**TO:** Files

**DATE:** March 19, 2019

**FROM:** Doug Schemm

**RE:** Application, File No. 50,202

Kelly Wilson has filed the referenced application to appropriate 14.4 acre-feet of groundwater from an existing well at a rate of diversion of 50 gallons per minute to irrigate 12 acres in Dickinson County, within the Smoky Hill River Drainage Basin. The proposed well is located in the Southwest Quarter of Section 18, Township 13 South, Range 2 East, Dickinson County. The proposed place of use is solely owned by the applicant, who has signed the application stating he has access to the point of diversion. The requested quantity of 14.4 acre-feet for the irrigation of 12 acres of land is equivalent to 1.2 acre-feet per acre, which is the maximum allowable quantity for irrigation in Dickinson County per K.A.R. 5-3-19. The well has existed for many years and has been used for domestic use.

A review of safe yield shows that this area is fully appropriated. However, K.A.R. 5-3-16 provides an exemption to safe yield for up to 15 acre-feet of groundwater, provided that certain criteria are met. These criteria include that the area is not closed, no other 15 acre-feet exemptions in a two-mile circle, maximum rate of diversion cannot exceed 50 gallons per minute, and all other criteria for processing a new application to appropriate water at that location have been met. The application complies with all of the criteria including well spacing.

The applicant identified multiple domestic wells within 1,000 feet, and one domestic well less than 660 feet from the proposed well (owned by John McKee). The applicant requested a public notice to notify the rest of the potential nearby well owners within a one-half mile radius. Notification letters were sent to all domestic well owners within 1,000 feet on February 13, 2019, and a notification letter was sent to the City of Abilene who has a municipal supply well within one-half mile. No responses of any kind were received. A public notice referencing the new application was published for three consecutive weeks (February 12<sup>th</sup>, 19<sup>th</sup>, and 26<sup>th</sup>) in the Abilene Reflector Chronicle. No responses of any kind were received. Finally, a properly notarized "Domestic Well Spacing Consent Form" signed by John McKee was submitted to our office with the application. This form acknowledges that the proposed well is located 350 feet from Mr. McKee's domestic well, which is less than the required spacing distance of 660'. All other nearby domestic wells are located over 660 feet away, and the application complies with well spacing to domestic wells. The nearest non-domestic well is located over 1,900 feet away, and the application complies with well spacing of 1,320 feet to non-domestic wells.

A test hole log was not submitted with the pending application; however the KGS WWC-5 database contains multiple logs for nearby wells, including the John McKee domestic well. This well log shows the only lithologic units encountered were clay, limestone and shale, to a total depth of 71 feet. Water was encountered at a depth of 54 feet (at top of limestone layer), the screened interval is from 51 feet to 71 feet, and static water level is 46 feet below ground surface. Other nearby well logs show similar formations, with groundwater encountered in the limestone bedrock and static water levels above depths that groundwater was encountered. This indicates this well is likely sourcing the bedrock aquifer and not the alluvium or terrace deposits.

DWR has considerable geologic information for this area, from processing of other files, and this area presents a complex hydrology/geology, with different connected and disconnected units or zones. There appear to be three main producing zones that can be isolated in this area: Alluvium, Terrace, and Limestone (bedrock). A detailed review of well logs indicate that the bedrock wells are producing from cavities in the limestone. The key (critical) aspect of these bedrock wells is that the solid well casing extends through the overlying sands and clays (terrace deposits) and into the limestone (i.e. designed to seal off the overlying water sources and produce only from the limestone). In most of the well logs there also appears to be a clay and/or shale unit that separates the terrace from the bedrock. Wells located in close proximity to each other, which are screened in different aquifers (i.e. terrace vs bedrock) have significantly different static water levels, are generally hydraulically unconfined vs confined, and do not appear to cause interference.

In general, based on this information, safe yield for wells sourcing only the bedrock aquifer, can be evaluated using the extent of the bedrock aquifer, by truncating out terrace and alluvial deposits. This methodology provides a safe yield of 936.58 acre-feet, and existing appropriations total 1,464.29 acre-feet, leaving no water available. As noted above, the application fails safe yield and must be processed under the exemption accorded under K.A.R. 5-3-16.

