**MEMORANDUM**

**TO:** Files

**DATE:** April 20, 2017

**FROM:** Doug Schemm

**RE:** New Application, File No. 49,774  
Change Applications, File Nos. 46,706; 48,840;  
and 48,841

Swayback Farms LLC has filed the referenced new application (File No. 49,774) to appropriate 248 acre-feet of surface water at the rate of natural flows of North Sugar Creek Trib 4, for recreational use in a reservoir and marsh complex. The project is located in the South Half of Section 19, Township 20 South, Range 25 East in Linn County, Kansas. The new application will allow for an expansion of an existing marsh to cover approximately 52 acres. Change applications will be processed in conjunction with the nw application, on File Nos. 46,706; 48,840; and 48,841 to ensure a complete overlap in place of use, and or specific points of diversion. The points of diversion include a dam and two water control structures (stop logs). Previous review of this project by Structures Program staff has determined that this project is non-jurisdictional for structures permitting (the marsh is in an NRCS easement and the dam is non-jurisdictional per HB 2363).

The new application is designed to allow for the maximum storage volume of the marsh at permanent pool elevation, as follows:

52 acres x 2 feet average depth = 104 acre-feet,  
Allow for a second filling and offset indirect losses = 148 acre-feet  
Total requested quantity of water = 248 acre-feet

A flow meter is not practical and should not be required as a condition of the approval of this new application. The applicant will be required to maintain records from which the amount of water actually diverted may be readily determined. This is consistent with permits granted for similar types of marsh projects.

**Water Right, File No. 46,706 – Change in Place of Use and Point of Diversion**

Water Right, File No. 46,706 (REC use only) currently authorizes two points of diversion, a dam and one water control structure, and a smaller marsh complex. This file is authorized 32 acre-feet at the rate of natural flows for recreational use. Approval of the change application will increase the place of use and add a second water control point of diversion.

**Appropriation of Water, File No. 48,840 - Change in Point of Diversion Only**

Note that File No. 48,840 is authorized for Irrigation Use, not Recreational Use. It overlaps in point of diversion only because it collects and stores water in the same reservoir and marsh complex as the recreational files. File No. 48,840 is authorized 83.5 acre-feet of storage and the re-diversion of 83.5 acre-feet of the stored water for irrigation use at a rate of 1,000 gallons per minute. Approval of the change application will add a second water control point of diversion.

**Appropriation of Water, File No. 48,841 - Change in Place of Use Only**

Note that File No. 48,841 is authorized for BOTH Irrigation Use and Recreational Use. It does not overlap in point of diversion with any other file because its authorized point of diversion is a pump site on North Sugar Creek. It overlaps with File No. 48,840 in place of use (IRR Use) and it overlaps with File No. 46,706 and the pending new application in place of use (REC use). There is no change in the irrigation place of use. Approval of the change application will increase the place of use for recreational use only.

Re: Appropriation of Water, File Nos. 49,774; 48,840; and 48,841 and  
Water Right, File No. 46,706

Dear Mr. Pederson:

There is enclosed a permit (File No. 49,774) to appropriate water authorizing you to proceed with construction of the proposed diversion works (except those dams and stream obstructions regulated by K.S.A. 82a-301 through 305a), to divert such unappropriated water as may be available from the source and at the location specified in the permit, and to use it for the purpose and at the location described in the permit.

Your attention is directed to the enclosures and to the terms, conditions, and limitations specified in this permit. Records must be maintained from which the quantity of water actually diverted may be readily determined. Such records shall be furnished to the Chief Engineer by March 1 following the end of each calendar year.

Failure to notify the Chief Engineer of the Division of Water Resources of the completion of the diversion works within the time allowed, or within any authorized extension of time thereof, will result in the dismissal of this permit. Enclosed is a form which may be used to notify the Chief Engineer that the proposed diversion works have been completed.

All requests for extensions of time to complete diversion works, or to perfect appropriations, must be submitted to the Chief Engineer before the expiration of time originally set forth in the permit to complete diversion works or to perfect an appropriation. If for any reason, you require an extension of time, you must request it before the expiration of time set forth in this permit. Failure to comply with this regulation will result in the dismissal of your permit or your water right. Any request for an extension of time shall be accompanied by the required statutory fee, which is currently \$100.00. There is also enclosed an information sheet setting forth the procedure to obtain a Certificate of Appropriation which will establish the extent of your water right.

