60 DAYS TO LOCATE*

File No.	
FILE INO.	

J.	The location of the proposed wells, pump sites of other works for diversion of water is.
eabe	Note: For the application to be accepted, the point of diversion location must be described to at least a 10 acre tract, unless you specifically request a 60 day period of time in which to locate the site within a specifically described, minimal legal quarter section of land. *Applicant requests 60 days to complete test hole drilling.
1997	A) *One in the EAST half of the NORTHWEST quarter of Section 22, or in the SOUTH half of the
geocenter placeho	Ider:SOUTHWEST quarter of Section 15, more particularly described as being near a point feet North
5280 ft N 3300 ft W	and feet West of the Southeast corner of said section, both in Township 9 South, Range 4 West,
Section 22, T9S, R	Ottawa County, Kansas.
	B) One in the quarter of the quarter of the quarter of Section, more particularly
P. Sulficon	described as being near a point feet North and feet West of the Southeast corner of said
	section, in Township South, Range , County, Kansas.
(C) One in the quarter of the quarter of the quarter of Section, more particularly
	described as being near a point feet North and feet West of the Southeast corner of said
	section, in Township South, Range East/West (circle one), County, Kansas.
(D) One in the quarter of the quarter of the quarter of Section, more particularly
	described as being near a point feet North and feet West of the Southeast corner of said
	section, in Township South, Range East/West (circle one), County, Kansas.
ti s A ti	the source of supply is groundwater, a separate application shall be filed for each proposed well or battery of wells, except nat a single application may include up to four wells within a circle with a quarter (½) mile radius in the same local source of upply which do not exceed a maximum diversion rate of 20 gallons per minute per well. A battery of wells is defined as two or more wells connected to a common pump by a manifold; or not more than four wells in the same local source of supply within a 300 foot radius circle which are being operated by pumps not to exceed a total maximum diversion rate of 800 gallons per minute and which supply water to a common distribution system.
6. T	The owner of the point of diversion, if other than the applicant is (please print):
	Dennis J & Jami R Ablard Trust 2136 N. 90th Rd Delphos, KS 67436 785-427-7584 (name, address and telephone number)
nsév <u>n</u>	Mathew C Ablard Trust No 1, Janci Ablard Bronson, Daniel Ablard 2136 N. 90th Rd Delphos, KS 785-427-7584 (name, address and telephone number)
la	You must provide evidence of legal access to, or control of, the point of diversion from the landowner or the andowner's authorized representative. Provide a copy of a recorded deed, lease, easement or other document with this application. In lieu thereof, you may sign the following sworn statement:
	I have legal access to, or control of, the point of diversion described in this application from the landowner or the landowner's authorized representative. I declare under penalty of perjury that the foregoing is true and correct.
	Executed on 8-1, 2020. Slanus J. Wlard Applicant's Signature
lovin	The applicant must provide the required information or signature irrespective of whether they are the landowner.
	Failure to complete this portion of the application will cause it to be unacceptable for filing and the application will be returned to the applicant.
7. 1	The proposed project for diversion of water will consist of one well (number of wells, pumps or dams, etc.)
a	and (was)(will be) completed (by) 12/31/21
8. T	(Month/Day/Year - each was or will be completed) The first actual application of water for the proposed beneficial use was or is estimated to be 5/1/21 Mo/Day/Year)

WATER RESOURCES RECEIVED

SECTION AN APPLICATION FOR PERMIT (Date) D APPROPRIATE WATER FOR BEREFICIAL USE Kansas Department of Agriculture Division of Water Resources David W. Barfield, Chief Engineer 1320 Research Park Drive Manhattan, Kansas 66502 Application Application Re: File No. Minimum Desirable Streamflow Dear Sir I understand that a Minimum Desirable Streamflow requirement has been established by the legislature for the source of supply to which the above referenced application applies. I understand that diversion of water pursuant to this application will be subject to regulation any time Minimum Desirable Streamflow requirements are not being met. I also understand that if this application is approved, there could be times, as determined by the Division of Water Resources, when I would not be allowed to divert water. I realize that this could affect the economics of my decision to appropriate water. I am aware of the above factors, and with the knowledge thereof, request that the Division of Water Resources proceed with processing and approval, if possible, of the above referenced application. State of Kansas (Print Applicant's Name)) ss County of OHawa Dennis J. Abland I hereby certify that the foregoing instrument was signed in my presence and sworn to

before me this 11th day of august , 20 20.