In accordance with K.S.A. 82a-706c, the Chief Engineer retains full authority to require any water user to install meters, gages, or other measuring devices, which devices he or she or his or her agents may read at any time. Water flowmeter requirements are further described in K.A.R. 5-1-4 through K.A.R. 5-1-12. If any chemical or foreign substance is injected into the water pumped under this permit, a check valve will also need to be installed.

In a March 18, 2019 discussion, Katie Tietsort, Water Commissioner, Topeka Field Office, recommended approval of the referenced application. Based on the above discussion, well spacing criterium is met, the application meets the criteria for processing under safe yield exemption K.A.R. 5-3-16, and approval of the application will not impair senior water rights nor prejudicially or unreasonably affect the public interest, it is recommended that the referenced new application be approved.

KELLY WILSON  
2102 WEST 1ST ST  
ABILENE KS 67410

RE: Appropriation of Water, File No. 50,202

Dear Sir or Madam:

Enclosed is a permit authorizing you to proceed with construction of the proposed diversion works and to appropriate water for beneficial use as set forth in the permit. Your attention is directed to the enclosures and to the terms, conditions, limitations, and requirements specified in this permit.

Notice must be filed on the enclosed form once the diversion works have been completed. Failure to complete the diversion works within the time allowed, or within any authorized extension of time thereof, will result in dismissal of this permit. If you need an extension of time, you must request it before the deadline for completion set forth in the permit. Any request for an extension of time must be accompanied by the statutorily required fee, which is currently \$100.00.

An acceptable water flowmeter must be installed on the diversion works authorized by this permit prior to using water. An annual water use report must be filed with the Chief Engineer by March 1, following the end of each calendar year. If a complete annual water use report is not received by the deadline, then a fine may be assessed and all water use under such permit or right may be suspended. Reports submitted in paper form will be assessed a \$20 per file number paper filing fee. In order to avoid this filing fee, you may submit your report online at [www.kswaterusereport.org](http://www.kswaterusereport.org).

The approval of your application constitutes a permit to appropriate water. It does not give authority to construct any dam or other stream obstruction regulated by K.S.A. 82a-301 through 305a. It does not give authority to access any right-of-way or authorize trespassing upon or injury to public or private property. It may also be necessary for you to comply with other local, state or federal requirements.

Enclosed is an informational sheet that sets forth the procedure to obtain a Certificate of Appropriation which will establish the extent of your perfected water right. Additional information and applicable forms may be found on our website at [agriculture.ks.gov/divisions-programs/dwr](http://agriculture.ks.gov/divisions-programs/dwr). If you have any questions or need assistance with any of these requirements, please contact our office at 785-564-6640 or your local Topeka Field Office. If you call, please reference the file number so we can help you more efficiently.

Sincerely,

Kristen A. Baum

**APPROVAL OF APPLICATION  
and  
PERMIT TO PROCEED**

(This Is Not a Certificate of Appropriation)

This is to certify that I have examined Application, **File No. 50,202** of the applicant

**KELLY WILSON  
2102 WEST FIRST ST  
ABILENE KS 67410**

for a permit to appropriate water for beneficial use, together with the maps, plans and other submitted data, and that the application is hereby approved and the applicant is hereby authorized, subject to vested rights and prior appropriations, to proceed with the construction of the proposed diversion works (except those dams and stream obstructions regulated by K.S.A. 82a-301 through 305a, as amended), and to proceed with all steps necessary for the application of the water to the approved and proposed beneficial use and otherwise perfect the proposed appropriation subject to the following terms, conditions and limitations:

1. That the priority date assigned to such application is **January 23, 2019**.
2. That the water sought to be appropriated shall be used for irrigation use on land described in the application, as follows:

