

For transfers from land that have irrigation wells  
The surface water transfer will be approved  
if offsets <sup>for increased groundwater pump use of the well</sup> are provided as certified by the  
transferee, transferer, NRD, <sup>or</sup> the <sup>or</sup> irrigation  
department will provide notification to the <sup>of the NRD</sup> or irrigation  
landowner that the well on the property being  
transferred from will not be used for irrigation  
of that tract of land unless such use  
~~the NRD~~ is in compliance with  
NRD rules & regulations & would  
not result in an increase in  
CU.
