KANSAS DEPARTMENT OF AGRICULTURE
Division of Water Resources

M E M O R A N D U M

TO: Files
FROM: Leslie Ireland

DATE: December 24, 2019
RE: Water Right,
File Nos. 9,105 & 40,409

Thayne A. Larson on behalf of Bestifor Farms owner of the referenced water rights has filed applications for approval to change the points of diversion authorized for irrigation use under the referenced files. The applications were received on August 12, 2019.

The referenced water rights are considered in good standing as per K.S.A. 82a-718 and 82a-732. File No. 40,409 was issued a violation notice of non-compliance, for exceeding the authorized quantity of by less than one (1) acre-foot. The pumping and MDS restrictions for this junior right are partially the reasoning behind the requested changes. The applications comply with K.A.R. 5-5-2a, *Complete change application*.

File No. 9,105 authorizes two (2) wells in the Southeast Quarter of 36-5-3W, Cloud County with the well in the SE $\frac{1}{4}$ NE $\frac{1}{4}$ SE $\frac{1}{4}$ and assigned 44 acre-feet (AF) at a rate of 175 gallons per minute (gpm), referenced as the East Well. The well referenced as the West Well located in the N $\frac{1}{2}$ SW $\frac{1}{4}$ SE $\frac{1}{4}$ is authorized 87AF at a rate of 350 gpm, will remain as authorized, but will be updated to be North Well under this right.

File No. 40,409, is authorized one(1) point of diversion, to divert 27 acre-feet at a rate of 250 gallons per minute. The proposal is to flip the rate and quantity under File No. 40,409 with the well referenced as the East Well under File No. 9,105, located in the SE $\frac{1}{4}$ NE $\frac{1}{4}$ SE $\frac{1}{4}$ and assigned 44 acre-feet (AF) at a rate of 175 gpm. The actual feet distances of the well locations will be added to the referenced files. No new wells will be drilled. The referenced files, and File No. 27,768, have a complete overlap in the place of use of 201.5 acres. All three rights have a combined total of 152 AF providing 1.09 acre-foot (13.1 inches) per acre. There are no additional limitations on the rights, but File No. 40,409 is subject to MDS resulting in pumping restrictions that were enforced 2014,15,16 & 18. The rights are in the Effective Alluvial, Special Use Area (Code 034) of the Republican River and appear to be in an area that is closed to new appropriations. The junior right has a designated source of supply, Main Stem Alluvium (Code 113), with File No. 9,105, shown with CIN 5 as Main Stem Alluvium (Code 113) and CIN 4 as Terrace (Code 115) and Dakota Aquifer System (Code 330). The original permit application for File No. 9,105, lists the well in the SW $\frac{1}{4}$ SE $\frac{1}{4}$ (CIN 4) as 52 feet deep, also referenced as Well #1, and the well in the NE $\frac{1}{4}$ SE $\frac{1}{4}$ (CIN 5) to be 98 feet deep. The application under File No. 40,409 states the well to be 47 feet deep. No well logs for the rights were located.

The proposed "Flip-Flop" will move the 44 AF at a rate of 175 gpm under File No. 9,105, CIN 5, to the Southwest to the well described as being near the center of the Southwest Quarter of the Southeast Quarter NC SW $\frac{1}{4}$ SE $\frac{1}{4}$, (South Well) that was authorized by File No. 40,409. The feet distances of this well were determined by the Staff of the Stockton Field Office to be 751 feet North and 2,046 feet West, it appears the description can be updated to being in the NW $\frac{1}{4}$ SW $\frac{1}{4}$ SE $\frac{1}{4}$, and the comment updated to South Well. The 27 AF at 250 gpm that is under File No. 40,409, will move to the well in the NE $\frac{1}{4}$ NE $\frac{1}{4}$ NW $\frac{1}{4}$, that had been pumped under File No. 9,105, all in Section 36, Township 2 South, Range 3 West, Cloud County. The well locations indicate that the proposed move is approximately 1,964 feet between the two wells. The flip is between the wells that have been designated as Main Stem Alluvium so the change will not alter the source of supply.

A review of the well locations and the path of Oak Creek, located to the North, indicates the wells are similar distance from the creek and comply with K.A.R. 5-5-13, Relocation of alluvial wells. As no new wells will be drilled, and each right will continue to authorize the same number of wells, K.A.R. 5-5-16, Additional well, will not apply to the changes.