Sec.	Twp.	Range	NE¼				NW¼				SW¼				SE¼				TOTAL
			NE¼	NW¼	SW¼	SE¼	NE¼	NW¼	SW¼	SE¼	NE¼	NW¼	SW¼	SE¼	NE¼	NW¼	SW¼	SE¼	
<b>18</b>	<b>13</b>	<b>2E</b>																	<b>12</b>

3. That the authorized source from which the appropriation shall be made is groundwater, to be withdrawn by means of one (1) well located in the Southwest Quarter of the Southeast Quarter of the Southwest Quarter (SW¼ SE¼ SW¼) of Section 18, more particularly described as being near a point 310 feet North and 3,460 feet West of the Southeast corner of said section, in Township 13 South, Range 2 East, Dickinson County, Kansas, located substantially as shown on the map accompanying the application.

4. That the appropriation sought shall be limited to a maximum diversion rate not in excess of **50 gallons per minute (0.11 c.f.s.)** and to a quantity not to exceed **14.4 acre-feet** of water for any calendar year.

5. That installation of works for diversion of water shall be completed on or before **December 31, 2020**, or within any authorized extension thereof. The applicant shall notify the Chief Engineer and pay the statutorily required field inspection fee, which is currently \$400.00, when construction of the works has been completed. Failure to timely submit the notice and the fee will result in revocation of the permit. Any request for an extension of time shall be accompanied by the required statutory fee, which is currently \$100.00.

6. That the proposed appropriation shall be perfected by the actual application of water to the proposed beneficial use on or before **December 31, 2024**, or any authorized extension thereof. Any request for an extension of time shall be submitted prior to the expiration of the deadline and shall be accompanied by the required statutory fee, which is currently \$100.00.
7. That the applicant shall not be deemed to have acquired a water appropriation for a quantity in excess of the amount approved herein nor in excess of the amount found by the Chief Engineer to have been actually used for the approved purpose during one calendar year subsequent to approval of the application and within the time specified for perfection or any authorized extension thereof.
8. That the use of water herein authorized shall not be made so as to impair any use under existing water rights nor prejudicially and unreasonably affect the public interest.
9. That the right of the appropriator shall relate to a specific quantity of water and such right must allow for a reasonable raising or lowering of the static water level and for the reasonable increase or decrease of the streamflow at the appropriator's point of diversion.
10. That this permit does not constitute authority under K.S.A. 82a-301 through 305a to construct any dam or other obstruction; nor does it grant any right-of-way, or authorize entry upon or injury to, public or private property.
11. That all diversion works constructed under the authority of this permit into which any type of chemical or other foreign substance will be injected into the water pumped from the diversion works shall be equipped with an in-line, automatic quick-closing, check valve capable of preventing pollution of the source of the water supply. The type of valve installed shall meet specifications adopted by the Chief Engineer and shall be maintained in an operating condition satisfactory to the Chief Engineer.
12. That an acceptable water flow meter shall be installed and maintained on the diversion works authorized by this permit in accordance Kansas Administrative Regulations 5-1-4 through 5-1-12 adopted by the Chief Engineer. This water flow meter shall be used to provide an accurate quantity of water diverted as required for the annual water use report (including the meter reading at the beginning and end of the report year).
13. That the applicant shall maintain accurate and complete records from which the quantity of water diverted during each calendar year may be readily determined and the applicant shall file an annual water use report with the Chief Engineer by March 1 following the end of each calendar year. Failure to file the annual water use report by the due date shall cause the applicant to be subject to a civil penalty.
14. That no water user shall engage in nor allow the waste of any water diverted under the authority of this permit.
15. That failure without cause to comply with provisions of the permit and its terms, conditions and limitations will result in the forfeiture of the priority date, revocation of the permit and dismissal of the application.

16. That the right to appropriate water under authority of this permit is subject to any minimum desirable streamflow requirements identified and established pursuant to K.S.A. 82a-703c for the source of supply to which this water right applies.

**RIGHT TO A HEARING AND TO ADMINISTRATIVE REVIEW**

If you are aggrieved by this Order, then pursuant to K.S.A. 82a-1901, you may:

- 1) request an evidentiary hearing before the Chief Engineer, or
- 2) request administrative review by the Secretary of Agriculture.

