Ann

Last night I attended the LRNRD Board meeting; at this meeting they adopted a 55 inch allocation for 5 years or an 11 inch per year base.

The folks on the west side of highway 183 voted against this as the 1 inch reduction was solely on them; however they did have enough votes to pass this motion.

The reason for the equal allocation across their district was so they can promote an equal allocation across all three NRDs; Nelson Trambly asked the press not to report on this strategy, they agreed.

During this discussion they reported that they finally got some information from the modelers at DNR and that it was nothing that they asked for, and to quote Nelson "it's a wreak"

They appointed Clark Andrews as the director to fill Grace Faw's position.

The State of Kansas was also present at this meeting.