Review of File No. 40,409 found a 1998 investigation regarding impairment of File No. 8,153 believed to be caused by nearby rights. It appears this was resolved, and no additional complaints were received. The change will move a right authorized a larger quantity away from the well under File No. 8,153. Additionally, the proposed existing well under File No. 40,409, will be subject to Minimum Desirable Stream Flow restrictions and not authorized to pump when conditions are dry and stream levels are low.

The nearby wells consist of the two (2) irrigation wells under the referenced files and within one-half (½) mile of the proposed existing well under File No. 9,105. Under File No. 40,409 there are three (3) irrigation wells, two under the referenced files and the irrigation well under File No. 8,153. The applicant does not indicate any domestic wells located in the area. A comment letter was sent to all the owner of File No. 8,153. No comments of any kind were received in this office further indicating the historical impairment issue was resolved.

The well spacings will not change as no new wells are being drilled. There are no nearby domestic wells indicated in the area. File No. 40,409, will be moving more than 300 feet and towards the location authorized under File No. 8,153. The proposed existing well for File No. 40,409, is approximately 1,080 feet away from the well under File No. 8,153, based on recent GPS values. This is less 1,320 feet as required for nondomestic wells sourced as alluvium per K.A.R. 5-4-4, *Well spacing*. A **waiver of well to well spacing** for the requested change under File No. 40,409 was requested by the applicant and has been prepared. The change will result in the 128 acre-feet authorized by File No. 9,105 to be 426 feet apart, but as the wells are under the same priority, serving the same place of use impairment should not be an issue. Also these two wells are at a different depth. The reduction in spacing between the wells under File No. 9,105, appears to comply with part (a) of K.A.R. 5-4-4.

Kelly Stewart, Water Commissioner of the Stockton City Field Office was contacted for a recommendation on the proposed changes. In his email dated December 23, 2019, he recommended approval with the requested waiver under File No. 40,409.

Water flowmeters will be required on the points of diversion and a check valve will also be required if chemigating. A water level measurement tube and WWC-5 will not be required as the wells are existing. No letter will be sent to the Kansas Department of Health and Environment as the currently authorized wells will remain authorized.

Based on the above discussion, and approval of the requested waiver of K.A.R. 5-4-4, that no change in the local source of supply should occur, that the changes are reasonable, and that possible impairment to existing water rights will be reduced, it is recommended that the referenced applications be approved.

13. If changing the place of use and/or use made of water, describe how the consumptive use will not be increased.

(Please show any calculations here.)

14. It is requested that the maximum annual quantity of water be reduced to N/A _____ (acre-feet or million gallons).

15. It is requested that the maximum rate of diversion of water be reduced to N/A _____ gallons per minute (____ c.f.s.).

16. The application must include either a topographic map or detailed plat. A U.S. Geological Survey Topographic Map, scale 1:24,000, is available through the Kansas Geological Survey, 1930 Constant Avenue, University of Kansas, Lawrence, Kansas 66047-3726 (www.usgs.gov). The map should show the location of the presently authorized point(s) of diversion. Distances North and West of the Southeast corner of the section must be shown. The presently authorized place of use should also be shown. Identify the center of the section, the section lines and the section corners and show the appropriate section, township, and range numbers on the map. In addition the following information must also be shown on the map.

a. If a change in the location of the point(s) of diversion is proposed, show:

- 1) The location of the proposed point(s) of diversion. Distances North and West of the Southeast corner of the section must be shown. Please be certain that the information shown on the map agrees with the information shown in Paragraph Nos. 9, 10 and 11 of the application.
- 2) If the source of supply is groundwater, please show the location of existing water wells of any kind, including domestic wells, within 1/2 mile of the proposed well or wells. Identify each well as to its use and furnish name and mailing address of the property owner or owners. If there are no wells within 1/2 mile, please indicate so on the map.
- 3) If the source of supply is surface water, the names and mailing addresses of all landowner(s) 1/2 mile downstream and 1/2 mile upstream from your property lines must be shown.

b. If a change in the place of use is desired, show the proposed place of use by crosshatching on the map. Please be certain that the information shown on the map agrees with the information shown in Paragraph No. 5 of the application.