Failure to request an evidentiary hearing before the Chief Engineer does not preclude your right to administrative review by the Secretary. To obtain an evidentiary hearing before the Chief Engineer, a written request for hearing must be filed within 15 days after service of this Order as provided in K.S.A. 77-531 (i.e., **within a total of 18 days after this Order was mailed to you**), with: Kansas Department of Agriculture, Attn: Legal Section, 1320 Research Park Drive, Manhattan, Kansas 66502, FAX (785) 564-6777.

If you do not file a request for an evidentiary hearing before the Chief Engineer, you may petition for administrative review of the Order by the Secretary of Agriculture. A petition for review shall be in writing and state the basis for requesting administrative review. The request for hearing may be denied if the request fails to clearly establish factual or legal issues for review. See K.S.A. 77-527. The petition must be filed within 30 days after service of this Order as provided in K.S.A. 77-531 (i.e., **within a total of 33 days after this Order was mailed to you**), and be filed with: Secretary of Agriculture, Attn: Legal Division, Kansas Department of Agriculture, 1320 Research Park Drive, Manhattan, Kansas 66502, FAX (785) 564-6777.

If neither a request for an evidentiary hearing nor a petition for administrative review is filed as set forth above, then this Order shall be effective and become a final agency action as defined in K.S.A. 77-607(b). Failure to timely request either an evidentiary hearing or administrative review may preclude further judicial review under the Kansas Judicial Review Act.

Ordered this 2 day of April, 2019, in Manhattan, Riley County, Kansas.

**APPLICATION FOR PERMIT TO APPROPRIATE WATER FOR BENEFICIAL USE** Dept Of Agriculture

Filing Fee Must Accompany the Application  
(Please refer to Fee Schedule attached to this application form.)

To the Chief Engineer of the Division of Water Resources, Kansas Department of Agriculture,  
1320 Research Park Drive, Manhattan, KS 66502:

1. Name of Applicant (Please Print): KELLY WILSON  
Address: 2102 WEST FIRST ST  
City: ABILENE State: KS Zip Code 67410  
Telephone Number: (785) 200-0587 kelly@wilsontrucks.com

2. The source of water is:  surface water in \_\_\_\_\_ (stream)  
OR  groundwater in SMOKY HILL RIVER (drainage basin)

Certain streams in Kansas have minimum target flows established by law or may be subject to administration when water is released from storage for use by water assurance district members. If your application is subject to these regulations on the date we receive your application, you will be sent the appropriate form to complete and return to the Division of Water Resources.

3. The maximum quantity of water desired is 14.4 acre-feet OR \_\_\_\_\_ gallons per calendar year, to be diverted at a maximum rate of 50 gallons per minute OR \_\_\_\_\_ cubic feet per second.

Once your application has been assigned a priority, the requested maximum rate of diversion and maximum requested quantity of water under that priority number can **NOT** be increased. Please be certain your requested maximum rate of diversion and maximum quantity of water are appropriate and reasonable for your proposed project and are in agreement with the Division of Water Resources' requirements.

4. The water is intended to be appropriated for (Check use intended):  
(a)  Artificial Recharge (b)  Irrigation (c)  Recreational (d)  Water Power  
(e)  Industrial (f)  Municipal (g)  Stockwatering (h)  Sediment Control  
(i)  Domestic (j)  Dewatering (k)  Hydraulic Dredging (l)  Fire Protection  
(m)  Thermal Exchange (n)  Contamination Remediation

YOU **MUST** COMPLETE AND ATTACH ADDITIONAL DIVISION OF WATER RESOURCES FORM(S) PROVIDING INFORMATION TO SUBSTANTIATE YOUR REQUEST FOR THE AMOUNT OF WATER FOR THE INTENDED USE REFERENCED ABOVE.

