MEMORANDUM

TO: Files
FROM: Richelle A. Krueger

DATE: August 31, 2020
RE: Vested Right
File No. PT 021
Water Right
File Nos. 11,446, 16,353
and 37,826
Appropriation of Water
File Nos. 40,982, 40,983, 40,984, 40,985,
40,986, 40,987, 40,988, 47,012, 47,013,
47,014, 47,015, 47,016, 47,017, 47,020,
48,122, 48,123, 48,124 and 48,125

Robert K. Ott and Randy D. DeWitt, on behalf of the City of Manhattan, Kansas, have filed applications for approval to change the authorized place of use. The referenced file numbers are authorized for municipal use and are geographically located within the Big Blue River drainage basin.

The referenced water rights do not appear abandoned as per K.S.A. 82a-718. File Nos. 40,982, 40,983, 40,984, 40,985, 40,986, 40,987, and 40,988 have certificates proposed at this time.

After issuance of the referenced proposed certificates it appears the City has a total limited quantity of 4,908.993 million gallons per calendar year for municipal use in the City of Manhattan, Kansas and immediate vicinity; within the boundaries of Hunter's Island Water District, Pottawatomie County, Kansas, within the boundaries of Riley County Rural Water District No. 1, Riley County, Kansas; and within Tuttle Creek Lake State Park, Riley County, Kansas. The referenced file numbers overlap in their authorized place of use and there are various overlaps in their authorized points of diversions.

The water right owners propose to add Pottawatomie County Rural Water District No. 1 and Konza Valley Water Benefit District and their immediate vicinities to their authorized place of use. The City has been serving these districts for several years with no indication of impairment and should have an adequate quantity to supply them at this time. Pottawatomie County Rural Water District No. 1 has eleven of its own water rights (File Nos. 21,099, 24,224, 43,757, 43,758, 46,442, 46,443, 49,020, 49,030, 49,417, 49,420, 49,421) plus one pending application (File No. 50,286). Konza Valley Water Benefit District has one right, Water Right, File No. 31,423 which is under a cease diversion for failure to install a meter.

A public notice was printed in the local paper once a week for three consecutive weeks to notify interested parties of these applications to comply with K.S.A. 82a 1906. No responses have been received as of today's date.

Galen Biery, General Manager of The Kansas River Water Assurance District No. 1, was notified of the referenced change applications in a letter dated August 19, 2020 sent via e-mail.

The same local source of supply will not change which is Main Stem Alluvium (113).

In an e-mail dated August 21, 2020, Katherine Tietz, Water Commissioner of the Topeka Field Office, indicated no objection to approval of the referenced change applications.

Water flow meters are required. Check valves will be required if chemigating.

Based on the above discussion, that the changes are reasonable, that impairment to existing water rights is unlikely, and that no change in the local source of supply will occur, it is recommended the referenced applications be approved.

DIVISION OF WATER RESOURCES
Christopher W. Beightel, Acting Chief Engineer

APPROVAL OF APPLICATION FOR CHANGE IN PLACE OF USE WATER RIGHT FILE NO. 11,446

The Chief Engineer, Division of Water Resources, Kansas Department of Agriculture, after due consideration of the written application of Robert K. Ott, on behalf of the City of Manhattan, 1101 Poyntz Avenue, Manhattan, Kansas, 66502, received in this office on January 28, 2020, for approval of a change in the location of the place of use under the certificate of appropriation issued pursuant to the permit to appropriate water for beneficial use, as modified and amended by the Order of the Chief Engineer dated September 10, 1986, approving the application to change the point of diversion and place of use, and by the Order of the Chief Engineer dated August 19, 2008, approving the application to change the place of use, finds that the change is reasonable and will not impair existing rights, and that the application should be and is hereby approved.

The effective date of the change shall be the date this order is executed by the Chief Engineer, after which the authorized location of the place of use shall be:

within the City of Manhattan, Kansas and immediate vicinity; within the boundaries of Hunter's Island Water District, Pottawatomie County, Kansas and immediate vicinity; within the boundaries of Riley County Rural Water District No. 1, Riley County, Kansas and immediate vicinity; within the boundaries of Pottawatomie County Rural Water District No. 1, Pottawatomie County, Kansas and immediate vicinity; within the boundaries of Konza Valley Water Benefit District and immediate vicinity; and within Tuttle Creek Lake State Park, Riley County, Kansas and immediate vicinity,

located substantially as shown on the map accompanying the application to change the place of use.

