Wil	I pesticide, fertilizer, or other foreign substance be injected into the water pumped from the diversion works?
□ `	Yes ⊠ No If "yes", a check valve shall be required.
All	chemigation safety requirements must be met including a chemigation permit and reporting requirements.
sub	ou are planning to impound water, please contact the Division of Water Resources for assistance, prior to omitting the application. Please attach a reservoir area capacity table and inform us of the total acres of face drainage area above the reservoir.
	ve you also made an application for a permit for construction of this dam and reservoir with the Division of the Resources? ⊠ Yes ☐ No
•	If yes, show the Water Structures permit number here Floodplain fill permit pending
•	If no, explain here why a Water Structures permit is not required
sho the	e application <u>must</u> be supplemented by a U.S.G.S. topographic map, aerial photograph or a detailed platowing the following information. On the topographic map, aerial photograph, or plat, identify the center of section, the section lines or the section corners and show the appropriate section, township and rangembers. Also, please show the following information:
(a)	The location of the proposed point(s) of diversion (wells, stream-bank installations, dams, or other diversion works) should be plotted as described in Paragraph No. 5 of the application, showing the North-South distance and the East-West distance from a section line or southeast corner of section.
(b)	If the application is for groundwater, please show the location of any existing water wells of any kind within $\frac{1}{2}$ mile of the proposed well or wells. Identify each existing well as to its use and furnish the name and mailing address of the property owner or owners. If there are no wells within $\frac{1}{2}$ mile, please advise us.
(c)	If the application is for surface water, the names and addresses of the landowner(s) $\frac{1}{2}$ mile downstream and $\frac{1}{2}$ mile upstream from your property lines must be shown.
(d)	The location of the proposed place of use should be shown by crosshatching on the topographic map aerial photograph or plat.
(e)	Show the location of the pipelines, canals, reservoirs or other facilities for conveying water from the point of diversion to the place of use.
	A 7.5 minute U.S.G.S. topographic map may be obtained by providing the section, township and range numbers to: Kansas Geological Survey, 1930 Constant, Campus West, University of Kansas, Lawrence Kansas 66047.
div	t any application, appropriation of water, water right, or vested right file number that covers the same ersion points or any of the same place of use described in this application. Also list any other recendifications made to existing permits or water rights in conjunction with the filing of this application.

FEE SCHEDULE

KS DEPT OF AGRICULTURE

1. The fee for an application for a permit to appropriate water for beneficial use, except for domestic use, shall be (see paragraph No. 2 below if requesting storage):

ACRE-FEET	FEE
0-100	\$200.00
101-320	\$300.00
More than 320	\$300.00 plus \$20.00 for each additional 100 acre-feet or any part thereof.

2. The fee for an application in which storage is requested, except for domestic use, shall be:

ACRE-FEET	FEE
0-250	\$200.00
More than 250	\$200.00 plus \$20.00 for each additional 250 acre-feet of storage or any part thereof

Note: If an application requests both direct use *and* storage, the fee charged shall be as determined under No. 1 or No. 2 above, whichever is greater, but not both fees.

3. The fee for an application for a permit to appropriate water for water power or dewatering purposes shall be \$100.00 plus \$200.00 for each 100 cubic feet per second, or part thereof, of the diversion rate requested.

Note: The applicant shall notify the Chief Engineer and pay the statutorily required field inspection fee of \$400.00 when construction of the works for diversion has been completed, except that for applications filed on or after July 1, 2009, for works constructed for sediment control use and for evaporation from a groundwater pit for industrial use shall be accompanied by a field inspection fee of \$200.00.

MAKE CHECKS PAYABLE TO THE KANSAS DEPARTMENT OF AGRICULTURE

ATTENTION

A Water Conservation Plan may be required per K.S.A. 82a-733. A statement that your application for permit to appropriate water may be subject to the minimum desirable streamflow requirements per K.S.A. 82a-703a, b, and c may also be required from you. After the Division of Water Resources has had the opportunity to review your application, you will be notified whether or not you will need to submit a Water Conservation Plan. You also may be required to install a water flow meter or water stage measuring device on your diversion works prior to diverting water. There may be other special conditions or Groundwater Management District regulations that you will need to comply with if this application is approved.

CONVERSION FACTORS

1 acre-foot equals 325,851 gallons

1 million gallons equal 3.07 acre-feet

RECREATIONAL USE SUPPLEMENTAL SHEET

DEC 11 2024

JRE

File No.	KS DEPT OF AGRICU
Name of Applicant (Please Print): Dax Weindorf	1 - 1 - 1 - 1 - 1 - 1 - 1 - 1 - 1 - 1 -
Please indicate type of recreational use (boating, fishing, swimming, etc.):	Construction of low
level wetland dikes to seasonally impound shallow water for w	ildlife use.
Please summarize how the water will be used and justify the quantity of wa	nter requested:
Constructed wetland storage at the auxiliary spillway elevation	= 10.8 acre-feet
Proposed Little Cherry Creek direct diversion = 32.4 acre-feet	(3 times the auxiliary
spillway volume). Water from the creek will be pumped into ad	jacent wetland cells.
Excess will be released into the floodplain when lowering or en	mptying the cells.
Please complete the following table showing estimated future water require	ements:
ESTIMATED FUTURE WATER DIVERTED/STOP	RED

NEXT 5 YEARS	WATER TO BE DIVERTED (ACRE-FEET OR GALLONS)
Year 1	32.4 acre-feet
Year 2	32.4 acre-feet
Year 3	32.4 acre-feet
Year 4	32.4 acre-feet
Year 5	32.4 acre-feet

Please attach any additional information, tables, or curves showing past, present and estimated future water requirements to substantiate the amount of water requested.

