DNR MEMO

June 10, 2003

TO: Gayle Starr

From: Brad Edgerton

Subject: Equipment needs in Cambridge

I have been working on a list of the equipment that I will need in Cambridge. When it comes to the Computer needs I would like to request some assistance from the computer technicians in Lincoln. I know that I will need two new computer systems, however, in the past I have networked our existing systems together and have called it a "network". With the amount of information that we will be gathering in the future I feel that this office would be much more efficient with our own server and professional installed network. Please give me a call if you have any questions.