Swayback Farms LLC  
Page 2

In addition, enclosed is an Order executed by the Chief Engineer, Division of Water Resources, Kansas Department of Agriculture, approving the Application for Change in the Place of Use and Point of Diversion under Water Right, File No. 46,706. The Water Appropriation Act requires that the Certificate of Appropriation shall be recorded with the Register of Deeds in the county or counties wherein the point of diversion is located as other instruments affecting real estate. Since the enclosed Order by the Chief Engineer modifies said Certificate of Appropriation, it should also be recorded with the Register of Deeds.

Finally, enclosed are Orders approving the Applications for Change in the Point of Diversion under Appropriation of Water, File No. 48,840 and the Change in Place of Use under Appropriation of Water, File No. 48,841. Your attention is directed to the enclosures and to the terms, conditions, and limitations specified in these approvals for change.

Sincerely,

Brent A. Turney, P.G.

**APPROVAL OF APPLICATION  
 FOR CHANGE IN  
 PLACE OF USE  
 APPROPRIATION OF WATER, FILE NO. 48,841**

FILE COPY

The Chief Engineer, Division of Water Resources, Kansas Department of Agriculture, after due consideration of the written application of James E Pederson, Owner of Swayback Farms LLC, 6980 W 153<sup>RD</sup> St, Overland Park, KS 66223, received in this office on February 10, 2017, for approval of a change in the location of the place of use under Approval of Application, File No. 48,841, for permit to appropriate water for beneficial use, finds that the change is reasonable and will not impair existing rights, and that the application should be and is hereby approved.

The effective date of the change shall be the date this order is executed by the Chief Engineer, after which the authorized location of the place of use shall be:

recreational use in a reservoir and marsh complex located in the South Half (S½) of Section 19, and

the irrigation use on land described as follows:

Sec.	Twp.	Range	NE¼				NW¼				SW¼				SE¼				TOTAL
			NE¼	NW¼	SW¼	SE¼	NE¼	NW¼	SW¼	SE¼	NE¼	NW¼	SW¼	SE¼	NE¼	NW¼	SW¼	SE¼	
19	20S	25E			7.5							9.5	27.5		9.0	30.0		83.5	

a total of 83.5 acres in Section 19,

all in Township 20 South, Range 25 East, Linn County, Kansas, located substantially as shown on the topographic map accompanying the application to change the place of use.

All diversion works into which any type of chemical or other foreign substance will be injected into the water pumped from the diversion works shall be equipped with an in-line, automatic, quick-closing check valve capable of preventing pollution of the source of the water supply. The type of valve installed shall meet specifications adopted by the Chief Engineer and shall be maintained in an operating condition satisfactory to the Chief Engineer.

The water right owner shall properly install an acceptable water meter on the diversion works authorized under this water right, prior to the use of water, in strict accordance with the Kansas Administrative Regulations 5-1-4 through 5-1-12 adopted by the Chief Engineer. The water right owner shall notify the Chief Engineer when installation of the water meter has been completed. The water right owner shall maintain the water meter in an operating condition satisfactory to the Chief Engineer, at all times during diversion of water and shall maintain records from which the total quantity of water diverted may be determined. The water right owner shall also report the reading of said water meter and the total quantity of water diverted annually to the Chief Engineer. Such records shall be furnished to the Chief Engineer by March 1 following the end of each calendar year.

In all other respects, the Approval of Application, File No. 48,841, for permit to appropriate water for beneficial use, is as stated and set forth in the approval dated August 14, 2014.

This Order shall become a final agency action, as defined by K.S.A. 77-607(b), without further notice to the parties, if a request for hearing or a petition for administrative review is not filed as set forth below.

Request for Hearing. According to K.A.R. 5-14-3(c), any party who desires a hearing must submit a request within 15 days after the date shown on the Certificate of Service attached to this Order. Filing a request for a hearing will give you the opportunity to submit additional facts for consideration, contest any findings made by the Chief Engineer, or present any other information you believe should be considered in this matter. A timely-filed request for hearing will stay the deadline for requesting administrative review of this Order pending the outcome of the hearing.

Petition for Review. Any person aggrieved by this Summary Order may petition for administrative review, pursuant to K.S.A. 82a-708b(a) and K.S.A. 82a-1901(a). The petition must be filed within 30 days after the date shown on the Certificate of Service attached to this Order and must set forth the basis for the review, unless stayed by the timely filing of a request for hearing.