For Office Use Only:															
F.O.	<u>1</u>	GMD	<u>0</u>	Meets K.A.R. 5-3-1	<u>(YES/NO)</u>	Use	<u>IRR</u>	Source	<u>G/S</u>	County	<u>DK</u>	By	<u>KWN</u>	Date	<u>1/23/19</u>

SCANNED 1/30/2019  
um

5. The location of the proposed wells, pump sites or other works for diversion of water is:

**Note:** For the application to be accepted, the point of diversion location must be described to at least a 10 acre tract, unless you specifically request a 60 day period of time in which to locate the site within a specifically described, minimal legal quarter section of land.

- (A) One in the SW quarter of the SE quarter of the SW quarter of Section 18, more particularly described as being near a point 310 feet North and 3460 feet West of the Southeast corner of said section, in Township 13 South, Range 2 EAST, DICKINSON County, Kansas.
- (B) One in the \_\_\_\_\_ quarter of the \_\_\_\_\_ quarter of the \_\_\_\_\_ quarter of Section \_\_\_\_\_, more particularly described as being near a point \_\_\_\_\_ feet North and \_\_\_\_\_ feet West of the Southeast corner of said section, in Township \_\_\_\_\_ South, Range \_\_\_\_\_ East/West (circle one), \_\_\_\_\_ County, Kansas.
- (C) One in the \_\_\_\_\_ quarter of the \_\_\_\_\_ quarter of the \_\_\_\_\_ quarter of Section \_\_\_\_\_, more particularly described as being near a point \_\_\_\_\_ feet North and \_\_\_\_\_ feet West of the Southeast corner of said section, in Township \_\_\_\_\_ South, Range \_\_\_\_\_ East/West (circle one), \_\_\_\_\_ County, Kansas.
- (D) One in the \_\_\_\_\_ quarter of the \_\_\_\_\_ quarter of the \_\_\_\_\_ quarter of Section \_\_\_\_\_, more particularly described as being near a point \_\_\_\_\_ feet North and \_\_\_\_\_ feet West of the Southeast corner of said section, in Township \_\_\_\_\_ South, Range \_\_\_\_\_ East/West (circle one), \_\_\_\_\_ County, Kansas.

If the source of supply is groundwater, a separate application shall be filed for each proposed well or battery of wells, except that a single application may include up to four wells within a circle with a quarter (1/4) mile radius in the same local source of supply which do not exceed a maximum diversion rate of 20 gallons per minute per well.

A battery of wells is defined as two or more wells connected to a common pump by a manifold; or not more than four wells in the same local source of supply within a 300 foot radius circle which are being operated by pumps not to exceed a total maximum diversion rate of 800 gallons per minute and which supply water to a common distribution system.

6. The owner of the point of diversion, if other than the applicant is (please print):

\_\_\_\_\_  
(name, address and telephone number)

You must provide evidence of legal access to, or control of, the point of diversion from the landowner or the landowner's authorized representative. Provide a copy of a recorded deed, lease, easement or other document with this application. In lieu thereof, you may sign the following sworn statement:

I have legal access to, or control of, the point of diversion described in this application from the landowner or the landowner's authorized representative. I declare under penalty of perjury that the foregoing is true and correct.

Executed on JAN 16, 2019.

  
\_\_\_\_\_  
Applicant's Signature

7. The proposed project for diversion of water will consist of ONE WELL  
(number of wells, pumps or dams, etc.)  
and (was)(will be) completed (by) Summer 2019  
(Month/Day/Year - each was or will be completed)

8. The first actual application of water for the proposed beneficial use was or is estimated to be Summer 2019  
(Mo/Day/Year)

9. Will pesticide, fertilizer, or other foreign substance be injected into the water pumped from the diversion works?

Yes  No If "yes", a check valve shall be required.

All chemigation safety requirements must be met including a chemigation permit and reporting requirements.

10. If you are planning to impound water, please contact the Division of Water Resources for assistance, prior to submitting the application. Please attach a reservoir area capacity table and inform us of the total acres of surface drainage area above the reservoir.