All diversion works into which any type of chemical or other foreign substance will be injected into the water pumped from the diversion works shall be equipped with an in-line, automatic, quick-closing check valve capable of preventing pollution of the source of the water supply. The type of valve installed shall meet specifications adopted by the Chief Engineer and shall be maintained in an operating condition satisfactory to the Chief Engineer.

The water right owner shall properly install an acceptable water meter on the diversion works authorized under this water right, prior to the use of water, in strict accordance with the Kansas Administrative Regulations 5-1-4 through 5-1-12 adopted by the Chief Engineer. The water right owner shall notify the Chief Engineer when installation of the water meter has been completed. The water right owner shall maintain the water meter in an operating condition satisfactory to the Chief Engineer, at all times during diversion of water and shall maintain records from which the total quantity of water diverted may be determined. The water right owner shall also report the reading of said water meter and the total quantity of water diverted annually to the Chief Engineer. Such records shall be furnished to the Chief Engineer by March 1 following the end of each calendar year.

In all other respects, the Certificate of Appropriation issued pursuant to Approval of Application, File No. 11,446, for permit to appropriate water for beneficial use, is as stated and set forth in the Certificate of Appropriation dated June 18, 1986, as modified and amended by the aforementioned orders.

Ordered this 3 day of September, 2020, in Manhattan, Riley County, Kansas.

Dear Mr. Kloster:

Enclosed are the orders executed by the Chief Engineer, Division of Water Resources, Kansas Department of Agriculture, approving the applications for change under the above referenced file numbers.

Your attention is directed to the enclosures and to the terms, conditions, and limitations specified in these approvals for change. A condition of these approvals is that acceptable water flow meters must be installed on the diversion works authorized under the referenced file numbers. Please return the required notification of completion of the installation of the required meters as soon as these actions are completed.

Since the orders modify the original documents referred to above, the orders for File Nos. PT 021, 11,446, 16,353, and 37,826 should be recorded with the Register of Deeds as other instruments affecting real estate.

If you have any questions, please contact this office. If you call, please reference the file number so we can help you more efficiently.

Sincerely,

Richelle A. Krueger

RIGHT TO A HEARING AND TO ADMINISTRATIVE REVIEW

If you are aggrieved by this Order, then pursuant to K.S.A. 82a-1901, you may:

- 1) request an evidentiary hearing before the Chief Engineer, or
- 2) request administrative review by the Secretary of Agriculture.

Failure to request an evidentiary hearing before the Chief Engineer does not preclude your right to administrative review by the Secretary.

To obtain an evidentiary hearing before the Chief Engineer, a written request for hearing must be filed within 15 days after service of this Order as provided in K.S.A. 77-531 (i.e., within a total of 18 days after this Order was mailed to you), with: Kansas Department of Agriculture, Attn: Legal Section, 1320 Research Park Drive, Manhattan, KS 66502, FAX (785) 564-6777.

If you do not file a request for an evidentiary hearing before the Chief Engineer, you may petition for administrative review of the Order by the Secretary of Agriculture. A petition for review shall be in writing and state the basis for requesting administrative review. The request for hearing may be denied if the request fails to clearly establish factual or legal issues for review. See K.S.A. 77-527. The petition must be filed within 30 days after service of this Order as provided in K.S.A. 77-531 (i.e., within a total of 33 days after this Order was mailed to you), and be filed with: Secretary of Agriculture, Attn: Legal Division, Kansas Department of Agriculture, 1320 Research Park Drive, Manhattan, KS 66502, FAX (785) 564-6777.

If neither a request for an evidentiary hearing nor a petition for administrative review is filed as set forth above, then this Order shall be effective and become a final agency action as defined in K.S.A. 77-607(b). Failure to timely request either an evidentiary hearing or administrative review may preclude further judicial review under the Kansas Judicial Review Act.

Any request for hearing or petition for administrative review shall be in writing and shall be submitted to the attention of: Chief Legal Counsel, Kansas Department of Agriculture, 1320 Research Park Drive, Manhattan, Kansas 66502, Fax: (785) 564 - 6777.
