	vill pesticide, fertilizer, or other foreign substance be injected into the water pumped from the diversion orks?
] Yes ⊠ No If "yes", a check valve shall be required.
Α	Il chemigation safety requirements must be met including a chemigation permit and reporting requirements.
s	you are planning to impound water, please contact the Division of Water Resources for assistance, prior to ubmitting the application. Please attach a reservoir area capacity table and inform us of the total acres of urface drainage area above the reservoir.
	ave you also made an application for a permit for construction of this dam and reservoir with the Division of later Resources? □ Yes ✓
•	If yes, show the Water Structures permit number here
•	If no, explain here why a Water Structures permit is not required NOT APPLICABLE
	in his, explain here why a trader of detailes permit is not required that All Feloable
s th	he application <u>must</u> be supplemented by a U.S.G.S. topographic map, aerial photograph or a detailed plathowing the following information. On the topographic map, aerial photograph, or plat, identify the center one section, the section lines or the section corners and show the appropriate section, township and range umbers. Also, please show the following information:
(8	a) The location of the proposed point(s) of diversion (wells, stream-bank installations, dams, or other diversion works) should be plotted as described in Paragraph No. 5 of the application, showing the North-South distance and the East-West distance from a section line or southeast corner of section.
(t	o) If the application is for groundwater, please show the location of any existing water wells of any kind within ½ mile of the proposed well or wells. Identify each existing well as to its use and furnish the name and mailing address of the property owner or owners. If there are no wells within ½ mile, please advise us.
(0	s) If the application is for surface water, the names and addresses of the landowner(s) ½ mile downstream and ½ mile upstream from your property lines must be shown.
(0	The location of the proposed place of use should be shown by crosshatching on the topographic map aerial photograph or plat.
(6	 Show the location of the pipelines, canals, reservoirs or other facilities for conveying water from the point of diversion to the place of use.
	A 7.5 minute U.S.G.S. topographic map may be obtained by providing the section, township and range numbers to: Kansas Geological Survey, 1930 Constant, Campus West, University of Kansas, Lawrence Kansas 66047.
d	ist any application, appropriation of water, water right, or vested right file number that covers the same iversion points or any of the same place of use described in this application. Also list any other recented in the filing of this application.

13.	Furnish the following well information if the proposed appropriation is for the use of groundwater. If the well has not been completed, give information obtained from test holes, if available.										
	Information below is from:	□ Test holes	□ Well	as completed	□ Driller	s log attached					
	Well location as shown in pa	aragraph	(A)	(B)	(C)	(D)					
	No. Date Drilled	0.000

5.	The	KS Dept Of Agriculture location of the proposed wells, pump sites or other works for diversion of water is:								
	Note: For the application to be accepted, the point of diversion location must be described to at least a 10 acre tract, unless you specifically request a 60 day period of time in which to locate the site within a specifically described, minimal legal quarter section of land.									
	(A)	One in the <u>NW</u> quarter of the <u>NE</u> quarter of the <u>SW</u> quarter of Section <u>33</u> , more particularly described								
		as being near a point <u>2520</u> feet North and <u>3875</u> feet West of the Southeast corner of said section, in								
		Township 8 South, Range 4 EAST , CLAY County, Kansas.								
	(B)	One in the quarter of the quarter of the quarter of Section, more particularly described as being near a								
		point feet North and feet West of the Southeast corner of said section, in Township South, Range , County, Kansas.								
	(C)	One in the quarter of the quarter of the quarter of Section, more particularly								
		described as being near a point feet North and feet West of the Southeast corner of said								
		section, in Township South, Range East/West (circle one), County, Kansas.								
	(D)	One in the quarter of the quarter of the quarter of Section, more particularly								
	()	described as being near a point feet North and feet West of the Southeast corner of said								
		section, in Township South, Range East/West (circle one), County, Kansas.								
	minu A ba than pum	us in the same local source of supply which do not exceed a maximum diversion rate of 20 gallons per ute per well. attery of wells is defined as two or more wells connected to a common pump by a manifold; or not more in four wells in the same local source of supply within a 300 foot radius circle which are being operated by not to exceed a total maximum diversion rate of 800 gallons per minute and which supply water to a mon distribution system.								
6.		owner of the point of diversion, if other than the applicant is (please print):								
0,		PLICANT Brian Mart, 2144 Broug Hon Rol Chy Center \$5 62 (name, address and telephone number)	743							
		(name, address and telephone number)								
	land	must provide evidence of legal access to, or control of, the point of diversion from the landowner or the downer's authorized representative. Provide a copy of a recorded deed, lease, easement or other ument with this application. In lieu thereof, you may sign the following sworn statement:								
	I have legal access to, or control of, the point of diversion described in this application from the landowner or the landowner's authorized representative. I declare under penalty of perjury that the foregoing is true and correct. Executed on February 9th, 2023. Applicant's Signature									
		Executed on February 9th, 2023. Suam /								
	land	Executed on February 9th, 2023. Suam /								
7.	lanc the	Executed on February 7th, 2023. Applicant Signature applicant must provide the required information or signature irrespective of whether they are the downer. Failure to complete this portion of the application will cause it to be unacceptable for filing and								

The first actual application of water for the proposed beneficial use was or is estimated to be SAME AS #7 (Mo/Day/Year)

(Month/Day/Year - each was or will be completed)
