KS Dept Of Agriculture

**APPLICATION FOR PERMIT TO  
APPROPRIATE WATER FOR BENEFICIAL USE**

Filing Fee Must Accompany the Application  
(Please refer to Fee Schedule attached to this application form.)

To the Chief Engineer of the Division of Water Resources, Kansas Department of Agriculture,  
109 SW 9<sup>th</sup> Street, Second Floor, Topeka, KS 66612-1283:

1. Name of Applicant (Please Print): James E Bell Jr  
Address: PO Box 488  
City: Tonganoxie State KS Zip Code 66086  
Telephone Number: (913) 845-2148

2. The source of water is:  surface water in \_\_\_\_\_ (stream)  
OR  groundwater in Kansas River Basin (drainage basin)

Certain streams in Kansas have minimum target flows established by law or may be subject to administration when water is released from storage for use by water assurance district members. If your application is subject to these regulations on the date we receive your application, you will be sent the appropriate form to complete and return to the Division of Water Resources.

3. The maximum quantity of water desired is 16 acre-feet OR \_\_\_\_\_ gallons per calendar year, to be diverted at a maximum rate of 20 gallons per minute OR 0.045 cubic feet per second.

Once your application has been assigned a priority, the requested maximum rate of diversion and maximum requested quantity of water under that priority number can **NOT** be increased. Please be certain your requested maximum rate of diversion and maximum quantity of water are appropriate and reasonable for your proposed project and are in agreement with the Division of Water Resources' requirements.

4. The water is intended to be appropriated for (Check use intended):  
(a)  Artificial Recharge (b)  Irrigation (c)  Recreational (d)  Water Power  
(e)  Industrial (f)  Municipal (g)  Stockwatering (h)  Sediment Control  
(i)  Domestic (j)  Dewatering (k)  Hydraulic Dredging (l)  Fire Protection  
(m)  Thermal Exchange (n)  Contamination Remediation

YOU **MUST** COMPLETE AND ATTACH ADDITIONAL DIVISION OF WATER RESOURCES FORM(S) PROVIDING INFORMATION TO SUBSTANTIATE YOUR REQUEST FOR THE AMOUNT OF WATER FOR THE INTENDED USE REFERENCED ABOVE.

For Office Use Only:  
F.O. 1 GMD 3 Meets K.A.R. 5-3-1 (YES/NO) Use REC Source G S County W By AJB Date 3/22/18

5. The location of the proposed wells, pump sites or other works for diversion of water is:

**Note:** For the application to be accepted, the point of diversion location must be described to at least a 10 acre tract, unless you specifically request a 60 day period of time in which to locate the site within a specifically described, minimal legal quarter section of land.

- (A) One (well) in the NW quarter of the NE quarter of the SW quarter of Section 9, more particularly described as being near a point 2382 feet North and 3490 feet West of the Southeast corner of said section, in Township 12 South, Range 21 East, Leavenworth County, Kansas.
- (B) One in the \_\_\_\_\_ quarter of the \_\_\_\_\_ quarter of the \_\_\_\_\_ quarter of Section \_\_\_\_\_, more particularly described as being near a point \_\_\_\_\_ feet North and \_\_\_\_\_ feet West of the Southeast corner of said section, in Township \_\_\_\_\_ South, Range \_\_\_\_\_ East/West (circle one), \_\_\_\_\_ County, Kansas.
- (C) One in the \_\_\_\_\_ quarter of the \_\_\_\_\_ quarter of the \_\_\_\_\_ quarter of Section \_\_\_\_\_, more particularly described as being near a point \_\_\_\_\_ feet North and \_\_\_\_\_ feet West of the Southeast corner of said section, in Township \_\_\_\_\_ South, Range \_\_\_\_\_ East/West (circle one), \_\_\_\_\_ County, Kansas.
- (D) One in the \_\_\_\_\_ quarter of the \_\_\_\_\_ quarter of the \_\_\_\_\_ quarter of Section \_\_\_\_\_, more particularly described as being near a point \_\_\_\_\_ feet North and \_\_\_\_\_ feet West of the Southeast corner of said section, in Township \_\_\_\_\_ South, Range \_\_\_\_\_ East/West (circle one), \_\_\_\_\_ County, Kansas.

If the source of supply is groundwater, a separate application shall be filed for each proposed well or battery of wells, except that a single application may include up to four wells within a circle with a quarter (1/4) mile radius in the same local source of supply which do not exceed a maximum diversion rate of 20 gallons per minute per well.

