We are still trying to complete meter readings. Reports were due in to the State April 8. I will be submitting a report today April 10, 2007. I have visited with Paul Koester, DNR, and he knows that our report is on the way.

I would like to say that the report I am submitting is final, but it is not. Some of the readings reported have not included information such as power type and irrigation system type. I am still short approximately 57 readings in Red Willow County. I have about 10 readings that I am short in Frontier County. These meters in Frontier County are mainly ones that are not operating and I am waiting for power records. Dennis has been trying to get out to read Red Willow County, but he has had trouble scheduling someone to go with him. He is not supposed to be going on his own for another 3 or 4 weeks. Hitchcock, Hayes, and Lincoln Counties are complete.

Please find the current usage report on the reverse side. It is current for everything turned in through yesterday April 9, 2007.

Respectfully submitted
Christy Peterson