Have you also made an application for a permit for construction of this dam and reservoir with the Division of Water Resources?  Yes  No

- If yes, show the Water Structures permit number here \_\_\_\_\_
- If no, explain here why a Water Structures permit is not required \_\_\_\_\_

GROUNDWATER WELL

11. The application must be supplemented by a U.S.G.S. topographic map, aerial photograph or a detailed plat showing the following information. On the topographic map, aerial photograph, or plat, identify the center of the section, the section lines or the section corners and show the appropriate section, township and range numbers. Also, please show the following information:

(a) The location of the proposed point(s) of diversion (wells, stream-bank installations, dams, or other diversion works) should be plotted as described in Paragraph No. 5 of the application, showing the North-South distance and the East-West distance from a section line or southeast corner of section.

(b) If the application is for groundwater, please show the location of any existing water wells of any kind within 1/2 mile of the proposed well or wells. Identify each existing well as to its use and furnish the name and mailing address of the property owner or owners. If there are no wells within 1/2 mile, please advise us.

(c) If the application is for surface water, the names and addresses of the landowner(s) 1/2 mile downstream and 1/2 mile upstream from your property lines must be shown.

(d) The location of the proposed place of use should be shown by crosshatching on the topographic map, aerial photograph or plat.

(e) Show the location of the pipelines, canals, reservoirs or other facilities for conveying water from the point of diversion to the place of use.

A 7.5 minute U.S.G.S. topographic map may be obtained by providing the section, township and range numbers to: Kansas Geological Survey, 1930 Constant, Campus West, University of Kansas, Lawrence, Kansas 66047.

12. List any application, appropriation of water, water right, or vested right file number that covers the same diversion points or any of the same place of use described in this application. Also list any other recent modifications made to existing permits or water rights in conjunction with the filing of this application.

First Published in The Abilene Reflector Chronicle on February 12th 2019 Public Notice File No. 50,202

Kelly Wilson has filed a new application, File No. 50,202 for permit to appropriate water for beneficial use, with the Division of Water Resources, Kansas Dept of Agriculture. The Application proposes the appropriation of 14.4 acre-feet of ground water to be diverted at the rate of 50 gallons per minute, for irrigation use from a well. The well will be in the Southwest Quarter of the Southeast Quarter of the Southwest Quarter of Section 18, in Township 13 South, Range 2 East, Dickinson County, Kansas. Anyone owning a well in the immediate vicinity of this proposed irrigation well is invited to submit written comments regarding Application, File No. 50,202. Persons submitting comments should specifically indicate their interest in the proposed appropriation of water. Comments regarding this application will be accepted through March 15, 2019. Written comments of questions regarding this application may be directed to the Office of the Chief of Engineer, Division of Water Resources, Kansas Department of Agriculture, 1320 Research Park Drive, Manhattan, Kansas 66502. If you wish more information concerning this application, you may also contact Douglas Schemm, Environmental Scientist, in the Topeka Field Office of the Water Appropriation Program at (785) 296-3495.

AFFIDAVIT OF PUBLICATION STATE OF KANSAS } DICKINSON COUNTY } ss.

Tim Honan being first duly sworn, deposes and says: That I am the editor of the Reflector-Chronicle, a daily newspaper printed in the State of Kansas, and published in and of general circulation in Dickinson County, Kansas, with a general paid circulation on a monthly basis, and that said newspaper is not a trade, religious or fraternal publication.

Said newspaper is a daily published at least 50 times a year; has been so published continuously and uninterruptedly in said county and state for period of more than five years prior to the first publication of said notice; and has been admitted at the post office of Abilene, in said county, as a second class matter.

That the attached notice is a true copy thereof and was published in the regular and entire issue of said newspaper for 3 consecutive weeks, the first publication thereof being made as aforesaid on the day of 2-12, 2019 with subsequent publications being made on the following dates:

2-19, 2019, 2-26, 2019

Printer's Fee \$ 146.00

## Analysis Results

The selected PD is in an area OPEN to new appropriations.

The safe yield based on the variables listed below is 936.58 AF.

Total prior appropriations in the circle is 1,478.69 AF.  $-14.4 \text{ AF} = 1464.29 \text{ AF}$

Total quantity of water available for appropriation is 0.00 AF.