A battery of wells is defined as two or more wells connected to a common pump by a manifold; or not more than four wells in the same local source of supply within a 300 foot radius circle which are being operated by pumps not to exceed a total maximum diversion rate of 800 gallons per minute and which supply water to a common distribution system.

6. The owner of the point of diversion, if other than the applicant is (please print):

Applicant  
 \_\_\_\_\_  
 (name, address and telephone number)

\_\_\_\_\_  
 (name, address and telephone number)

You must provide evidence of legal access to, or control of, the point of diversion from the landowner or the landowner's authorized representative. Provide a copy of a recorded deed, lease, easement or other document with this application. In lieu thereof, you may sign the following sworn statement:

I have legal access to, or control of, the point of diversion described in this application from the landowner or the landowner's authorized representative. I declare under penalty of perjury that the foregoing is true and correct.

Executed on 3/9, 2018. *Jama Belle*  
 Applicant's Signature

The applicant must provide the required information or signature irrespective of whether they are the landowner. Failure to complete this portion of the application will cause it to be unacceptable for filing and the application will be returned to the applicant.

7. The proposed project for diversion of water will consist of One well  
 \_\_\_\_\_  
 (number of wells, pumps or dams, etc.)  
 and was completed (by) 8-30-1991  
 \_\_\_\_\_  
 (Month/Day/Year - each was or will be completed)

8. The first actual application of water for the proposed beneficial use was or is estimated to be Upon Approval  
 \_\_\_\_\_  
 (Mo/Day/Year)

**RECREATIONAL USE  
SUPPLEMENTAL SHEET**

File No. 50,010

Name of Applicant (Please Print): James E Bell Jr

1. Please indicate type of recreational use (boating, fishing, swimming, etc.): \_\_\_\_\_  
Fishing, boating and swimming,

2. Please summarize how the water will be used and justify the quantity of water requested: \_\_\_\_\_  
The water will be used to offset losses due to evaporation and seepage to maintain the water level in a 1.2 acre recreational pond.

Evap: 5" per year X 1.2 acres = 0.5 AF X 3 years = 1.5 AF + 14.5 AF Seepage = 16 AF

3. Please complete the following table showing estimated future water requirements:

ESTIMATED FUTURE WATER DIVERTED/STORED	
NEXT 5 YEARS	WATER TO BE DIVERTED (ACRE-FEET OR GALLONS)
Year 1	16 AF
Year 2	16 AF
Year 3	16 AF
Year 4	16 AF
Year 5	16 AF

Please attach any additional information, tables, or curves showing past, present and estimated future water requirements to substantiate the amount of water requested.

4. Please designate the legal description of the location where the water is to be used by providing the fractional part of the Section, Township and Range.

**REQUEST FOR AN EXTENSION OF TIME  
TO COMPLETE DIVERSION WORKS**

This form is used to request an extension of time in which to complete the diversion works as required in the following action: (Mark only one. See further explanation on back of this form.)

- New application approval and permit to proceed (\$100.00 fee per file no. authorized by K.S.A. 82a-714(e)).
- Change in point of diversion (no fee).

Please provide a complete and thorough reason below as to why an extension of time is needed. If more space is needed, please attach additional pages.

I, the holder of a permit issued by the Chief Engineer of the Division of Water Resources pursuant to the above referenced file, hereby certify that the information on this form is correct to the best of my knowledge.

Signature James E. Bell Date 2/1/2018  
Printed Name: James E. Bell

For Office Use Only: Code EX1 Fee \$ \_\_\_\_\_ TR # \_\_\_\_\_ Receipt Date \_\_\_\_\_ Check # \_\_\_\_\_

## Explanation

K.A.R. 5-1-1(y), defines diversion works as "all well(s), pump(s), power unit(s), power source(s), dam(s) and all other devices necessary to bring water under control for delivery to a distribution system by which the water will be distributed to the proposed use and any other equipment required . . . such as a check valve, water level measurement tube, meter or other measuring device."

K.A.R. 5-8-4(c) provides that if the total time allowed to construct the diversion works has been more than 16 months and fewer than 24 months, an extension of time shall be granted by the chief engineer only if the applicant can meet certain criteria which includes (1) Demonstrates good cause, (2) provides a copy of a contract with the well driller or other information substantiating the intent to proceed to complete the construction of the diversion works in an expeditious manner, (3) files the request for extension pursuant to the requirements of K.A.R. 5-3-7; and (4) submits the statutorily required filing fee.

