If the source of supply is groundwater, a separate application that lab filed for each proposed well or battery of wells, except that a single application may include up to four wells within a circle with a quarter (½) mile radius in the same local source of supply within a 300-000 radius coince with a quarter (½) mile radius in the same local source of supply within a 300-000 radius circle which are being operated by pumps not to exceed a total maximum diversion rate of 800gpm and which supply water to a common distribution system.  (A) One in the NE quarter of the SW quarter of the SE quarter of Section 21 more particularly described as being near a point 1088 feet North and 1820 feet West of the Southeast corner of said section, in Township 19 south, Range 2	app spe	e location(s) of the proposed diversion work(s) (well, pumpsite, etc.) are described below. Note that for the blication to be accepted, the point of diversion location(s) <u>must</u> be described to at least a 10-acre tract, unless you edifically request a 60-day period of time in which to locate the site within a specifically described, minimal legal arter section of land. You can specify a nickname for the point of diversion via the A.K.A. line to help you identify it.

RE: Application, File No(s). 51345

#### Dear Sir or Madam:

The Division of Water Resources (Division) has received your application(s) for a permit to appropriate water for beneficial use. Your application(s) has been assigned the file number(s) referenced above. Please be aware that the Division may have a large number of pending applications on hand at times and makes every attempt to process them in the order in which they are received. You will be contacted if additional information is required.

Please note, this letter only acknowledges receipt of your application(s) and does not guarantee approval. In accordance with the provisions of the Kansas Water Appropriation Act, the use of water as proposed prior to approval of the application(s) is unlawful.

Additional information about the process may be found on our website at <u>agriculture.ks.gov/divisions-programs/dwr</u>. If you have any other questions, please contact our office at 785-564-6640 or your local Topeka Field Office at 785-296-5733. If you call, please reference the file number so we can help you more efficiently.

Sincerely,

Kris Neuhauser New Applications Lead Water Appropriation Program
