Dear Dick,

Enclosed are two copies of an amendment to Task Authorization #1 for our Memorandum of Understanding for Services of a Senior Groundwater Modeler. My understanding is that you have already seen the amendment and spoken with Jim Schneider about it. Ann Bleed has already signed the amendment. The amendment extends the term of the agreement and raises the maximum cost amount. If you find its terms acceptable, please sign both copies and return one copy to this office. Your assistance has been appreciated and we look forward to continuing to work with you.

Sincerely,

Steve Gaul
Supervisor
Planning and Assistance Division.