1. The approval of application and permit to proceed, identifies a December 31 deadline for completing the diversion works. Failure to notify the Chief Engineer of the completion of the diversion works prior to this deadline can result in dismissal of the application and associated priority date.
2. If, for good reason, the diversion works are not going to be completed by the stated deadline, an extension of time should be requested. Use the form on the reverse of this explanation. Things that should be addressed in your plea for an extension are:
  - A. The progress that has been made to date.
  - B. The reason the diversion works will not be completed by the deadline date.
  - C. The amount of time before diversion works will be completed.
3. Pursuant to K.S.A. 82a-714(e) a **\$100.00 fee** is required for **each** file number for which you request an extension of time to complete diversion works. If you wish to request an extension of time, please complete the form on the reverse of this explanation and send it, with \$100.00 for each file number involved (payable to the Kansas Department of Agriculture) to the address noted on the upper left of the form before the deadline to complete expires. Note on the form that a change in point of diversion does not require this fee.
4. Further instructions:
  - A. Use extra pages as required.
  - B. Attach any supporting information for your request.
  - C. Be sure to sign and date your request

Appropriation of Water, File 49096

I have completed the diversion work under this permit by installing a new well and installing a pit for the installed flowmeter at the diversion site applied for. I have not had it inspected because, unfortunately, it is for all practical purposes a dry well.

I would ask for one additional extension on this diversion application. If granted this extension it is my intent to move well pump and flowmeter back to my original well site on my property that was 559 feet away from the nearest domestic well. I have enclosed a copy of the water well record on the original well site. I would then have an engineering firm (Tetra Tech) perform a pump test to the Water Division specifications and ask for a waiver on the distance between wells. If granted this waiver I would then use this diversion point for the appropriation of water under file# 49096.

Thank you for your consideration,

*Jim Bell*

INSTRUCTIONS: Use typewriter or ball point pen. PLEASE PRESS FIRMLY and PRINT clearly. Please fill in blanks, underline or circle the correct answers. Send top three copies to Kansas Department of Health and Environment, Bureau of Water, Topeka, Kansas 66620-7320. Telephone: 913-296-5545. Send one to WATER WELL OWNER and retain one for your records.

- 9. Will pesticide, fertilizer, or other foreign substance be injected into the water pumped from the diversion works?  
 Yes  No If "yes", a check valve shall be required.

All chemigation safety requirements must be met including a chemigation permit and reporting requirements.

- 10. If you are planning to impound water, please contact the Division of Water Resources for assistance, prior to submitting the application. Please attach a reservoir area capacity table and inform us of the total acres of surface drainage area above the reservoir.

Have you also made an application for a permit for construction of this dam and reservoir with the Division of Water Resources?  Yes  No

- If yes, show the Water Structures permit number here \_\_\_\_\_
- If no, explain here why a Water Structures permit is not required \_\_\_\_\_  
 \_\_\_\_\_  
 \_\_\_\_\_

- 11. The application must be supplemented by a U.S.G.S. topographic map, aerial photograph or a detailed plat showing the following information. On the topographic map, aerial photograph, or plat, identify the center of the section, the section lines or the section corners and show the appropriate section, township and range numbers. Also, please show the following information:

- (a) The location of the proposed point(s) of diversion (wells, stream-bank installations, dams, or other diversion works) should be plotted as described in Paragraph No. 5 of the application, showing the North-South distance and the East-West distance from a section line or southeast corner of section.
- (b) If the application is for groundwater, please show the location of any existing water wells of any kind within 1/2 mile of the proposed well or wells. Identify each existing well as to its use and furnish the name and mailing address of the property owner or owners. If there are no wells within 1/2 mile, please advise us.
- (c) If the application is for surface water, the names and addresses of the landowner(s) 1/2 mile downstream and 1/2 mile upstream from your property lines must be shown.
- (d) The location of the proposed place of use should be shown by crosshatching on the topographic map, aerial photograph or plat.
- (e) Show the location of the pipelines, canals, reservoirs or other facilities for conveying water from the point of diversion to the place of use.

A 7.5 minute U.S.G.S. topographic map may be obtained by providing the section, township and range numbers to: Kansas Geological Survey, 1930 Constant, Campus West, University of Kansas, Lawrence, Kansas 66047.

- 12. List any application, appropriation of water, water right, or vested right file number that covers the same diversion points or any of the same place of use described in this application. Also list any other recent modifications made to existing permits or water rights in conjunction with the filing of this application.

Re: Application File No. 50,010

Kansas River Assurance District

Dear Sir:

I understand that an Assurance District has been formed and established for the source of supply to which the above referenced application applies, namely the Kansas River Basin.