Any request for hearing or petition for administrative review shall be in writing and shall be submitted to the attention of: Chief Legal Counsel, Kansas Department of Agriculture, 1320 Research Park Drive, Manhattan, Kansas 66502, Fax: (785) 564-6777.

Ordered this 2nd day of May, 2017, in Topeka, Shawnee County, Kansas.

WATER RESOURCES RECEIVED

FEB 10 2017 SCANNED

12. The presently authorized use of water is for RECREATIONAL & IRRIGATION purposes.

It is proposed that the use be changed to NO CHANGE purposes.

13. If changing the place of use and/or use made of water, describe how the consumptive use will not be increased.

New Application filed in conjunction with change will address any increase in consumptive use.

(Please show any calculations here.)

14. It is requested that the maximum annual quantity of water be reduced to \_\_\_\_\_ (acre-feet or million gallons).

15. It is requested that the maximum rate of diversion of water be reduced to \_\_\_\_\_ gallons per minute (\_\_\_\_ c.f.s.).

16. The application must include either a topographic map or detailed plat. A U.S. Geological Survey Topographic Map, scale 1:24,000, is available through the Kansas Geological Survey, 1930 Constant Avenue, University of Kansas, Lawrence, Kansas 66047-3726 ([www.usgs.gov](http://www.usgs.gov)). The map should show the location of the presently authorized point(s) of diversion. Distances North and West of the Southeast corner of the section must be shown. The presently authorized place of use should also be shown. Identify the center of the section, the section lines and the section corners and show the appropriate section, township, and range numbers on the map. In addition the following information must also be shown on the map.

a. If a change in the location of the point(s) of diversion is proposed, show:

- 1) The location of the proposed point(s) of diversion. Distances North and West of the Southeast corner of the section must be shown. Please be certain that the information shown on the map agrees with the information shown in Paragraph Nos. 9, 10 and 11 of the application.
- 2) If the source of supply is groundwater, please show the location of existing water wells of any kind, including domestic wells, within 1/2 mile of the proposed well or wells. Identify each well as to its use and furnish name and mailing address of the property owner or owners. If there are no wells within 1/2 mile, please indicate so on the map.
- 3) If the source of supply is surface water, the names and mailing addresses of all landowner(s) 1/2 mile downstream and 1/2 mile upstream from your property lines must be shown.

b. If a change in the place of use is desired, show the proposed place of use by crosshatching on the map. Please be certain that the information shown on the map agrees with the information shown in Paragraph No. 5 of the application.

17. Attach documentation to show the change(s) proposed herein will not impair existing water rights and relates to the same local source of supply as to which the water right relates. This information may include statements, plats, geology reports, well logs, test hole logs, and other information as necessary information to show the above. Additional comments may be made below.

No change in local source of supply (North Sugar Creek).

18. If the proposed change(s) does not meet all applicable rules and regulations of the Kansas Water Appropriation Act, please identify the rules and regulations for which you request a waiver. State the reason why a waiver is needed and why the request should be granted. Attach documentation showing that granting the request will not impair existing water rights and will not prejudicially and unreasonably affect the public interest.

2025 APR 10 10:10 AM

Any use of water that is not as authorized by the water right or permit to authorize water **before** the chief engineer approves this application is a violation of the Kansas Water Appropriation Act for which criminal or civil penalties may be assessed. Such violation is a class C misdemeanor, punishable by a fine not to exceed \$500 and/or a term of confinement not to exceed one month in the county jail. K.S.A. 82a-728(b). Civil penalties shall be not less than \$100 nor more than \$1,000 per violation. In the case of a continuing violation, each day such violation continues may be deemed a separate violation. In addition to these penalties the water right may be modified or suspended. K.S.A. 82a-737, as amended.

**The application must be signed by all owners of the place of use authorized under the water right and his or her spouse, if married. Please indicate if there is no spouse.** If land is being purchased under contract, the seller must sign as landowner until such time as the contract is completed.

In the event that all applicants cannot appear before one notary public, they may as necessary sign separate copies of the application before any notary public conveniently available to them. All copies signed in this manner shall be considered to be valid parts of the application.