4.	Please designate the legal description of the location where the water is to be used by providing the
	fractional part of the Section, Township and Range.
	SW 1/4 Sec 31, T-32S; R-23E (see plan sheets)

You may attach any additional information you believe will assist in informing the Division of the need for your request.

KS DEPT OF AGRICULTURE

RE: Unacceptable Application

Dear Applicant:

Returned herewith is your application for Permit to Appropriate Water for Beneficial Use, which was received in this office on November 22, 2024, with your Check No. 1021, in the amount of \$200. The application is not acceptable for filing in its present form.

The application requires a recreational use supplemental form. Please complete the attached form to the best of your ability.

Upon return of an acceptable application, with the required information and filing fee, the application will be assigned a priority based on the date and time it is received in the office of the Chief Engineer.

If you have any questions, please contact me at <u>Kris.Neuhauser@ks.gov</u> or call our main line at 785-564-6640.

Sincerely,

Kris Neuhauser

).	Will pesticide, fertilizer, or other foreign substance be injected into the water pumped from the diversion works?
	☐ Yes ☒ No If "yes", a check valve shall be required.
	All chemigation safety requirements must be met including a chemigation permit and reporting requirements.
0.	If you are planning to impound water, please contact the Division of Water Resources for assistance, prior to submitting the application. Please attach a reservoir area capacity table and inform us of the total acres of surface drainage area above the reservoir.
	Have you also made an application for a permit for construction of this dam and reservoir with the Division of Water Resources? ⊠ Yes □ No
	If yes, show the Water Structures permit number here Floodplain fill permit pending
	If no, explain here why a Water Structures permit is not required
1.	The application <u>must</u> be supplemented by a U.S.G.S. topographic map, aerial photograph or a detailed plat showing the following information. On the topographic map, aerial photograph, or plat, identify the center of the section, the section lines or the section corners and show the appropriate section, township and range numbers. Also, please show the following information:
	(a) The location of the proposed point(s) of diversion (wells, stream-bank installations, dams, or other diversion works) should be plotted as described in Paragraph No. 5 of the application, showing the North- South distance and the East-West distance from a section line or southeast corner of section.
	(b) If the application is for groundwater, please show the location of any existing water wells of any kind within ½ mile of the proposed well or wells. Identify each existing well as to its use and furnish the name and mailing address of the property owner or owners. If there are no wells within ½ mile, please advise us.
	(c) If the application is for surface water, the names and addresses of the landowner(s) ½ mile downstream and ½ mile upstream from your property lines must be shown.
	(d) The location of the proposed place of use should be shown by crosshatching on the topographic map, aerial photograph or plat.
	(e) Show the location of the pipelines, canals, reservoirs or other facilities for conveying water from the point of diversion to the place of use.
	A 7.5 minute U.S.G.S. topographic map may be obtained by providing the section, township and range numbers to: Kansas Geological Survey, 1930 Constant, Campus West, University of Kansas, Lawrence, Kansas 66047.
2.	List any application, appropriation of water, water right, or vested right file number that covers the same diversion points or any of the same place of use described in this application. Also list any other recent modifications made to existing permits or water rights in conjunction with the filing of this application.

RE: Unacceptable Application

Dear Applicant:

Returned herewith is your application for Permit to Appropriate Water for Beneficial Use, which was received in this office on November 22, 2024, with your Check No. 1021, in the amount of \$200. The application is not acceptable for filing in its present form.

The application requires a recreational use supplemental form. Please complete the attached form to the best of your ability.

Upon return of an acceptable application, with the required information and filing fee, the application will be assigned a priority based on the date and time it is received in the office of the Chief Engineer.

If you have any questions, please contact me at <u>Kris.Neuhauser@ks.gov</u> or call our main line at 785-564-6640.

Sincerely,

Kris Neuhauser

RE: Application, File No(s). 51374

Dear Sir or Madam:

The Division of Water Resources (Division) has received your application(s) for a permit to appropriate water for beneficial use. Your application(s) has been assigned the file number(s) referenced above. Please be aware that the Division may have a large number of pending applications on hand at times and makes every attempt to process them in the order in which they are received. You will be contacted if additional information is required.

Please note, this letter only acknowledges receipt of your application(s) and does not guarantee approval. In accordance with the provisions of the Kansas Water Appropriation Act, the use of water as proposed prior to approval of the application(s) is unlawful.

Additional information about the process may be found on our website at <u>agriculture.ks.gov/divisions-programs/dwr</u>. If you have any other questions, please contact our office at 785-564-6640 or your local Topeka Field Office at 785-296-5733. If you call, please reference the file number so we can help you more efficiently.

Sincerely,

Kris Neuhauser New Applications Lead