Re: Unacceptable Application

Dear Mr. Ablard:

Returned herewith is your Application for Permit to Appropriate Water for Beneficial Use received by the Division of Water Resources on August 18, 2020 with Check No. 6102 in the amount of \$300. This application is not acceptable for filing in its present form.

In order to request 60 days to locate your point of diversion, a minimal legal quarter section of land will need to be chosen. This land can be split amongst multiple sections (as you've indicated with Sections 15 and 22), but it must be a contiguous 160-acre tract of land (Acceptable Example: North Half of the Northwest Quarter of Section 22, and the South Half of the Southwest Quarter of Section 15).

We will also need you to designate the acres you plan to irrigate (place of use) on your irrigation supplemental sheet; broken down to acres per quarter/quarter of a section. The landowner(s) of those acres will also need to be provided.

Upon return of the acceptable application with required original signatures and information, it will be assigned a priority based upon the date and time it is received in the office of the Chief Engineer. If you have any questions, please contact me at <u>Kris.Neuhauser@ks.gov</u> or our main line at 785-564-6640.

Sincerely,

Kris Neuhauser

RE: Application, File No(s). 50430

Dear Sir or Madam:

The Division of Water Resources (Division) has received your application(s) for a permit to appropriate water for beneficial use. Your application(s) has been assigned the file number(s) referenced above. Please be aware that the Division may have a large number of pending applications on hand at times and makes every attempt to process them in the order in which they are received. You will be contacted if additional information is required.

Please note, this letter only acknowledges receipt of your application(s) and does not guarantee approval. In accordance with the provisions of the Kansas Water Appropriation Act, the use of water as proposed prior to approval of the application(s) is unlawful.

Additional information about the process may be found on our website at <u>agriculture.ks.gov/divisions-programs/dwr</u>. If you have any other questions, please contact our office at 785-564-6640 or your local Stockton Field Office at 785-425-6787. If you call, please reference the file number so we can help you more efficiently.

Sincerely,

Kristen A. Baum

APPLICATION FOR PERMIT TO APPROPRIATE WATER FOR BENEFICIAL USE Filing Fee Must Accompany the Application

Filing Fee Must Accompany the Application (Please refer to Fee Schedule attached to this application form.)

To the Chief Engineer of the Division of Water Resources, Kansas Department of Agriculture,

1320 Research Park Drive, Manhattan, Kansas 66502: Name of Applicant (Please Print): Dennis J. Ablard Address: 2136 N 90th RD State KS Zip Code 67436 City: Delphos Telephone Number: (785) 427-7584 The source of water is: ☐ surface water in OR (drainage basin) Certain streams in Kansas have minimum target flows established by law or may be subject to administration when water is released from storage for use by water assurance district members. If your application is subject to these regulations on the date we receive your application, you will be sent the appropriate form to complete and return to the Division of Water Resources. The maximum quantity of water desired is 312 acre-feet OR gallons per calendar year, to be diverted at a maximum rate of 1,200 gallons per minute OR _____ cubic feet per second. Once your application has been assigned a priority, the requested maximum rate of diversion and maximum requested quantity of water under that priority number can NOT be increased. Please be certain your requested maximum rate of diversion and maximum quantity of water are appropriate and reasonable for your proposed project and are in agreement with the Division of Water Resources' requirements. The water is intended to be appropriated for (Check use intended): (c) ☐ Recreational (a) Artificial Recharge (b) ⊠ Irrigation (d) Water Power (e) Industrial (f) Municipal (g) ☐ Stockwatering (h) ☐ Sediment Control (i) ☐ Domestic (j) ☐ Dewatering (k) ☐ Hydraulic Dredging (I) ☐ Fire Protection (m) ☐ Thermal Exchange (n) ☐ Contamination Remediation YOU MUST COMPLETE AND ATTACH ADDITIONAL DIVISION OF WATER RESOURCES FORM(S) PROVIDING INFORMATION TO SUBSTANTIATE YOUR REQUEST FOR THE AMOUNT OF WATER FOR THE INTENDED USE REFERENCED ABOVE.