I understand that diversion of water pursuant to this application will be subject to regulation any time Assurance District or Water Marketing releases are being made from storage in Federal Reservoirs.

I also understand that if this application is approved, there could be times, as determined by the Division of Water Resources, when I would not be allowed to divert water. I realize that this could affect the economics of my decision to appropriate water.

I am aware of the above factors, and with the knowledge thereof, request that the Division of Water Resources proceed with processing and approval, if possible, of the above referenced application.

RE: Application  
File No. 50018

Dear Sir or Madam:

Your application for permit to appropriate water in 9-12S-21E in Leavenworth County, was received and has been assigned the file number noted above.

As a matter of record, the Division of Water Resources has on hand a large number of applications awaiting processing. Therefore to be fair to all concerned, and so that we can process those applications on hand in the order they were received, we intend to concentrate on the backlog of applications until the issue is resolved. Once review of your application has begun, we will contact you, if additional information is required.

In accordance with the provisions of the Kansas Water Appropriation Act, a portion of which is included below, the use of water as proposed prior to approval of the application is unlawful. Once approved, compliance with the terms, conditions and limitations of the permit is necessary. Conservation of the water resources of Kansas is required.

**Section 82a-728 of the Kansas Water Appropriation Act, provides (a) except for the appropriation of water for the purpose of domestic use, . . . it shall be unlawful for any person to appropriate or threaten to appropriate water from any source without first applying for and obtaining a permit to appropriate water in accordance with the provisions of the Water Appropriation Act or for any person to violate any condition of a vested right, appropriation right or an approved application for a permit to appropriate water for beneficial use.**

**(b) (1) The violation of any provision of this section by any person is a class C misdemeanor . . .**

**A class C misdemeanor is punishable by a fine not to exceed \$500 and/or a term of confinement not to exceed one month in the county jail. Each day that the violation occurs constitutes a separate offense.**

If you have any questions, please contact me at (785) 564-6637. If you wish to discuss a specific file, please have the file number ready so that we may help you more efficiently.