If the request is signed on behalf of any Owner by someone with legal authority to do so (for example, an agent, one who has power of attorney, or an executor, executrix, conservator), it will be necessary to attach proper documents showing such authority.

I declare that I am an owner of the currently authorized place of use as identified herein, or that I represent all such owners and am authorized to make this application on their behalf, and declare further that the statements contained herein are true, correct, and complete. By filing this application I authorize the chief engineer to permanently reduce the quantity of water and/or rate of diversion as specified in sections 14 and 15 of this application.

Dated at Overland Park, Kansas, this 9 day of February, 2017.

Re: Pending New Application, File No. 49,774 and Change Applications, File Nos. 46,706; 48,840; and 48,841

Dear Sir or Madam:

~~This is to advise you that Swayback Farms, LLC has filed the new application referred to above for a permit to appropriate~~  
248 acre-feet of surface water, at the rate of natural flows, for recreational use in a wetland marsh. Note that this project is an **expansion of an existing wetland marsh** currently authorized under the file numbers referenced above. The pending change applications for File Nos. 46,706; 48,840; and 48,841 will modify the place of use and points of diversion to match the new application recreational project. Surface water will be diverted by means of one (1) dam located in the Southwest Quarter of the Northwest Quarter of the Southeast Quarter of Section 19, more particularly described as being near a point 1,694 feet North and 2,236 feet West of the Southeast corner of said section, and two (2) water control structures located as follows:

one structure in the Northeast Quarter of the Southwest Quarter of the Southwest Quarter (NE $\frac{1}{4}$  SW $\frac{1}{4}$  SW $\frac{1}{4}$ ) of Section 19, more particularly described as being near a point 1,285 feet North and 4,330 feet West of the Southeast corner of said section, and

one structure in the Northwest Quarter of the Northwest Quarter of the Southeast Quarter (NW $\frac{1}{4}$  NW $\frac{1}{4}$  SE $\frac{1}{4}$ ) of Section 19, more particularly described as being near a point 2,331 feet North and 2,396 feet West of the Southeast corner of said section,

all in Township 20 South, Range 25 East, Linn County, Kansas.

Records in this office indicate that you own land along the stream in this vicinity and you are being notified of receipt of these applications in order that you may be fully informed of the proposed location of the applicant's points of diversion and proposed use of water. Consideration will be given to comments or other information which you desire to submit to this office **within 15 days** from the date of this letter.

You can find the applications and site maps posted by the file numbers referenced above at:  
<http://agriculture.ks.gov/divisions-programs/dwr/water-appropriation/notices>

If you have any questions or comments, you may also contact me at (785) 296-3495. If you call, please reference the file number so I can help you more efficiently.

49,774 - New App  
46,706, 48,840, +  
48,841 - Change Apps

Hi Doug,

This package looks exactly like what we discussed when we determined how to best proceed with properly authorizing the irrigation and recreational use by Swayback Farms. I agree that the new application and the change applications meet all the rules and regulations and I agree this package should be moved on for approval.

Thanks for all your work on this one, Katie

RE: File No. 48841

**FILE COPY**

Dear Sir or Madam:

An application for approval of the Chief Engineer to change the following condition or conditions of the file number referred to above has been received:

- place of use            PU
- point of diversion
- use made of water

As a matter of record, the Division of Water Resources has on hand a large number of applications awaiting processing. Therefore, to be fair to all concerned, and so that we can process those applications on hand in the order they were received, we intend to concentrate on the backlog of applications until the issue is resolved. You will be contacted regarding this application as soon as it has been examined.

In accordance with the provisions of the Kansas Water Appropriation Act, a portion of which is included below, the use of water prior to approval of the application is unlawful. You should not proceed and divert water as indicated by your plans in your application for a change for this file until you receive approval for this change from the Chief Engineer. Once approved, compliance with the terms, conditions and limitations of the permit is necessary. Conservation of the water resources of Kansas is required.