# 50,202. No water  
Available per safe yield  
analysis. Applicant is  
Requesting 15 AF exemption  
to safe yield.

## Safe Yield Variables

The area used for the analysis is set at 3,746 acres.

The potential annual recharge at the circle center is estimated to be 3.0 inches.

The percent of recharge available for appropriation is 100%.

Authorized Quantity values are as of 14-MAR-2019 and are based on Appropriated and Vested ground water right and possible stream nodes for GMD #2. Domestic, Term and Temporary water rights have been excluded.

There are 6 water rights and 7 points of diversion within the circle.

Re: Pending New Application, File No. 50,202

Dear Sir or Madam:

This is to advise you that Kelly Wilson has filed the application referred to above for a permit to appropriate 14.4 acre-feet of groundwater per calendar year for irrigation use to be diverted at a maximum rate of 50 gallons per minute. The proposed point of diversion is one well located as follows:

In the Southwest Quarter of the Southeast Quarter of the Southwest Quarter of Section 18, in Township 13 South, Range 2 East, Dickinson County, Kansas.

Records in this office indicate that you may have a well or wells in this vicinity and you are being notified of receipt of this application in order that you may be fully informed of the proposed location of the applicant's point of diversion and proposed use of water. Consideration will be given to comments or other information which you desire to submit to this office **within 15 days** from the date of this letter.

You can find the application and site map posted by the file number referenced above at:

<http://agriculture.ks.gov/divisions-programs/dwr/water-appropriation/notices>

If you have any questions or comments, you may also contact me at (785) 296-3495. If you call, please reference the file number so I can help you more efficiently.

Sincerely,

A handwritten signature in cursive script that reads "Doug Schemm".

Re: Pending New Application, File No. 50,202

Dear Sir or Madam:

This is to advise you that Kelly Wilson has filed the application referred to above for a permit to appropriate 14.4 acre-feet of groundwater per calendar year for irrigation use to be diverted at a maximum rate of 50 gallons per minute. The proposed point of diversion is one well located as follows:

In the Southwest Quarter of the Southeast Quarter of the Southwest Quarter of Section 18, in Township 13 South, Range 2 East, Dickinson County, Kansas.

Records in this office indicate that you may have a well or wells in this vicinity and you are being notified of receipt of this application in order that you may be fully informed of the proposed location of the applicant's point of diversion and proposed use of water. Consideration will be given to comments or other information which you desire to submit to this office **within 15 days** from the date of this letter.

You can find the application and site map posted by the file number referenced above at:  
<http://agriculture.ks.gov/divisions-programs/dwr/water-appropriation/notices>

If you have any questions or comments, you may also contact me at (785) 296-3495. If you call, please reference the file number so I can help you more efficiently.

Sincerely,

A handwritten signature in cursive script that reads "Douglas W. Schemm".

Re: Domestic Well Spacing  
Consent Form

I, JOHN R MCKEE, own a well in the \_\_\_\_\_  
Quarter of the \_\_\_\_\_ Quarter of the SW Quarter of Section 18,  
Township 13 South, Range 2 East, Dickinson County, Kansas.

Water from this well is used only for domestic purposes as follows:

- \$ household use;
- \$ watering of livestock, poultry, farm and domestic animals used in operating a farm; and/or
- \$ irrigation of lands not exceeding a total of two (2) acres in area for the growing of gardens, orchards and lawns.

I understand that an application for a permit to appropriate water, Application, File No. \_\_\_\_\_, has been filed with the Division of Water Resources and that the applicant seeks to use water from a well located closer to my domestic well than allowed by the rules and regulations of the Chief Engineer, in particular K.A.R.

5-4-4 I hereby give my permission to the applicant to install One well at a location approximately 350 feet from my domestic well if the same is allowed and permitted by the Chief Engineer.

By giving my permission, I do not waive any right I may have to file a complaint with the Chief Engineer or to make a written request to secure water, pursuant to K.A.R. 5-4-1, if the use of my well becomes impaired such that I am unable to exercise my domestic water right, nor do I waive any other rights I may have under the Kansas Water Appropriation Act or the rules and regulations of the Chief Engineer.

