
2. That a signed "Voluntary Dismissal of an Application for Permit to Appropriate Water" form for Application, File No. 49,669 was received in the office of the Chief Engineer on February 1, 2017.
3. That the application should be dismissed and its priority forfeited as requested by the applicant.

ORDER

NOW, THEREFORE, It is the decision and order of the Chief Engineer, Division of Water Resources, Kansas Department of Agriculture, that effective the date of this order, in accordance with the law, Application, File No. 49,669, is herewith dismissed and the priority assigned to it is considered to be forfeited.

This Order shall become a final agency action, as defined by K.S.A. 77-607(b), without further notice to the parties, if a request for hearing or a petition for administrative review is not filed as set forth below.

Request for Hearing. According to K.A.R. 5-14-3(c), any party who desires a hearing must submit a request within 15 days after the date shown on the Certificate of Service attached to this Order. Filing a request for a hearing will give you the opportunity to submit additional facts for consideration, contest any findings made by the Chief Engineer, or present any other information you believe should be considered in this matter. A timely-filed request for hearing will stay the deadline for requesting administrative review of this Order pending the outcome of the hearing.

Petition for Review. The applicant, if aggrieved by this Order, may petition for administrative review, pursuant to K.S.A. 82a-711(c) and K.S.A. 82a-1901(a). The petition must be filed within 30 days after the date shown on the Certificate of Service attached to this Order and must set forth the basis for the review, unless stayed by the timely filing of a request for hearing.

- 9. Will pesticide, fertilizer, or other foreign substance be injected into the water pumped from the diversion works?
 Yes No If "yes", a check valve shall be required.

All chemigation safety requirements must be met including a chemigation permit and reporting requirements.

- 10. If you are planning to impound water, please contact the Division of Water Resources for assistance, prior to submitting the application. Please attach a reservoir area capacity table and inform us of the total acres of surface drainage area above the reservoir.

Have you also made an application for a permit for construction of this dam and reservoir with the Division of Water Resources? Yes No

- If yes, show the Water Structures permit number here n/a
- If no, explain here why a Water Structures permit is not required Dam has been determined to be non-jurisdictional.

- 11. The application must be supplemented by a U.S.G.S. topographic map, aerial photograph or a detailed plat showing the following information. On the topographic map, aerial photograph, or plat, identify the center of the section, the section lines or the section corners and show the appropriate section, township and range numbers. Also, please show the following information:

- (a) The location of the proposed point(s) of diversion (wells, stream-bank installations, dams, or other diversion works) should be plotted as described in Paragraph No. 5 of the application, showing the North-South distance and the East-West distance from a section line or southeast corner of section.
- (b) If the application is for groundwater, please show the location of any existing water wells of any kind within 1/2 mile of the proposed well or wells. Identify each existing well as to its use and furnish the name and mailing address of the property owner or owners. If there are no wells within 1/2 mile, please advise us.
- (c) If the application is for surface water, the names and addresses of the landowner(s) 1/2 mile downstream and 1/2 mile upstream from your property lines must be shown.
- (d) The location of the proposed place of use should be shown by crosshatching on the topographic map, aerial photograph or plat.
- (e) Show the location of the pipelines, canals, reservoirs or other facilities for conveying water from the point of diversion to the place of use.

A 7.5 minute U.S.G.S. topographic map may be obtained by providing the section, township and range numbers to: Kansas Geological Survey, 1930 Constant, Campus West, University of Kansas, Lawrence, Kansas 66047.

- 12. List any application, appropriation of water, water right, or vested right file number that covers the same diversion points or any of the same place of use described in this application. Also list any other recent modifications made to existing permits or water rights in conjunction with the filing of this application.

Requested quantity of water is limited to the potential annual runoff from the drainage basin.

Proposes to cover the same place of use as file nos. 36931, 36933, 38729, 39008, 39009, and 2 other new applications which will be filed concurrently.

Minimum Desirable Streamflow

Dear Sir:

I understand that a Minimum Desirable Streamflow requirement has been established by the legislature for the source of supply to which the above referenced application applies.

I understand that diversion of water pursuant to this application will be subject to regulation any time Minimum Desirable Streamflow requirements are not being met.

I also understand that if this application is approved, there could be times, as determined by the Division of Water Resources, when I would not be allowed to divert water. I realize that this could affect the economics of my decision to appropriate water.

I am aware of the above factors, and with the knowledge thereof, request that the Division of Water Resources proceed with processing and approval, if possible, of the above referenced application.

Dear Sir or Madam:

This is to advise you that Jeffrey Strnad has filed the applications referred to above for permits to appropriate a combined total of 232 acre-feet of surface water per calendar year from the Tributary 5A to the Republican River for irrigation use from two (2) ponds to be filled by natural flow and re-diverted at a maximum rate of 2,000 gallons per minute per pumpsite. Surface water will be diverted from two pump sites located as follows:

File No. 49,668

one (1) pumpsite, to appropriate 182 acre-feet, located in the Northeast Quarter of the Northwest Quarter of the Southeast Quarter (NE $\frac{1}{4}$ NW $\frac{1}{4}$ SE $\frac{1}{4}$) of Section 20, more particularly described as being near a point 753 feet North and 2,686 feet West of the Southeast corner of said section, in Township 3 South, Range 4 West, Republic County, Kansas.

File No. 49,669

one (1) pumpsite, to appropriate 50 acre-feet, located in the Northeast Quarter of the Southeast Quarter of the Southwest Quarter (NE $\frac{1}{4}$ SE $\frac{1}{4}$ SW $\frac{1}{4}$) of Section 20, more particularly described as being near a point 753 feet North and 2,686 feet West of the Southeast corner of said section, in Township 3 South, Range 4 West, Republic County, Kansas.

A copy of a topographic map depicting the locations of the proposed points of diversion is also enclosed. Records in this office indicate that you own land along the tributary in this vicinity and you are notified of receipt of this application in order that you may be fully informed of the proposed locations of the applicant's points of diversion and proposed use of water. Consideration will be given to comments or other information which you desire to submit to this office within 15 days from the date of this letter.

RE: Application
File No. 49669

Dear Sir or Madam:

Your application for permit to appropriate water in 19-3S-4W in Republic County, was received and has been assigned the file number noted above.

As a matter of record, the Division of Water Resources has on hand a large number of applications awaiting processing. Therefore to be fair to all concerned, and so that we can process those applications on hand in the order they were received, we intend to concentrate on the backlog of applications until the issue is resolved. Once review of your application has begun, we will contact you, if additional information is required.

In accordance with the provisions of the Kansas Water Appropriation Act, a portion of which is included below, the use of water as proposed prior to approval of the application is unlawful. Once approved, compliance with the terms, conditions and limitations of the permit is necessary. Conservation of the water resources of Kansas is required.

Section 82a-728 of the Kansas Water Appropriation Act, provides (a) except for the appropriation of water for the purpose of domestic use, . . . it shall be unlawful for any person to appropriate or threaten to appropriate water from any source without first applying for and obtaining a permit to appropriate water in accordance with the provisions of the Water Appropriation Act or for any person to violate any condition of a vested right, appropriation right or an approved application for a permit to appropriate water for beneficial use.

(b) (1) The violation of any provision of this section by any person is a class C misdemeanor . . .

A class C misdemeanor is punishable by a fine not to exceed \$500 and/or a term of confinement not to exceed one month in the county jail. Each day that the violation occurs constitutes a separate offense.

If you have any questions, please contact me at (785) 564-6645. If you wish to discuss a specific file, please have the file number ready so that we may help you more efficiently.

Sincerely,