17. Attach documentation to show the change(s) proposed herein will not impair existing water rights and relates to the same local source of supply as to which the water right relates. This information may include statements, plats, geology reports, well logs, test hole logs, and other information as necessary information to show the above. Additional comments may be made below.

This change proposes to move a file senior to MDS (9105 ID5) that currently is ~850 feet from well authorized by 8,153
As authorized, 9,105 id 5 is authorized 44 AF at 175 gpm, this change will swap it with file 40,409 which is junior to MDS
and authorized for 27 AF at 250 gpm. This will lessen impact to the nearby well authorized under 8,153.

18. If the proposed change(s) does not meet all applicable rules and regulations of the Kansas Water Appropriation Act, please identify the rules and regulations for which you request a waiver. State the reason why a waiver is needed and why the request should be granted. Attach documentation showing that granting the request will not impair existing water rights and will not prejudicially and unreasonably affect the public interest.

REQUEST WAIVER OF SPACING TO WELL 8,153, SEE ABOVE FOR JUSTIFICATION

AUG 12 2019

Any use of water that is not as authorized by the water right or permit to authorize water **before** the chief engineer approves this application is a violation of the Kansas Water Appropriation Act for which criminal or civil penalties may be assessed. Such violation is a class C misdemeanor, punishable by a fine not to exceed \$500 and/or a term of confinement not to exceed one month in the county jail. K.S.A. 82a-728(b). Civil penalties shall be not less than \$100 nor more than \$1,000 per violation. In the case of a continuing violation, each day such violation continues may be deemed a separate violation. In addition to these penalties the water right may be modified or suspended. K.S.A. 82a-737, as amended.

The application must be signed by all owners of the place of use authorized under the water right and his or her spouse, if married. Please indicate if there is no spouse. If land is being purchased under contract, the seller must sign as landowner until such time as the contract is completed.

In the event that all applicants cannot appear before one notary public, they may as necessary sign separate copies of the application before any notary public conveniently available to them. All copies signed in this manner shall be considered to be valid parts of the application.

If the request is signed on behalf of any Owner by someone with legal authority to do so (for example, an agent, one who has power of attorney, or an executor, executrix, conservator), it will be necessary to attach proper documents showing such authority.

I declare that I am an owner of the currently authorized place of use as identified herein, or that I represent all such owners and am authorized to make this application on their behalf, and declare further that the statements contained herein are true, correct, and complete. By filing this application I authorize the chief engineer to permanently reduce the quantity of water and/or rate of diversion as specified in sections 14 and 15 of this application.

Dated at Betteville, Kansas, this 5th day of August, 2019.

RE: Water Right, File Nos. 9,105 & 40,409

Dear Sir or Madam:

This is to advise you that applications for approval of the Chief Engineer, Division of Water Resources, Kansas Department of Agriculture, to change the points of diversion authorized under the above referenced files.

The applications are proposing to reassign quantity and rate between the existing wells authorized by the referenced files. The overall quantity and rates developed by the rights will not be increased. Under File No. 9,105 only one(1) of the two(2) wells will change locations with File No. 40,409. The proposed change under File No. 9,105, will reallocate the diversion of 44 acre-feet of water per calendar year and at a diversion rate not in excess of 175 gallons per minute (0.39 c.f.s.)

from: one (1) well located in the Southeast Quarter of the Northeast Quarter of the Southeast Quarter (SE $\frac{1}{4}$ NE $\frac{1}{4}$ SE $\frac{1}{4}$) of Section 36, more particularly described as being near a point 1,362 feet North and 180 feet West of the Southeast corner of said section,

to: one (1) well located in the Northwest Quarter of the Southwest Quarter of the Southwest Quarter of the Southeast Quarter (NW $\frac{1}{4}$ SW $\frac{1}{4}$ SE $\frac{1}{4}$) of Section 36, more particularly described as being near a point 751 feet North and 2,046 feet West of the Southeast corner of said section

both in Township 5 South, Range 3 West, Cloud County, Kansas.

The second well under File No. 9,105, located in the North half of the Southwest Quarter of the Southeast Quarter (N $\frac{1}{2}$ SW $\frac{1}{4}$ SE $\frac{1}{4}$) of Section 36, in Township 5 South, Range 3 West, Cloud County, is proposed to remain as authorized to divert 84 acre-feet of water per calendar year and at a diversion rate not in excess of 350 gallons per minute (0.78 c.f.s.).

