Task Order #8 – Service Agreement Between the Nebraska
Department of Natural Resources and Board of Regents,
University of Nebraska Water Center

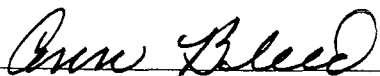

TASK: Net Irrigation Requirement Research

DESCRIPTION OF WORK: Produce a report on net corn crop irrigation requirements. Also produce a map of net corn crop irrigation requirements in Nebraska for use in determining whether basins, subbasins or reaches are fully appropriated. These products may be used to assist in map compilation; simulate crop water use through use of the crop simulation model; and simulate runoff.

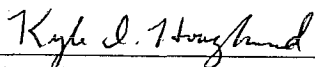

BUDGET: Attached is a detailed budget for expenses. The cost of the task being reimbursed by the Department is \$8,000.

WORK PRODUCT: The work product of this Task Order is a report on net irrigation requirements that is to be utilized in the annual evaluations of availability of hydrologically connected water supplies which are required under Neb. Rev. Stat. 46-713.

SCHEDULE: Work on this task order must be completed by December 2006.
