Re: Water Right, File No. 9314-D2

Dear Sir:

Enclosed is the order executed by the Chief Engineer, Division of Water Resources, Kansas Department of Agriculture, approving the application for change under the above referenced file number.

Your attention is directed to the terms, conditions, and limitations specified in this approval for change. A condition of this order requires the installation of water flow meter(s) before the first use of water in accordance with the Chief Engineer's specifications found in K.A.R. 5-1-4 through K.A.R. 5-1-12. A copy of these specifications and a list of acceptable meters can be obtained from our website at the following web address:

<http://agriculture.ks.gov/meters>

This order also requires that the diversion works should be completed, including installation of the flow meter(s), by December 31, 2021. If you do not have access to the internet, please contact this office and we will send you a paper copy of the referenced information.

Because this order modifies the original certificate issued under your water right file, it should be recorded with the Register of Deeds as other instruments affecting real estate.

**This document is a summary order by this agency regarding this matter.** This order shall become final if a request for a hearing is not filed with the Chief Engineer within 15 days of the date of service of this order.

If you have any questions, please feel free to contact this office. If you wish to refer to a specific file, please reference it when you contact us.

Sincerely,

A handwritten signature in blue ink that reads "Katherine A. Tietz".