SCANNED

The change under File No. 40,409, proposes to authorize the well currently authorized by File No. 9,105, resulting in 27 acre-feet of water to be diverted at a maximum rate of 250 gallons per minute (0.78 c.f.s.) to be relocated

from: one (1) well, located in the Northwest Quarter of the Southwest Quarter of the Southeast Quarter (NW $\frac{1}{4}$ SW $\frac{1}{4}$ SE $\frac{1}{4}$) of Section 36, more particularly described as being near a point 751 feet North and 2,046 feet West of the Southeast corner of said section in Township 5 South, Range 3 West,

to: one (1) well located in the Southeast Quarter of the Northeast Quarter of the Southeast Quarter (SE $\frac{1}{4}$ NE $\frac{1}{4}$ SE $\frac{1}{4}$) of Section 36, more particularly described as being near a point 1,362 feet North and 180 feet West of the Southeast corner of said section in Township 5 South, Range 3 West, of the Southeast corner of said section,

both in Township 5 South, Range 3 West, Cloud County, Kansas.

The maps depicting the currently authorized and proposed well locations has been enclosed.

You are being notified of the proposed changes so that you may furnish this office written comments or other information you may desire to submit. Such written comments or other information must be received in this office within 15 days from the date of this letter.

If you have any general questions, please contact our office, my desk phone is (785) 564-6633. If you wish to discuss a specific file, please have the file numbers ready so that we may help you more efficiently.

Sincerely,

Leslie Ireland

RE: Water Right, File Nos. 9,105 & 40,409

Dear Mr. Larson:

Enclosed are the approvals of application to change the points of diversion executed by the Chief Engineer, Division of Water Resources, Kansas Department of Agriculture for the referenced files.

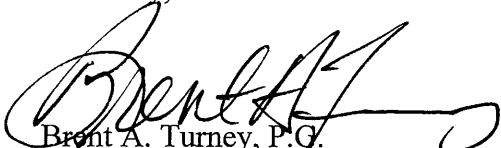

Please be reminded that Water Right, File No. 40,409, remains subject to the Minimal Desirable Streamflows of the Republican River.

Your attention is directed to the enclosures and to the terms, conditions, and limitations specified in the approvals for change. A condition of the approvals is that a water flowmeter meeting the specifications of the Chief Engineer must be installed on the diversion works authorized. Please return the required and enclosed form, *Notification of Completion of the Diversion Works and Report of Flowmeter Installation* of the required meters as soon as these actions are complete. A listing of water flowmeters and additional forms may be found at www.agriculture.ks.gov.

Since these orders modify the original documents referred to above, they should be recorded with the Register of Deeds as other instruments affecting real estate.

If you have any questions, please contact Leslie Ireland, (785) 564-6633. If you wish to discuss a specific file, please have the file number ready so that we may help you more efficiently.

Sincerely,

Brent A. Turney, P.G.

DIVISION OF WATER RESOURCES
David W. Barfield, Chief Engineer

**APPROVAL OF APPLICATION
FOR
CHANGE IN POINT OF DIVERSION
UNDER
WATER RIGHT, FILE NO. 9,105**

The Chief Engineer, Division of Water Resources, Kansas Department of Agriculture, after due consideration of the written application of Thayne Larson on behalf of Bestifor Farms, PO Box 220, Belleville, Kansas 66935, received in the office of the Chief Engineer on August 12, 2019, for approval of a change in the location of the point of diversion under the certificate of appropriation issued pursuant to the application for permit to appropriate water for beneficial use, as modified and amended by the Orders of the Chief Engineer dated May 10, 2007, March 11, 2013 and July 7, 2014, approving the applications to change the place of use, finds that the changes are reasonable and will not impair existing rights, that the change relates to the same local source of supply and that the application should be and is hereby approved.

