Lisa,

I have added the missing and corrected information in bold print below to fill in the "blanks" in Steve's message of last week. That would result in a new total of 4139, if you add the remaining to be installed total to the pending total for the three NRDs. Please note that the original total should have been 3058 instead of 3158 for the remaining to be installed category. I think Steve mistyped the total.

Regards,

Mike

Subject: Addendum to our Conversation on Remaining Unmetered Wells

Lisa -

I did notice one item that needs to be added to our conversation.

The

Tri-Basin figures include as metered a category that says "Wells with pending flowmeter cost share applications". The number for that is 298 - a sizable number. I suspect that both the Lower and Middle Republican have similar situations. It is a little difficult to know if we may have paid some of those pending wells, but I suspect not many. Therefore those numbers will need to be added to the 3,158 figure we came up with if financial need is to be best determined. Thus our remaining need according to NRD figures is

Lower Republican	1,482	
Middle Republican	573	
Tri-Basin	1,003	
TOTAL	3,158	----- 3,058

Tri-Basin Application Pending	298	
Middle Republican App Pending	? 337	
Lower Repub App Pending	? 446	
OVERALL TOTAL	3,456 (plus)	4,139

As I noted in our conversation we have spent about \$92,000 of the Bureau Money. It appears we have currently have around \$975,000 in committed unexpended funding sources. At \$408 per well we probably have about \$1,410,000 in need plus an additional amount for pending applications from the Middle and Lower Republican.

I will be out of the office in December. Mike Thompson of our staff will try to get you breakdowns on how many wells need to go in by each of the 3 Lower Republican deadline dates. If you have questions you can call Mike at 471-1026 or you can talk to our financial person, Gayle Starr at 471-3933.

Steve