For Office Use Only:

9.	Will pesticide, fertilizer, or other foreign substance be injected into the water pumped from the diversion works?
	☐ Yes ☐ No If "yes", a check valve shall be required.
	All chemigation safety requirements must be met including a chemigation permit and reporting requirements.
10.	If you are planning to impound water, please contact the Division of Water Resources for assistance, prior to submitting the application. Please attach a reservoir area capacity table and inform us of the total acres of surface drainage area above the reservoir.
	Have you also made an application for a permit for construction of this dam and reservoir with the Division of Water Resources? ☐ Yes ☐ No
	If yes, show the Water Structures permit number here n/a
	If no, explain here why a Water Structures permit is not required n/a
	Denth to costora of pump intains proc
11.	The application <u>must</u> be supplemented by a U.S.G.S. topographic map, aerial photograph or a detailed plat showing the following information. On the topographic map, aerial photograph, or plat, identify the center of the section, the section lines or the section corners and show the appropriate section, township and range numbers. Also, please show the following information:
	(a) The location of the proposed point(s) of diversion (wells, stream-bank installations, dams, or other diversion works) should be plotted as described in Paragraph No. 5 of the application, showing the North-South distance and the East-West distance from a section line or southeast corner of section.
	(b) If the application is for groundwater, please show the location of any existing water wells of any kind within ½ mile of the proposed well or wells. Identify each existing well as to its use and furnish the name and mailing address of the property owner or owners. If there are no wells within ½ mile, please advise us.
	(c) If the application is for surface water, the names and addresses of the landowner(s) ½ mile downstream and ½ mile upstream from your property lines must be shown.
	(d) The location of the proposed place of use should be shown by crosshatching on the topographic map, aerial photograph or plat.
	(e) Show the location of the pipelines, canals, reservoirs or other facilities for conveying water from the point of diversion to the place of use.
	A 7.5 minute U.S.G.S. topographic map may be obtained by providing the section, township and range numbers to: Kansas Geological Survey, 1930 Constant, Campus West, University of Kansas, Lawrence, Kansas 66047.
12.	List any application, appropriation of water, water right, or vested right file number that covers the same diversion points or any of the same place of use described in this application. Also list any other recent modifications made to existing permits or water rights in conjunction with the filing of this application.
	Applicant requests 60 days to complete test hole drilling in the E½ of the NW¼ of 22-9S-4W and the S½ of
	the SW¼ of 15-9S-4W in Ottawa County, KS.

MINIMUM DESIRABLE STREAMFLOW FORM TO BE USED WHEN APPLICABLE WHEN FILING AN APPLICATION FOR PERMIT TO APPROPRIATE WATER FOR BENEFICIAL USE

The Kansas Legislature has established minimum desirable streamflows for the streams listed below. If your proposed diversion of water is going to be from one of these watercourses or adjacent alluvial aquifers, please complete the back side of this page and submit it along with your application for permit to appropriate water.

Arkansas River
Big Blue River
Chapman Creek
Chikaskia River
Cottonwood River
Delaware River
Little Arkansas River
Little Blue River
Marais des Cygnes River
Medicine Lodge River
Mill Creek (Wabaunsee Co. area)
Neosho River

Ninnescah River
North Fork Ninnescah River
Rattlesnake Creek
Republican River
Saline River
Smoky Hill River
Solomon River
South Fork Ninnescah
Spring River
Walnut River
Whitewater River
