Hearing @ 5 pm  
info @

Sen. Loudan (Gloria) guy near N Platte putting in  
49 gpm wells & hooking up to one well - s.l. wants  
to know why not doing anything - AB said up to  
NRD - Sen Loudan says told if NRD doesn't do anything  
then DNR can - AB said can't unless an IMP situation  
& it's not yet

Meeting  
about COHYST  
looks at exchange,  
ET salvage

Well Modifications - AB nrd's must enforce their  
own rules - DNR to ~~define~~ get rid sign off on all  
permits if have regs - won't be up to DNR to decide  
if complies w/ nrd - legal needs to look at DNR  
authority to not register a well because doesn't meet  
nrd rules - can DNR ✓ on legality before registered  
can DNR un-register an illegal well  
Only going to check if have permit or not

Jeff explained  
why clear matches  
county line

Tri-Basin

① Only one hearing / one notice will state  
moratorium on COHYST acres as prelim (add)

consulting report

do we need a mtg  
special mtg w/  
13 landowners

telecon w/ John Thorburn AB explained re COHYST  
13 sections beyond SDF line John has been prepar  
folks in Kearney Co for the worst using map  
produced during rule making he's not sure  
they payed much attn to Report John's been  
saying could be nearly all ~~except~~ except most SE  
he didn't seem surprised & said this is what DNR's been  
saying they were going to do all along

Task Force: what is reason for hearing / can  
hydro-con be expanded as a result of ~~the~~  
hearing?
