MEMORANDUM

TO: Files

DATE: June 30, 2020

FROM: Richelle A. Krueger

RE: Water Right
File Nos. 26,959, 38,438,
38,439, and 40,931
Appropriation of Water,
File Nos. 50,185, 50,186 and
50,187

Change applications for File Nos. 26,959, 38,438, 38,439, and 40,931 and new applications for File Nos. 50,185, 50,186 and 50,187 were all originally approved March 16, 2020. Replacement approval documents for File Nos. 38,438, 38,439 and 50,187 were signed on May 22, 2020 and subsequently mailed on May 28, 2020 to Calvin Minor of Clark County Feedyard, partial water right owner, since those approval documents had not been notarized.

On June 11th, 2020, Brenda Ketron of the Clark Co Register of Deeds office called regarding an error in the approval documents involving the place of use description. The error is in Section 16, Township 31 South, Range 25 West, Clark County, Kansas, wherein the abbreviated description in parentheses is incorrectly described but the written description is correct: North Half of the Southeast Quarter (N $\frac{1}{2}$ SE $\frac{1}{2}$). The correct description is: North Half of the Southeast Quarter (N $\frac{1}{2}$ SE $\frac{1}{4}$).

The error is in all seven of the approval documents. The Clark Co. Register of Deeds Office returned all the documents except for File Nos. 50,185 and 50,186. It has been determined that all seven of the approval documents should be corrected and re-signed by Lane Letourneau, Program Manager, Water Appropriations Program with a new approval date. The corrected approval documents will be sent to the Clark County Register of Deeds Office, who will record the documents for File Nos. 26,959, 38,438, 38,439, and 40,931 and then forward all the documents to the Clark County Feedyard. The other water right owner, John S. Wilkey Revocable Trust, will also be sent copies of the replacement approval documents. Both owners will be informed that these are replacement documents and that the old orders should be discarded.

In addition, the place of use shown in WRIS for File No. 50,187 should be corrected to reflect a complete overlap in the place of use (include Feedlot N $\frac{1}{2}$ NW $\frac{1}{4}$ in Section 15).

**APPROVAL OF APPLICATION
FOR
CHANGE IN PLACE OF USE
AND ORDER TO BETTER DEFINE THE LOCATION OF THE
AUTHORIZED POINT OF DIVERSION
WATER RIGHT, FILE NO. 38,439**

The Chief Engineer, Division of Water Resources, Kansas Department of Agriculture, after due consideration of the written application of Calvin Minor on behalf of the Clark County Feedyard, Inc., 461 CR I #1, Minneola, Kansas 67865, received in this office on December 17, 2018, for approval of a change in the place of use under the certificate of appropriation issued pursuant to the application for permit to appropriate water for beneficial use, finds that the change is reasonable and will not impair existing rights, and that the change relates to the same local source of supply and that the application should be and is hereby approved.

Effective date of the change shall be the date this order is executed by the Chief Engineer, after which the authorized location of the place of use shall be the:

a feedlot located in the North Half of the Northwest Quarter (N $\frac{1}{2}$ NW $\frac{1}{4}$) of Section 15, and in the Northeast Quarter (NE $\frac{1}{4}$), and the North Half of the Southeast Quarter (N $\frac{1}{2}$ SE $\frac{1}{4}$) of Section 16, all in Township 31 South, Range 25 West, Clark County, Kansas,

located substantially as shown on the topographic map accompanying the application to change the place of use, and

that the point of diversion authorized for stockwatering use would more accurately be defined as:

one(1) well (Well No. 4) located in the Southwest Quarter of the Northwest Quarter of the Northeast Quarter (SW $\frac{1}{4}$ NW $\frac{1}{4}$ NE $\frac{1}{4}$) of Section 16, more particularly described as being near a point 4,456 feet North and 2,239 feet West of the Southeast corner of said section, in Township 31 South, Range 25 West, Clark County, Kansas.

All diversion works into which any type of chemical or other foreign substance will be injected into the water pumped from the diversion works shall be equipped with an in-line, automatic, quick-closing check valve capable of preventing pollution of the source of the water supply. The type of valve installed shall meet specifications adopted by the Chief Engineer and shall be maintained in an operating condition satisfactory to the Chief Engineer.

The water right owner shall properly install an acceptable water meter on the diversion works authorized under this water right, prior to the use of water, in strict accordance with the Kansas Administrative Regulations 5-1-4 through 5-1-12 adopted by the Chief Engineer. The water right owner shall notify the Chief Engineer when installation of the water meter has been completed. The water right owner shall maintain the water meter in an operating condition satisfactory to the Chief Engineer, at all times during diversion of water and shall maintain records from which the total quantity of water diverted may be determined. The water right owner shall also report the reading of said water meter and the total quantity of water diverted annually to the Chief Engineer. Such records shall be furnished to the Chief Engineer by March 1 following the end of each calendar year.

In all other respects, the Certificate of Appropriation issued pursuant to Approval of Application, File No. 38,439, for permit to appropriate water for beneficial use, is as stated and set forth in the Certificate of Appropriation dated May 19, 2000.
