

# Historic Rate of Groundwater Level Change in the High Plains Aquifer

Based on KGS groundwater elevation change from predevelopment (1940s - 1950s) to 2014 - 2016 average conditions, summarized by sections

Rate of groundwater decline (Feet per year)

> 2.50  
1.50 - 2.49  
1.00 - 1.49

0.50 - 0.99  
0.00 - 0.49

Groundwater level increased

High Plains Aquifer