**Section 82a-728 of the Kansas Water Appropriation Act, provides (a) except for the appropriation of water for the purpose of domestic use, . . . it shall be unlawful for any person to appropriate or threaten to appropriate water from any source without first applying for and obtaining a permit to appropriate water in accordance with the provisions of the Water Appropriation Act or for any person to violate any condition of a vested right, appropriation right or an approved application for a permit to appropriate water for beneficial use.**

**(b) (1) The violation of any provision of this section by any person is a class C misdemeanor...**

**A class C misdemeanor is punishable by a fine not to exceed \$500 and/or a term of confinement not to exceed one month in the county jail. Each day that the violation occurs constitutes a separate offense.**

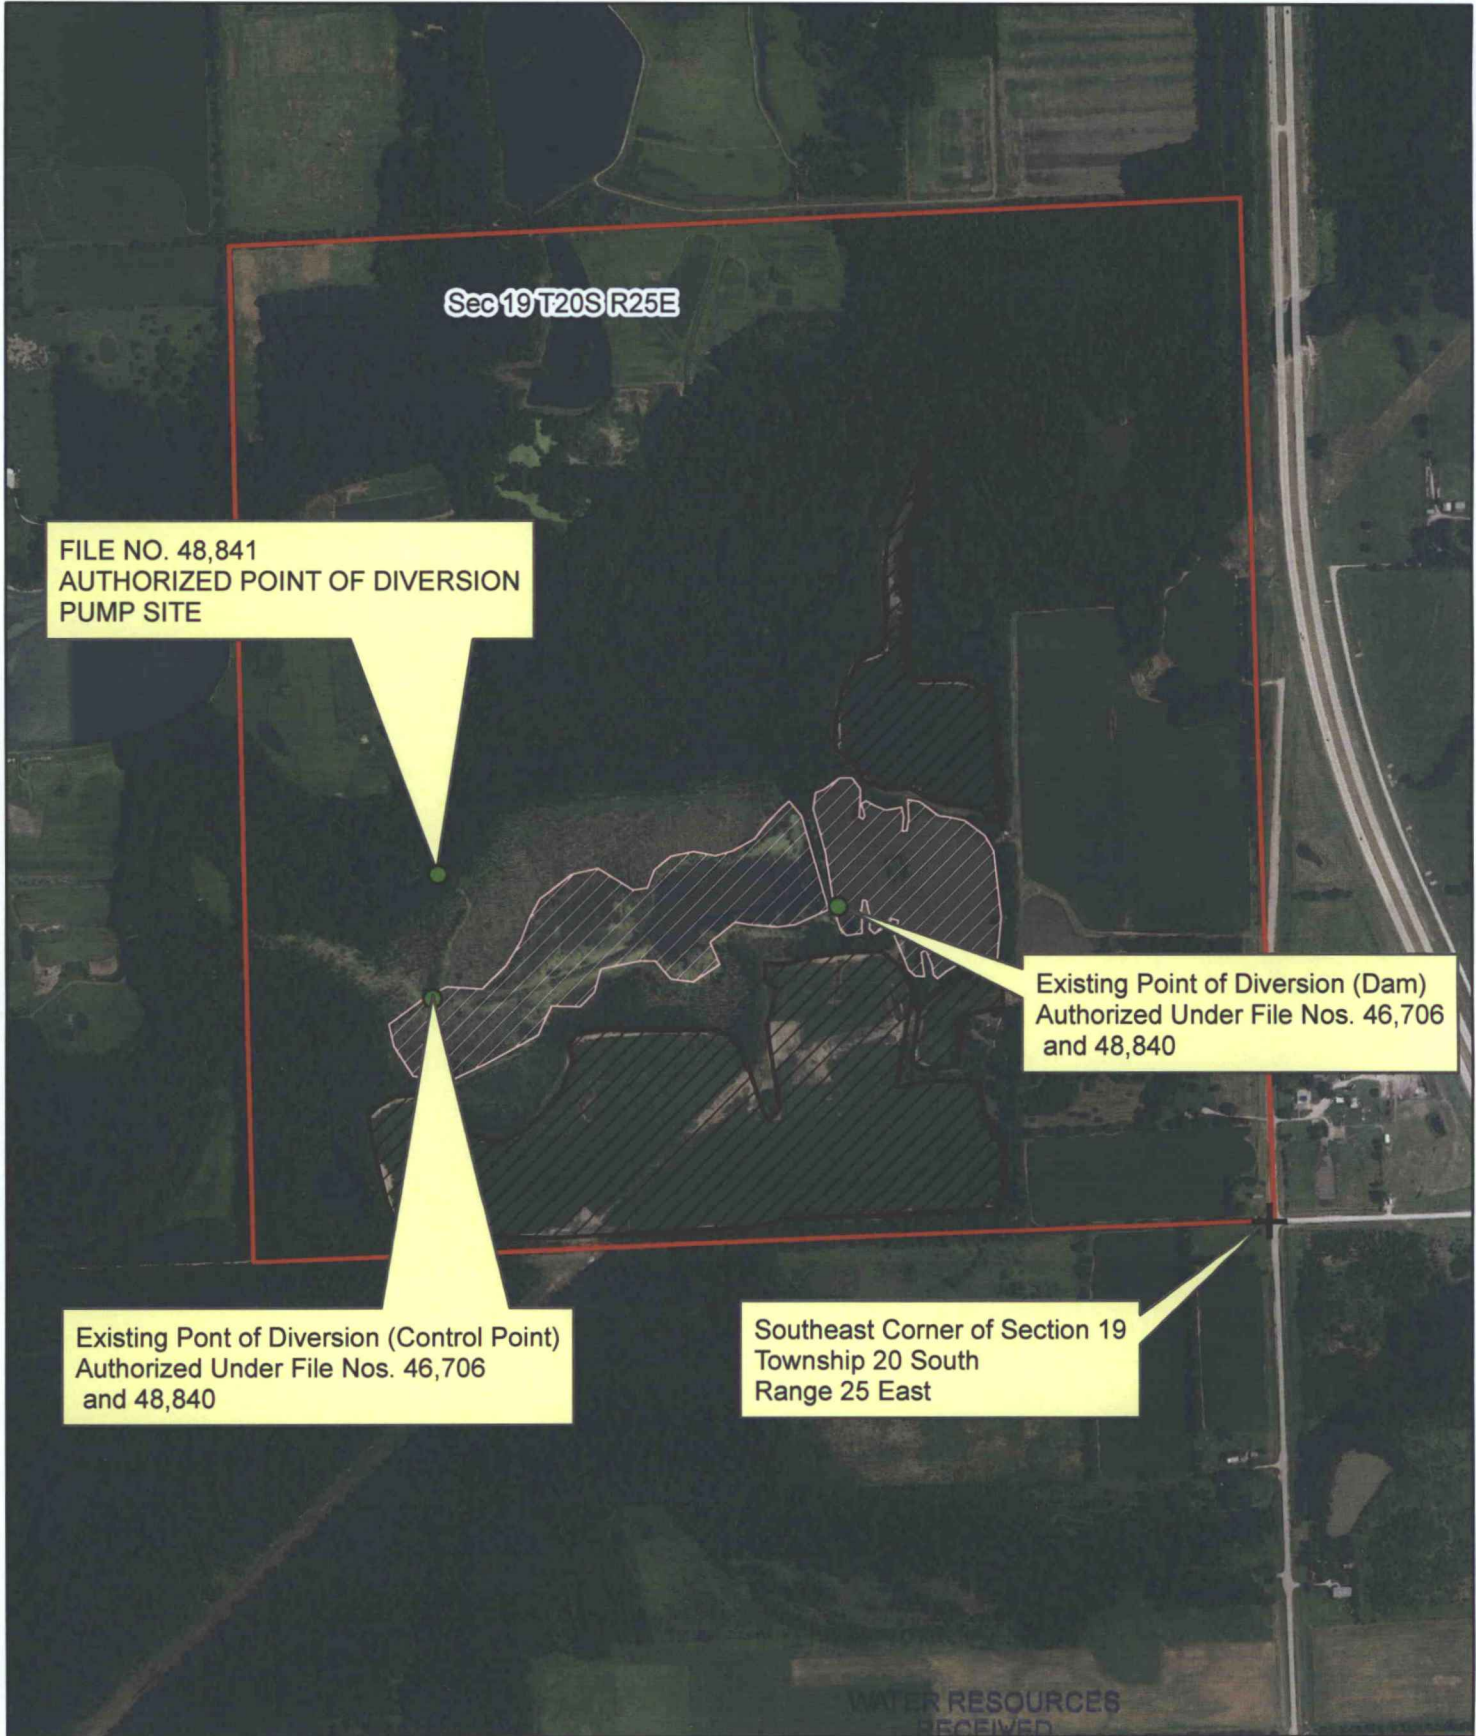

If you have any questions, please contact me at (785) 564-6645. If you wish to discuss a specific file, please have the file number ready so that we may help you more efficiently.

Sincerely,

Brent A Turney, L.G.
