

Plans at Imperial Gorge For Proposed Allocation

Reclamation wants to use as future without

Reb Davis will do Econ of smaller allocations

We know will be a big change for baseline

30 % Reduction for Baseline plus another 10 %

Current Condition compared to future without

Call Dan + Jasper

Urbano

Pech - Prelim AUA of Upstream Veg
Mark Kus ID USA Upstream Veg Photos
Then Recon of Area
Limited Woody Veg
Terraces Limited
M.w. med veg

Phillips - Product Matrix of Ublue
Needs Parameters checked
Calibrate more to explain especially on Box Butte Conclusion
Baseflow vs historic
Historical down plots of Box Butte Area
Model pretty good needs other adjustments

Better Refinement smaller cells in allowed
area to better handle on what they've been pursuing
Provisions for meters by Jan of 08

Box Butte different issue we can resolve
smaller sub basin allowed

Gaul, Steve

Subject: Meeting with Neb Dept. of Natural Resources

A meeting between Reclamation and Nebraska DNR has been set for Friday, June 8th, at 10:00 CST at Reclamation's Nebraska-Kansas Area Office to discuss the following;

1. Frenchman Valley Appraisal Study
 - Initial modeling results
 - No Action/Future Without Condition
 - Next meeting involving all agencies
2. Upper Niorbrara Modeling - Technical Assistance to States Request
 - Evaluation of Ayers Model
 - Additional assistance

The conference line will be available - 877-686-3190, passcode 363511#

Steve - please forward to others in DNR that might be attending or calling in.

Jack