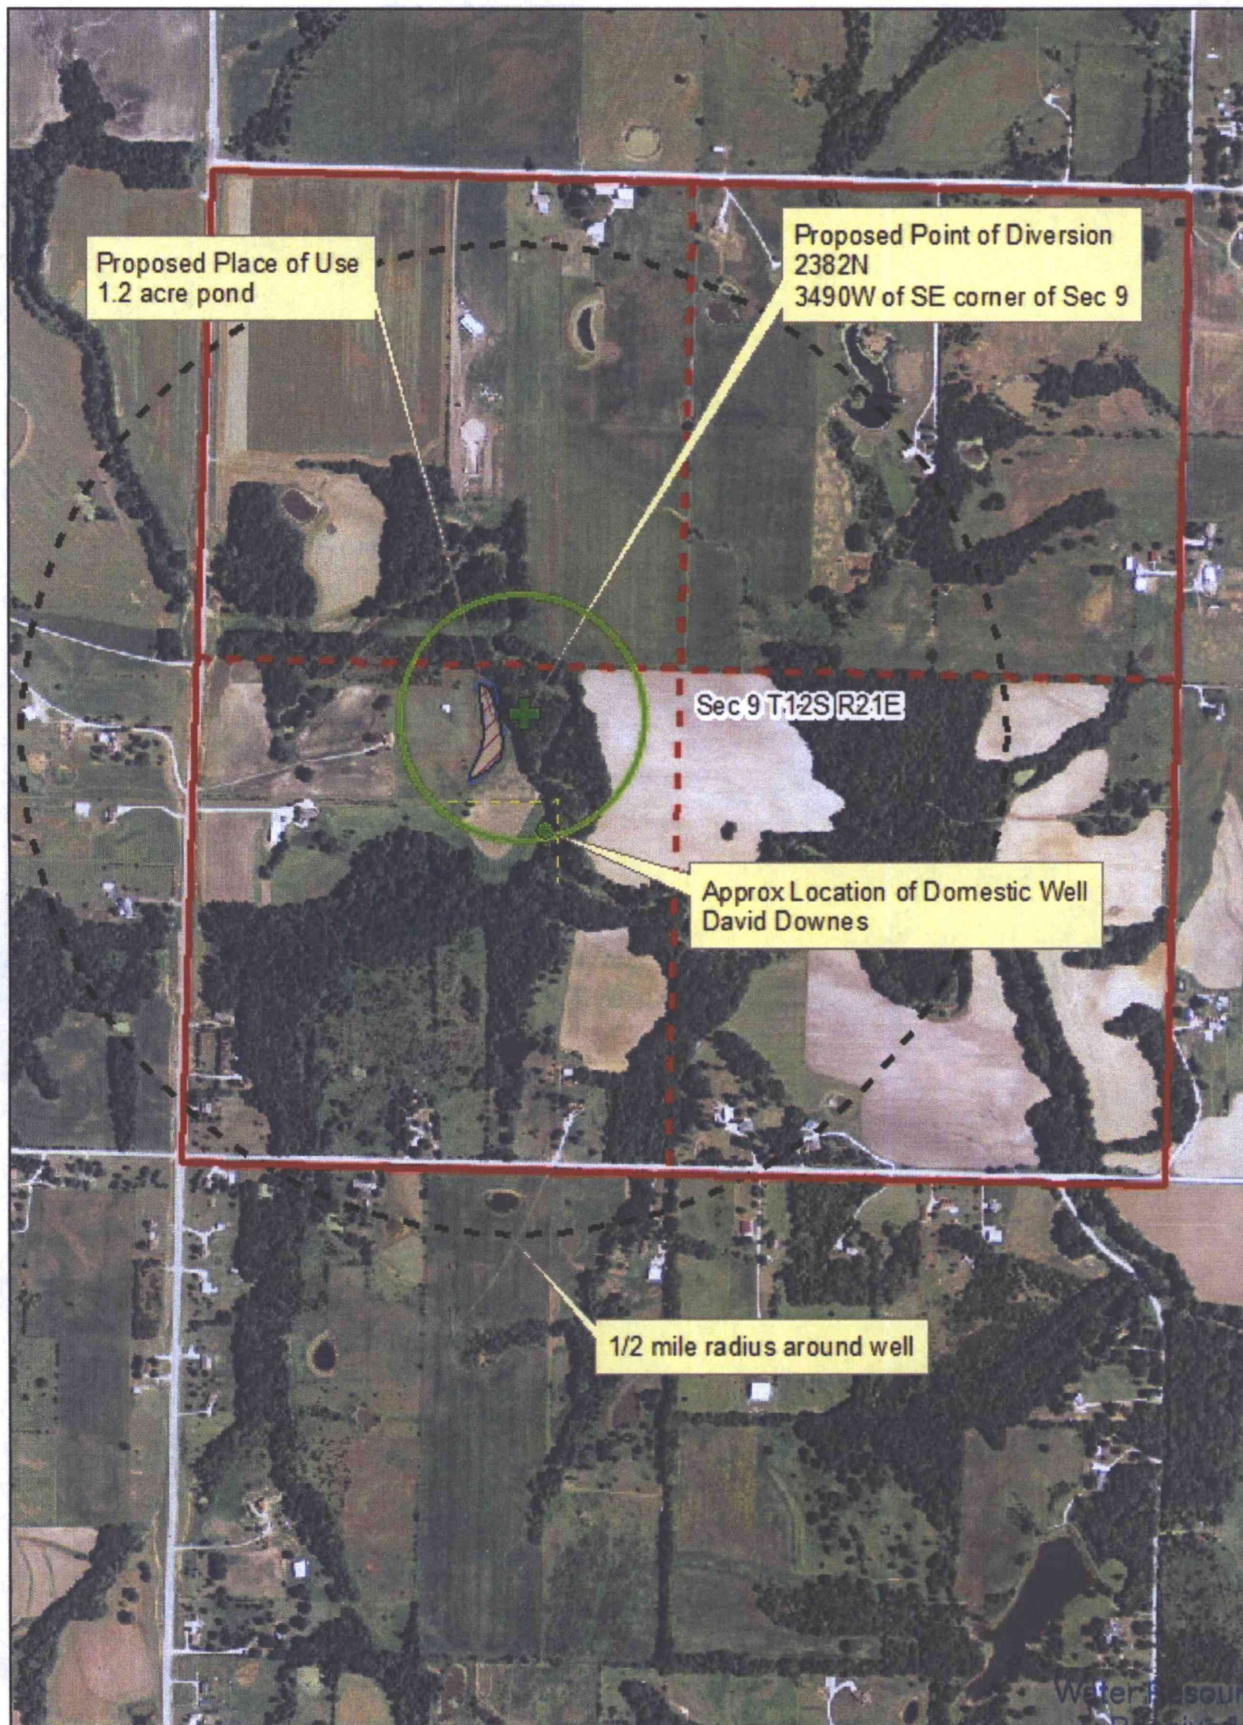

Sincerely,

Kristen A. Baum