Division of Water Resources  
Received

JAN 23 2019

I acknowledge that my permission has been given freely and voluntarily. I further acknowledge that I have not entered any agreement either oral or in writing with any person(s) including the Applicant, land owner, or any representative or agent of the applicant or land owner that condition my permission on giving up any of my rights under the Kansas Water Appropriation Act or the rules and regulations of the Chief Engineer or that condition my permission on reliance on any person or entity other than the Chief Engineer to investigate any claims of impairment I may make with respect to my domestic well or to secure water to satisfy my domestic water right.

SCANNED

2. Please complete the following information for the description of the operation for the irrigation project. Attach supplemental sheets as needed.

a. Indicate the soils in the field(s) and their intake rates:

Soil Name	Percent of field (%)	Intake Rate (in/hr)	Irrigation Design Group
<u>SANDY LOAM</u>	<u>100%</u>	_____	_____
_____	_____	_____	_____
_____	_____	_____	_____
_____	_____	_____	_____
Total:	100 %		

b. Estimate the average land slope in the field(s): 0-1 %

Estimate the maximum land slope in the field(s): 0-1 %

c. Type of irrigation system you propose to use (check one):

- Center pivot                       Center pivot - LEPA                       "Big gun" sprinkler  
 Gravity system (furrows)                       Gravity system (borders)                       Sideroll sprinkler

Other, please describe: DRIP LINE

d. System design features:

i. Describe how you will control tailwater:

THIS IS DRIP LINE, SHOULDN'T BE ANY TAILWATER.

ii. For sprinkler systems:

(1) Estimate the operating pressure at the distribution system: 15 PSI psi

(2) What is the sprinkler package design rate? 9.5 gpm

(3) What is the wetted diameter (twice the distance the sprinkler throws water) of a sprinkler on the outer 100 feet of the system? \_\_\_\_\_ feet

\* USING SQUARE ACREAGE PLOT (10 ACRES)  
USING DRIP LINE, NO THROW.

(4) Please include a copy of the sprinkler package design information.

e. Crop(s) you intend to irrigate. Please note any planned crop rotations:

f. Please describe how you will determine when to irrigate and how much water to apply (particularly important if you do not plan a full irrigation).

PRIMARYLY DEPENDS ON MOTHER NATURE. IF WE HAVE A WET SPRING VERY MINIMAL WATER WILL BE NEEDED.

You may attach any additional information you believe will assist in informing the Division of the need for your request.

Re: Application  
File No. \_\_\_\_\_

Minimum Desirable Streamflow

Dear Sir:

I understand that a Minimum Desirable Streamflow requirement has been established by the legislature for the source of supply to which the above referenced application applies.

I understand that diversion of water pursuant to this application will be subject to regulation any time Minimum Desirable Streamflow requirements are not being met.

I also understand that if this application is approved, there could be times, as determined by the Division of Water Resources, when I would not be allowed to divert water. I realize that this could affect the economics of my decision to appropriate water.

I am aware of the above factors, and with the knowledge thereof, request that the Division of Water Resources proceed with processing and approval, if possible, of the above referenced application.

RE: Application, File No. **50202**

Dear Sir or Madam:

The Division of Water Resources (Division) has received your application for a permit to appropriate water for beneficial use. Your application has been assigned the file number referenced above. Please be aware that the Division may have a large number of pending applications on hand at times and makes every attempt to process them in the order in which they are received. You will be contacted if additional information is required.

Please note, this letter only acknowledges receipt of your application and does not guarantee approval. In accordance with the provisions of the Kansas Water Appropriation Act, the use of water as proposed prior to approval of the application is unlawful.

Additional information about the process may be found on our website at [agriculture.ks.gov/divisions-programs/dwr](http://agriculture.ks.gov/divisions-programs/dwr). If you have any other questions, please contact our office at 785-564-6640 or your local Topeka Field Office at 785-296-5733. If you call, please reference the file number so we can help you more efficiently.

Sincerely,

A handwritten signature in cursive script that reads "Kristen A. Baum".
