Ann, Steve,

Alice, Marv, Jill, and I and Kip Gjerde and Gordon Aycock of our Regional Office reviewed the problems, objectives, constraints, and opportunities for the Frenchman Valley Appraisal Study and I tried to capture all of the revisions/corrections. I may have missed some of the discussion items but I believe I incorporated most of the recommended changes. If you leave on the track changes it will be easier to see where the revisions/changes were made.

I'm sorry I am getting this to you so late, but I talked with Steve and I thought you may have a chance to discuss these changes while you are traveling to McCook tomorrow morning.

We will talk with you tomorrow.

Jack
