*Don't know if well purged or not.

TK- NRD

DS- Don't know if ^{don't} cert. acres.

TK- NRD ability re: "no new use after
prelim. deter."

DS- Can't believe ^{would} look at
Total ^{old} irrig. acres →

- How look @ lag effect %o look @ acres?

TK- Look @ lag effect by SDF method +
project # wells / # acres irrig. from
database.

#3- regardless of trigger - could have all 3
on same day.

TK- How take snap shot to project re yr. lag effect?

DS- Yes.

TK- Re: timeline after deter. - up to NRDs.

DS- If look @ acres + new well 4 acres -

part of total acres that considered - lag
effect issue.

DS - → Acknow. data base inaccurate. My dist. -
~~show~~ 450 K in database

TK Location - info - acres NOT accurate.
Districts talking about cert. acres.

DS - Blue River Basin Tour - 9 no. issues that generated concern:

RP implied "up to 9 no. to bring acres into production."

TK - No - NRDS decide how long to let those acres in...

DS - RP must have confused the or (I)

TK - Confusing the way it is...

→ #2 - assumption use data those acres.
(Agreed).

DS - Looking @ wells 9 no. or less old.