The effective date of the change shall be the date this order is executed by the Chief Engineer, after which the authorized points of diversion shall be:

one(1) well located in the Northwest Quarter of the Southwest Quarter of the Southeast Quarter (NW $\frac{1}{4}$ SW $\frac{1}{4}$ SE $\frac{1}{4}$) of Section 36, more particularly described as being near a point 751 feet North and 2,046 feet West of the Southeast corner of said section, at a diversion rate not in excess of 175 gallons per minute (0.39 c.f.s.) and a quantity not to exceed 44 acre-feet per calendar year and

one(1) well located in the North half of the Southwest Quarter of the Southeast Quarter (N $\frac{1}{2}$ SW $\frac{1}{4}$ SE $\frac{1}{4}$) of Section 36, more particularly described as being near a point 1,177 feet North and 2,063 feet West of the Southeast corner of said section, at a diversion rate not in excess of 350 gallons per minute (0.78 c.f.s.) and a quantity not to exceed 84 acre-feet per calendar year

both in Township 5 South, Range 3 West, Cloud County, Kansas,

located substantially as shown on the topographic map accompanying the application to change the point of diversion.

Installation of the works for diversion of water shall be completed on or before December 31, 2020, or within any authorized extension of time. The applicant shall notify the Chief Engineer of the Division of Water Resources, Kansas Department of Agriculture, when construction of the works for diversion has been completed.

The water right owner shall properly install an acceptable water meter on the diversion works authorized under this water right, prior to the use of water, in strict accordance with the Kansas Administrative Regulations 5-1-4 through 5-1-12 adopted by the Chief Engineer. The water right owner shall notify the Chief Engineer when installation of the water meter has been completed. The water right owner shall maintain the water meter in an operating condition satisfactory to the Chief Engineer, at all times during diversion of water and shall maintain records from which the total quantity of water diverted may be determined. The water right owner shall also report the reading of said water meter and the total quantity of water diverted annually to the Chief Engineer. Such records shall be furnished to the Chief Engineer by March 1 following the end of each calendar year.

All diversion works into which any type of chemical or other foreign substance will be injected into the water pumped from the diversion works shall be equipped with an in-line, automatic, quick-closing check valve capable of preventing pollution of the source of the water supply. The type of valve installed shall meet specifications adopted by the Chief Engineer and shall be maintained in an operating condition satisfactory to the Chief Engineer.

In all other respects, the Certificate of Appropriation issued pursuant to Approval of Application, File No. 9,105, for permit to appropriate water for beneficial use, is as stated and set forth in the Certificate of Appropriation dated March 19, 1979, as modified and amended by the aforementioned orders.

Ordered this 3rd day of January 2020, in Manhattan, Riley County, Kansas.

David W. Barfield
David W. Barfield, P.E.
Chief Engineer

RIGHT TO A HEARING AND TO ADMINISTRATIVE REVIEW

If you are aggrieved by this Order, then pursuant to K.S.A. 82a-1901, you may:

- 1) request an evidentiary hearing before the Chief Engineer, or
- 2) request administrative review by the Secretary of Agriculture.

Failure to request an evidentiary hearing before the Chief Engineer does not preclude your right to administrative review by the Secretary.

To obtain an evidentiary hearing before the Chief Engineer, a written request for hearing must be filed within 15 days after service of this Order as provided in K.S.A. 77-531 (i.e., **within a total of 18 days after this Order was mailed to you**), with: Kansas Department of Agriculture, Attn: Legal Section, 1320 Research Park Drive, Manhattan, KS 66502, FAX (785) 564-6777.

If you do not file a request for an evidentiary hearing before the Chief Engineer, you may petition for administrative review of the Order by the Secretary of Agriculture. A petition for review shall be in writing and state the basis for requesting administrative review. The request for hearing may be denied if the request fails to clearly establish factual or legal issues for review. See K.S.A. 77-527. The petition must be filed within 30 days after service of this Order as provided in K.S.A. 77-531 (i.e., **within a total of 33 days after this Order was mailed to you**), and be filed with: Secretary of Agriculture, Attn: Legal Division, Kansas Department of Agriculture, 1320 Research Park Drive, Manhattan, KS 66502, FAX (785) 564-6777.

If neither a request for an evidentiary hearing nor a petition for administrative review is filed as set forth above, then this Order shall be effective and become a final agency action as defined in K.S.A. 77-607(b). Failure to timely request either an evidentiary hearing or administrative review may preclude further judicial review under the Kansas Judicial Review Act.

CERTIFICATE OF SERVICE

On this 10th day of January 2020, I hereby certify that the attached Approval of Application for Change in Point of Diversion under Water Right, File No. 9,105, dated January 3, 2020 was mailed postage prepaid, first class, US mail to the following:

Bestifor Farms
Thayne Larson
PO Box 220
Belleville, KS 66935

With photocopies sent to:

Stockton Field Office
